Item 14.2 Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. & The debit entries in respect of such imports are in the merchandise account and are recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.

Items 15-20 The change in capital of the monetary sector is based on local records.

Item 21 The figures shown in the credit column relate to increase in liabilities to the I.M.F. in Sri Lanka Rupees arising from drawings from the I.M.F. and changes in the representative rate of the SDR. Figures in the debit column are in respect of repurchases or repayments, made in instalments to the I.M.F., in respect of earlier drawings. Subscriptions to the I.M.F., consequent to successive increases in Sri Lanka's quota are also shown in the debit column.

Note : The Figures in the above table differ from statistics on external assets published in the Annual Reports and Bulletins up to December 1981. The differences that occur are explained more fully in the footnotes that follow.

- (a) Figures upto 1959 include War Loan re-lent to U.K. Government, less the part held by the Currency Board, Central Bank. Figures upto 1952 agree with previously published statistics. Any difference thereafter is due to the inclusion of balances due to Sri Lanka under payments agreement with the People's Republic of China. Except for these balances which are recorded according to local records, the basis of valuation throughout is at face value according to records abroad. Figures since 1985 have been revised to include DST's special revolving credit balances.

However, since August, 1977 each bank, depending on selected assets items was allocated a certain quota of such borrowings at the Bank rate. Borrowings in excess of this quota were subjected to a penal interest rate of 15 per cent per annum. In September, 1979 a graduated scale of penal rates ranging between 15 to 25 per cent was introduced. It was further revised upward to a range between 20 to 30 per cent effective from April, 1980.
