Note : The Figures in the above table differ from statistics on external assets published in the Annual Reports and Bulletins up to December 1961. The differences that occur are explained more fully in the footnotes that follow.

(a) Figures upto 1959 include War Loan re-lent to U.K. Government, less the part held by the Currency Board, Central Bank. Figures upto 1952 agree with previously published statistics. Any difference thereafter is due to the inclusion of balances due to Sri Lanka under payments agreement with the People's Republic of China. Except for these balances which are recorded according to local records, the basis of valuation throughout is at face value according to records abroad. Figures since 1985 have been revised to include DST's special revolving credit balances.
