**Part II**  
**PRESS RELEASES**  
**February 2013**

**1. Central Bank of Sri Lanka issues Money Broking Regulations**

*The Central Bank of Sri Lanka (CBSL), considering the necessity for improving the operations in the domestic money and foreign exchange market by increasing the coverage of monitoring activities on different types of financial institutions operating in the economy and to facilitate strengthening of financial system stability has issued the “Money Broking Regulations, No. 1 of 2013” (Regulations) under Section 10(c) of the Monetary Law Act, No. 58 of 1949. The Regulations will be effective from 15<sup>th</sup> February, 2013.*

Under the new Regulations, both the existing Money Brokers (MBs) and the new firms who intend to enter into the money broking activities shall obtain the “Certificate of Authorization” issued by the Monetary Board of the CBSL.

The Regulations covers, inter alia, the minimum eligibility criteria, legally permissible activities, operating requirements, authorization process, internal policies and procedures, proper governance, reporting requirements and revocation of certificate.

The Regulations are expected to give credence to the operations of MBs and provide confidence for financial institutions that use their broking services. Similarly, it is also expected to improve the efficiency of price discovery process while facilitating maintenance of professional standards of the best business practices ensuring healthy development of the overall money market and foreign exchange market in the country.

**2. External Sector Performance – December 2012**

*In 2012, expenditure on imports of investment goods increased, but in response to the policy measures adopted by the Central Bank and the government earlier in the year to reign in import expenditure, expenditure on imports of consumer goods and intermediate goods declined steadily from around April 2012. Hence, although earnings from exports declined in 2012 along with the weakening of global demand, the deficit in the trade account of the balance of payments contracted in 2012.*

In December 2012, earnings from exports declined on a year-on-year basis, as earnings from industrial exports which account for about three fourths of total export earnings, declined. Agricultural exports however increased on a year-on-year basis in December 2012 as earnings from exports of tea, spices, unmanufactured tobacco and sea food increased. Sri Lanka’s tea exports have fetched favourable prices since around May 2012

and have therefore helped buoy export earnings during much of the year. With respect to other agricultural products exported, spices, unmanufactured tobacco and sea food have recorded increased export earnings for 2012. Nevertheless, with earnings from exports of most items categorised under agricultural exports declining in 2012, earnings from agricultural exports recorded a drop for 2012. Earnings from industrial

exports also declined in 2012, with declines being recorded by most items categorised under industrial exports, including garments, which account for more than a third of total export earnings. While prices of key inputs to industrial products such as cotton, rubber and several metals including aluminium and copper have declined from the high levels that prevailed in the early months of 2011, this has also contributed significantly to the drop in earnings from industrial exports in 2012. Expenditure on imports declined considerably in December 2012.

Expenditure on consumer goods declined in December 2012 with expenditure on food imports as well as other consumer goods including vehicles declining. Lower import expenditure in respect of vehicles has continued to make a significant contribution to the deceleration in total expenditure on imports in 2012. In December 2012, expenditure on intermediate goods imports also declined on year-on-year basis. This decline was driven by lower import expenditure in relation to petroleum products, diamonds, precious & semi-precious stones, and mineral products. Both these categories of imports, *i.e.*, consumer goods and intermediate goods, have contributed to the continued decline in import expenditure since April 2012. Import expenditure in relation to investment goods however increased in December 2012, along with an increase in expenditure on imports of building materials and machinery & equipment.

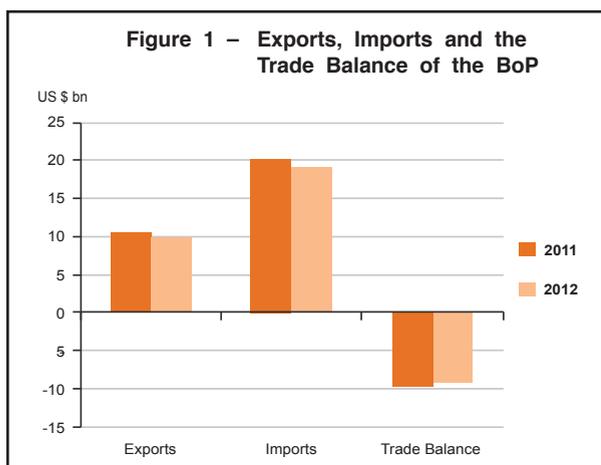

With respect to the services account and current transfers in the BOP, earnings from tourism and workers' remittances recorded the highest ever inflows for a year in 2012. Tourist arrivals in December 2012 increased by 25.4 per cent, year-on-year, to 122,252. Accordingly, tourist arrivals totalled 1,005,605 in 2012, a growth of 17.5 per cent. Tourist arrivals exceeded one million in a calendar year for the first time in 2012. Meanwhile, the highest ever monthly earnings from

tourism were recorded in December 2012 with earnings from tourism amounting to US dollars 133.5 million. For the year 2012 as a whole, earnings from tourism totalled US dollars 1,039 million, following an impressive growth of 25.1 per cent. Earnings from tourism exceeded US dollars one billion in a calendar year for the first time in 2012. Inflows on account of workers' remittances increased by 9.3 per cent, year-on-year, in December 2012. For 2012, workers' remittances recorded a growth of 16.3 per cent and amounted to US dollars 5,985.3 million.

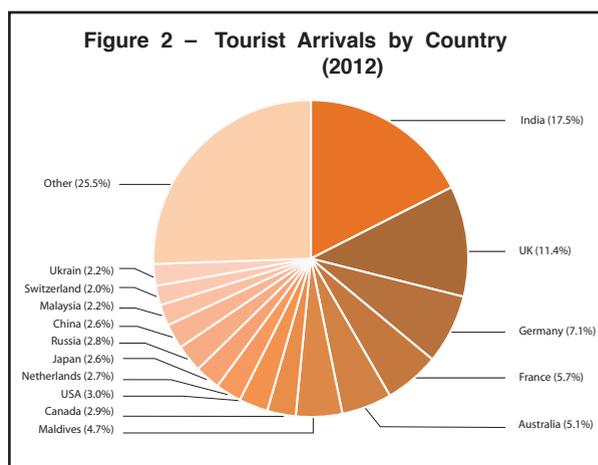

There have been substantial foreign currency inflows to the capital and financial account of the BOP during 2012. Foreign investments at the Colombo Stock Exchange (CSE) in 2012 resulted in a net inflow of US dollars 305 million compared to the net outflow of US dollars 171 million recorded in 2011. There has been a significant increase in foreign investments in Government securities, with net inflows to Treasury bills and Treasury bonds during 2012 amounting to US dollars 843 million compared to the net inflow of US dollars 233 million in 2011. Further, long-term loans obtained by the government during 2012 amounted to US dollars 2,869 million, while long-term borrowings by commercial banks during 2012 amounted to US dollars 973 million. Foreign Direct Investment (FDI), including foreign loans obtained by BOI companies, amounted to US dollars 615 million for the first nine months of 2012, and more inflows are expected to have materialised during the remainder of the year 2012.

Gross official reserves amounted to US dollars 6,877 million by end 2012, while total international reserves which include gross official reserves and foreign assets of commercial banks, amounted to US dollars 8,358 million by end 2012. In terms of months of imports, gross official reserves were equivalent to 4.3 months of imports by end 2012, while total reserves were equivalent to 5.3 months of imports.

(a) Provisional

(b) FDI inflows, including foreign loans to BOI companies, are recorded for the first nine months of each year.

(c) Inflows to the Government include capital and current transfers to the government, inflows from sale of Treasury Bills and Treasury Bonds and long-term loans of the Government.

### 3. Monetary Policy Review – February 2013

*Data from the monetary sector and the external sector for the full year of 2012 reflects the effect of the tight policy measures adopted in February/March 2012. In the monetary sector, broad money growth continued to moderate to 17.6 per cent in December from a peak growth of 22.9 per cent in April 2012.*

Growth of credit extended to the private sector also decelerated to 17.6 per cent by end 2012 from 34.5 per cent at end 2011. However, with increased borrowing by the Government and public corporations from the banking sector, the overall expansion of domestic credit remained at 21.7 per cent at end 2012. In the external sector, the tight policy measures resulted in a marked decline in non-oil imports, narrowing the deficit in the trade account in 2012. Increased workers' remittances, service inflows, and inflows to the capital and financial account resulted in a surplus in the Balance of Payments (BOP). Consequently, the external reserves of the country expanded while the rupee strengthened against major currencies.

With the macroeconomic stabilisation objectives of the February/March 2012 policy package being realised, the Central Bank was able to relax its monetary policy stance in December 2012. The reduction in policy interest rates and the expiration of the credit ceiling in December 2012 are now expected to support the economy to move towards its full potential in 2013. Compared to the increase of credit of Rs. 352 billion extended to the private sector by commercial banks in 2012, the Central Bank expects credit to the private sector to increase by around Rs. 435 billion (a year-on-year growth of 18.5 per cent) in 2013. Since such a credit growth will be compatible with the anticipated expansion in economic activity, it is not expected to fuel any demand driven inflationary pressures during the year.

In the meantime, short term money market interest rates have declined sharply in response to the relaxation of monetary policy, although deposit rates and lending rates are yet to adjust downwards. However, it is expected that these essential adjustments will take place in the ensuing weeks, which will stimulate private sector economic activity.

At the same time, inflation has remained at single digit levels over the past four years, although rising to 9.8 per cent, year-on-year, in January 2013, due to adverse weather conditions affecting vegetable prices, revisions to administratively determined prices and the base effect. Although vegetable prices have already declined substantially, year-on-year inflation in February is expected to remain at around the current level before decelerating thereafter.

Based on the above, the Monetary Board at its meeting held on 11 February 2013 was of the view that the current monetary policy stance was appropriate, and accordingly, the Monetary Board decided to maintain the Repurchase rate and the Reverse Repurchase rate of the Central Bank unchanged at 7.50 per cent and 9.50 per cent, respectively.

The date for the release of the next regular statement on monetary policy will be announced in due course.

### 4. Sri Lankan authorities decide not to pursue a new IMF Funding Programme

*Since completion of the Stand-by-Arrangement successfully with the IMF in July 2012, the Sri Lankan authorities and the IMF have been engaging in a dialogue on the future relationship between Sri Lanka and the Fund.*

In the meantime, Sri Lanka has moved to a more market oriented exchange rate determination regime and the country's reserves have increased to a much higher level when compared to the position at the beginning of the Stand-by-Arrangement. In fact, Sri Lanka's external reserves have now reached a level

of approximately US\$ 7 billion, from just over US dollars 1 billion in early 2009 when Sri Lanka commenced the Stand-by-Arrangement with the IMF. Accordingly, there appears to be a very limited need to build up a further cushion in external reserves through traditional IMF Balance of Payment support programmes, such as

Stand-by-Arrangements and Extended Fund Facilities. In that background, the Sri Lankan authorities had expressed their interest in a future IMF programme, only if such programme entailed support to finance the budget within the announced fiscal consolidation process by which the Government has already committed to bring down the fiscal deficit to 5.8 per cent of GDP in 2013 and below 5 per cent of GDP in the medium term.

However, during consultations, the IMF has indicated that the Fund may not be in a position to consider any direct or indirect budget support to Sri Lanka, since the current improved status of Sri Lanka does not warrant unconventional and

exceptional financial support to the Government of Sri Lanka from the IMF. The IMF has also been of the view that Sri Lanka has now developed well-established access to international capital markets and therefore budget support, if necessary, could be conveniently accessed from such market sources and hence there is no need to access the Fund for such budget financing.

In view of above circumstances, Sri Lankan authorities have decided not to pursue a new programme with the IMF, but to continue maintaining the close relationship with the Fund under standard consultation processes similar to many other member countries.

## **5. Issue of Sri Lanka Development Bonds (SLDBs)**

*The Central Bank of Sri Lanka, on behalf of the Government of Sri Lanka, offered to issue Sri Lanka Development Bonds (SLDBs) of US dollars 60 million in 3-year tenor to eligible investors for subscription at a rate of US Dollar 6 month LIBOR plus a margin to be determined through competitive bidding.*

The offer was opened from 08 – 15 February 2013 for bidding with the settlement on 22 February 2013. Foreign and local commercial banks operating in Sri Lanka subscribed at the auction. The offer was oversubscribed by 2.5 times with total bids received amounting to US dollars 152.12 million. In view of the high demand by the investors, the Government decided to accept US dollars 152.12 million in 3 year maturity at the market determined rate of US Dollar 6 month LIBOR + 400 bps (weighted average margin). Today, the US Dollar 6 month LIBOR rate is 0.4649 per cent. With this transaction, the Government succeeded in

maintaining a lower margin as the previous three-year SLDB issue in September 2012.

The SLDB issue was executed in terms of Section 2(a) and 2(c) of the Foreign Loans Act, No. 29 of 1957 as amended.

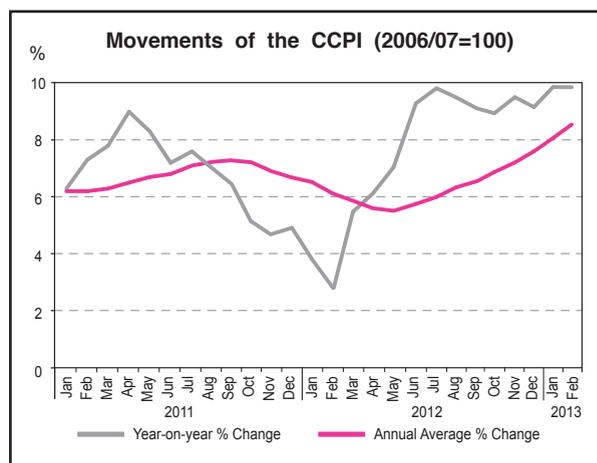

The SLDBs are transferable by endorsement, delivery and registration with the Superintendent of Public Debt of the Central Bank of Sri Lanka. Eligible investors may purchase SLDBs in the secondary market through Designated Agents appointed by the Central Bank of Sri Lanka.

## 6. Inflation in February 2013

*Inflation, as measured by the Colombo Consumers' Price Index (CCPI) (2006/07=100) computed by the Department of Census and Statistics was 9.8 per cent on a year-on-year (YoY) basis in February 2013 which is the same rate as recorded in the previous month. The inflation rate on an annual average basis increased to 8.6 per cent in February 2013 from 8.1 per cent in the January 2013.*

Meanwhile, core inflation increased on both YoY and annual average basis to 7.4 per cent and 6.3 per cent, respectively, in February 2013 from 7.3 per cent and 6.1 per cent, respectively, in January 2013.

The CCPI increased by 0.4 per cent in February 2013 over the previous month, with the Index increasing in absolute terms to 170.7 from 170.0 in January 2013. The contribution to the monthly increase in the Index came mainly from price increases in the Food category (by 0.6 per cent). The prices of some varieties of vegetables, fruits, dried fish, eggs, green chillies and prepared food increased during the month. However, a decrease in the price of some varieties of vegetables, fresh fish, limes, red onions, and potatoes was reported. Within the Non-Food category, prices increased in the sub-categories of Housing, Water, Electricity, Gas and Other Fuels (by 0.4 per cent); Furnishing, Household Equipment and Routine Household Maintenance (by 0.2 per cent); Health (by 0.2 per cent); and Miscellaneous Goods and Services (by 0.7 per cent).

However, the prices in the sub-category of Clothing and Footwear recorded a decline of 0.4 per cent in February 2013. Meanwhile, the prices in the sub-categories of Transport; Communication; Recreation and Culture; and Education were unchanged during the month.

## 7. Colombo Consumers' Price Index (CCPI)

## **STATISTICAL APPENDIX**

### **Definitions and Explanatory Notes**

The following general notes supplement the footnotes given below the individual tables:—

1. The data cover monthly figures available at the time the Bulletin goes to print, and the latest available information does not relate to the same month, in every table.

To enable comparison, annual figures for recent years are given.

2. In an attempt to bring the material up-to-date provisional figures are included in some tables.
3. Figures in some tables have been rounded off to the nearest final digit. Hence there may be a slight discrepancy between the total as shown and the sum of its components.
4. Differences as compared with previously published figures are due to subsequent revisions.
5. The following symbols have been used throughout:—

n.a. = not available  
– = nil  
... = negligible

PRODUCTION, RAINFALL, INPUTS AND INVESTMENT

(a) Revised

(b) Provisional

(c) Based on the Industrial Production Survey and classified in accordance with the International Standard Industrial Classification (ISIC) Revision 4. (2010 = 100)

(d) (1) Includes manufacturing and export processing industries. Small industry is defined as those units having supply of electricity at 400/230 volts and contract demand is less than 50 KVA, medium industry as supply of electricity at 400/230 volts and contract demand is equal or more than 50 KVA and large industry as supply of electricity at 11 KV, 33 KV and 132 KV.

(2) Figures include electricity consumption of hotels.

(e) Sales other than to Ceylon Electricity Board.

(f) Excluding Petroleum exports.

(a) The index was based on Household Income and Expenditure Survey conducted in 2006/07. *Source* : Department of Census and Statistics  
 The weights are based on the consumption pattern of the urban households within the Colombo district.  
 The total basket value (at 2006/07 prices) was Rs. 27,972.11

(b) Annual and quarterly figures are averages of monthly figures.

(a) Daily wages represent payments in cash where meals are not provided by the employer. Annual and quarterly figures are averages of monthly figures.

Source: Central Bank of Sri Lanka

(b) Wages in the construction sector are paid on both daily payment and contractual basis. The series on contractual basis in previous bulletin publications has been replaced by the series on daily payment basis from the monthly bulletin of December 2005 onwards for comparison with wages in other sectors.

(c) Daily wages up to December 2004 are the average of daily wages for the two activities. From January 2005 onwards the daily wages cover both activities under a single category following the restructuring of data collection schedules.

(d) Provisional.

(a) Consists of government expenditure excluding contributions to sinking funds, direct payment of public debt and subscriptions to international financial organisations. Also excludes book adjustments arising from losses on Advance Account operations incurred and financed in the previous financial year. Hence, the figures may not tally with the figures published in the accounts of the Government of Sri Lanka.

Sources : Ministry of Finance and Planning  
Central Bank of Sri Lanka

(b) Excludes foreign investments in Treasury bills.

(c) Excludes foreign investments in Treasury bonds.

(d) Net foreign investments in Treasury bills and Treasury bonds are included.

(a) Computed from weekly averages

(b) Footnote (d) of Table 14 in the Annual Report 2011 gives the conversion formula used for the conversion of the volume of the three main types of coconut exports to their nut equivalent (from kgs)

(c) This refers to prices of the best quality copra

(a) Trade Indices were revised with a wide coverage and 2010 as the base year and calculated in terms of rupees. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, the first volume index is computed as Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(a) Trade Indices were revised with a wide coverage and 2010 as the base year and calculated in terms of rupees. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, the first volume index is computed as Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(a) Trade Indices were revised with a wide coverage and 2010 as the base year and calculated in terms of rupees. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, the first volume index is computed as Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

Central Bank of Sri Lanka

(a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Offshore Banking Units have been treated as a part of the domestic banking system.

(b) Provisional

(c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.

(d) Includes port and airport related services.

(e) Passage collections by foreign shipping agents and airlines are included in 'passenger fares'.

(f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.

(g) Indicates outright grants received in the form of project aid.

(h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. The debit entries in respect of such imports are in the merchandise account and are recorded on an accrual basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.

(i) Includes US\$ 973 million of long-term borrowings by commercial banks in 2012.

(j) The change in capital of the monetary sector is based on local records.

(k) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF and the receipts under the Stand-by Arrangement facility in 2009. US dollar and Sri Lanka rupee values reflect changes in the representative rate of the Special Drawing Rights (SDRs). Figures in the debit column are in respect of repurchases or repayments, made in installments to the IMF, in respect of earlier drawings.

(a) Special Drawing Rights (SDRs), the unit of account of the International Monetary Fund.

Source: Central Bank of Sri Lanka

(b) The NEER is the weighted average of nominal exchange rates of the 24 trading partner and competitor countries. Weights are based on the trade shares reflecting the relative importance of each currency in the currency basket.

(c) The REER is computed by adjusting the NEER for inflation differentials with the countries whose currencies are included in the basket.

(a) Annualised Forward Premium ( $f^d$ ) is computed using the following formula.

Source: Central Bank of Sri Lanka

$$f^d = \{[F_t^T - S_t] / S_t\} * 100 * (12/T)$$

Where  $F_t^T$  is the forward rate for period  $t$  that exists in period  $t$  ( $T = 1, 3$ ) and  $S_t$  is the interbank spot rate at period  $t$ .

(a) The number of reporting banks was 23 from January 2006, 22 from October 2008, 23 from August 2011 and 24 from December 2011.

(b) Fixed and other assets consists of banks' property, furniture, fittings and sundries (commission, interest receivables etc.)

(c) Liquid assets consist of Cash on hand, Balances due from Central Bank, Foreign currency on hand and Balances due from banks abroad, Government of Sri Lanka Treasury bills and bills discounted. Balances due from domestic banks and cash items in process of collection have been excluded from liquid assets and domestic inter-bank deposits have been excluded from demand deposits, because from the view point of the commercial banking system as a whole such claims and deposits cancel out.

Note: 1. An Offshore Banking Unit (OBU) is a unit in a commercial bank, established in terms of Central Bank Circular No. 380 of 2 May 1979, which accepts deposits and grants advances in designated foreign currencies from and to :

(a) Non Residents, (b) Commercial Banks, (c) Board of Investment (BOI) Enterprises, and (d) Other residents approved by the Central Bank.

2. Assets and Liabilities denominated in foreign currencies have been converted into Sri Lanka rupees at exchange rates prevailing at the end of the relevant period.

(a) M<sub>2b</sub> is based on the aggregated data pertaining to both Domestic Banking Units (DBUs) and Offshore Banking Units (OBUs) of Licensed Commercial Banks operating in Sri Lanka. Definitional changes have been adopted in aggregating DBUs and OBUs to avoid double counting and misclassification of assets and liabilities.

(Contd.)

The major changes are:

- (1) All DBU placements in OBUs are recorded as domestic assets, while all DBU borrowings from OBUs are recorded as domestic liabilities.
- (2) Foreign currency deposits with DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply:
  - (i) One half (50 per cent) of Non-Resident Foreign Currency (NRFC) deposits are treated as domestic deposit liabilities;
  - (ii) All Resident Non-National Foreign Currency (RNFC) balances are treated as foreign liabilities;
  - (iii) All other domestic foreign currency accounts are treated as domestic deposit liabilities.

(b) External assets (net) of the Central Bank and commercial banks (including outward bills)

(c) Currency and demand deposits of the public

(d) Time and savings deposits of the public held with commercial banks

(Contd.)

(a) M<sub>4</sub> is based on the aggregated data pertaining to Licenced Specialised Banks (LSBs) and Licenced Finance Companies (LFCs), in addition to the institutions covered in M<sub>2b</sub>.

(b) Currency, demand deposits and quasi money of DBUs in this table differ from those in Table 56 due to the fact that LSBs and LFCs are not treated as 'Public' under the Financial Survey (M<sub>4</sub>) definition.

(c) Time and savings deposits of the private sector with commercial banks, LSBs and LFCs.

(d) LSBs include Regional Development Banks/Pradeshiya Sanwardhana Bank (which was established on 14 July 2010 by amalgamating Regional Development Banks, DFCC Bank, National Savings Bank, State Mortgage and Investment Bank, MBSL Savings Bank Ltd., SANASA Development Bank Ltd., HDFC Bank of Sri Lanka, Sri Lanka Savings Bank Ltd. and Lankaputhra Development Bank Ltd.

(e) Credit extended by the Central Bank, LCBs, LSBs and LFCs to the Government, net of Government deposits and Government cash balances.

(f) The sharp increase in credit to private sector by LFCs in some months could be attributed to already established Specialised Leasing Companies (SLCs) obtaining LFC licenses.

Source: Central Bank of Sri Lanka

(a) Under Sections 10c, 93, 94, 96 and 97 of the amended Monetary Law Act (Chapter 422), commercial banks and other financial institutions are required to maintain reserves against their deposit liabilities as prescribed by the Monetary Board. Currently, only commercial banks are subject to reserve requirements. With effect from 24 January 1992, an amount of till cash over and above two per centum of the total deposit liabilities, but not exceeding four per centum, could be maintained as a part of required reserves in the form of Sri Lanka currency notes and coins. Details of required reserve ratios, which were applicable in the past and computational methods have been published in the Appendix table on the 'Reserve Position of Commercial Banks' in the Annual Reports prior to 2003.

(b) Reserve data are for the last reserve week of each month. The required reserves recorded in the table refer to the cumulative reserves for the week, while commercial bank's deposits with the Central Bank are the cumulative deposits for that particular reserve week. Excess/Deficit on SRR is the difference between the cumulative SRR for the reserve week and cumulative deposits of the commercial banks' for the week.

(c) Excludes interbank deposits.

(d) With effect from 03 April 2003, the basis of computing the Statutory Reserve Requirement (SRR) was changed from deposit liabilities and till cash balances at the close of business on Wednesday of the previous reserve week, to the average of deposit liabilities and till cash balances during the week ending Tuesday of the previous reserve week.

(e) SRR was increased from 7.00 per cent to 8.00 per cent with effect from 29 April 2011.

(a) All interest rates are as at the end of period, unless otherwise stated.

(b) The rate at which the Central Bank grants advances to banking institutions as the lender of last resort.

(c) Average Weighted Deposit Rate (AWDR) is calculated by Central Bank monthly, based on the weighted average of all outstanding interest bearing deposits of commercial banks and the corresponding interest rates.

(d) The Average Weighted Prime Lending Rate (AWPR) is calculated by the Central Bank weekly, based on commercial bank's lending to their prime customers during the week. The monthly figures are average values of estimated weekly rates.

(e) The Sri Lanka Inter-Bank Offered Rate (SLIBOR) is computed daily by the Central Bank, based on rates offered by commercial banks in the inter-bank market. The rate shown is the average of such offered rates by selected commercial banks.

(a) Secondary market information is based on data provided by Primary Dealers in Government Securities.

(b) Trading volumes reported are cumulative for the period.

(c) Yield rates are averages of bid and offer rates

(d) Unlike Treasury bills, Treasury bonds are not issued on a regular basis. Hence a continuous series of primary market yield rates does not exist.

(e) The yield rates on Rupee Securities are administratively determined. The given rates include taxes.

Foreign Currency Accounts		
Inward TTs	Rs. 2,000 US \$ 50	Rs. 250 US \$ 3
Foreign currency notes	Rs. 250 1.00%	Rs. 250 1.00%
Traveller's cheques	Rs. 1,000 US \$ 10	Rs. 500 US \$ 1

## C. Domestic Banking Operations

Current Accounts	Maximum	Minimum
Issuing cheques	Rs. 100 per leaf	Rs. 5 per leaf
Returned cheques		
– for insufficient funds	Rs. 2,500	Rs. 200
– technical objections	Rs. 500	Rs. 100
Stopped cheques	Rs. 2,500	Rs. 250
Standing instructions	Rs. 750	Rs. 50
Monthly service charges	Rs. 1,000	Rs. 25
Loans		
Application processing fees	Rs. 75,000	Rs. 100
Inspection charges	Rs. 50,000	Rs. 100
ATM and Credit Cards		
ATM cards – Issuing fee	Rs. 500	Rs. 13
Credit cards – Issuing fee	Rs. 3,500	Rs. 200
Renewal fee	Rs. 10,000	Rs. 180

## Notes :

- (1) Commercial banks charge a variety of fees and commissions on their services. The table gives a range of the maximum and minimum fees and commissions which are based on the information provided by commercial banks. These charges, which do not change very frequently are published semi-annually to enable the public to negotiate best terms. These fees and commissions could be different when services and products are provided as a package.
- (2) These are standard charges of commercial banks. However, charges for some specific products could include charges payable to banks abroad. For example, banks in Sri Lanka may include in their charges fees payable to banks abroad such as for adding confirmation to Letters of Credit, and for correction of discrepancies.
- (3) In the case of Documentary Credits, the charges for transmission outward from Sri Lanka would differ depending on the mode of transmission used.
- (4) Loan application processing fees vary according to the loan amount.
