## Land Valuation Indicator<sup>1</sup> – Second Half of 2023

Land Valuation Indicator (LVI) for Colombo District indicated a slowdown on a year-on-year basis, recording a growth rate of 7.1 per cent during the second half of 2023. This slowdown could be observed in all sub-indicators of LVI, namely Residential, Commercial and Industrial LVIs which recorded annual increases of 8.8 per cent, 6.7 per cent and 5.9 per cent, respectively. LVI indicated a deceleration on semi-annual basis as well registering a moderate growth of 2.1 per cent during the second half of 2023, compared to the first half of 2023. This deceleration was largely attributable to the slower increase in Industrial LVI followed by Commercial and Residential LVIs compared to the first half of 2023.

<sup>1</sup> The Land Price Index (LPI) compiled by the CBSL was renamed as Land Valuation Indicator (LVI), effective from the second half of 2019.

<sup>2</sup> Percentage change of the LVI for this half of the year compared to the previous half.

<sup>3</sup> The whole series of LVI (2017 H1=100) was revised in June 2022 based on the re-estimated data provided by the Government Valuation Department with the revisions introduced to their valuation methodology. The revised series is available to be downloaded via the Data Library of the Central Bank of Sri Lanka (<https://www.cbsl.lk/eresearch/>).

**Technical Note:****Data Source**

Per perch bare land prices are obtained from the Government Valuation Department on a semi-annual basis.

**Coverage and Frequency**

The Land Price Index (LPI) compiled from 1998 to 2008 on an annual basis and from 2009 to 2017 on a semi-annual basis, covering 5 DS divisions in the Colombo District. Subsequently, from 2017 onwards, its geographical coverage was enhanced to represent all 13 DS divisions in the Colombo District and hence it was rebased considering 1<sup>st</sup> half of 2017 as the base period. From 2020 onwards LPI was renamed as Land Valuation Indicator (LVI) and continued to be released on a semi-annual basis.

**Methodology**

Considering the diverse nature of land use, and the necessity of maintaining homogeneity, three sub-indicators for residential, commercial and industrial lands are computed separately for each DS division using the average per perch bare land price in the area. The LVI is the simple average of these three sub-indicators.
