(a) From 2006, based on Quarterly Labour Force Survey (QLFS) of the the Department of Census and Statistics (DCS). Up to 2005, data available only in census years and some survey years.

(b) From 1990, based on QLFS of the DCS. Up to 1989, based on other surveys in which the definition may differ.

(c) Data up to 2010 are for household population aged 10 years and above and from 2011 onwards are for those aged 15 years and above.

(d) Data excluding both Northern and Eastern Provinces.

(e) Based on Census of Population and Housing - 2001.

(f) Data excluding the Northern Province.

(g) Data excluding both Mullaitivu and Killinochchi districts.

(h) QLFS was conducted as a one-off survey in August 2005.

(i) Data covers the entire island.

(j) In July 2016, the DCS published a re-weighted and revised labour force data series for 2011 onwards.

(k) Based on the Census of Population and Housing - 2012.

(l) Provisional

(m) Based on the Census of Population and Housing - 2024.

(n) Data are based on the average of four quarters.

(a) National Accounts data from 1959 to 2001 are based on the estimates of the Central Bank of Sri Lanka (CBSL) and 2002 onwards are based on the estimates of the Department of Census and Statistics (DCS). National Accounts estimates were rebased in 1970, 1982, and 1996 by CBSL and DCS in 2002, 2010 and 2015.

Sources: Department of Census and Statistics  
Central Bank of Sri Lanka

The GDP and GNI estimates before the base year revisions are given below.  
 1970 (CBSL estimates): GDP (current factor cost prices) = Rs. 11,705 mn, GNI (current factor cost prices) = Rs. 12,671 mn  
 1982 (CBSL estimates): GDP (current factor cost prices) = Rs. 91,943 mn, GNI (current factor cost prices) = Rs. 89,609 mn  
 1996 (CBSL estimates): GDP (current factor cost prices) = Rs. 695,934 mn, GNI (current factor cost prices) = Rs. 684,676 mn  
 2002 (CBSL estimates): GDP (current market prices) = Rs. 1,581,885 mn, GNI (current market prices) = Rs. 1,559,867 mn  
 2010 (DCS estimates): GDP (current market prices) = Rs. 5,604,104 mn, GNI (current market prices) = Rs. 5,534,327 mn  
 2015 (DCS estimates): GDP (current market prices) = Rs. 10,950,621 mn, GNI (current market prices) = Rs. 10,675,880 mn

(b) Based on quarterly GDP in USD terms calculated using quarterly average exchange rate from 2015 onwards.

(c) Estimates updated with latest population figures.

(d) This series has been computed by splicing several series of implicit GDP deflators obtained with different base years. Hence, it would differ from a series compiled using the current and constant values of GDP.

(e) Revised

(f) Provisional

(a) Replaced with Secondary Income (net) based on the BPM6 format, from 2012 onwards.

(b) From 2015 onwards, data is based on the GDP estimates of DCS with base year 2015.

(c) Based on the BPM6 format, financial account (net) data is represented as Net Acquisition of Financial Assets - Net Incurrence of Liabilities from 2012 onwards, resulting in a 'minus' sign for net inflows to the financial account from 2012 onwards.

(d) Replaced with 'Loans - other sector - long term' under 'Net Incurrence of Liabilities' based on the BPM6 format, from 2012 onwards.

(e) Replaced with 'Loans - government - long term' under 'Net Incurrence of Liabilities' based on the BPM6 format, from 2012 onwards.

(f) Includes net increase/decrease in reserve assets and reserve related liabilities based on the BPM6 format, and is the residual net flows to financial account from 2012 onwards.

(g) Trade indices have been calculated with a wider coverage using 2010 as the base year, from 2007 onwards.

(a) Excludes foreign assets in the form of 'Direct investment abroad' and 'Trade credit and advances granted'.

(b) Total external debt based on market value from 2012 onwards.

(c) From 2015 onwards, data is based on the base year (2015) GDP estimates of the DCS.

(d) As a % of earnings from exports of goods and services. Debt service payments were reclassified to capture debt servicing of foreign holding of Treasury bills and bonds in accordance with External Debt Statistics Manual (2003) of the International Monetary Fund (IMF), from 2008 onwards.

(e) Special Drawing Rights (SDR), the unit of account of the IMF.

(f) Offshore Banking Units are treated as a part of the domestic banking system, from 1994 onwards.

(a) Data from 1979 are based on the economic format.

(b) Financial year was from 1 October to 30 September until 1973. From 1973, it was changed to the calendar year.

(c) Includes proceeds from the long lease of Hambantota Port received in 2017 and 2018

(d) Data are based on GDP estimates compiled by DCS. From 2010 onwards, data are based on revised GDP estimates (base year 2015) of DCS.

(e) According to the Ministry of Finance, the fiscal sector statistics of 2019 have been restated as announced in the Budget Speech for 2020.

(f) Revised based on the revised GDP estimates for 2024 released by DCS on 17 March 2026.

(g) Provisional

Sources: Ministry of Finance, Planning and Economic Development  
Central Bank of Sri Lanka

Note: With the establishment of the Public Debt Management Office (PDMO) under the Ministry of Finance (MOF), the responsibility for recording and publishing Sri Lanka's public debt now falls under the PDMO, as mandated by the provisions of the Public Debt Management Act, No. 33 of 2024. Accordingly, the Quarterly Statistical Debt Bulletin, published by the PDMO, serves as the official source for debt statistics. The Central Bank compiles and presents this table based on data received from the MOF, to ensure the data continuity.

(a) As per the guidelines of compiling government debt statistics based on the Public Sector Debt Statistics Framework published by the IMF, non-resident holdings of outstanding SLDBs have been classified under foreign debt and resident holdings of outstanding LSDBs of the Sri Lanka Government have been classified under domestic debt. Further, debt statistics are presented on net basis (net of deposits).

(b) From 1950 to 1973, the outstanding balance is reported as at end September and thereafter as at end December.

(c) From 2023 onwards, domestic debt compilation method was changed and is based on the data confirmed by the Ministry of Finance, Planning and Economic Development.

(d) Rupee denominated Treasury bills issued to foreign investors from 2008 onwards are excluded from domestic debt and included in foreign debt.

(e) Rupee denominated Treasury bonds issued to foreign investors from 2007 onwards are excluded from domestic debt and included in foreign debt.

(f) Data are based on GDP estimates compiled by DCS. From 2010 onwards, data are based on the GDP estimates (base year 2015) of DCS. GDP estimates for 2023 and 2024 are revised based on the GDP estimates released on 17 March 2026.

(g) The central government debt statistics at end 2019 could increase should the adjustment for payment arrears in government expenditure as per the Ministry of Finance be incorporated into the net financing of the budget deficit in 2019. However, such an adjustment would have no impact on the outstanding central government debt at end 2020.

(h) Foreign loan debt statistics and classification of foreign debt for 2024 and 2025 are prepared based on the data sourced from the Commonwealth Secretariat Debt Recording and Management System (CS-DRMS) maintained by MOF, and extracted on 27 February 2025 and 31 January 2026, respectively.

(i) Provisional

(j) The outstanding central government debt excludes several debt service payments that became overdue after 12 April 2022, the date of which the Interim Policy regarding the servicing of Sri Lanka's external public debt was announced by the Ministry of Finance, Planning and Economic Development. These debt service payments comprise of overdue interest payments of affected debt which deemed to be capitalised as per the Interim Policy. Further, December 2022 balances excluded several overdue interest payments in relation to SLDB, from April 2021 till end 2022.

(k) Includes outstanding balance of the government guaranteed foreign currency debt of the Ceylon Petroleum Corporation that was absorbed into central government debt.

(l) From December 2022 onwards, several outstanding project loans which were previously classified under Ceylon Electricity Board, Airport and Aviation Services Ltd. and Sri Lanka Ports Authority were absorbed into central government debt.

(m) The 2024 and 2025 data reflects the impact of external debt restructuring.

Sources: Central Bank of Sri Lanka  
Public Debt Management Office

- (a) With effect from 27 November 2024, the Overnight Policy Rate (OPR) is defined as the policy interest rate of the Central Bank. Standing Deposit Facility Rate (SDFR) and Standing Lending Facility Rate (SLFR) are linked to the OPR with a pre-determined margin as decided by the Central Bank.
- (b) Renamed w.e.f. 02 January 2014 as the SDFR. Previously named as the Repo Rate.
- (c) Renamed w.e.f. 02 January 2014 as the SLFR. Previously named as the Reverse Repo Rate.
- (d) The Statutory Reserve Ratio (SRR) is the proportion of rupee deposit liabilities that LCBs are required to maintain as a deposit with the Central Bank, subject to an allowance for till cash balances. Prior to 2001, the SRR applicable on rupee demand deposits is reported since different SRRs were applicable on different types of deposits, including foreign currency deposits.
- (e) The rate at which the Central Bank grants advances to banking institutions as the lender of last resort. Up to April 2020, the Bank Rate was a fixed rate determined by the Monetary Board. Since 16 April 2020, the Bank Rate was allowed to be determined automatically with a margin of 300 bps above the SLFR. Since 03 November 2022, Bank Rate was allowed to commensurately be adjusted in line with the monthly Average Weighted New Deposit Rate (AWNDR) published by the Central Bank with a margin of +700 bps. This margin was subsequently reduced to +300 bps with effect from 02 January 2023, with the resulting rate rounded to the nearest half percentage point. Since 01 March 2023, Bank Rate was delisted from monetary policy instruments and it is to be considered as a policy instrument that the Central Bank uses as the lender of last resort (LOLR) to support the stability of the banking and financial system.
- (f) The Legal Rate is defined under the Civil Procedure Code (Amendment) Act No. 6 of 1990 and is applicable to any legal action for the recovery of a sum of money. The Market Rate is defined under the Debt Recovery (Special Provisions) Act No. 2 of 1990 and is applicable only in relation to legal actions instituted by lending institutions for the recovery of debt exceeding Rs. 150,000 arising out of commercial transactions, where there is no agreed rate of interest. The Governing Board of the Central Bank determines the Legal Rate and Market Rate for each year and publishes in the Government Gazette in the month of December to be applicable for the forthcoming year. The Legal Rate and the Market Rate for the year 2026 is 11.39% per annum.

Source: Central Bank of Sri Lanka

(a) All values except Money Multiplier and Velocity of Money are in Rs. mn

(b)  $M_{2b}$  is based on the aggregated data pertaining to the Central Bank and LCBs in Sri Lanka.

(c) NDA is equal to the sum of net credit to government (NCG), claims on public corporations/State Owned Business Enterprises (SOBEs), claims on private sector and other items (net).

(d) Demand deposits held by the public

(e) This includes NFA of the Central Bank as well as the Government's Crown Agent's balance reported by the Department of State Accounts. The Government's Crown Agent's balance has not been reported since February 2025, following the discontinuation of Crown Agent's operations and the Government's decision to close the account.

(f) The Central Bank adopted International Accounting Standards in January 2002. Accordingly, since then foreign assets are recorded at market value, which reflects its impact in NFA and NDA of Monetary Authorities. Therefore, the values for the period prior to January 2002 are not comparable with the values thereafter.

(g) Credit extended to the Government by the banking system, net of government deposits with banks and government's cash balances.

(h) Monetary data since 1990 were reclassified to be consistent with standard international practices. Accordingly, rupee deposits held by non-residents are excluded from the total demand, time and savings deposits held by the public. The excluded amount is classified under foreign liabilities.

(i) The velocity of money, typically calculated using the annual average  $M_{2b}$ , was computed using year end  $M_{2b}$  only for the year 1991.
