SL Purchasing Managers' Index (PMI) for Construction Industry – December 2023

Construction PMI, as reflected by the Total Activity Index value of 48.6 in December 2023, indicated a slower contraction in construction activities compared to last month. The respondents mentioned that the limited availability of project work continued to hamper the activity levels.

New Orders declined in December, broadly at a similar pace compared to the previous month. Many respondents mentioned that currently they are heavily relying on foreign-funded projects. Meanwhile, Employment contracted mainly due to the layoffs in line with the project completions. Further, Quantity of Purchases remained contracted during the month since the ongoing work and the upcoming projects continued to decline. In the meantime, Suppliers' Delivery Time remained lengthened in December.

Variable	Nov.	Dec.	+/-	Summary
Total Activity	44.3	48.6	+	Falling, Slower rate
New Orders	45.7	45.8	+	Falling, Slower rate
Employment	35.7	40.3	+	Falling, Slower rate
Quantity of Purchases	42.9	47.2	+	Falling, Slower rate
Suppliers' Delivery Time	51.4	51.4	=	Lengthening, Same rate

With the lack of upcoming projects and the impact of tax revisions on price levels, the industry outlook for the next three months is on the downside.

Construction PMI Total Activity Index

Source: Central Bank of Sri Lanka

Compilation: PMI¹

PMI is calculated as a 'Diffusion Index', where it takes values between 0 and 100.

PMI = 50; sector remains neutral

PMI > 50; sector is generally expanding

PMI < 50; sector is generally contracting

Definitions of Variables

Total Activity: Total volume of construction activity. This is the headline index referred to as the 'Construction PMI' following the international practice, which is comparable to the Manufacturing Production Index and Services Business Activity Index.

Employment: Number of staff working for the organization

Quantity of Purchases: Raw materials purchased and kept in a warehouse to be used for production.

Suppliers' Delivery Time: Time lag between order placement and delivery by the supplier

Other variables are self-explanatory.

Survey Responses

The survey is conducted targeting highest graded local construction companies registered in the Construction Industry Development Authority covering around 35 responses to capture month on month developments.

¹PMI is compiled using the methodology followed by S&P Global which is identified as the global PMI compiler and compiles PMIs for over 40 economies worldwide.
