EVENTS OF THE MONTH
December 2013

Fiscal Sector

- Primary Dealers were permitted to engage in covered Short Selling of Treasury bills and Treasury bonds up to the amount of successful bids accepted and confirmed at primary auctions.

A Loan from the Unicredit BANK Austria AG

An agreement was signed between the Government of Sri Lanka and the Unicredit BANK Austria AG, on 14 December 2013, for a loan of Euro 10.5 million (approximately Rs. 1.9 billion) to finance the project for upgrading Sewerage infrastructure at Kataragama sacred city area. This is an interest free loan and it carries a commitment fee of 0.40 % p.a., a management fee of 0.25 per cent, OeKB's handling fee of Euro 1,440 and an upfront fee of Euro 59,062.50 + a margin of 1% p.a. The loan is repayable in 15 years including a grace period of 5 years.

A Grant from the World Food Programme (WFP)

An agreement was signed between the Government of Sri Lanka and the Government of the World Food Programme, on 13 December 2013, for a grant of USD 8.00 million to address climate change impacts on marginalized agricultural communities living in the Mahaweli river basin of Sri Lanka. (approximately Rs. 1.1 billion).

A Grant from the Government of Japan

An agreement was signed between the Government of Sri Lanka and the Government of Japan, on 19 December 2013, for a grant of JPY 400.00 million (approximately Rs. 503.5 million) as a Non-project grant aid for provision of industrial products - 2013.

Part II

PRESS RELEASES

December 2013

1. External Sector Performance – October 2013

Overview

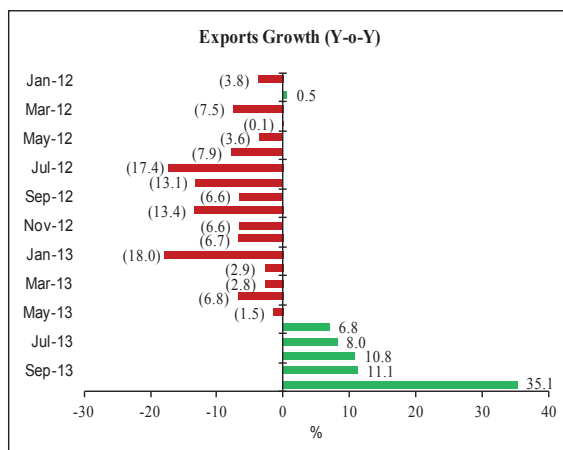

The external sector strengthened further with the trade deficit contracting sharply in October 2013. Earnings from exports increased to record levels, reflecting the ongoing recovery in the global economy, while expenditure on imports declined. The contraction of the trade deficit, higher inflows to the services account and an increase in private transfers contributed to reducing the current account deficit. The favourable developments in the external sector together with higher inflows to the financial account, resulted in the Balance of Payments (BOP) recording an estimated surplus during the first ten months of 2013, compared to the deficit recorded during the corresponding period of 2012.

Trade Account of the BOP

Continuing the increasing trend observed from June 2013, earnings from exports in October 2013 exceeded US dollars 1 billion for the first time in the history. This was a 35.1 per cent, year-on-year, increase which is the highest growth rate recorded since May 2011, while expenditure on imports declined by 2.8 per cent compared to the corresponding month in 2012. Consequently, the trade deficit contracted significantly by 38.9 per cent to US dollars 494 million during this period. On a cumulative basis, earnings from exports during the first ten months of 2013 grew by 3.6 per cent,

while expenditure on imports contracted by 1.1 per cent from the corresponding period in 2012. Accordingly, the cumulative trade deficit contracted by 6 per cent to US dollars 7,216 million, during the period compared to the corresponding period of 2012.

Earnings from exports in October 2013 reached US dollars 1,041 million, the highest ever monthly value recorded in the history of Sri Lanka's exports. This growth was led by industrial exports followed by agricultural exports. Earnings from industrial exports in October 2013, which account for more than 74 per cent of total exports, increased by 34 per cent on a year-on-year basis to US dollars 771 million mainly due to higher export of textiles and garments. Earnings from textiles and garments exports grew by 46.8 per cent, year-on-year, to US dollars 436 million in October 2013, which was the highest monthly value of export of garment and textiles ever recorded. Exports of garments to both the EU and USA, which are Sri Lanka's major export destinations, recorded remarkable growth rates of 53.2 per cent and 43.4 per cent, respectively in October 2013, reflecting the recovery in those economies as well as seasonal demand. Meanwhile, earnings from rubber product exports increased by 50.1 per cent, year-on-year, to US dollars 94 million in October 2013, the highest monthly value since August 2012, led by higher exports of rubber tyres. All categories of industrial exports, except gems diamonds and

jewellery, animal fodder and petroleum products grew in October 2013. Earnings from agricultural exports rose by 37.4 per cent, year-on-year, to US dollars 258 million in October 2013 mainly due to an increase in export earnings from tea followed by spices. Earnings from tea exports recorded a healthy growth of 26.6 per cent to US dollars 147 million in October 2013. This was the combined outcome of a 13.6 per cent increase in export volumes and an increase in the average export price of tea by 11.4 per cent. Earnings from the export of spices increased significantly by 79.9 per cent to US dollars 41 million led by pepper and cinnamon exports. Continuing the strong performance recorded since June 2013, the volume of both pepper and cinnamon exports increased substantially although prices of those commodities declined, year-on-year. However, in October 2013 rubber export earnings contracted by 29.0 per cent compared to October 2012, due to the continuing decline in both export volumes and prices, owing to low demand from major rubber consumers, such as China and Japan.

Expenditure on imports declined by 2.8 per cent to US dollars 1,535 million in October 2013, due to the significant decline in both intermediate and investment goods imports. Expenditure on intermediate goods imports declined by 7.8 per cent, year-on-year, to US dollars 897 million in October 2013 mainly due to the decline in the importation of fuel and textiles. Expenditure on the importation of petroleum products declined in October 2013 due to the availability of sufficient stocks from previous months. Despite the strong growth in export of textiles and garments, there has been a steady decline in imports of textile and textile articles, reflecting improved backward linkages and higher value addition in the garment industry. Lower import of diamonds and precious stones and metals, rubber and articles also contributed to the decline in intermediate goods imports. However, fertilizer imports increased sharply by 110.7 per cent year-on-year, to US dollars 27 million in October 2013, mainly due to the low base in the corresponding period in 2012 and to ensure availability of adequate stocks for the upcoming Maha season. In October 2013, import expenditure on investment goods declined by 6.8 per cent, year-on-year, to US dollars 351 million mainly due to the decline in machinery and equipment imports by 16.5 per cent and a decline in transport equipment imports by 11.0 per cent although building materials imports increased by 13.4 per cent. Meanwhile, expenditure on consumer goods imports recorded a 25.6 per cent growth, year-on-year, to US dollars 286 million in October 2013 with increases recorded in both food and non-food consumer goods categories. Vehicle imports, mainly contributed to the increase in consumer goods imports, recording a year-on-year increase of 150.7 per cent in October 2013. Dairy products, clothing and accessories, Oils and fats, medical and pharmaceuticals and household and furniture items also contributed to the increase in consumer goods imports.

Earnings from Tourism in the Services Account of the BOP

Tourist arrivals grew at a rate of 27.9 per cent, year-on-year to 102,805 in October 2013. Accordingly, tourist arrivals during the first ten months of the year amounted to 904,015 recording a year-on-year growth of 16.8 per cent. Earnings from tourism recorded a year-on-year growth of 26 per cent during the first ten months of 2013 to US dollars 996.2 million, compared to the cumulative earning of US dollars 790.5 million during the corresponding period of 2012. The top five sources of tourist arrivals in October 2013 were India, UK, Middle East, Germany and Maldives, accounting for about 50 per cent of tourist arrivals during the month.

Current Transfers in the BOP

Workers' remittances increased by 14.8 per cent, year-on-year, to US dollars 599.6 million in October 2013 from US dollars 522.1 million in October 2012. The cumulative inflow from workers' remittances increased by 11.8 per cent to US dollars 5,521.9 million during the first ten months of 2013 from the corresponding period of 2012. The growth in remittances continues to be driven by increased labour migration in the professional and skilled categories.

Capital and Financial Account of the BOP

FDI inflows during the first nine months of 2013 increased by 42 per cent to US dollars 870 million from US dollars 614.7 million in the corresponding period in 2012. During the first eleven months of 2013, the CSE received net foreign inflows of US dollars 176.5 million, while net inflows to the Government securities market amounted to US dollars 506 million. Long-term loans obtained by the government during the first nine months of 2013 amounted to US dollars 1,302 million, compared to US dollars 2,450 million obtained by way of long-term loans during the corresponding period in 2012. Meanwhile, inflows to Licensed Commercial Banks (LCBs) and Licensed Specialised Banks (LSBs) amounted to US dollars 1,548.3 million by end October 2013, of which US dollars 850 million were from the proceeds of bond issuances of LSBs.

Overall BOP Position

During the period from January to October 2013 the overall BOP is estimated to have recorded a surplus of US dollars 749 million compared to a deficit of US dollars 185 million recorded during the corresponding period of 2012. This improvement in the overall BOP was achieved despite the challenging global economic conditions during the year.

International Reserve Position

Sri Lanka's gross official reserves amounted to US dollars 7.1 billion by end October 2013, while total international reserves, which include foreign assets of

commercial banks, amounted to US dollars 8.5 billion. In terms of months of imports, gross official reserves and total international reserves were equivalent to 4.5 and 5.4 months of imports, respectively, at end October 2013. Sri Lanka's gross official reserves were maintained at a satisfactory level during the first ten months of 2013, in spite of outflows on account of foreign debt service payments of US dollars 1,251 million and IMF-SBA payments of US dollars 369 million during this period.

Exchange Rate Behaviour

Based on cross currency exchange rate movements, the Sri Lanka rupee has appreciated against several major international currencies thus far during the year. During the period from end 2012 through 2 December

2013, the rupee appreciated against the Japanese yen by 15.4 per cent, the Indian rupee by 10.6 per cent and the Australian dollar by 10.0 per cent. The rupee has appreciated by 1.4 per cent against the US dollar since end August 2013, following a brief period from mid-June to end August during which the currency depreciated. Increased inflows to the banking sector, including the receipt of proceeds from the bond issuances by NSB and DFCC in September and October 2013, respectively, has helped maintain stability in the foreign exchange market. Meanwhile, the rupee recorded a modest depreciation of 3.0 per cent against the US dollar during the year-to date. Reflecting the cross currency movements, the rupee also depreciated against the euro by 5.8 per cent and the Pound sterling by 4.7 per cent during this period.

Table 1 : A Summary of External Sector Performance – October 2013^(a)

Category	October 2012 (US \$ mn)	October 2013 (US \$ mn)	Growth October (%)	Jan–Oct 2012 (US \$ mn)	Jan–Oct 2013 (US \$ mn)	Growth Jan–Oct (%)

(a) Provisional

(b) For the first half of the respective year.

(c) Inflows to commercial banks in 2012 amounted to USD 973 million.

(d) Data available up to end September of each corresponding year. Inflows to the Government include capital and current transfers to the Government, inflows from the sale of Treasury Bills and Treasury Bonds and long-term loans of the Government.

2. IMF Concludes the First Post Program Monitoring Discussion under the 2009 SBA

The Sri Lankan authorities note with satisfaction that the Executive Board of the IMF has welcomed the strong growth performance of Sri Lanka in recent years with inflation contained at single digit levels, after the review of the IMF staff reports on Post-SBA Program Monitoring (PPM) and Ex-Post Evaluation (EPE) on 27 November 2013.

The IMF has also recognised the resilience demonstrated by the Sri Lankan economy in the face of recent high volatility in the global financial markets. Further, the IMF has noted the significant improvement in the external sector in 2013 with a decline in the current account deficit and a buildup of international reserves, despite the challenging external environment. The IMF Executive Board has also commended the Sri Lankan authorities on the current flexible exchange rate policy with limited intervention in the market and highlighted the importance of further strengthening external sector buffers to face possible shocks, with the gross official reserves increasing to US dollars 7.0 billion, equivalent to 4.4 months of imports by end September 2013.

At the same time, while the IMF has recognised the strong commitment of the Government on fiscal consolidation with sustained reduction of the fiscal deficit since 2009, the IMF has highlighted the reduction in government revenue as a percentage of GDP, as a concern. However, the Sri Lankan authorities note that the fiscal deficit target of 5.8 per cent for the year 2013, is likely to be met, and therefore is of the view that there need not be any concern of an imbalance growing in this regard. Towards such fiscal consolidation over the medium term, several measures have also been proposed in the 2014 budget to broaden the tax base and improve tax administration and compliance. The Sri Lankan authorities are also of the view that the substantial improvement in the financial performance of the Ceylon Electricity Board (CEB) and the Ceylon Petroleum Corporation (CPC) has also placed the economy on a more sustainable platform.

Overall, the authorities note that the EPE has recognised the successful completion of the SBA-supported program and strengthening of macroeconomic fundamentals while implementing structural reforms to improve efficiency, productivity and regulatory framework as envisaged under the program. The IMF Executive Board view that the current monetary policy stance is appropriate, and that the financial system remains strong and healthy although the non-performing loan (NPL) ratio has slightly increased in recent months mainly reflecting NPLs in the pawning sector, has also been noted.

However, the Sri Lankan authorities are of the view that several projections released by the IMF appear unrealistic. The growth forecasts of the IMF seem excessively pessimistic, particularly in the light of the acceleration of economic growth witnessed in the third quarter of 2013 and the significant improvement in exports that has been recorded in October 2013. Accordingly, in line with the improved export performance, the current account deficit is likely to moderate considerably. At the same time, the authorities also note that the recent sharp moderation in inflation has not been factored into the IMF's estimates. As a result, average and end period, headline inflation as well as core inflation are likely to be lower than the IMF projections, with the more appropriate projection for average headline inflation for 2013 being 6.9 per cent, while year-on-year headline inflation and core inflation being around 5.2 per cent and 2.1 per cent, respectively.

A comparison between the current IMF's projections and the Sri Lankan authorities' projections for 2013 are given below.

Sri Lanka: Selected Economic Indicators

	2013	
	IMF Projections	Sri Lankan Authorities' Projections
GDP and inflation (in per cent)		
Real GDP Growth	6.5	7.2
Inflation (average)	7.2	6.9
Inflation (end of period)	7.0	5.2
Core inflation (end of period)	6.1	2.1
Public finances (in per cent of GDP)		
Revenue	12.5	13.6
Grants	0.2	0.2
Expenditure	18.5	19.7
Central government balance	-5.8	-5.8
Central government domestic financing	4.4	3.5
Government debt (domestic and external)	76.6	76.0
Money and credit (per cent change, end of period)		
Reserve money	-3.3	3.2
Broad money	13.1	16.0
Domestic credit	17.0	12.3
Private sector credit	17.0	8.7
Public sector credit	17.0	18.7
Balance of payments (in millions of US dollars)		
Exports	9,826	10,278
Imports	19,406	19,046
Current account balance	-3,384	-2,714
Current account balance (in per cent of GDP)	-5.2	-4.0
Export value growth (per cent)	0.5	5.2
Import value growth (per cent)	1.2	-0.7
Gross official reserves (end of period)		
In millions of US dollars	6,661	7,129
In months of imports	3.2	4.5

3. Monetary Policy Review – December 2013

Several noteworthy, positive macroeconomic developments were reported during the past month indicating that the monetary policy decisions implemented throughout 2013 were timely and appropriate.

Real GDP growth accelerated in the third quarter of 2013. Inflation reduced significantly to levels lower than anticipated, while the external sector showed further progress. The turnaround in the financial position of key public corporations prompted substantial repayments by these institutions to the banking sector, facilitating an increased flow of financial resources for private investment. Credit extended to the private sector by banks picked up strongly in October 2013. These factors

augur well for future economic growth, while continued downward adjustments to longer term market interest rates would bolster market confidence and nurture positive investor sentiments.

All key sectors of the economy contributed positively to the real GDP growth of 7.8 per cent in the third quarter of 2013. The Agriculture sector grew by 7.0 per cent recovering from the contraction observed

in the second quarter. The Industry sector grew by 8.1 per cent reflecting a moderation from the higher growth rates observed in the first two quarters of the year, while the Services sector growth accelerated to 7.9 per cent from 6.6 per cent in the previous quarter. The sound, broad based growth performance in the third quarter strengthens expectations of over 7 per cent economic growth for the year.

Headline inflation decreased to 5.6 per cent in November 2013 on a year-on-year (y-o-y) basis, from 6.7 per cent in the previous month, mainly on account of the moderation in prices of both food and non-food items during the month. In the meantime, core inflation continued to decline, and was at its lowest at 2.4 per cent (y-o-y), in November 2013. Annual average headline inflation also declined to 7.3 per cent in November from 7.6 per cent in the previous month. The outlook for inflation continues to remain favourable supported by subdued international commodity prices, improved domestic supply conditions and well contained demand driven inflationary pressures. In this background, according to current projections, inflation is expected to remain benign, at mid-single digit levels throughout 2014 as well.

External sector indicators were robust in October 2013 with earnings from merchandise exports increasing significantly amidst moderating expenditure on imports, resulting in a narrower trade deficit. Earnings from exports recorded its highest ever monthly value, increasing by 35.1 per cent (y-o-y), in October 2013, reaching US dollars 1,041 million. The growth in exports heightens expectations of a durable recovery of the advance economies leading to enhanced growth in export proceeds for the rest of the year, as well as for 2014. The cumulative expenditure on imports declined by 1.1 per cent (y-o-y) for the first ten months of 2013, while the contraction during the month of October was 2.8 per cent. Meanwhile, the Sri Lankan rupee continued to remain stable against the US dollar within the flexible exchange rate regime, as a result of improving external

trade activity, increased workers' remittances and tourist earnings, increased inflows to the financial sector, and strengthened market expectations.

In October 2013, credit extended to the private sector increased by Rs. 27.2 billion in absolute terms. Credit from Domestic Banking Units (DBUs) of commercial banks contributed around Rs. 20.1 billion to the absolute increase in credit during the month, similar to the levels witnessed in September 2013, signalling a take-off in credit disbursements. Credit granted to public corporations contracted for the second consecutive month, with repayments during October 2013 amounting to Rs. 12.5 billion. Meanwhile, broad money growth accelerated to 18.3 per cent (y-o-y), with increased credit to the private sector as well as a significant increase in net foreign assets (NFA) of the banking sector and increased net credit to government (NCG) during the month. NCG is expected to decline in line with the revised projections for bank borrowing as presented in the National Budget for 2014. Going forward, the expected continued improvements in public corporations and fiscal consolidation are likely to facilitate maintaining monetary expansion as desired in the period ahead.

Taking the above factors into consideration, the Monetary Board at its meeting held on 6th December 2013, was of the view that the current monetary policy stance is appropriate, and accordingly, decided to maintain the Repurchase rate and the Reverse Repurchase rate of the Central Bank of Sri Lanka unchanged at 6.50 per cent and 8.50 per cent, respectively. Broad guidance with regard to the conduct of monetary policy in 2014 will be elucidated in the Road Map: Monetary and Financial Sector Policies for 2014 and beyond, expected to be announced on 2 January 2014.

The date for the release of the next regular statement on monetary policy would be announced in due course.

4. Bank Directors' Symposium – 2013 "Beyond a Ten Trillion Banking Sector"

The Central Bank of Sri Lanka held its annual Bank Directors' Symposium on the 11th December 2013. The symposium was attended by over 200 Directors and Chief Executive Officers of 24 licensed commercial banks and 9 licensed specialised banks.

This was the sixth consecutive symposium, held with a view to updating and sharing the new developments in the economy including the regulatory environment in order to strengthen banks' resilience to meet upcoming challenges and to facilitate reshaping their business models by exploring new opportunities and keeping pace with growing economic needs of the country. The main theme of this year's Directors' Symposium

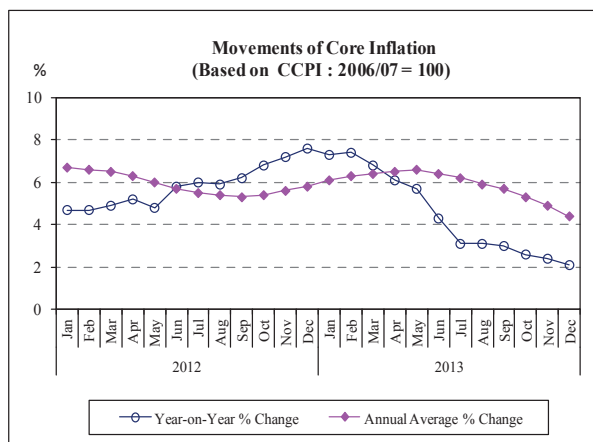

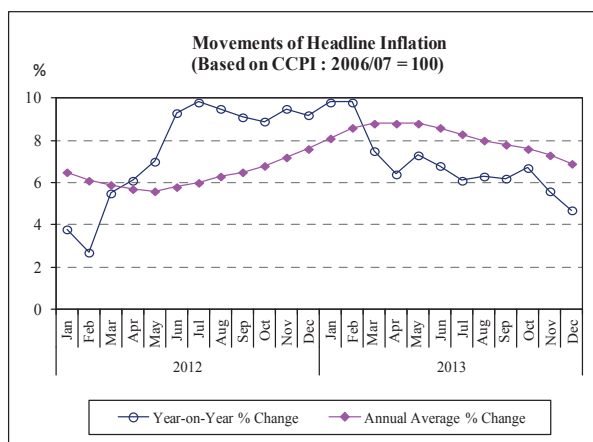

was "Beyond a Ten Trillion Banking Sector". Mr. Ajith Nivard Cabraal, Governor of the Central Bank delivered the keynote address. The symposium also deliberated on the following topics: Building resilience in the Banking Sector; Changing role of a Bank Director; Insights to achieving Business Excellence; and Expansion and Stability: a Balancing Act.

5. Inflation stabilized at mid-single digit levels in December 2013

Inflation, which was contained within single digit levels for nearly five consecutive years, decelerated significantly to reach benign mid-single digit levels in December 2013. This is the longest period that inflation has remained at single digit levels, after the economy was liberalized.

The year-on-year headline inflation, as measured by the Colombo Consumers' Price Index (CCPI) (2006/07=100), computed by the Department of Census and Statistics, decreased to 4.7 per cent in December 2013 compared to 9.2 per cent in December 2012, improving business and investor confidence. It was the lowest level recorded since March 2012. Consequently, the annual average rate of inflation also decelerated further to 6.9 per cent in December 2013, for the seventh consecutive month.

The contribution to the decline in annual average inflation to 6.9 per cent in 2013 came mainly from slowdown in the price increase in the Non-food category, which grew only by 6.1 per cent in 2013 against that of 10.0 per cent in 2012. The impact of the upward price revision of petrol, diesel, kerosene and bus fares on inflation was lower in 2013 than in 2012. As a result, the average price in the Transport sub-category increased only by 4.6 per cent. In addition, comparatively lower increase in the average prices in the sub-categories

of Health (by 1.7 per cent); Furnishing, Household equipment and routine household maintenance (by 4.0 per cent); and Clothing and footwear (by 5.4 per cent) in 2013 than in 2012 contributed favourably to this decline. However, relatively high increase in the Food and non-alcoholic beverages category by 7.9 per cent in 2013 compared to 2012 had an upward pressure on inflation.

Core inflation, which captures underlying long-term trend of inflation, has also moved on a declining path in 2013 to record the lowest figure since its inception

in 2007. The year-on-year core inflation has declined steadily, reaching its lowest at 2.1 per cent in December 2013 compared to 7.6 per cent in December 2012. The annual average core inflation also continued to decline since mid 2013 and reached 4.4 per cent by December 2013. This favourable development is a reflection of the effectiveness of prudent demand management policies of the Central Bank which have been implemented successfully in containing price pressure emanating from the demand side.

6. Colombo Consumers' Price Index (CCPI)

STATISTICAL APPENDIX

Definitions and Explanatory Notes

The following general notes supplement the footnotes given below the individual tables:–

1. The data cover monthly figures available at the time the Bulletin goes to print, and the latest available information does not relate to the same month, in every table.

To enable comparison, annual figures for recent years are given.

2. In an attempt to bring the material up-to-date provisional figures are included in some tables.
3. Figures in some tables have been rounded off to the nearest final digit. Hence there may be a slight discrepancy between the total as shown and the sum of its components.
4. Differences as compared with previously published figures are due to subsequent revisions.
5. The following symbols have been used throughout:–

n.a. = not available
– = nil
... = negligible

(a) Revised

(b) Provisional

(c) Based on the monthly factory industry production survey and classified in accordance with the International Standard Industrial Classification (ISIC) Revision 4. (2010 = 100)

(d) (1) Includes manufacturing and export processing industries. Small industry is defined as those units having supply of electricity at 400/230 volts and contract demand is less than 42 kVA, medium industry as supply of electricity at 400/230 volts and contract demand is equal or more than 42 kVA and large industry as supply of electricity at 11 kV and above.
(2) Figures include electricity consumption of hotels.

(e) Sales other than to Ceylon Electricity Board.

(f) Excluding Petroleum exports.

- (a) The index was based on Household Income and Expenditure Survey conducted in 2006/07.
The weights are based on the consumption pattern of the urban households within the Colombo district.
The total basket value (at 2006/07 prices) was Rs. 27,972.11
- (b) Annual and quarterly figures are averages of monthly figures.

Note: The Index numbers are calculated by the Labour Department on fixed weights based on the numbers employed as at 31 December 1978. The wage rate used in the calculation of Index numbers are minimum wages for different trades fixed by the Wages Boards.

Sources : Labour Department
Central Bank of Sri Lanka

- (a) The Index refers to wage rates of tea growing and manufacturing, rubber growing and manufacturing, coconut, cocoa, cardamoms and pepper growing trades only.
- (b) Includes baking, brick and tile manufacturing, coconut manufacturing, printing textile, tyre and tube manufacturing, coir mattresses & bristle fibre export, hosiery manufacturing, engineering, garment manufacturing, match manufacturing, biscuit manufacturing, tea export and rubber export trades only.
- (c) This includes cinema, motor transport and nursing homes trade only.
- (d) Combined Index for workers in Agriculture, Industry & Commerce and Services.
- (e) Provisional.

(a) Daily wages represent payments in cash where meals are not provided by the employer. Annual and quarterly figures are averages of monthly figures.

Source: Central Bank of Sri Lanka

(b) Wages in the construction sector are paid on both daily payment and contractual basis. The series on contractual basis in previous bulletin publications has been replaced by the series on daily payment basis from the monthly bulletin of December 2005 onwards for comparison with wages in other sectors.

(c) Daily wages up to December 2004 are the average of daily wages for the two activities. From January 2005 onwards the daily wages cover both activities under a single category following the restructuring of data collection schedules.

(d) Provisional.

(a) Consists of government expenditure excluding contributions to sinking funds, direct payment of public debt and subscriptions to international financial organisations. Also excludes book adjustments arising from losses on Advance Account operations incurred and financed in the previous financial year. Hence, the figures may not tally with the figures published in the accounts of the Government of Sri Lanka.

Sources : Ministry of Finance and Planning
Central Bank of Sri Lanka

(b) Excludes foreign investments in Treasury bills.

(c) Excludes foreign investments in Treasury bonds.

(d) Net foreign investments in Treasury bills and Treasury bonds are included.

(e) Provisional

(a) Computed from weekly averages.

(b) Footnote (d) of Table 14 in the Annual Report 2013 gives the conversion formula used for the conversion of the volume of the three main types of coconut exports to their nut equivalent (from kgs).

(c) This refers to prices of the best quality copra.

(a) Special Drawing Rights (SDRs), the unit of account of the International Monetary Fund.

Source: Central Bank of Sri Lanka

(b) The NEER is the weighted average of nominal exchange rates of the 24 trading partner and competitor countries. Weights are based on the trade shares reflecting the relative importance of each currency in the currency basket.

(c) The REER is computed by adjusting the NEER for inflation differentials with the countries whose currencies are included in the basket.

(a) Annualised Forward Premium (f^d) is computed using the following formula.

Source: Central Bank of Sri Lanka

$$f^d = \{ [F_t^T - S_t] / S_t \} * 100 * (12/T)$$

Where F_t^T is the forward rate for period t that exists in period t ($T = 1,3$) and S_t is the interbank spot rate at period t .

(b) Provisional.

(a) Currency held by the Treasury and the District Secretariats.

(b) Total amounts of currency, including subsidiary notes and coins issued by the Central Bank.

(c) Demand deposits of the government held with commercial banks and the Central Bank.

(d) Inter bank deposits both local and foreign including deposits of international organizations and commercial banks with the Central Bank.

(e) Total demand deposits held by the Central Bank and commercial banks.

(f) M₂ equals currency held by the public plus rupee denominated demand, savings and time deposits held by the public.

(a) The number of reporting banks were 23 until January 2006, 22 from October 2008, 23 from August 2011 and 24 from December 2011.

(b) Fixed and other assets consists of banks' property, furniture, fittings and sundries (commission, interest receivables etc.)

(c) Liquid assets consist of Cash on hand, Balances due from Central Bank, Foreign currency on hand and Balances due from banks abroad, Government of Sri Lanka Treasury bills and bills discounted. Balances due from domestic banks and cash items in process of collection have been excluded from liquid assets and domestic inter-bank deposits have been excluded from demand deposits, because from the view point of the commercial banking system as a whole such claims and deposits cancel out.

(a) M_{2b} is based on the aggregated data pertaining to both Domestic Banking Units (DBUs) and Offshore Banking Units (OBUs) of Licensed Commercial Banks operating in Sri Lanka. Definitional changes have been adopted in aggregating DBUs and OBUs to avoid double counting and misclassification of assets and liabilities.

(Contd.)

The major changes are:

- (1) All DBU placements in OBUs are recorded as domestic assets, while all DBU borrowings from OBUs are recorded as domestic liabilities.
- (2) Foreign currency deposits with DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply:
 - (i) One half (50 per cent) of Non-Resident Foreign Currency (NRFC) deposits are treated as domestic deposit liabilities;
 - (ii) All Resident Non-National Foreign Currency (RNFC) balances are treated as foreign liabilities;
 - (iii) All other domestic foreign currency accounts are treated as domestic deposit liabilities.

(b) External assets (net) of the Central Bank and commercial banks (including outward bills)

(c) Currency and demand deposits of the public

(d) Time and savings deposits of the public held with commercial banks

(Contd.)

(a) M₄ is based on the aggregated data pertaining to Licenced Specialised Banks (LSBs) and Licenced Finance Companies (LFCs), in addition to the institutions covered in M_{2b}.

(b) Currency, demand deposits and quasi money of DBUs in this table differ from those in Table 56 due to the fact that LSBs and LFCs are not treated as 'Public' under the Financial Survey (M₄) definition.

(c) Time and savings deposits of the private sector with commercial banks, LSBs and LFCs.

(d) LSBs include Regional Development Banks/Pradeshiya Sanwardhana Bank (which was established on 14 July 2010 by amalgamating Regional Development Banks, DFCC Bank, National Savings Bank, State Mortgage and Investment Bank, MBSL Savings Bank Ltd., SANASA Development Bank Ltd., HDFC Bank of Sri Lanka, Sri Lanka Savings Bank Ltd. and Lankaputhra Development Bank Ltd.

(e) Credit extended by the Central Bank, LCBs, LSBs and LFCs to the Government, net of Government deposits and Government cash balances.

Source: Central Bank of Sri Lanka

(f) The sharp increase in credit to private sector by LFCs in some months could be attributed to already established Specialised Leasing Companies (SLCs) obtaining LFC licenses.

Source: Central Bank of Sri Lanka

- (a) Under Sections 10c, 93, 94, 96 and 97 of the amended Monetary Law Act (Chapter 422), commercial banks and other financial institutions are required to maintain reserves against their deposit liabilities as prescribed by the Monetary Board. Currently, only commercial banks are subject to reserve requirements. With effect from 24 January 1992, an amount of till cash over and above two per centum of the total deposit liabilities, but not exceeding four per centum, could be maintained as a part of required reserves in the form of Sri Lanka currency notes and coins. Details of required reserve ratios, which were applicable in the past and computational methods have been published in the Appendix table on the 'Reserve Position of Commercial Banks' in the Annual Reports prior to 2003.
- (b) Reserve data are for the last reserve week of each month. The required reserves recorded in the table refer to the cumulative reserves for the week, while commercial bank's deposits with the Central Bank are the cumulative deposits for that particular reserve week. Excess/Deficit on SRR is the difference between the cumulative SRR for the reserve week and cumulative deposits of the commercial banks' for the week.
- (c) Excludes interbank deposits.
- (d) With effect from 03 April 2003, the basis of computing the Statutory Reserve Requirement (SRR) was changed from deposit liabilities and till cash balances at the close of business on Wednesday of the previous reserve week, to the average of deposit liabilities and till cash balances during the week ending Tuesday of the previous reserve week.
- (e) SRR was increased from 7.00 per cent to 8.00 per cent with effect from 29 April 2011.

(a) Pursuant to Section 51 of the Monetary Law Act, the Central Bank's holdings of notes and coins are not considered as part of its currency issue.

Source: Central Bank of Sri Lanka

(b) Currency notes in the denomination of Rs. 20 were issued from 4 August 1980, Rs. 1,000 from 23 December 1981, Rs. 500 from 9 February 1982, Rs. 200 from 4 February 1998, Rs. 2,000 from 17 October 2006 and Rs. 5,000 from 4 February 2011.

(c) Currency notes of Rs. 5, Rs. 2 and Re. 1 are also included. The value of these notes remained unchanged at Rs. 37.2 million, Rs. 26.7 million and Rs. 5.0 million, respectively as at end November 2013.

(d) This includes commemorative coins issued upto 30 November 2013. As at end November 2013, the values of Rs. 100 coins, Rs. 500 coins, Rs. 1,000 coins and Rs. 5,000 coins stand at Rs. 4.5 million, Rs. 22.6 million, Rs. 252.5 million and Rs. 40.4 million respectively. The total value of other commemorative coins, as at end November 2013, stands at Rs. 254.0 million.

(a) All interest rates are as at the end of period, unless otherwise stated.

Source: Central Bank of Sri Lanka

(b) The rate at which the Central Bank grants advances to banking institutions as the lender of last resort.

(c) Average Weighted Deposit Rate (AWDR) is calculated by Central Bank monthly, based on the weighted average of all outstanding interest bearing deposits of commercial banks and the corresponding interest rates.

(d) The Average Weighted Prime Lending Rate (AWPR) is calculated by the Central Bank weekly, based on commercial bank's lending to their prime customers during the week. The monthly figures are average values of estimated weekly rates.

(e) The Sri Lanka Inter-Bank Offered Rate (SLIBOR) is computed daily by the Central Bank, based on rates offered by commercial banks in the inter-bank market. The rate shown is the average of such offered rates by selected commercial banks.

(a) Secondary market information is based on data provided by Primary Dealers in Government Securities.

Sources: Central Bank of Sri Lanka

(b) The yield rates on Rupee Securities are administratively determined. The given rates include taxes.

Primary Dealers in Government Securities

(c) Trading volumes reported are cumulative for the period.

(d) Yield rates are averages of bid and offer rates

(e) Unlike Treasury bills, Treasury bonds are not issued on a regular basis. Hence a continuous series of primary market yield rates does not exist.

ATM and Credit Cards	Maximum	Minimum
ATM cards		
– Issuing fee	Rs. 750	Rs. 100
Credit cards		
– Issuing fee	Rs. 5,000	Rs. 200
– Renewal fee	Rs. 10,000	Rs. 180

Notes :

- (1) Commercial banks charge a variety of fees and commissions on their services. The table gives a range of the maximum and minimum fees and commissions which are based on the information provided by commercial banks. These charges, which do not change very frequently are published semi-annually to enable the public to negotiate best terms. These fees and commissions could be different when services and products are provided as a package.
- (2) These are standard charges of commercial banks. However, charges for some specific products could include charges payable to banks abroad. For example, banks in Sri Lanka may include in their charges fees payable to banks abroad such as for adding confirmation to Letters of Credit, and for correction of discrepancies.
- (3) In the case of Documentary Credits, the charges for transmission outward from Sri Lanka would differ depending on the mode of transmission used.
- (4) Loan application processing fees vary according to the loan amount.

(a) End period.

(b) The Milanka Price Index (MPI) was introduced in January 1999 to replace the Sensitive Price Index. The MPI was replaced by S&P Sri Lanka 20 Index (S&P SL20) with effect from 1st January 2013.

(c) The S&P SL20 was introduced in June 2012.
