Part I
EVENTS OF THE MONTH
January 2012

Fiscal Sector

- Following items were exempted from VAT.
 - importation of speakers and amplifiers, digital stereo processors and accessories, cinema media players and digital readers
 - importation of green houses, poly tunnels and materials for the construction of green houses and poly tunnels by the growers
 - import or the supply of lorries, trucks, buses, sports equipment, machinery use for the production of rubber and plastic products, wood sawn, sunglasses, perfumes, mammoths, forks, moulding (steel, glass, rubber and plastic), items and spare parts need in the poultry industry, photo sensitive semi-conductor devices, raw materials exclusively used for the manufacture of spectacles and spectacle frames
- Importation of aircrafts, ships, artificial limbs, crutches, wheel chairs, hearing aids, accessories for such aids, white canes for the blind, braille typewriters and parts, braille writing papers and boards, timber logs, yarn except sewing thread and vegetable fibre based yarn and fabric were exempted from NBT.
- SCL was increased on the importation of selected food items such as sugar, masoor dhal-whole, masoor dhal-split and garlic for a period of four months.
- SCL on the importation of the fresh or chilled and frozen fish, and edible oils including soya bean oil, palm oil, sunflower oil and coconut oil was introduced for a period of four months.
- The full customs duty waiver granted on the importation of petrol and diesel was reduced to Rs.23 per litre from Rs.35 per litre and to Rs.13 per litre from Rs.15 per litre, respectively.
- The supply of following items were exempted from VAT.
 - locally manufactured hydropower machinery and equipment, products canned fish, turbines, specified products to identified state institutions replacing imports and pottery products
 - research and development services, services by the department of commerce and paintings by artists
 - The value addition attributable to a Unit Trust or a Mutual Fund from interest, dividend or dealing in debt instruments

- Wholesale or retail sale of goods to exporters, fresh milk, green leaf, cinnamon, rubber (latex, crape or sheet rubber), petrol, diesel or kerosene in a filling station, sale of locally manufactured clay roof tiles and pottery product by the manufacturer, sale of paintings by artists were exempted from NBT.
- Telecommunication Operator Levy on outgoing international calls was increased from Rs. 2 per minute to Rs. 3 per minute.
- International Telecommunication Operator Levy of incoming international calls was increased from US dollars 0.07 per minute to US dollars 0.09 per minute.

A Loan from the International Development Association (IDA)

An agreement was signed between the Government of Sri Lanka and IDA, on 29 November 2011, for a loan amounting to SDR 30.3 million (approximately Rs. 5.4 billion) to finance the second and third additional financing for Community Livelihoods in Conflict Affected Areas Project. The loan carries a commitment fee of 0.5 per cent per annum and a service charge of 0.75 per cent per annum. The loan is repayable in 20 years including a grace period of 10 years.

Loans from the Exim Bank of India

Two agreements were signed between the Government of Sri Lanka and Exim Bank of India, on 17 January 2011. The details of the loans are as follows;

1. A loan amounting to USD 60.7 million

An agreement was signed for a loan amounting to US dollars 60.69 million (approximately Rs. 6.9 billion) to finance the Greater Dambulla Water Supply Project I. The loan carries an interest fee of 6 months LIBOR plus 2 per cent per annum, a commitment fee of 0.5 per cent per annum and a management fee of 0.5 per cent per annum. The loan is repayable in 14 years including a grace period of 3 years.

2. A loan amounting to USD 328.37 million

An agreement was signed for a loan amounting to US dollars 382.37 million (approximately Rs. 37.4 billion)

to finance the restoration of Northern Railway Services Project. The loan carries an interest fee of 6 months LIBOR plus 0.5 per cent per annum, a commitment fee of 0.5 per cent per annum and a management fee of 0.5 per cent per annum. The loan is repayable in 20 years including a grace period of 5 years.

A Grant from the World Bank

An agreement was signed between the Government of Sri Lanka and the World Bank on 20 December 2011, for a grant of Indian rupees 13.2 billion (approximately Rs. 28.5 billion), to finance the Health Sector Development Project.

Part II
PRESS RELEASES
January 2012

1. Inflation continued to remain at single digit level in 2011

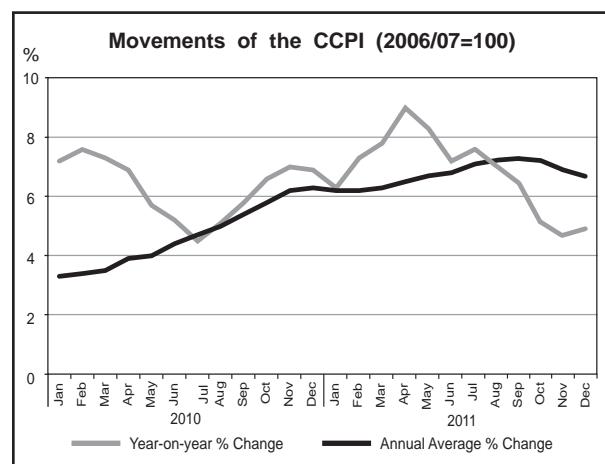

As projected in the beginning of the year the rate of year-on-year inflation, as measured by the Colombo Consumers' Price Index (CCPI) (2006/07=100), computed by the Department of Census and Statistics, decreased to 4.9 per cent in December 2011 from 6.2 per cent in January 2011 and the annual average rate of inflation recorded as 6.7 per cent in December 2011 thus stabilising the inflation at the mid single digit level.

The year-on-year core inflation, which is computed by excluding the items of fresh food, energy, transport, rice and coconut from the CCPI basket, also declined reaching 4.7 per cent in December 2011. The annual average core inflation reached 6.9 per cent by the year end.

Price Movements in 2011

The contribution to the annual average increase of 6.7 per cent in the Index came mainly from price increases in the sub category of Food and non alcoholic beverages (8.8 per cent). Meanwhile, average prices in the sub categories of Housing, water, electricity, gas and other fuels (4.3 per cent); Transport (7.1 per cent); Clothing and footwear (13.4 per cent); Furnishing, household equipment and routine household maintenance (4.6 per cent); Health (2.7 per cent); Education (3.5 per cent); Miscellaneous goods and services (3.9 per cent); and Recreation and culture (5.5 per cent) increased compared to the previous year. However, the prices in the sub category of Communication remained unchanged during the year.

Increases in prices of locally produced agricultural and other food commodities, especially of vegetables were significant in the first three months of the year, due to both crop destructions and transport disruptions that occurred owing to the flood situation prevailed in major producing areas. Although this situation was temporary, inflation on a year-on-year basis continued to increase until it peaked in April and then decreased with the improved supply conditions. The increase in prices of imported food commodities such as wheat flour and milk powder in the international market led to the increase in the food

sub index and thereby the CCPI. Further, the upward price revisions of diesel, petrol, kerosene, LP gas and bus fares effected during the reference period also contributed both directly and indirectly to inflation.

The average price of rice was lower in 2011 when compared to 2010, despite a sharp drop in production in the Maha season. Although the prices of almost all varieties of rice recorded marginal increases during February and March 2011, prices began to decline subsequently due to availability of sufficient stocks in the market with a bumper Yala harvest. However, a gradual increase in the price of rice was observed since October 2011.

The weighted average prices of vegetables increased by 7.4 per cent in 2011, when compared to that of 2010. The prices of most varieties of both low-country and upcountry vegetables and leafy vegetables recorded significant increases during

January to March 2011 on account of supply shortages that resulted from heavy rains and floods experienced in major producing areas. However, improvements in supply conditions of vegetables from April onwards helped bring down the prices of vegetables substantially although it showed an increasing trend during November and December due to seasonal factors.

Although the prices of coconut and coconut oil remained high in the first four months of the year, a clear declining trend was observed from May onwards, recording the lowest level in November. On average, the prices of both coconut and coconut oil declined by 29.2 per cent and 28.7 per cent respectively, in December from those in January 2011.

Among the other domestically produced food commodities, average prices of red onion and potatoes were higher by 61.9 per cent and 10.5 per cent respectively, while that of big onion lower by 5.9 per cent, during the year when compared to the previous year. The significant increase in the average price of red onion during the year was mainly due to the higher price prevailed during the first two months of 2011 resulted from lower supply caused by adverse weather conditions. The prices of onion, however, declined from March onwards when compared to prices that prevailed in January 2011. In the case of potatoes, an increasing trend in prices was observed from April onwards due to reduction in supply. Subsequent downward revision by the government in Special Commodity Levy (SCL) in December 2011 helped to stabilise the prices of potatoes.

Despite the growth in fish and sea food production by 15.5 per cent during the first ten months of the year, the weighted average price of

fresh fish increased by 6.0 per cent in the first ten months of 2011 when compared to the corresponding period of 2010. The average price increase was 5.1 per cent in 2011 as compared to 2010. In general, the price increase was lower in the case of small fish. The prices of all varieties of dried fish showed increases in 2011, in line with the increased fish prices. Meanwhile, price of eggs remained at a lower level in 2011 when compared with that of 2010.

The upward price revisions of fuel and LP gas on several occasions during the year also had an impact on the CCPI both directly and indirectly. Consequent to the increase in the import price of crude oil, the prices of diesel, petrol and kerosene were revised on several occasions during 2011. Accordingly, the prices of these items increased by 15.1 per cent, 19.1 per cent and 39.2 per cent, respectively during the year. The bus fares were also increased by 7.6 per cent w.e.f. 01 July 2011. Meanwhile, the price of a 12.5 kg cylinder of LP gas increased on average by 29.0 per cent from January to December 2011. In addition to the direct impact, those price revisions also had an indirect impact on the CCPI through the cost of production.

In line with the price increases in the international market, domestic prices of several food commodities increased in 2011. Accordingly, the increase in the price of wheat flour by Rs. 3 per kg w.e.f. 19 April 2011 caused the price of a loaf of 450g bread to increase by Rs. 2 w.e.f. 22 April 2011. Meanwhile, the maximum selling price of a 400g packet of milk powder was increased by Rs. 20 w.e.f. 03 May 2011. This too contributed to an increase in CCPI for the period under reference.

2. Monetary Policy Review – January 2012

In the third quarter of 2011, GDP grew by 8.4 per cent, with all three sectors, Agriculture, Industry and Services, contributing towards that growth performance. GDP growth in 2011 is estimated to be around 8.3 per cent.

In the meantime, the significant structural changes that have taken place in the Sri Lankan economy over the last several years are expected to provide the momentum for the economy to grow by about 8 per cent in 2012, even in the midst of the slowdown in global economic activity. Continued development efforts aimed at improving economic and social infrastructure are expected to augment the productive capacity of the

country and thereby enable the realisation of the country's growth potential. Improvements in infrastructure would also help eliminate supply bottlenecks, thus helping to reduce price pressures. As inflation is expected to remain around mid-single digit levels in 2012, broad money (M_{2b}) is expected to grow by around 15 per cent in 2012, as announced in the 'Road Map for Monetary and Financial Sector Policies for 2012 and beyond'.

The ongoing structural changes in the economy are also likely to be reflected in the external sector, with earnings from tourism projected to increase to US dollars 1.2 billion, migrant worker remittances expected to increase to US dollars 6.5 billion, foreign direct investment (FDI) projected to record US dollars 2.0 billion, and inflows of debt capital to the private sector also expected to increase significantly in 2012.

On the fiscal front, preliminary estimates indicate that the government has contained the fiscal deficit to a level within the revised target of 7 per cent of the GDP in 2011. It is expected that the government would bring down the fiscal deficit to 6.2 per cent of the GDP in 2012, thereby augmenting the resource availability to the private sector further.

With regard to monetary developments, credit obtained by the private sector remained robust through 2011, and by November, recorded a year-on-year growth of 33.5 per cent. Largely reflecting the robust expansion of credit, broad money growth also remained at a level higher than that projected for 2011. Year-on-year growth of broad money (M_{2b}) was 20.6 per cent by November. However, market interest rates moved upwards in recent months, in line with changing liquidity

conditions in the domestic money market. As a result, the benchmark yield on one year Treasury bills recorded an increase of around 175 basis points in 2011, while the average weighted deposit rate (AWDR) recorded an increase of about 100 basis points. Meanwhile, the average weighted prime lending rate (AWPR) increased by around 120 basis points in 2011, although at the last auction, the weighted average yields on Treasury bills in the primary market remained unchanged, indicating some stabilisation in market conditions. These moderate upward movements in interest rates are likely to exert a restraining effect on monetary aggregates, which would, in turn, help to curb the build up of demand pressures.

Taking into consideration the above developments, the Monetary Board is of the view that the present policy stance does not require any adjustment and accordingly, at its meeting held on 10th January 2012, decided to maintain the Bank's policy interest rates unchanged at their current levels, i.e., the Repurchase rate at 7.00 per cent and the Reverse Repurchase rate at 8.50 per cent.

The release of the next regular statement on monetary policy will be on 9th February 2012.

3. External Sector Performance – November 2011

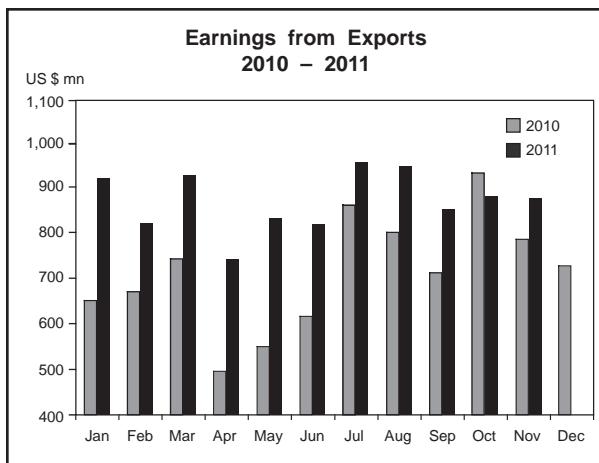

The structural shift in the economy driven by broad based economic growth including that of former conflict affected areas have contributed to the continuous expansion in external trade, as well as identified sustainable foreign exchange inflows to support and nurture continuous economic activity.

In November 2011, earnings from exports grew by 11.6 per cent to US dollars 879 million, while expenditure on imports increased by 78 per cent to US dollars 1,981 million compared to that of November 2010. Imports were mainly driven by increased demand for investment goods by the government infrastructure projects (a considerable part of which was funded by foreign loans to government) and higher intermediate and investment goods imports by the private sector.

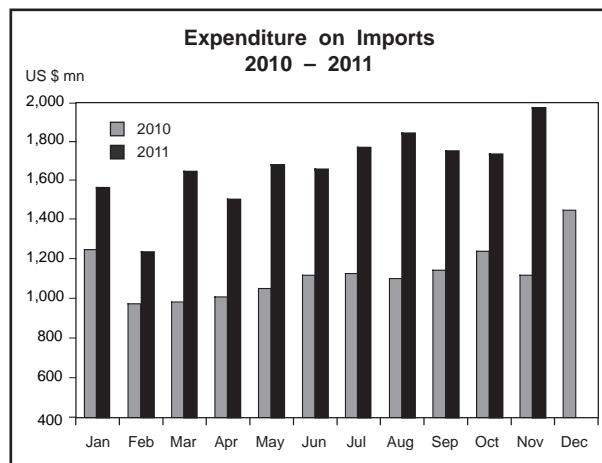

The exports of machinery and equipment, petroleum products, rubber based products, diamond and jewellery, food, beverages and tobacco and textile and garments continued to record healthy growth levels, while the agricultural exports recorded a marginal increase in November 2011, compared with the corresponding month of 2010. Industrial exports grew by 35 per cent in November 2011 in which textiles and garments

rose by 28.5 per cent and machinery and equipment increased substantially by 97.3 per cent in November 2011 compared to the corresponding month of 2010. The sharp increase in machinery and equipment exports is due to the export of two small ships to Singapore and Tanzania. Among the agricultural exports, tea and coconut, including kernel products, increased year-on-year by 7.1 per cent and 46.9 per cent, respectively, in November 2011. The earnings from rubber exports declined in November 2011 due to decline in export volumes as demand from domestic industries for rubber continued to remain elevated.

Expenditure on imports in November 2011 was mainly driven by increases in imports of intermediate and investment goods. The intermediate goods imports increased year-on-year by 81.1 per cent, led by petroleum, textiles and clothing and fertiliser imports.

Sources : Central Bank of Sri Lanka
Sri Lanka Customs

Sources : Central Bank of Sri Lanka
Sri Lanka Customs

The import expenditure on petroleum increased mainly due to higher average import price of crude oil of US dollars 113 per barrel in November 2011 compared to US dollars 84.85 per barrel for the corresponding month of 2010. Fertiliser imports grew in terms of both prices and volumes, by 326 per cent and 99.9 per cent, year-on-year, respectively, and the sharp increase of volume was mainly due to expansion of fertiliser subsidy to cover all crops. Expenditure on imports of investment goods increased substantially by 91.9 per cent while the non-food consumable imports increased by 48.2 per cent, year-on-year, in November 2011.

In cumulative terms, for the first eleven months of 2011, earnings from exports increased by 22.2 per cent to US dollars 9,581 million while the expenditure on imports, driven by substantial increase in investment goods and the sharp increase in price and volume of petroleum imports, increased by 53.2 per cent to US dollars 18,417 million, compared with the corresponding period of 2010. In addition, gold and motor vehicle imports contributed to the overall increase in import expenditure. The gold imports increased more than six fold to US dollars 553 million while the expenditure on imports of motor vehicle almost doubled to US dollars 913 million during the first eleven months of 2011, compared with the same period of 2010. The trade deficit for the first eleven months of 2011 stood at US dollars 8,835 million, a significant portion of which was on account of imports of infrastructure related projects of the government that have been funded mainly by foreign loans. In that context, the total inflows to the government, including the proceeds of the International Sovereign Bond issue, amounted to US dollars 4,027 million, during the first eleven months of 2011.

During 2011, earnings from tourism grew at a healthy rate of 44.2 per cent to US dollars 830 million in 2011 compared to 2010. The tourist arrivals in 2011 increased by 30.8 per cent to 855,975 compared to that of 2010. The cumulative inflows on account of workers' remittances grew at 23.8 per cent to US dollars 4,639 million for the first eleven months of 2011. The expansion in exports of services and increased workers' remittances helped contain the impact of the trade deficit, thereby sharply reducing the deficit of the current account to approximately US dollars 3,999 million for the first eleven months of 2011. Inflows on account of short-term foreign financing obtained by commercial banks and funds to be secured from abroad as Tier II capital of banks are expected to further strengthen inflows to the country, as noted by the fact that banks have already contracted US dollars 490 million as short-term facilities extending up to one year. Meanwhile, several banks have also already negotiated Tier II capital which could potentially reach about US dollars 1 billion this year.

By end November 2011, gross official reserves, excluding Asian Clearing Union (ACU) balances, amounted to US dollars 6,201 million. By end November 2011, total external reserves, which includes gross official reserves and foreign assets of commercial banks amounted to US dollars 7,541 million. In terms of months of imports, gross official reserves and total external reserves by end November 2011 were equivalent to 3.8 months and 4.6 months, respectively.

The performance of external sector for the period in consideration is further illustrated in the Table 1.

Table 1
External Trade Performance

4. Inflation drops in January 2012

Year-on-year (YoY) inflation, as measured by the Colombo Consumers' Price Index (CCPI) (2006/07=100) computed by the Department of Census and Statistics, decreased significantly to 3.8 per cent in January 2012 from 4.9 per cent in December 2011.

The annual average inflation also decreased to 6.5 per cent in January from 6.7 per cent in December 2011. In addition, the core inflation, which is computed by excluding the items of fresh food, energy, transport, rice and coconut from the CCPI basket, continued to decline for the fourth consecutive month to 6.7 per cent on an annual average basis in January 2012. Meanwhile, the YoY core inflation remained unchanged at 4.7 per cent in January 2012.

Meanwhile, the general price level as indicated by the monthly index recorded an increase of 0.3 per cent in January 2012 over the previous month, with the Index increasing in absolute terms to 154.8 from 154.4. The contribution to the monthly increase in the Index came mainly from price increases in the non-food category. Accordingly, prices in the sub categories of Transport (2.0 per cent); Housing, water, electricity, gas and other fuels (0.3 per cent); Furnishing, household

equipment and routine household maintenance (1.1 per cent); Health (0.5 per cent); Clothing and footwear (0.5 per cent); Recreation and culture (0.4 per cent); Miscellaneous goods and services (0.2 per cent); and Education (0.1 per cent) increased compared to the previous month. Meanwhile, the prices in the sub category of Communication remained unchanged during the month. However, the prices of the sub category of Food and non alcoholic beverages decreased by 0.3 per cent in January compared to December 2011. Within the Food sub category, prices of some varieties of vegetables, potatoes, big onions, limes, green chillies, dried chillies and sugar declined due to improvements in supply.

STATISTICAL APPENDIX

Definitions and Explanatory Notes

The following general notes supplement the footnotes given below the individual tables:-

1. The data cover monthly figures available at the time the Bulletin goes to print, and the latest available information does not relate to the same month, in every table.

To enable comparision, annual figures for recent years are given.

2. In an attempt to bring the material up-to-date provisional figures are included in some tables.
3. Figures in some tables have been rounded off to the nearest final digit. Hence there may be a slight discrepancy between the total as shown and the sum of its components.
4. Differences as compared with previously published figures are due to subsequent revisions.
5. The following symbols have been used throughout:-

n.a.	=	not available
-	=	nil
...	=	negligible

PRODUCTION, RAINFALL, INPUTS AND INVESTMENT

(a) Revised

(b) Provisional

(c) (1) Includes manufacturing and export processing industries. Small industry is defined as those units having supply of electricity at 400/230 volts and contract demand is less than 50 KVA, medium industry as supply of electricity at 400/230 volts and contract demand is equal or more than 50 KVA and large industry as supply of electricity at 11 KV, 33 KV and 132 KV.

(2) Figures include electricity consumption of hotels.

(d) Sales other than to Ceylon Electricity Board.

(e) Excluding Petroleum exports.

- (a) The index was based on Household Income and Expenditure Survey conducted in 2006/07.
The weights are based on the consumption pattern of the urban households within the Colombo district.
The total basket value (at 2006/07 prices) was Rs. 27,972.11

- (b) Annual and quarterly figures are averages of monthly figures.

Note: The Index numbers are calculated by the Labour Department on fixed weights based on the numbers employed as at 31 December 1978. The wage rate used in the calculation of Index numbers are minimum wages for different trades fixed by the Wages Boards.

Sources : Labour Department
Central Bank of Sri Lanka

- (a) The Index refers to wage rates of tea growing and manufacturing, rubber growing and manufacturing, coconut, cocoa, cardamoms and pepper growing trades only.
- (b) Includes baking, brick and tile manufacturing, coconut manufacturing, printing textile, tyre and tube manufacturing, coir mattresses & bristle fibre export, hosiery manufacturing, engineering, garment manufacturing, match manufacturing, biscuit manufacturing, tea export and rubber export trades only.
- (c) This includes cinema, motor transport and nursing homes trade only.
- (d) Combined Index for workers in Agriculture, Industry & Commerce and Services.
- (e) Provisional.

(a) Daily wages represent payments in cash where meals are not provided by the employer. Annual and quarterly figures are averages of monthly figures.

Source: Central Bank of Sri Lanka

(b) Wages in the construction sector are paid on both daily payment and contractual basis. The series on contractual basis in previous bulletin publications has been replaced by the series on daily payment basis from the monthly bulletin of December 2005 onwards for comparison with wages in other sectors.

(c) Daily wages up to December 2004 are the average of daily wages for the two activities. From January 2005 onwards the daily wages cover both activities under a single category following the restructuring of data collection schedules.

(d) Provisional.

(a) Consists of government expenditure excluding contributions to sinking funds, direct payment of public debt and subscriptions to international financial organisations. Also excludes book adjustments arising from losses on Advance Account operations incurred and financed in the previous financial year. Hence, the figures may not tally with the figures published in the accounts of the Government of Sri Lanka.

Sources : Ministry of Finance and Planning
Central Bank of Sri Lanka

(b) Excludes foreign investments in Treasury bills.

(c) Excludes foreign investments in Treasury bonds.

(d) Net foreign investments in Treasury bills and Treasury bonds are included.

(e) Provisional

(a) Computed from weekly averages.

(b) Footnote (d) of Table 14 in the Annual Report 2009 gives the conversion formula used for the conversion of the volume of the three main types of coconut exports to their nut equivalent (from kgs).

(c) This refers to prices of the best quality copra.

(d) Revised

(e) Provisional.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

Source: Central Bank of Sri Lanka

- (a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Offshore Banking Units have been treated as a part of the domestic banking system.
- (b) Provisional
- (c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.
- (d) Includes port related services.
- (e) Passage collections by foreign shipping agents and airlines are included in passenger fares.
- (f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.
- (g) Indicates outright grants received in the form of project aid.
- (h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. The debit entries in respect of such imports are in the merchandise account and are recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.
- (i) The change in capital of the monetary sector is based on local records.
- (j) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF and the receipts under the Stand-by Arrangement facility in 2009. US dollar and Sri Lanka Rupee values reflect changes in the representative rate of the Special Drawing Rights (SDRs). Figures in the debit column are in respect of repurchases or repayments, made in installments to the IMF, in respect of earlier drawings. Subscriptions to the IMF, consequent to successive increases in Sri Lanka's quota, are also shown in the debit column.
- (k) General and special allocations of SDRs by the IMF.

- (a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Offshore Banking Units have been treated as a part of the domestic banking system.
- (b) Provisional
- (c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.
- (d) Includes port related services.
- (e) Passage collections by foreign shipping agents and airlines are included in passenger fares.
- (f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.
- (g) Indicates outright grants received in the form of project aid.
- (h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. The debit entries in respect of such imports are in the merchandise account and are recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.
- (i) The change in capital of the monetary sector is based on local records.
- (j) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF and the receipts under the Stand-by Arrangement facility in 2009. US dollar and Sri Lanka Rupee values reflect changes in the representative rate of the Special Drawing Rights (SDRs). Figures in the debit column are in respect of repurchases or repayments, made in installments to the IMF, in respect of earlier drawings. Subscriptions to the IMF, consequent to successive increases in Sri Lanka's quota, are also shown in the debit column.
- (k) General and special allocations of SDRs by the IMF.

(a) Special Drawing Rights (SDRs), the unit of account of the International Monetary Fund.

Source: Central Bank of Sri Lanka

(b) The NEER is the weighted average of nominal exchange rates of the 24 trading partner and competitor countries. Weights are based on the trade shares reflecting the relative importance of each currency in the currency basket.

(c) The REER is computed by adjusting the NEER for inflation differentials with the countries whose currencies are included in the basket.

(a) Annualised Forward Premium (f^d) is computed using the following formula.

Source: Central Bank of Sri Lanka

$$f^d = \{[F_t^{t+1} - S_t] / S_t\} * 100 * (12/t)$$

Where F_t^{t+1} is the forward rate for period $t+1$ that exists in period t and S_t is the interbank spot rate at period t .

(a) Total amount of currency, including subsidiary notes and coins issued by the Central Bank

Source: Central Bank of Sri Lanka

(b) Currency held by the Treasury and the District Secretariats

(c) Total demand deposits held by the Central Bank and the commercial banks

(d) Demand deposits of the government held with commercial banks and the Central Bank

(e) Inter bank deposits both local and foreign, including deposits of international organisations and commercial banks with the Central Bank

(f) M₂ equals currency held by the public plus rupee denominated demand, savings and time deposits held by the public.

Note : The number of reporting banks were 23 until January 2006, 22 from October 2008 and 23 from August 2011.

(Contd.)

(a) Includes Central Bank securities and DFCC Bonds

(b) Fixed and other assets consists of banks' property,furniture,fittings and sundries (commission,interest receivables etc.)

(c) Liquid assets consist of Cash on hand, Balances due from Central Bank, Foreign currency on hand and Balances due from banks abroad, Government of Sri Lanka Treasury bills and bills discounted. Balances due from domestic banks and cash items in process of collection have been excluded from liquid assets and domestic inter-bank deposits have been excluded from demand deposits, because from the view point of the commercial banking system as a whole such claims and deposits cancel out.

(a) This monetary survey is based on the aggregated data pertaining to both Domestic Banking Units (DBUs) and Foreign Currency Banking Units (OBUs) of banks operating in Sri Lanka. Definitional changes have been adopted in aggregating DBUs and FCBUs data to avoid double counting and misclassification of assets and liabilities. The major changes are:

(Contd.)

- (1) All DBU placements in FCBUs are recorded as domestic assets, while all DBU borrowings from FCBUs are recorded as domestic liabilities.
- (2) Foreign currency deposits of DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply:
 - (i) One half (50 per cent) of Non-Resident Foreign Currency (NRFC) deposits are treated as domestic deposit liabilities;
 - (ii) All Resident Non-National Foreign Currency (RNFC) balances are treated as foreign liabilities;
 - (iii) All other domestic foreign currency accounts are treated as domestic deposit liabilities.

(b) External assets (net) of the Central Bank and commercial banks (including outward bills)

(c) Currency and demand deposits of the public

(d) Time and savings deposits of the public held with commercial banks

(Contd.)

- (a) This financial survey is based on the aggregated data pertaining to Domestic Banking Units (DBUs) and Offshore Banking Units (OBUs) of commercial banks, Licensed Specialised Banks (LSBs) and Licensed Finance Companies (LFCs) operating in Sri Lanka.
- (b) Currency, demand deposits and quasi money of DBUs in this table differ from those in Table 115 due to the fact that LSBs and LFCs are not treated as 'Public' under the Financial survey (M_4) definition.
- (c) Time and savings deposits of the private sector with commercial banks, LSBs and LFCs
- (d) Licensed Specialised Banks include Regional Development Banks/Pradeshiya Sanwardhana

Bank, which was established on 14 July 2010 by amalgamating Regional Development Banks; DFCC Bank, National Savings Bank, State Mortgage and Investment Bank, MBSL Savings Bank Ltd., SANASA Development Bank Ltd., HDFC Bank of Sri Lanka, Sri Lanka Savings Bank Ltd., and Lankaputhra Development Bank Ltd.

- (e) Pradeshiya Sanwardhana Bank was established on 14 July 2010 by amalgamating Regional Development Banks
- (f) Licensed Finance Companies
- (g) External assets of commercial banks (including outward bills)

Source: Central Bank of Sri Lanka

- (a) Under Sections 10c, 93, 94, 96 and 97 of the amended Monetary Law Act (Chapter 422), commercial banks and other financial institutions are required to maintain reserves against their deposit liabilities as prescribed by the Monetary Board. Currently, only commercial banks are subject to reserve requirements. With effect from 24 January 1992, an amount of till cash over and above two per centum of the total deposit liabilities, but not exceeding four per centum, could be maintained as a part of required reserves in the form of Sri Lanka currency notes and coins. Details of required reserve ratios, which were applicable in the past and computational methods have been published in the Appendix table on the 'Reserve Position of Commercial Banks' in the Annual Reports prior to 2003.
- (b) Reserve data are for the last reserve week of each month. The required reserves recorded in the table refer to the cumulative reserves for the week, while commercial bank's deposits with the Central Bank are the cumulative deposits for that particular reserve week. Excess/Deficit on SRR is the difference between the cumulative SRR for the reserve week and cumulative deposits of the commercial banks' for the week.
- (c) Excludes interbank deposits.
- (d) With effect from 03 April 2003, the basis of computing the Statutory Reserve Requirement (SRR) was changed from deposit liabilities and till cash balances at the close of business on Wednesday of the previous reserve week, to the average of deposit liabilities and till cash balances during the week ending Tuesday of the previous reserve week.
- (e) SRR was increased from 7.00 per cent to 8.00 per cent with effect from 29 April 2011.

(a) All interest rates are as at the end of period, unless otherwise stated.

(b) This is the rate at which the Central Bank grants advances to commercial banks for temporary liquidity purposes. With effect from 04 January 1991, the rate was increased to 17 per cent from 15.5 per cent. As at end 1999 this rate was 16 per cent. With effect from 02 October 2000 the rate was increased to 18 per cent and further increased to 25 per cent with effect from 21 November 2000. With effect from 02 July 2001, this rate was brought down to 23 per cent and further reduced to 18 per cent with effect from 27 December 2001. On 15 August 2003, the rate was reduced to 15 per cent.

(c) Average Weighted Deposit Rate (AWDR) is calculated monthly by the Central Bank based on the weighted average of all outstanding interest bearing deposits of commercial banks and the corresponding interest rates.

(d) The Average Weighted Prime lending Rate is estimated weekly by the Central Bank based on commercial banks' lending rates offered to their prime customers during the week. These monthly figures are average values of estimated weekly rates.

(e) The Sri Lanka Inter-Bank Offered Rate (SLIBOR) is computed daily by the Central Bank, based on rates offered by commercial banks in the inter-bank market. The rate shown is the average of such offered rates by selected commercial banks.

(a) Issue of Treasury bonds commenced in March 1997.

(b) The yield rates on Rupee Securities are administratively determined and given rates includes tax.

(c) Secondary market information is based on data provided by Primary Dealers in Government Securities and is available since October 2000.

(d) Yield rates are averages of bid and offer rates.

 Sources: Central Bank of Sri Lanka
 Primary Dealers in Government Securities

Note : Treasury bonds are not issued on a regular basis. Hence a continuous series of primary market yield rates is not available.

Credit cards – Issuing fee	Rs. 6,000	Rs. 200
Renewal fee	Rs. 10,000	Rs. 180

Notes :

- (1) Commercial banks charge a variety of fees and commissions on their services. The table gives a range of the maximum and minimum fees and commissions which are based on the information provided by commercial banks. These charges, which do not change very frequently are published semi-annually to enable the public to negotiate best terms. These fees and commissions could be different when services and products are provided as a package.
- (2) These are standard charges of commercial banks. However, charges for some specific products could include charges payable to banks abroad. For example, banks in Sri Lanka may include in their charges fees payable to banks abroad such as for adding confirmation to Letters of Credit, and for correction of discrepancies.
- (3) In the case of Documentary Credits, the charges for outward transmission from Sri Lanka would differ, on the mode of transmission used.
- (4) Loan application processing fees vary according to the loan amount.
