Part I
EVENTS OF THE MONTH
February 2010

Fiscal Sector

- Total recoverable tax rate on importation of milk powder was reduced from Rs. 100 per kg to Rs. 50 per kg.
- A customs duty waiver of Rs. 25 per kg was granted on importation of certain categories of edible oil and their fractions.

Grants from the Food and Agriculture Organization (FAO) of the United Nations

Agreements were signed between the Government of Sri Lanka and FAO for three grants as follows.

1. An agreement was signed on 03 February 2010 for a grant of USD 0.184 million (approximately Rs.21.09 million) to finance the Surveillance for Accreditation of Freedom from Rinderpest Virus Project.
2. An agreement was signed on 08 February 2010, for a grant of USD 0.876 million (approximately Rs.100.48

million) to finance the provision of seed and other essential agricultural inputs for livelihoods recovery in the North.

3. An agreement was signed on 08 February 2010, for a grant of USD 0.335 million (approximately Rs.38.42 million) to finance the Dairy Cattle and Buffalo Improvement Project.

Grant from the International Fund for Agricultural Development (IFAD)

An agreement was signed between the Government of Sri Lanka and IFAD on 23 February 2010, for a grant of SDR 15.55 million (approximately Rs.2.72 billion) to finance the Sri Lanka National Agri Business Development Programme.

Part II
PRESS RELEASES
February 2010

1. Inflation in January 2010

The annual average inflation, as measured by the Colombo Consumers' Price Index (CCPI) (2002=100), computed by the Department of Census and Statistics, decelerated further to 3.1 per cent in January, 2010 from 3.4 per cent in December 2009, for the fifteenth consecutive month since November 2008. However, on a point-to-point basis inflation increased to 6.5 per cent as anticipated, reflecting mainly the lower base in the corresponding month of 2009. A similar trend was observed in the core inflation measure as well.

Meanwhile, the general price level as indicated by the monthly index recorded an increase of 1.4 per cent in January, 2010 over the previous month, with the Index increasing in absolute terms from 213.5 to 216.4. The contribution to the monthly increase in the Index originated mainly from sub category of Food and non-alcoholic beverages which increased by 1.5 per cent primarily led by the price increases in rice, tea, some varieties of fish, and sugar. However, price declines were registered in respect of lime, big onion, green chilie, potatoe and wheat flour. Further, price increases in the sub categories of Education (7.4 per cent); Health (6.5 per cent); Furnishing, household equipment and routine household maintenance (1.9 per cent); Miscellaneous goods and services (1.5 per cent); and Clothing and footwear (1.0 per cent), also contributed to the increase in the index. However, the Transport sub category (-0.9 per cent) registered a decline due to the reduction in the price of petrol.

2. Monetary Policy Review – February 2010

The annual average inflation declined to 3.1 per cent by January 2010, although inflation, as measured by the year-on-year increase in the Colombo Consumers' Price Index (base=2002) increased to 6.5 per cent in January 2010 from 4.8 per cent at end 2009. The gradual increase in year-on-year inflation mainly reflects the dissipation of the base effect as well the recovery in commodity prices globally.

The Central Bank has already relaxed its monetary policy stance in the course of the year 2009 in order to support economic activity. This was made possible by the deceleration in inflation and the favourable outlook for inflation that prevailed. In response, market interest rates are adjusting downwards. Credit obtained by the private sector, which was negatively impacted by the slowdown in economic activity domestically as well as globally has been increasing in nominal terms towards the end of the year 2009.

Considering these developments, the Monetary Board, at its meeting held on 15 February 2010, decided that its current monetary policy stance will be maintained to facilitate the recovery in domestic economic activity, which is underway. The Monetary Board will continue to monitor economic developments and prospects, with a view to reviewing its policy stance.

The release of the next regular statement on monetary policy will be on 16 March 2010.

3. External Sector Performance – December 2009

Both, exports and imports reported positive growth in December 2009, on a year-on-year basis. Export earnings grew by 6.4 per cent in December 2009 to US dollars 723 million fuelled by the agricultural exports, which grew by 40.2 per cent led by the high prices garnered by tea and rubber in the international commodity markets. Expenditure on imports grew marginally by 0.5 per cent in December 2009 to US dollars 1,054 million. Imports of intermediate goods and consumer goods were the key drivers of this growth.

Cumulatively, however, year-on-year earnings from exports and expenditure on imports declined by 12.7 per cent and 29.4 per cent, respectively, in 2009. The trade deficit contracted for the 12th consecutive month in December 2009 by 10.4 per cent to US dollars 330 million. Accordingly, the cumulative trade deficit decreased by 52.5 per cent to US dollars 2,798.6 million in 2009 from US dollars 5,897.4 million in the corresponding period of 2008.

Prices of Ceylon tea, which had increased substantially since June 2009, reached US dollars 4.27 per kilogram in December 2009 reflecting an increase of 32 per cent. The average price of rubber reached a year-on-year high of US dollars 2.53 per kilogram in December 2009. Having generated US dollars 240 million since the beginning of the year, the minor agricultural products such as pepper, sesame seeds,

other oil seeds and cocoa are increasingly becoming an important source of export earnings for the country. There has also been a significant improvement in gem exports in December 2009. Lower exports of petroleum products, rubber based products, machinery and equipment led the industrial exports to decline in December 2009. Exports of food, beverages and tobacco products declined year-on-year, despite the 25.4 per cent increase in exports of fish, crustaceans and molluscs.

Expenditure on imports of intermediate goods increased in December 2009, led by higher expenditure incurred on petroleum imports as the average import price of crude oil reached US dollars 78 per barrel in December 2009. However, the expenditure on fertilizer imports declined despite the higher import volumes due to the significant decline in import prices since December

Sri Lanka Customs Department

last year. Among consumer goods, imports of rice and wheat increased sharply, while imports of sugar declined amidst high prices. Lower imports of motor vehicles and electrical equipment led the non-food consumer goods imports to contract. All categories of investment goods imports declined in December 2009.

The deficit in the trade account was off-set by the higher inflows of workers' remittances. During 2009 workers' remittances increased by 14.1 per cent to US dollars 3,330.3 million. As a result, workers' remittances were US dollars 532 million (about 19 per cent) in excess of the trade deficit.

The performance of external trade during the period

is further illustrated in the following table.

The gross official reserves, with and without Asian Clearing Union (ACU) funds, were at US dollars 5,357 million and US dollars 5,097 million, respectively, by end December 2009. This includes short-term net inflows to the Government Treasury bills of US dollars 277 million and Treasury bonds of US dollars 1,068 million. Based on the previous 12 months average imports (US dollars 823 million per month), the gross official reserves, without ACU funds, were equivalent to 6.2 months of imports.

External Trade Performance: December 2009 and January – December 2009

STATISTICAL APPENDIX

Definitions and Explanatory Notes

The following general notes supplement the footnotes given below the individual tables:-

1. The data cover monthly figures available at the time the Bulletin goes to print, and the latest available information does not relate to the same month, in every table.

To enable comparision, annual figures for recent years are given.

2. In an attempt to bring the material up-to-date provisional figures are included in some tables.
3. Figures in some tables have been rounded off to the nearest final digit. Hence there may be a slight discrepancy between the total as shown and the sum of its components.
4. Differences as compared with previously published figures are due to subsequent revisions.
5. The following symbols have been used throughout:-
n.a. = not available
= nil
... = negligible

(a) Revised

(b) Provisional

(c) (1) Includes manufacturing and export processing industries. Small industry is defined as those units having supply of electricity at 400/230 volts and contract demand is less than 50 KVA, medium industry as supply of electricity at 400/230 volts and contract demand is equal or more than 50 KVA and large industry as supply of electricity at 11KV, 33KV and 132KV.

(2) Figures include electricity consumption of hotels.

(d) Sales other than to Ceylon Electricity Board.

(e) Excluding Petroleum exports.

- (a) The index was based on household income and expenditure survey conducted in 2002.
 The weights are based on the consumption pattern of the urban households within the Colombo district.
- (b) Annual and quarterly figures are averages of monthly figures.

Note: The Index numbers are calculated by the Labour Department on fixed weights based on the numbers employed as at 31 December 1978. The wage rate used in the calculation of Index numbers are minimum wages for different trades fixed by the Wages Boards.

Sources : Labour Department
Central Bank of Sri Lanka

- (a) The Index refers to wage rates of tea growing and manufacturing, rubber growing and manufacturing, coconut, cocoa, cardamoms and pepper growing trades only.
- (b) Includes baking, brick and tile manufacturing, coconut manufacturing, printing textile, tyre and tube manufacturing, coir mattresses & bristle fibre export, hosiery manufacturing, engineering, garment manufacturing, match manufacturing, biscuit manufacturing, tea export and rubber export trades only.
- (c) This includes cinema, motor transport and nursing homes trade only.
- (d) Combined Index for workers in Agriculture, Industry & Commerce and Services.
- (e) Provisional.

NWRI = Nominal Wage Rate Index

RWRI = Real Wage Rate Index

The Wage Rates used in the calculations of index numbers are the initial salaries and wages in each respective scale.

(a) Combined Index for Non-Executive Officers and Minor Employees.

(b) Provisional.

(a) Daily wages represent payments in cash where meals are not provided by the employer. Annual and quarterly figures are averages of monthly figures.

Source: Central Bank of Sri Lanka

(b) Wages in the construction sector are paid on both daily payment and contractual basis. The series on contractual basis in previous bulletin publications has been replaced by the series on daily payment basis from the monthly bulletin of December 2005 onwards for comparison with wages in other sectors.

(c) Daily wages up to December 2004 are the average of daily wages for the two activities. From January 2005 onwards the daily wages cover both activities under a single category following the restructuring of data collection schedules.

(d) Provisional.

(a) Consists of government expenditure excluding contributions to sinking funds, direct payment of public debt and subscriptions to international financial organisations. Also excludes book adjustments arising from losses on Advance Account operations incurred and financed in the previous financial year. Hence, the figures may not tally with the figures published in the accounts of the Government of Sri Lanka.

Sources : Ministry of Finance and Planning
Central Bank of Sri Lanka

(b) Special payments and receipts on account of Sri Lanka's contribution to and from the IMF and the IDA and special loans from these payments are excluded from both recurrent expenditure and Central Bank Advances.

(c) Provisional.

(d) Excludes Treasury bills and Treasury bonds issued to non-residents in 2007.

(e) Includes Treasury bills and Treasury bonds issued to non-residents in 2007.

(a) Computed from weekly averages.

(b) Footnote (d) of Table 14 in the Annual Report 2009 gives the conversion formula used for the conversion of the volume of the three main types of coconut exports to their nut equivalent (from kgs).

(c) This refers to prices of the best quality copra.

(d) Provisional.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

Source: Central Bank of Sri Lanka

- (a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Offshore Banking Units have been treated as a part of the domestic banking system.
- (b) Provisional
- (c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.
- (d) Includes port related services.
- (e) Passage collections by foreign shipping agents and airlines are included in passenger fares.
- (f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.
- (g) Indicates outright grants received in the form of project aid.
- (h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. The debit entries in respect of such imports are in the merchandise account and are recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.
- (i) The change in capital of the monetary sector is based on local records.
- (j) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF and the receipts under the Stand-by Arrangement facility in 2009. US dollar and Sri Lanka Rupee values reflect changes in the representative rate of the Special Drawing Rights (SDRs). Figures in the debit column are in respect of repurchases or repayments, made in installments to the IMF, in respect of earlier drawings. Subscriptions to the IMF, consequent to successive increases in Sri Lanka's quota, are also shown in the debit column.
- (k) General and special allocations of SDRs by the IMF.

Source: Central Bank of Sri Lanka

- (a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Offshore Banking Units have been treated as a part of the domestic banking system.
- (b) Provisional
- (c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.
- (d) Includes port related services.
- (e) Passage collections by foreign shipping agents and airlines are included in passenger fares.
- (f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.
- (g) Indicates outright grants received in the form of project aid.
- (h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. The debit entries in respect of such imports are in the merchandise account and are recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.
- (i) The change in capital of the monetary sector is based on local records.
- (j) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF and the receipts under the Stand-by Arrangement facility in 2009. US dollar and Sri Lanka Rupee values reflect changes in the representative rate of the Special Drawing Rights (SDRs). Figures in the debit column are in respect of repurchases or repayments, made in installments to the IMF, in respect of earlier drawings. Subscriptions to the IMF, consequent to successive increases in Sri Lanka's quota, are also shown in the debit column.
- (k) General and special allocations of SDRs by the IMF.

(a) Special Drawing Rights (SRDs), the unit of account of the International Monetary Fund.

Source: Central Bank of Sri Lanka

(b) The NEER is the weighted average of nominal exchange rates of the 24 trading partner and competitor countries. Weights are based on the trade shares reflecting the relative importance of each currency in the currency basket.

(c) The REER is computed by adjusting the NEER for inflation differentials with the countries whose currencies are included in the basket.

(d) REER computation is based on CCPI.

(e) The REER Indices for 2009 are provisional.

(a) Annualised Forward Premium (f^d) is computed using the following formula.

Source: Central Bank of Sri Lanka

$$f^d = \{[F_t^{t+1} - S_t] / S_t\} * 100 * (12/t)$$

Where F_t^{t+1} is the forward rate for period $t+1$ that exists in period t and S_t is the interbank spot rate at period t .

(b) Provisional

(1) Total amount of currency, including subsidiary notes and coins issued by the Central Bank.

Source: Central Bank of Sri Lanka

(2) Currency held by the Treasury and the Kachcheries.

(5) Total demand deposits held by the Central Bank and the commercial banks.

(6) Government demand deposits with the commercial banks and the Central Bank.

(7) Inter bank deposits both local and foreign, including deposits of international organisations and commercial banks with the Central Bank.

(10) Time and savings deposits of non-governmental sector held with commercial banks.

(11) M_2 is defined as M_1 plus time and savings deposits of the public held with commercial banks.

Note: (a) Monetary data from 1990 have been reclassified as follows, to be consistent with the standard international practice.

Column 5 & 8 – Excludes the value of rupee demand deposits held by customers resident outside Sri Lanka. These deposits are now treated as foreign liabilities (Rs.1,118 million at end December 2009).

Column 10 – Excludes the value of rupee time and savings deposits held by customers resident outside Sri Lanka. These deposits are now treated as foreign liabilities (Rs.1,180 million at end December 2009).

Source: Central Bank of Sri Lanka

(a) Includes assets/liabilities of National Development Bank which merged with NDB Bank Ltd., with effect from August 2005.

(b) External assets (net) of the Central Bank and commercial banks (including outward bills).

(c) Currency and demand deposits held by the public.

(d) Credit extended by the banking system to the government, net of government deposits with banks and government cash balances.

(e) Restructuring bonds worth Rs.19,392.6 million, which were issued by the government to the two state banks, have been converted to Treasury bonds upon their maturity in October 2006. This amount, which previously appeared under Other Assets has been included in Net Credit to Government since October 2006.

(f) Revised from May 2008.

(g) Monetary data from 1990 have been reclassified as follows, to be consistent with the standard international practice.

Column 1 – Excludes rupee demand deposits held by customers resident outside Sri Lanka. These are now treated as foreign liabilities (Rs.1,118 million at end December 2009).

Column 3 – Adjusted:

(i) to include effect of the quota subscriptions made to the IMF and liabilities on account of other transactions with IMF which are not reflected in the balance sheet of the Central Bank. However, with effect from January 2002, the total amount of IMF quota is included in the Central Bank's balance sheet with the adoption of International Accounting Standards (IAS).

(ii) to include the balance in the Crown Agent's Account of the Government (Rs.26 million at end December 2009).

(iii) to include the revaluation effect of the Structural Adjustment Facility and the Standby Arrangement with the IMF - Rupee Account until December 2002. Since January 2003, all IMF related assets and liabilities have been revalued to current market rates in the balance sheet of the Central Bank.

(iv) to include rupee deposits of customers outside Sri Lanka as foreign liabilities (This reduces the net external assets of the commercial banks by Rs.2,298 million at end December 2009).

Column 6 – Net credit to the Government by the Central bank includes cash item in process of collection (Rs.0 at end December 2009) but excludes the Central Bank's assets on special advances given to the government on account of obligations to the IMF which had been shown in the CBSL balance sheet until September 2002.

Column 16 – Adjusted for cash items in process of collection (Rs.0 at end December 2009) and special advances given by the Central Bank to the government on account of IMF obligations. The amount of special advances was removed from the CBSL's balance sheet since October 2002 to be compatible with the accounting treatment of IMF quota under International Accounting Standards.

- (a) The balance sheet data of the Central Bank from January 2002 is based on the International Accounting Standards (IAS). Accordingly, foreign securities of the Central Bank have been valued at current market prices since January 2002. These data prior to January 2002 are according to local books at cost or face value whichever is less.
- (b) Includes securities acquired from government institutions.
- (c) According to IAS, the amount of Sri Lanka's quota with the IMF has been taken into the Central Bank's balance sheet.
- (d) According to IAS, balance sheet of the CBSL is prepared on accrual basis and receivables show interest receivables on foreign securities.
- (e) Credit provided under "Susahana" Refinance Credit Scheme is included from December 2005.
- (f) According to IAS, government and government guaranteed securities are at fair value basis since January 2002.

Note : The number of reporting banks were 23 until January 2006, and 22 from October 2008.

(Contd.)

(a) Also includes Treasury bills purchased in the secondary market.

(b) Includes Central Bank securities and DFCC Bonds.

(c) Fixed and other assets consists of banks' property, furniture, fittings and sundries (commission, interest receivable etc.).

(d) Liquid assets consist of Cash on hand, Balances due from Central Bank, Foreign currency on hand and Balances due from banks abroad, Government of Sri Lanka Treasury bills and bills discounted. With effect from 18 May 1998, Treasury bonds are considered as part of liquid assets of commercial banks. Balances due from domestic banks and cash items in process of collection have been excluded from liquid assets and domestic inter-bank deposits have been excluded from demand deposits, because from the view point of the commercial banking system as a whole such claims and deposits cancel out.

(a) This monetary survey is based on the aggregated data pertaining to both Domestic Banking Units (DBUs) and Offshore Banking Units (OBUs) of banks operating in Sri Lanka. Definitional changes have been adopted in aggregating DBUs and OBUs data to avoid double counting and misclassification of assets and liabilities. The major changes are:

(Contd.)

- (1) All DBU placements in OBUs are recorded as domestic assets, while all DBU borrowings from OBUs are recorded as domestic liabilities.
- (2) Foreign currency deposits of DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply :
 - (i) One half (50 per cent) of NRFC deposits are treated as domestic deposit liabilities;
 - (ii) All RNNFC balances are treated as foreign liabilities;
 - (iii) All other domestic foreign currency accounts are treated as domestic deposit liabilities.

(b) Includes assets / liabilities of National Development Bank which merged with NDB Bank Ltd., with effect from August 2005.

(c) External assets (net) of the Central Bank and commercial banks (including outward bills).

(d) Currency and demand deposits of the public.

(e) Time and savings deposits of the public held with commercial banks.

(f) Credit extended by the banking system to the government, net of government deposits with banks and government cash deposits.

Source: Central Bank of Sri Lanka

(g) Restructuring bonds worth Rs.19,392.6 million which were issued by the government to the two state banks, have been converted to Treasury bonds upon their maturity in October 2006. This amount, which previously appeared under Other Assets, has been included in Net Credit to Government since October 2006.

Note :

(Contd.)

DBUs - Domestic Banking Units

OBUs - Offshore Banking Units

LSBs - Licensed Specialised Banks include Regional Development Banks, DFCC Bank, National Savings Bank, State Mortgage & Investment Bank, Ceylinco Savings Bank, SANASA Development Bank, HDFC Bank, SME Bank, NDB Housing Bank, Lankaputhra Development Bank and Sri Lanka Savings Bank. The SME Bank merged with Lankaputhra Development Bank in January 2008. Merchant Bank of Sri Lanka acquired a majority stake in Ceylinco Savings Bank Ltd. in July 2009. The name of which was subsequently changed to MBSL Savings Bank Ltd.

RDBs - Regional Development Banks

RFCs - Registered Finance Companies

- (a) This financial survey is based on the aggregate data pertaining to Domestic Banking Units (DBUs), Offshore Banking Units (OBUs), Licensed Specialised Banks (LSBs) and Registered Finance Companies (RFCs) operating in Sri Lanka. Definitional changes have been adopted in aggregating DBUs, OBUs, LSBs and RFCs data to avoid double counting and misclassification of assets and liabilities. The major changes are:
- (1) All DBUs placements in OBUs are recorded as domestic assets, while all DBUs borrowings from OBUs are recorded as domestic liabilities.
 - (2) Foreign currency deposits of DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply:
 - (i) One half (50 per cent) of NRFC deposits are treated as domestic deposit liabilities;
 - (ii) All RNNFC balances are treated as foreign liabilities;
 - (iii) All other domestic foreign currency accounts are treated as domestic deposit liabilities.
- (b) External assets (net) of the Central Bank, Commercial banks (including outward bills), LSBs and RFCs.
- (c) Currency, demand deposits and quasi money in DBUs in this table differ from those in table 52 due to the fact that LSBs and RFCs are not treated as public under this broad monetary survey (M_4) definition.

Source: Central Bank of Sri Lanka

- (d) Time and savings deposits of the private sector with commercial banks, LSBs and RFCs.
- (e) Credit extended by the monetary authority, DBUs, OBUs, LSBs and RFCs to the Government, net of Government deposits with banks and Government cash deposits.

Source: Central Bank of Sri Lanka

(a) Under Sections 10c, 93, 94, 96 and 97 of the amended Monetary Law Act (Chapter 422), commercial banks and other financial institutions are required to maintain reserves against their deposit liabilities as prescribed by the Monetary Board. Currently, only commercial banks are subject to reserve requirements. With effect from 24 January 1992, an amount of till cash over and above two per centum of the total deposit liabilities, but not exceeding four per centum, could be maintained as a part of required reserves in the form of Sri Lanka currency notes and coins. Details of required reserve ratios, which were applicable in the past and computational methods have been published in the Appendix table on the 'Reserve Position of Commercial Banks' in the Annual Reports prior to 2003.

(b) Reserve data are for the last reserve week of each month. The required reserves recorded in the table refer to the cumulative reserves for the week, while commercial bank deposits with the Central Bank are the cumulative deposits for that particular reserve week. Excess/Deficit on SRR is the difference between the cumulative SRR for the reserve week and cumulative deposits of the commercial banks for the week.

(c) Excludes interbank deposits.

(d) With effect from 03 April 2003, the basis of computing the Statutory Reserve Requirement (SRR) was changed from deposit liabilities and vault cash balances at the close of business on Wednesday of the previous reserve week, to the average of deposit liabilities and vault cash balances during the week ending Tuesday of the previous reserve week.

(e) SRR was reduced from 9.25 per cent to 7.75 per cent with effect from 28 November 2008.

(f) SRR was reduced from 7.75 per cent to 7.00 per cent with effect from 27 February 2009.

Source: Central Bank of Sri Lanka

(a) All interest rates are as at the end of period, unless otherwise stated.

(b) This is the rate at which the Central Bank grants advances to commercial banks for temporary liquidity purposes. With effect from 04 January 1991, the rate was increased to 17 per cent from 15.5 per cent. As at end 1999 this rate was 16 per cent. With effect from 02 October 2000 the rate was increased to 18 per cent and further increased to 25 per cent with effect from 21 November 2000. With effect from 02 July 2001, this rate was brought down to 23 per cent and further reduced to 18 per cent with effect from 27 December 2001. On 15 August 2003, the rate was reduced to 15 per cent.

(c) Average Weighted Deposit Rate (AWDR) is calculated monthly by the Central Bank based on the weighted average of all outstanding interest bearing deposits of commercial banks and the corresponding interest rates.

(d) The Average Weighted Prime lending Rate is estimated weekly by the Central Bank based on commercial banks' lending rates offered to their prime customers during the week. These monthly figures are average values of estimated weekly rates.

(e) The Sri Lanka Inter-Bank Offered Rate (SLIBOR) is computed daily by the Central Bank, based on rates offered by commercial banks in the inter-bank market. The rate shown is the average of such offered rates by selected commercial banks.

(a) Issue of Treasury bonds commenced in March 1997.

 Source: Central Bank of Sri Lanka
 Primary Dealers in Government Securities

(b) The yields on Rupee Loans are administratively determined and not market determined unlike the yields on Treasury bills and Treasury bonds.

(c) The secondary market information is based on data provided by Primary Dealers in Government Securities and is available since October 2000.

(d) Yield rates are averages of bid and offer rates.

(e) Interest with tax for 4 year maturity.

(f) Interest with tax for 2 year maturity.

Note : Treasury bonds are not issued on a regular basis. Hence a continuous series of primary market yield rates is not available.

ATM cards – Issuing fee	Rs. 750	Rs. 75
Credit cards – Issuing fee	Rs. 6,000	Rs. 180
Renewal fee	Rs. 5,000	Rs. 120

Notes :

- (1) Commercial banks charge a variety of fees and commissions on their services. The table gives a range of the maximum and minimum fees and commissions which are based on the information provided by commercial banks. These charges, which do not change very frequently are published semi-annually to enable the public to negotiate best terms. These fees and commissions could be different when services and products are provided as a package.
- (2) These are standard charges of commercial banks. However, charges for some specific products could include charges payable to banks abroad. For example, banks in Sri Lanka may include in their charges fees payable to banks abroad such as for adding confirmation to Letters of Credit, and for correction of discrepancies.
- (3) In the case of Documentary Credits, the charges for outward transmission from Sri Lanka would differ, on the mode of transmission used.
- (4) Loan application processing fees vary according to the loan amount.

(a) Advances include loans, overdrafts and bills discounted and exclude cash items in process of collection.

Source : Central Bank of Sri Lanka

Maturity Classification : Less than one year – Short-term
1 to 5 years – Medium-term
More than 5 years – Long-term

(b) Includes Advances granted for Engineering and Building Trade, Mining and Fishing.

(c) Advances of Offshore Banking Units are included from March 2009.

(d) Provisional
