Estimates of tea and coconut included in this item have been computed on the basis of data on per capita consumption; while the data used in computing the estimates for the years 1960 to 1962 have been obtained from the Consumer Finance Survey 1953, the data used from 1963 onwards have been obtained from the Consumer Finance Survey 1963. Thus, the estimates for 1964 onwards are strictly not comparable with those for earlier years.

Item IV (i) — Changes in stocks in the following items only — imported rice, wheat flour and sugar, GPS paddy and arrack.

Item V — Equals expenditure on consumption, gross domestic fixed capital formation and changes in stocks.

Item VI — Net investment abroad = the surplus to the nation on current account.

(a) Consists of Government expenditure excluding contributions to sinking funds, direct repayments of public debt from revenue, and special payments (e.g. subscriptions) to international financial organizations. Expenditure out of foreign grants are included only from 1960/61 onwards. Also excludes book adjustments arising from transfers to recurrent expenditure of 'advances for loan works' (the term used to denote capital expenditure up to 1959/60) and losses on 'advance account operations' incurred and financed in previous financial years. Hence, these figures may not tally with the figures published in the Accounts of the Government of Ceylon.

(b) Indicates net change at the end of financial year. Details of the Ceylon-China trade account are not separately available for the years 1957/58 to 1960/61.

(c) From suitors, contractors, etc. Includes the unexpended balance of foreign grants up to 1959-60.

(d) From Widows and Orphan's Pension Fund, Public Service Provident Fund etc.

(e) These loans are to the Agricultural and Industrial Credit Corporation, and the Local Loans and Development Fund.

(f) An amount of Rs. 36.0 million representing the food subsidy bill for 1954-55 was transferred from advance accounts to recurrent expenditure in 1958-59. This book adjustment is excluded from the figures for 1958-59. (vide footnote (a))

(a) For purposes of comparison, figures for 1968/69 and 1969/70 have been re-classified as far as possible to conform to the latest allocation of departments under the different Ministries as appearing in the Estimates of Revenue and Expenditure of the Government of Ceylon for the financial year 1970/71.

Excludes the net receipt or payment on advance account activities for which a Ministry-wise classification is not available. These figures also exclude contributions to sinking funds and direct repayments of public debt from revenue, special payments to international financial organisations and all book debits arising from the transfer of advances for loan works and losses on advance account activities incurred and financed in previous financial years. These figures may therefore differ from figures published in Government Accounts.

- (b) In the financial year 1968/69 the expenditure of the Public Works Department has been classified under the Ministry of Irrigation, Power and Highways. From 1969/70 onwards this department has been divided into the Department of Highways and the Department of Buildings, the latter falling under the Ministry of Housing and Construction. Hence the figures of expenditure for these two Ministries for the year 1968/69 may not be comparable with those for subsequent years.

(e) Including supplementary sinking funds.

(f) Includes special loans granted by the Central Bank to the Government in terms of the Bretton Woods Agreement Act No. 20 of 1950 as amended by Section 4 of the Bretton Woods Agreement (Amendment) Act No. 19 of 1959, the International Development Association Agreement Act No. 7 of 1961 and the Asian Development Bank Agreement (Ratification) Act No. 21 of 1966. The first special loan which amounted to Rs. 14.3 million was granted by the Central Bank to the Government in August, 1950 to meet its obligations to the I.B.R.D. The Government repaid the loan in full in May, 1952 and converted Rs. 12.7 million of its paid up subscriptions to the I.B.R.D. into a promissory note. The special loans were resumed in October, 1959. At the end of September, 1969 such special loans amounted to Rs. 89.5 million.

(g) Loans from semi-government agencies.

(h) From September, 1963 onwards this column shows the value of National Development Bonds issued and outstanding.

(i) The figures of foreign debt as at the end of September, 1968 and 1969 have been adjusted to take account of the devaluation of the Ceylon Rupee on November 22, 1967.

(j) The figures of project loans and non-project (commodity) loans published earlier will differ for the following reasons.

(i) a receipt of Rs. 28.9 million of P.L. 480 loans in the financial year 1967/68 was recorded only in 1968/69 due to delay in the receipt of information regarding disbursements.

(ii) U.S. P.L. 480, I.C.A. and A.I.D. loans since 1965/66, which were earlier regarded as project loans are now classified under non-project (commodity) loans.

NOTE: Under the Commodity Loan Agreements between the Government of Ceylon and the countries giving aid, commodities are made available to the Government of Ceylon. Local importers are allowed to import these commodities on depositing with the Central Bank, the Ceylon Rupee equivalent of the foreign exchange cost of these commodities. These deposits form a major portion of the "Ceylon Government Foreign Aid Counterpart Funds Account".

This account is also credited with—

- (a) proceeds of loans which are tied to projects but are received in the form of commodities; and
- (b) proceeds of grants received in the form of commodities.

The Treasury periodically withdraws funds from this account to finance Government expenditure.

Statistics are based on Exchange Control records. The above presentation conforms as far as possible to international practice, as followed by the International Monetary Fund in their Balance of Payments Yearbooks and International Financial Statistics.

Item 1 Exports are recorded f. o. b.; imports c. i. f.

Item 5 Includes educational remittances and official travel; passage collections by foreign shipping and airlines are included in item 4.1—Passenger fares.

Item 13 Figures shown against this item are mainly those representing net changes in overseas balances of sterling companies operating in Ceylon and in short-term liabilities owed by firms in Ceylon to firms abroad, under the system designated "Trader's Accounts".

Item 14.2 Credit entries refer mainly to an increase in liabilities resulting from imports under Supplier's Credits and other short-term trade credits. The debit entry in respect of such imports is in the merchandise account and is recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded when settlements or payments are made in respect of such imports.

Note:—The figures in the above table differ from statistics on external assets published in the Annual Reports and Bulletins up to December 1961. The differences where they occur are explained more fully in the footnotes that follow. This revision of the data on external assets has been made for the following reasons.

- (1) The above statistics are consistent with data published in the Annual Reports and Bulletins on international reserves and foreign balances of the Central Bank and commercial banks, respectively, as shown in the balance sheets of these institutions and in the statement of Ceylon's international transactions.
 - (2) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund in their Balance of Payments Year Books and International Financial Statistics.
 - (3) The present series is more comprehensive than the hitherto published statistics as it includes balances due to Ceylon under payments agreements, export bills purchased and discounted by commercial banks and foreign currency notes and coins held by the banking system, all of which were not reflected in the previous presentation.
- (a) Includes War Loan re-lent to U. K. Government, less the part held by the Currency Board / Central Bank. Figures upto 1952 agree with previously published statistics. Any difference thereafter is due to the inclusion of balances due to Ceylon under payments agreement with China. Except for these balances, which are recorded according to local records, the basis of valuation throughout is at face value according to records abroad.
- (b) As previously published—i.e. at face value according to records abroad. Includes foreign assets held by the Sterling Loan Sinking Funds.
- (c) The assets of the Currency Board were transferred to the Central Bank on August 28, 1950. Figures upto 1949 are as previously published, based on local records at mid-market valuation. Thereafter the figures are as published under International Reserve in the balance sheet of the Central Bank (see Table 18)†. As explained in footnotes (a) to Table 18† the valuation of the International Reserve is according to local books at cost or face value, whichever is less. The International Reserve also includes balances due to Ceylon on bilateral clearing accounts other than with China.
- (d) All figures are according to local records, and upto 1947 are as previously published. From 1949 they agree with foreign balances of commercial banks as shown in Table 17. These balances are the sum of foreign currency on hand and balances due from banks abroad, and export bills purchased and discounted.

(a) All trade indices except the annual import price index have been computed on fixed base (1948) weights. The annual import price index has been computed up to and inclusive of 1958 on 1948 base by using current weights. From 1959, however, annual import price index is also computed on a fixed base (1948) weights method.

- Indices from 1964 onwards are based on the experience of the 3 years 1965-67 and are not strictly comparable with the figures prior to 1964. Figures prior to 1964 which had been calculated on the experience of the 5 years 1954-58 (base year 1958) have been spliced to the new index (base 1967=100)
- The preparation of monthly indices for 1970 has been held up owing to delay in the release of the detailed Customs data on exports and imports as a result of the shift from the SITC to the BTN classification.
- Figures from 1964 onwards are provisional.

- Indices from 1964 onwards are based on the experience of the 3 years 1965-67 and are not strictly comparable with the figures prior to 1964. Figures prior to 1964 which had been calculated on the experience of the 5 years 1954-58 (base year 1958) have been spliced to the new index (base 1968=100)
- The preparation of monthly indices for 1970 has been held up owing to delay in the release of the detailed Customs data on exports and imports as a result of the shift from the SITC to the BTN classification.
- Figures from 1964 onwards are provisional.

FOOT NOTES TO TABLE 32

- (a) This table covers all the items of revenue and expenditure that enter into the computation of the net cash surplus/deficit.
- (b) The actual figures of revenue from 1961/62 onwards differ from the published figures in the Government Accounts due to the following adjustments:
- (1) Inclusion of receipts from the National Development Tax viz: Rs. 18.6 million, Rs. 17.5 million, Rs. 2.9 million, Rs. 1.1 million, Rs. 0.5 million, Rs. 0.2 million and Rs. 0.1 million in 1961/62, 1962/63, 1963/64, 1964/65, 1965/66, 1966/67 and 1967/68 respectively.
 - (2) Exclusion of transfers to revenue of Rs. 20.6 million from the National Flood Relief Fund in 1961/62, a book credit of Rs. 26.8 million from the Food Commissioner in 1965/66, a book transfer of Rs. 44.2 million of profits from advance account activities in 1967/68 and a book credit of Rs. 38.7 million from the Food Commissioner in 1968/69 and
 - (3) Exclusion of the value of equipment and other aid gifted by foreign Governments and agencies viz Rs. 4.7 million, Rs. 2.8 million, Rs. 1.6 million, Rs. 1.5 million, Rs. 18.1 million, Rs. 0.1 million, Rs. 1.6 million, Rs. 0.1 million and Rs. 0.2 million in 1961/62, 1962/63, 1963/64, 1964/65, 1965/66, 1966/67, 1967/68, 1968/69 and 1969/70.
- (c) For purposes of computing the net cash surplus/deficit, expenditure is defined to include recurrent expenditure, capital expenditure, expenditure chargeable to the National Development Reserve and the net receipt or payment on advance account activities. The difference between revenue and total expenditure thus defined gives the value of the net cash surplus/deficit.
- (d) Comprises the Railway Department, Electrical Department (until November, 1969 when it was converted into a corporation), Department of Posts and Telecommunications, Department of Information and Broadcasting (until January 5, 1967 when the Broadcasting Department was converted into a corporation) and the Colombo Port Commission. The expenditure figures appearing in this table will not tally with the figures appearing in Table 35 since the figures in Table 35 exclude items of a capital nature included under recurrent expenditure while the figures in this table include them.
- (e) Excludes contributions from revenue to public debt sinking funds and direct repayments of public debt from revenue and special payments to International Financial Organisations.
- (f) Excludes book adjustments (debits and credits) arising from transfer to recurrent expenditure and capital expenditure of advances for loan works and losses on advance account activities incurred and financed in previous financial years. Hence the figures will not tally with the figures published in the Accounts of the Government of Ceylon.
- (g) Includes expenditure chargeable to foreign loans, advances for loan works and also expenditure met from foreign grants from 1960/61 onwards.
- (h) From 1960/61 onwards the practice of classifying expenditure into "Expenditure Chargeable to Revenue" and "Expenditure Chargeable to Loan Funds" has been discontinued. Instead, the Government's total expenditure is divided into three major categories, viz. General Administrative Services, Social Services and Economic Services and Development. It is further classified into seven votes. Where it is difficult to identify the staff who are wholly engaged in the activities falling within the above categories, their emoluments are shown under General Administrative Services, vote 1. Rest of the expenditure under each of the categories is divided into recurrent expenditure, and capital expenditure, to form six votes. Thus recurrent expenditure consists of votes 1, 2, 4 and 6 and capital expenditure consists of votes 3, 5 and 7. Since a similar classification is not available for the years prior to 1960/61, expenditure chargeable to revenue and expenditure chargeable to loan funds are assumed to be comparable to recurrent expenditure and capital expenditure respectively.
- (i) Provisional.
- (j) Original estimate.
