This chart indicates the origin of Money supply in Sri Lanka.

(a) "Government Finance" shows the claims of the Banking system on the Government net of rupee cash holdings of the Government.

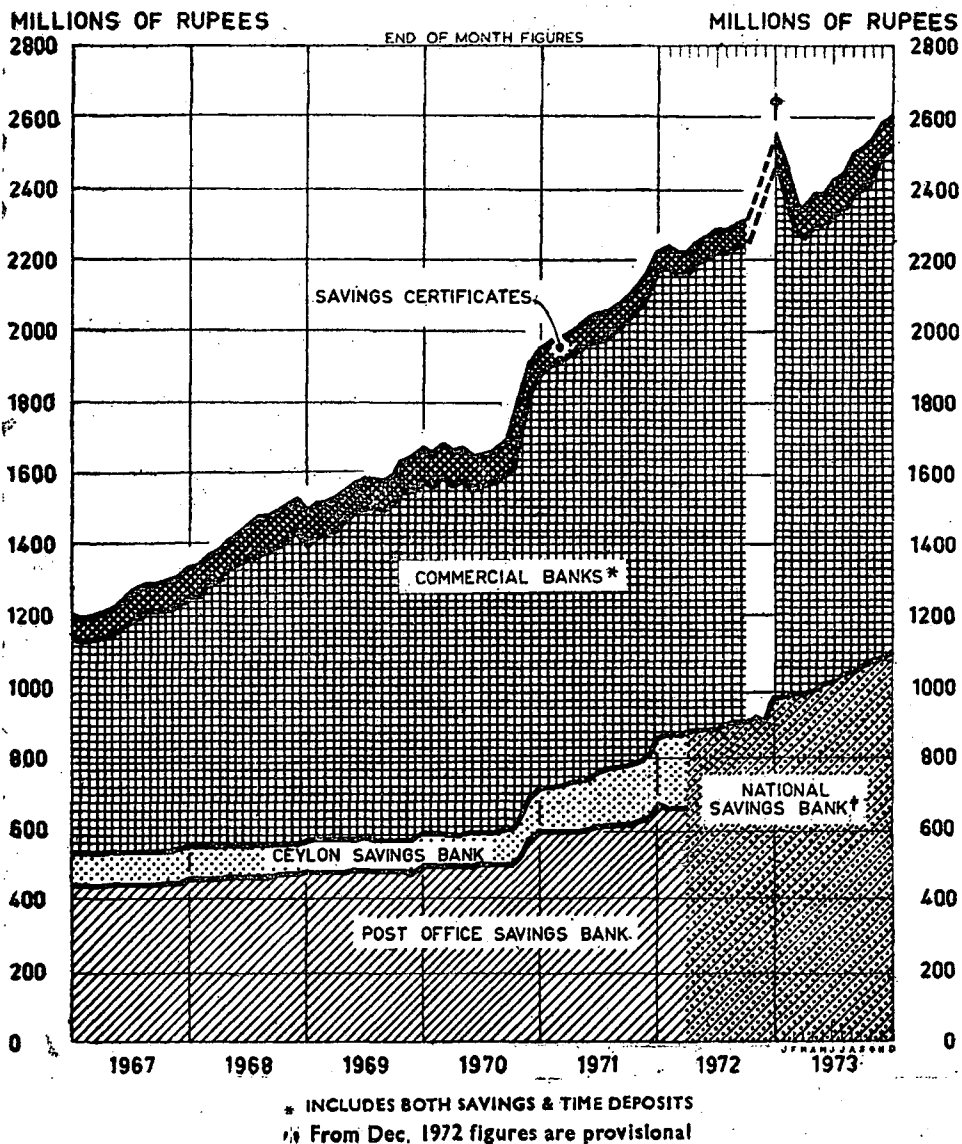

(b) "Credit to Public" shows the claims of the Banking system on the private sector net of time and savings deposits.

The total money supply line is below the line limiting government finance as at end of 1966 to 1968 and at end of January 1969 to September 1973, because net external banking assets were negative in this period.

The figures as at end of October & November 1972 are not available because of the strike by employees of Commercial Banks.
