Recruiting people is not investing!

If your return depends on recruiting others,
it is a pyramid scheme!

ASK BEFORE YOU INVEST

- Are you required to recruit others to earn?
- Do returns depend on new members joining?
- Are you promised quick or guaranteed returns?
- Is the business model unclear?

If the answer is "YES", it is likely a pyramid scheme!

VERIFY BEFORE YOU PAY

- Verify the business – Ensure the company and products/services are real
- Know the return – Returns should arise from one's own investment, not recruitment
- Question high returns – Very fast or high returns are a warning
- Seek guidance – Consult the Central Bank of Sri Lanka, a licensed bank, a licensed financial institution or trusted authority before investing

DON'T CLIMB THE PYRAMID - IT COLLAPSES FROM THE BOTTOM UP!
