EVENTS OF THE MONTH
July 2010

Loan from the Australia and New Zealand Bank (ANZ Bank)

An agreement was signed between the Government of Sri Lanka and ANZ Bank on 06 July 2010 for a loan amounting to US dollars 105.19 million (approximately Rs. 11.93 billion) to finance the Integrated Water Supply Scheme of Ampara District Project. The loan facility carries an interest rate of LIBOR + 1 per cent per annum. The loan is repayable in 13 years including a grace period of 3 years.

Loan from the Hatton National Bank (HNB)

An agreement was signed between the Government of Sri Lanka and HNB on 06 July 2010 for a loan amounting to US dollars 13.33 million (approximately Rs. 1.51 billion) to finance the Integrated Water Supply Scheme of Ampara District Project. The loan facility carries an interest rate of 6 months LIBOR + 5 per cent per annum, a commitment charge of 0.5 per cent on un-drawn credit balance and a one-off management fee of 0.5 per cent on the maximum amount of the loan. The loan is repayable in 10 years including a grace period of 3 years.

Loan from the UniCredit Bank Austria AG

An agreement was signed between the Government of Sri Lanka and UniCredit Bank Austria on 21 July 2010 for a loan amounting to EURO 8.5 million (approximately Rs. 1.24 billion) to finance the Rehabilitation of Eastern Railway Line Project. The loan facility carries an interest rate of EURIBOR + 2.1 per cent per annum, a commitment charge of 0.4 per cent per annum on the un-drawn amount of credit facility and a management fee of 0.6 per cent flat of the credit facility. The loan is repayable in 8.5 years including a grace period of 2 years.

Loan from the Hatton National Bank (HNB)

An agreement was signed between the Government of Sri Lanka and HNB on 21 July 2010 for a loan amounting to EURO 1.34 million (approximately Rs. 195.34 million) to finance the Rehabilitation of Eastern Railway Line Project. The loan facility carries an interest rate of 6 months EURIBOR + 4 per cent per annum, a commitment charge of 0.5 per cent on unused credit balance and a one-off management fee of 0.5 per cent of the credit facility. The loan is repayable in 6 years including a grace period of 1 year.

Part II

PRESS RELEASES

July 2010

1. Inflation drops in June for the fourth consecutive month

Inflation, as measured by the Colombo Consumers' Price Index (CCPI) (2002=100), computed by the Department of Census and Statistics, decreased to 4.8 per cent in June from 5.3 per cent in May 2010 on the point-to-point basis. This was the fourth consecutive month in which the Index registered a decline. However, the annual average inflation increased marginally to 3.9 per cent in June from 3.6 per cent in May 2010.

The CCPI increased by 0.8 per cent in June, 2010 over the previous month, with the Index increasing in absolute terms from 215.9 to 217.7. The contribution to the monthly increase in the Index originated mainly from price increases in the sub category of Food and non-alcoholic beverages (1.2 per cent). Increase in prices of some varieties of vegetables and fish due to the lower supply resulting from bad weather conditions and seasonal factors was the main contributory factor for the upward movement in the sub index. Meanwhile, price increases were experienced in the sub categories of Housing, water, electricity, gas and other fuels (0.9 per cent); Miscellaneous goods and services (1.2 per cent);

Transport (0.1 per cent); Clothing and footwear (0.5 per cent); Furnishing, household equipment and routine household maintenance (0.03 per cent); while the prices in the Communication; Recreation and culture; Health and Education sub categories remained unchanged during the month.

2. Sri Lanka prepared to face the GSP+ withdrawal challenge

The offer was opened on 14th June 2010 with the settlement on 30th Current reports indicate that the Generalized System of Preferences plus (GSP+) facility granted by the European Union (EU) would not be available for Sri Lanka after 15 August 2010, and based on such reports, there has been considerable speculation. Hence, the Central Bank of Sri Lanka (CBSL) wishes to clarify the position with regard to the GSP+ scheme's impact vis-à-vis Sri Lanka.

As presently constituted, the GSP+ scheme provides certain duty concessions to imports from a few selected developing countries to buyers in the EU. Such concessions are entirely non-reciprocal. Naturally, therefore, a significant risk of withdrawal of such concessions by the EU authorities at any point of time, is carried by the recipient country exporters.

While the prevailing crisis in some of the economies in the EU region has added to the difficulty of continuation of such concessions by the EU, the CBSL has regularly cautioned all stakeholders about the inherent uncertainties surrounding the continuation of the GSP+ facility, and advised all to prepare for the inevitability of the discontinuation of the scheme.

As a consequence, this issue has been discussed widely over the past two years, and the government, CBSL as well as many Sri Lankan exporters to the EU have already taken many measures to deal with this risk.

Some of these measures are highlighted below;

- Improving the Sri Lankan business environment and confidence levels significantly, by ending the conflict.
- Stabilizing and improving almost all macro-economic fundamentals, including in particular;
 - Achieving a low level of inflation, thereby significantly reducing the pressure on cost of inputs;
 - Establishing lower rates of interest, thereby substantially reducing the cost of borrowing;
 - Building up foreign reserves to historically high levels, thereby enhancing investor confidence in the Sri Lankan economy;
 - Ensuring stability in the Sri Lanka rupee exchange rate, thereby enhancing predictability of the domestic foreign exchange market;
- Establishing an enabling environment where Sri Lankan businesses could access international capital and debt markets for funding requirements at lower costs;
- Achieving political stability in the country, thereby further improving confidence and reducing policy uncertainties;
- Obtaining the removal of Sri Lanka from the list of countries described a “high war risk” countries by underwriters;

- Improving internal work processes and systems of exporting entities, thereby leading to substantial productivity enhancements.

Accordingly, the CBSL now believes that the focused and long-term preparations to face the emerging conditions, in addition to the firm level actions taken towards diversifying markets, negotiating with buyers, enhancing productivity, and reducing finance and input costs, has gradually offset the possible decline in competitiveness arising from the withdrawal of the GSP+ concessions.

For purposes of record, apparel exports to EU countries constituted about 50 per cent of total apparel exports in 2009. Of such exports, about 60 per cent benefited from the GSP+ scheme, while the balance was exported to the EU without the GSP+ concession. On a net basis, the total value of the benefit to the buyers in the EU as a result of the GSP+ concession has been estimated at around euro 78 million.

It must be noted that Sri Lankan industries have proven their resilience amidst challenges on earlier occasions. The apparel sector, in particular, resisted strong competition from low cost garment producers of other countries during the phasing out of the Multi-Fiber Arrangement. At that time, not only did they adjust to the new and challenging circumstances, but actually emerged stronger to deal with the risk and expand their share in the world market. In a similar manner, with the impact of the above measures, it is likely that Sri Lankan industries would overcome the non-GSP+ challenge, and emerge even stronger.

3. Opening of the Provincial Office – Northern Province of the Central Bank of Sri Lanka

The Central Bank of Sri Lanka (CBSL) wishes to announce the opening of its fourth Provincial Office in the Northern Province on 4th July 2010 at No. 105, Arsadi Road, Jaffna. At present, CBSL operates Provincial Offices (POs) in the Southern, North-Central and Central Provinces.

One of the primary functions of the POs is to implement the development oriented loan schemes introduced by CBSL in the respective provinces. In the recent past, CBSL has implemented a number of credit schemes with refinance facilities through lending institutions to facilitate the flow of development credit. These refinance loan schemes focus mainly on agriculture and livestock development, small and

medium scale enterprises SMEs, self employment generation and poverty alleviation. In addition to facilitating the implementation of credit schemes, POs are engaged in limited central banking functions and conducting of public awareness programmes on banking and finance with a view to enhancing the knowledge of investors, teachers, students and the public.

Under the “*Uthuru Wasanthaya*” accelerated development programme, banks and non-bank financial institutions are expected to play a pivotal role in providing financial services to already settled and resettled villagers to re-start the economic activities. Accordingly, the Northern Province PO will operate as a catalyst for the accomplishment of the economic and financial development activities in the province.

CBSL considers that there are ample opportunities in the Northern Province for development of agriculture, livestock and fisheries industry and most of its development credit schemes are focused on these sectors. In addition, the potential for tourism and the

availability of valuable minerals could be considered as important sources that can be developed for both employment generation and increase in production in the region.

Thus opening of the Northern Province Provincial Office will facilitate the co-ordination and implementation of development activities by effective engagement of participating Finance Institutions under the CBSL programmes and encourage financial institutions and other entities to use the available resources in an efficient manner for economic development of the region.

4. External Sector Performance – April 2010

Earnings from exports and expenditure on imports have grown significantly on a year-on-year basis in April 2010. Earnings from exports grew by 24.2 per cent in April 2010 to US dollars 543 million led by higher earnings from the industrial and agricultural sectors. Expenditure on imports increased by 55.8 per cent to US dollars 967 million in April 2010. Accordingly, the trade deficit stood at US dollars 424 million in April 2010. The cumulative earnings from exports and expenditure on imports have increased during the first four months by 10.7 per cent to US dollars 2,307 million and 42.9 per cent to US dollar 4,192 million respectively.

The largest contribution to the growth in exports in April was from the industrial sector, led by a significant increase in exports of machinery and equipment. This comprised mainly of transport equipment such as boats and bicycles and electrical equipment such as transformers, static converters, inductors and insulated cables. Earnings from exports of rubber products,

petroleum products and diamond and jewellery have also performed well. Export earnings from textiles and garments have increased marginally to US dollars 227 million in April 2010 after seven consecutive months of year-on-year declines. Earnings from food, beverages and tobacco exports have declined by 7.3 per cent mainly due to lower exports of fresh and frozen fish.

Sources : Central Bank of Sri Lanka
Sri Lanka Customs Department

Sources : Central Bank of Sri Lanka
Sri Lanka Customs Department

Agricultural exports, which accounted for 24.4 per cent of export earnings in April 2010, increased year-on-year, reflecting the sound performances by the tea, rubber, coconut and minor agricultural sectors, as they continued to gain higher prices in the international market. In line with the higher oil prices in the international market, the average export price of natural rubber increased by 126.7 per cent, year-on-year, from US dollars 1.39 per kg in April 2009 to US dollars 3.16 per kg in April 2010. However, the rubber supply was affected by the unfavorable weather conditions in April 2010.

All major categories of imports increased in April 2010, reflecting higher demand. Expenditure on imports of intermediate goods increased led by higher petroleum and fertilizer imports. Import price of crude oil averaged at US dollars 85.02 per barrel in April 2010 reflecting an increase of 56.1 per cent over US dollars 54.45 per barrel in April 2009. Expenditure on imports of consumer goods increased by 63.6 per cent, due to higher expenditures incurred on imports of sugar, milk

products and other food items. Following the upward trend in milk product prices in the international market, the expenditure on import of milk products increased by 258.6 per cent in April 2010. Expenditure on investment goods increased in April 2010, led by higher imports of transport equipment, particularly motor cycles, followed by machinery and equipment such as electrical equipment and printing machinery.

During the first four months of 2010, workers' remittances increased by 14.5 per cent over that of the corresponding period of 2009 to US dollars 1,199 million. The gross official reserves, with and without Asian Clearing Union (ACU) funds, increased to US dollars 5,440 million and US dollars 5,215 million, respectively, by end April 2010. Based on the previous 12 months average imports of US dollars 955 million per month, the gross official reserves, without ACU funds, were the equivalent of 5.5 months of imports.

The performance of external trade during the period is further illustrated in the following table.

External Trade Performance: April 2010 and January – April 2010

Category	April 2009 US \$ mn	April 2010 US \$ mn	Growth April %	Jan–Apr 2009 US \$ mn	Jan–Apr 2010 US \$ mn	Growth Jan–Apr %

5. Monetary Policy Review – July 2010

The Monetary Board, at its meeting held today, has decided to reduce the Repurchase rate and the Reverse Repurchase rate by 25 basis points each with immediate effect. Accordingly, the Repurchase rate and the Reverse Repurchase rate of the Central Bank would be 7.25 per cent and 9.50 per cent, respectively.

The monetary policy stance of the Central Bank was gradually eased during 2009 in view of the decline in inflationary pressures and the slowdown in economic activity. Several favourable developments were observed in response to the monetary policy measures taken by the Central Bank.

Inflation, as measured by the year-on-year change in the Colombo Consumers' Price Index (base=2002) (CCPI) has continued to decline, for the fourth consecutive month, reaching 4.8 per cent in June 2010, while annual average inflation reached 3.9 per cent in June. Strong growth in the domestic agriculture sector, as well as a decline in the price of key food items in the international market has had a favourable impact on the CCPI. Going forward, inflation is expected to remain subdued, at single digit levels, during the remainder of the year.

Growth in broad money continued to moderate during the first five months of the year. By end May 2010, the year-on-year growth in the broad money supply was 15.5 per cent compared to 18.6 per cent at end 2009. Credit flows to the private sector have been increasing since the latter part of 2009, and reached a year-on-year growth of 3.5 per cent by end May in contrast to a contraction of 5.7 per cent at end 2009. Credit to the private sector needs to continue to expand in the coming months as economic growth picks up. External trade also showed strong signs of recovery during the first four months of the year with exports increasing by 10.7 per cent and non-oil imports increasing by 29 per cent. The gross official reserves of the country including forex swaps were further enhanced by the receipt of two tranches of the IMF-SBA Facility to approximately US dollars 5.7 billion, as at 30 June 2010, which is equivalent to 6 months of imports. GDP growth in the first quarter of 2010 has been estimated at 7.1 per cent and the economy is expected to expand by around 7 per cent during the year. Taking into consideration these developments in the economy the Monetary Board has decided to revise the policy interest rates downward. In response to this, lending rates of commercial banks

are expected to adjust further downward, stimulating economic activity.

The Central Bank has also decided to revise the monetary programme for 2010, and accordingly, the targets for reserve money and broad money, which were published in the "Road Map: Monetary and Financial Sector Policies for 2010 and beyond", on account of the subsequent developments in the economy. The key factors underlying this revision are an expected increase in the growth in nominal GDP and the inclusion of information on the fiscal sector from Budget 2010, which was presented to Parliament in June 2010. Broad money is expected to grow at a rate commensurate with the revised nominal GDP growth of 14.5 per cent. The budget for 2010 envisages that the deficit would be contained at 8 per cent in 2010, with further reductions expected in 2011 and beyond. Several developments within the monetary aggregates, which were observed during the first half of the year, have also underscored the need for a revision. Expansion in reserve money was higher than expected, particularly during the first quarter of 2010, partly due to increased demand for currency with the end to the conflict. As a result, the money multiplier has also shown a contraction, requiring a higher amount of reserve money to maintain broad money within the targeted levels. Considering these developments, the targets for quarterly growth in reserve money for the third and fourth quarters of 2010 are revised as follows:

Revised Targets for 2010 (quarterly average)

	Revised Targets - 2010		
	Q3	Q4	Annual Average
Rs. Billion	335.8	350.3	334.0
year-on-year growth (%)	21.6	19.7	21.2

The release of the next regular statement on monetary policy will be on 20 August 2010.

6. Central Bank of Sri Lanka's Credit Guarantee Scheme to be Operational

As one of the key measures to deal with liquidity constraints confronted by a few registered finance companies (RFCs), the Central Bank of Sri Lanka (CBSL) introduced a Credit Guarantee Scheme in January 2010.

Under such scheme, RFCs and specialized leasing companies (SLCs) are entitled to obtain loan facilities from banks against their real estate and financial assets, to enhance their liquidity position to conduct their normal business operations, with a credit guarantee being provided by the CBSL. As some RFCs and SLCs have a large number of real estate assets, the scheme will provide quick liquidity to such companies, thereby enabling them to discharge their obligations and improve their businesses faster.

Currently, several RFCs are negotiating with banks to obtain credit facilities under the scheme. These negotiations are expected to be finalized within a short period of time, with the first ever such facility

being availed of by Industrial Finance Ltd on Thursday 15th July 2010.

The Central Bank is actively encouraging the speedy utilization of the scheme by the RFCs and the respective banks, and is confident that, with the loan facilities to be disbursed under the scheme, the relevant RFCs would be able to resume and/or continue their normal business operations expeditiously. Through the resumption and revival of their normal business, the RFCs are expected to be able to meet their creditor obligations and such situation is expected to be in the best interest of all stakeholders, including depositors, lenders, staff and customers.

7. Provincial Gross Domestic Product – 2009

Provincial Gross Domestic Product (PGDP) for 2009 has been compiled by the Statistics Department of Central Bank of Sri Lanka (CBSL), based on the disaggregation of the Gross Domestic Product (GDP) estimated by the Department of Census and Statistics (DCS). In 2009 the GDP at current prices grew by 9.4 per cent, and reached Rs.4,825 billion with a per capita income of Rs. 235,945 equivalent to US\$ 2,053. It's disaggregation across provinces is given in Table 1.

The Western province, made the highest contribution to GDP in 2009. However its share in GDP reduced further to 45.1 per cent from 45.4 per cent in 2008 (revised estimates). The North Western province interchanged its relative position with the Southern province when compared to 2008 and became the second highest contributor to GDP in 2009. In 2008 the Southern province recorded the second highest contribution, which was 10.5 per cent. This however declined to 10.2 per cent in 2009 and pushed the Southern province to the third highest position. The contributions of the Central and Sabaragamuwa provinces to GDP also decreased in 2009. Shares of the Central and Sabaragamuwa provinces to GDP declined to 9.6 per cent and 6.3 per cent in 2009 from 9.8 per cent and 6.4 per cent in 2008 respectively. The North Western province increased its contribution to 10.3 per

cent in 2009 from 9.9 percent in 2008. The contribution of the Northern province to the GDP improved slightly to 3.3 per cent in 2009 compared to 3.2 per cent in 2008. This was a positive development that may be observed since the ending of the 30 year old conflict. There was no significant expansion of the contribution of the Northern province to GDP as the impact of the improvement in consumer and investor confidence in the aftermath of the civil war will only be felt by the economy with a time lag. Meanwhile, the Eastern, North Central and Uva provinces also recorded improvements, even though the contribution of each of these three provinces to total GDP still remained at a level less than 6 per cent. These three provinces contributed 5.8 per cent, 4.8 per cent and 4.6 per cent to GDP in 2009 compared to 5.6 per cent, 4.7 per cent and 4.5 per cent in 2008 respectively.

Table 1

Salient Features of the Gross Domestic Product (at current market prices) by Provinces – 2008^{1/} and 2009^{2/}

Item / Province	Year	Western	Central	Southern	Northern	Eastern	North Western	North Central	Uva	Sabara-gamuwa	All Island

	2009	1.6	0.7	0.8	0.6	0.8	0.9	0.8	0.7	0.7	1.0

1. Revised

2. Provisional

3. Ratio between per capita income of the province to that of all Island

The Western province contributed significantly to GDP in the country, as most of the economic activities that relate to sea port, air ports, banking and financial institutions and business centers are still centralized in the province. Even though the Western province account for the highest share of GDP so far, the performance in 2009 indicates a reduction in the disparity among provinces.

The Northern, Eastern, North Western, North Central and Uva provinces recorded nominal growth rates of GDP in 2009. Although Western province made the highest contribution to GDP, it grew relatively slowly by 8.7 per cent compared to the provinces such as the Northern, Uva and North Central. However, the Southern province (5.9 per cent) followed by the Sabaragamuwa

Gross Domestic Product Share by Province

Per capita Income by Province

(7.8 per cent) and Central (8.1 per cent) were provinces which grew at even lower rates.

The per capita income in the Western province which stood at US dollars 3,259 was 1.6 times the national per capita income both in 2008 and 2009. All other provinces continued to fall below the national per capita income. In the Northern and Eastern provinces the ratio between per capita income of the province and national per capita income showed marginal improvements in 2009, while in the Central and Southern provinces the relevant ratio declined marginally (Please see table 1).

The sectoral contribution to GDP of the provinces is shown in Table 2. The contribution of the agriculture

sector to GDP of the Western province, neighbouring four provinces and outer provinces indicated slight declines in 2009 compared to 2008. The Services and Industrial sectors contributed significantly to the performance of the Western province, while Agriculture sector contributed only 2.8 percent to the GDP of the province. However, the Agriculture sector contributed one fourth of GDP of the outer provinces. The Services sector performance of outer provinces and neighbouring provinces, was similar. However, performance of the Industrial sector of neighbouring provinces were considerably higher than outer provinces and closer to the Western province.

Table 2
GDP Composition of the Regions

Percent

Sector \ Region	Western		Four Neighbouring provinces ^{1/}		Outer provinces ^{2/}		All Island	
	2008	2009	2008	2009	2008	2009	2008	2009
Agriculture	3.1	2.8	19.8	18.3	26.4	25.1	13.4	12.6
Industry	31.7	32.0	29.7	30.4	22.9	22.9	29.4	29.7
Services	65.2	65.2	50.5	51.3	50.7	51.9	57.2	57.7
Total	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0

1. Neighbouring provinces includes Central, Southern, North Western and Sabaragamuwa provinces.

2. Outer provinces includes Northern, Eastern, North Central and Uva provinces.

STATISTICAL APPENDIX

Definitions and Explanatory Notes

The following general notes supplement the footnotes given below the individual tables:—

1. The data cover monthly figures available at the time the Bulletin goes to print, and the latest available information does not relate to the same month, in every table.

To enable comparison, annual figures for recent years are given.

2. In an attempt to bring the material up-to-date provisional figures are included in some tables.
3. Figures in some tables have been rounded off to the nearest final digit. Hence there may be a slight discrepancy between the total as shown and the sum of its components.
4. Differences as compared with previously published figures are due to subsequent revisions.
5. The following symbols have been used throughout:—
 - n.a. = not available
 - = nil
 - ... = negligible

PRODUCTION, RAINFALL, INPUTS AND INVESTMENT

(a) Revised

(b) Provisional

(c) (1) Includes manufacturing and export processing industries. Small industry is defined as those units having supply of electricity at 400/230 volts and contract demand is less than 50 KVA, medium industry as supply of electricity at 400/230 volts and contract demand is equal or more than 50 KVA and large industry as supply of electricity at 11KV, 33KV and 132KV.

(2) Figures include electricity consumption of hotels.

(d) Sales other than to Ceylon Electricity Board.

(e) Excluding Petroleum exports.

- (a) The index was based on household income and expenditure survey conducted in 2002.
The weights are based on the consumption pattern of the urban households within the Colombo district.
The total basket value (at 2002 prices) was Rs. 17,996.38
- (b) Annual and quarterly figures are averages of monthly figures.

Note: The Index numbers are calculated by the Labour Department on fixed weights based on the numbers employed as at 31 December 1978. The wage rate used in the calculation of Index numbers are minimum wages for different trades fixed by the Wages Boards.

Sources : Labour Department
Central Bank of Sri Lanka

- (a) The Index refers to wage rates of tea growing and manufacturing, rubber growing and manufacturing, coconut, cocoa, cardamoms and pepper growing trades only.
- (b) Includes baking, brick and tile manufacturing, coconut manufacturing, printing textile, tyre and tube manufacturing, coir mattresses & bristle fibre export, hosiery manufacturing, engineering, garment manufacturing, match manufacturing, biscuit manufacturing, tea export and rubber export trades only.
- (c) This includes cinema, motor transport and nursing homes trade only.
- (d) Combined Index for workers in Agriculture, Industry & Commerce and Services.
- (e) Provisional.

(a) Daily wages represent payments in cash where meals are not provided by the employer. Annual and quarterly figures are averages of monthly figures.

Source: Central Bank of Sri Lanka

(b) Wages in the construction sector are paid on both daily payment and contractual basis. The series on contractual basis in previous bulletin publications has been replaced by the series on daily payment basis from the monthly bulletin of December 2005 onwards for comparison with wages in other sectors.

(c) Daily wages up to December 2004 are the average of daily wages for the two activities. From January 2005 onwards the daily wages cover both activities under a single category following the restructuring of data collection schedules.

(d) Provisional.

(a) Consists of government expenditure excluding contributions to sinking funds, direct payment of public debt and subscriptions to international financial organisations. Also excludes book adjustments arising from losses on Advance Account operations incurred and financed in the previous financial year. Hence, the figures may not tally with the figures published in the accounts of the Government of Sri Lanka.

(b) Special payments and receipts on account of Sri Lanka's contribution to and from the IMF and the IDA and special loans from these payments are excluded from both recurrent expenditure and Central Bank Advances.

(c) Provisional.

(d) Excludes foreign investments in Treasury bills.

(e) Excludes foreign investments in Treasury bonds.

(f) Net foreign investments in Treasury bills and Treasury bonds are included.

(a) Computed from weekly averages.

(b) Footnote (d) of Table 14 in the Annual Report 2009 gives the conversion formula used for the conversion of the volume of the three main types of coconut exports to their nut equivalent (from kgs).

(c) This refers to prices of the best quality copra.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

Source: Central Bank of Sri Lanka

- (a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Offshore Banking Units have been treated as a part of the domestic banking system.
- (b) Provisional
- (c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.
- (d) Includes port related services.
- (e) Passage collections by foreign shipping agents and airlines are included in passenger fares.
- (f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.
- (g) Indicates outright grants received in the form of project aid.
- (h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. The debit entries in respect of such imports are in the merchandise account and are recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.
- (i) The change in capital of the monetary sector is based on local records.
- (j) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF and the receipts under the Stand-by Arrangement facility in 2009. US dollar and Sri Lanka Rupee values reflect changes in the representative rate of the Special Drawing Rights (SDRs). Figures in the debit column are in respect of repurchases or repayments, made in installments to the IMF, in respect of earlier drawings. Subscriptions to the IMF, consequent to successive increases in Sri Lanka's quota, are also shown in the debit column.
- (k) General and special allocations of SDRs by the IMF.

Balance of Payments^(a) – US dollars million

Source: Central Bank of Sri Lanka

(a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Offshore Banking Units have been treated as a part of the domestic banking system.

(b) Provisional

(c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.

(d) Includes port related services.

(e) Passage collections by foreign shipping agents and airlines are included in passenger fares.

(f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.

(g) Indicates outright grants received in the form of project aid.

(h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. The debit entries in respect of such imports are in the merchandise account and are recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.

(i) The change in capital of the monetary sector is based on local records.

(j) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF and the receipts under the Stand-by Arrangement facility in 2009. US dollar and Sri Lanka Rupee values reflect changes in the representative rate of the Special Drawing Rights (SDRs). Figures in the debit column are in respect of repurchases or repayments, made in installments to the IMF, in respect of earlier drawings. Subscriptions to the IMF, consequent to successive increases in Sri Lanka's quota, are also shown in the debit column.

(k) General and special allocations of SDRs by the IMF.

(a) Special Drawing Rights (SRDs), the unit of account of the International Monetary Fund.

Source: Central Bank of Sri Lanka

(b) The NEER is the weighted average of nominal exchange rates of the 24 trading partner and competitor countries. Weights are based on the trade shares reflecting the relative importance of each currency in the currency basket.

(c) The REER is computed by adjusting the NEER for inflation differentials with the countries whose currencies are included in the basket.

(d) REER computation is based on CCPI.

(e) The REER Indices for 2009 and 2010 are provisional.

(a) Annualised Forward Premium (f^d) is computed using the following formula.

Source: Central Bank of Sri Lanka

$$f^d = \{[F_t^{t+1} - S_t] / S_t\} * 100 * (12/t)$$

Where F_t^{t+1} is the forward rate for period $t+1$ that exists in period t and S_t is the interbank spot rate at period t .

(b) Provisional

(a) Includes assets/liabilities of National Development Bank which merged with NDB Bank Ltd., with effect from August 2005.

Source: Central Bank of Sri Lanka

(b) External assets (net) of the Central Bank and commercial banks (including outward bills).

(c) Currency and demand deposits held by the public.

(d) Credit extended by the banking system to the government, net of government deposits with banks and government cash balances.

(e) Restructuring bonds worth Rs.19,392.6 million, which were issued by the government to the two state banks, have been converted to Treasury bonds upon their maturity in October 2006. This amount, which previously appeared under Other Assets has been included in Net Credit to Government since October 2006.

(a) The balance sheet data of the Central Bank from January 2002 is based on the International Accounting Standards (IAS). Accordingly, foreign securities of the Central Bank have been valued at current market prices since January 2002. These data prior to January 2002 are according to local books at cost or face value whichever is less.

(b) Includes securities acquired from government institutions.

(c) According to IAS, the amount of Sri Lanka's quota with the IMF has been taken into the Central Bank's balance sheet.

(d) According to IAS, balance sheet of the CBSL is prepared on accrual basis and receivables show interest receivables on foreign securities.

(e) From February 1975, loans and advances to other include amounts granted under the Medium and Long-term Credit Fund. Credit provided under "Susahana" Refinance Credit Scheme is included from December 2005.

(f) According to IAS, government and government guaranteed securities are at fair value basis since January 2002.

Note : The number of reporting banks were 23 until January 2006, and 22 from October 2008.

(a) Includes assets / liabilities of National Development Bank which merged with NDB Bank Ltd., with effect from August 2005.

(b) Restructuring bonds worth Rs.19,392.6 million, which were issued by the government to the two state banks, have been converted to Treasury bonds upon their maturity in October 2006. This amount, which previously appeared under Other Assets has been included in Treasury bonds since October 2006.

(c) Includes Central Bank securities and DFCC Bonds.

(d) Fixed and other assets consists of banks' property, furniture, fittings and sundries (commission, interest receivable etc.).

(e) Liquid assets consist of Cash on hand, Balances due from Central Bank, Foreign currency on hand and Balances due from banks abroad, Government of Sri Lanka Treasury bills and bills discounted. With effect from 18 May 1998, Treasury bonds are considered as part of liquid assets of commercial banks. Balances due from domestic banks and cash items in process of collection have been excluded from liquid assets and domestic inter-bank deposits have been excluded from demand deposits, because from the view point of the commercial banking system as a whole such claims and deposits cancel out.

(a) This monetary survey is based on the aggregated data pertaining to both Domestic Banking Units (DBUs) and Offshore Banking Units (OBUs) of banks operating in Sri Lanka. Definitional changes have been adopted in aggregating DBUs and OBUs data to avoid double counting and misclassification of assets and liabilities.

(Contd.)

The major changes are:

(1) All DBU placements in OBUs are recorded as domestic assets, while all DBU borrowings from OBUs are recorded as domestic liabilities.

(2) Foreign currency deposits of DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply :

(i) One half (50 per cent) of NRFC deposits are treated as domestic deposit liabilities;

(ii) All RNNFC balances are treated as foreign liabilities;

(iii) All other domestic foreign currency accounts are treated as domestic deposit liabilities.

(b) Includes assets / liabilities of National Development Bank which merged with NDB Bank Ltd., with effect from August 2005.

(c) External assets (net) of the Central Bank and commercial banks (including outward bills).

(d) Currency and demand deposits of the public.

(e) Time and savings deposits of the public held with commercial banks.

(f) Credit extended by the banking system to the government, net of government deposits with banks and government cash deposits.

Source: Central Bank of Sri Lanka

(g) Restructuring bonds worth Rs.19,392.6 million which were issued by the government to the two state banks, have been converted to Treasury bonds upon their maturity in October 2006. This amount, which previously appeared under Other Assets, has been included in Net Credit to Government since October 2006.

Note :

DBUs - Domestic Banking Units

OBU - Offshore Banking Units

LSBs - Licensed Specialised Banks include Regional Development Banks, DFCC Bank, National Savings Bank, State Mortgage & Investment Bank, Ceylinco Savings Bank, SANASA Development Bank, HDFC Bank, SME Bank, NDB Housing Bank, Lankaputhra Development Bank and Sri Lanka Savings Bank. The SME Bank merged with Lankaputhra Development Bank in January 2008. Merchant Bank of Sri Lanka acquired a majority stake in Ceylinco Savings Bank Ltd. in July 2009. The name of which was subsequently changed to MBSL Savings Bank Ltd.

RDBs - Regional Development Banks

RFCs - Registered Finance Companies

(a) This financial survey is based on the aggregate data pertaining to Domestic Banking Units (DBUs), Offshore Banking Units (OBUs), Licensed Specialised Banks (LSBs) and Registered Finance Companies (RFCs) operating in Sri Lanka. Definitional changes have been adopted in aggregating DBUs, OBUs, LSBs and RFCs data to avoid double counting and misclassification of assets and liabilities. The major changes are:

- (1) All DBUs placements in OBUs are recorded as domestic assets, while all DBUs borrowings from OBUs are recorded as domestic liabilities.
- (2) Foreign currency deposits of DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply:
 - (i) One half (50 per cent) of NRFC deposits are treated as domestic deposit liabilities;
 - (ii) All RNNFC balances are treated as foreign liabilities;
 - (iii) All other domestic foreign currency accounts are treated as domestic deposit liabilities.

(b) External assets (net) of the Central Bank, Commercial banks (including outward bills), LSBs and RFCs.

(c) Currency, demand deposits and quasi money in DBUs in this table differ from those in table 52 due to the fact that LSBs and RFCs are not treated as public under this broad monetary survey (M₄) definition.

(d) Time and savings deposits of the private sector with commercial banks, LSBs and RFCs.

(e) Credit extended by the monetary authority, DBUs, OBUs, LSBs and RFCs to the Government, net of Government deposits with banks and Government cash deposits.

Source: Central Bank of Sri Lanka

(a) Under Sections 10c, 93, 94, 96 and 97 of the amended Monetary Law Act (Chapter 422), commercial banks and other financial institutions are required to maintain reserves against their deposit liabilities as prescribed by the Monetary Board. Currently, only commercial banks are subject to reserve requirements. With effect from 24 January 1992, an amount of till cash over and above two per centum of the total deposit liabilities, but not exceeding four per centum, could be maintained as a part of required reserves in the form of Sri Lanka currency notes and coins. Details of required reserve ratios, which were applicable in the past and computational methods have been published in the Appendix table on the 'Reserve Position of Commercial Banks' in the Annual Reports prior to 2003.

(b) Reserve data are for the last reserve week of each month. The required reserves recorded in the table refer to the cumulative reserves for the week, while commercial bank deposits with the Central Bank are the cumulative deposits for that particular reserve week. Excess/Deficit on SRR is the difference between the cumulative SRR for the reserve week and cumulative deposits of the commercial banks for the week.

(c) Excludes interbank deposits.

(d) With effect from 03 April 2003, the basis of computing the Statutory Reserve Requirement (SRR) was changed from deposit liabilities and vault cash balances at the close of business on Wednesday of the previous reserve week, to the average of deposit liabilities and vault cash balances during the week ending Tuesday of the previous reserve week.

Source: Central Bank of Sri Lanka

(a) All interest rates are as at the end of period, unless otherwise stated.

(b) This is the rate at which the Central Bank grants advances to commercial banks for temporary liquidity purposes. With effect from 04 January 1991, the rate was increased to 17 per cent from 15.5 per cent. As at end 1999 this rate was 16 per cent. With effect from 02 October 2000 the rate was increased to 18 per cent and further increased to 25 per cent with effect from 21 November 2000. With effect from 02 July 2001, this rate was brought down to 23 per cent and further reduced to 18 per cent with effect from 27 December 2001. On 15 August 2003, the rate was reduced to 15 per cent.

(c) Average Weighted Deposit Rate (AWDR) is calculated monthly by the Central Bank based on the weighted average of all outstanding interest bearing deposits of commercial banks and the corresponding interest rates.

(d) The Average Weighted Prime lending Rate is estimated weekly by the Central Bank based on commercial banks' lending rates offered to their prime customers during the week. These monthly figures are average values of estimated weekly rates.

(e) The Sri Lanka Inter-Bank Offered Rate (SLIBOR) is computed daily by the Central Bank, based on rates offered by commercial banks in the inter-bank market. The rate shown is the average of such offered rates by selected commercial banks.

(a) Issue of Treasury bonds commenced in March 1997.

(b) The yields on Rupee Loans are administratively determined and not market determined unlike the yields on Treasury bills and Treasury bonds.

(c) The secondary market information is based on data provided by Primary Dealers in Government Securities and is available since October 2000.

(d) Yield rates are averages of bid and offer rates.

(e) Interest with tax for 4 year maturity.

(f) Interest with tax for 2 year maturity.

Note : Treasury bonds are not issued on a regular basis. Hence a continuous series of primary market yield rates is not available.

(a) Rate on ten year certificates. The issue of this certificate is discontinued. The rate reflects the rate on earlier issues.

(b) Issuing National Savings Certificates commenced in October 1997.

(c) DFCC Bank commenced deposit mobilisation in April 1996.

(d) Private savings and development banks include Sanasa Development Bank which was established in October 1997. From 2003 it only includes Sanasa Development Bank.

(e) The minimum rate represents the refinance rate charged under the Small and Medium Scale Industries (SMI) Scheme. NDB became a licensed commercial bank with effect from 01 August 2005.

ATM cards – Issuing fee	Rs. 750	Rs. 75
Credit cards – Issuing fee	Rs. 6,000	Rs. 200
Renewal fee	Rs. 6,000	Rs. 180

Notes :

- (1) Commercial banks charge a variety of fees and commissions on their services. The table gives a range of the maximum and minimum fees and commissions which are based on the information provided by commercial banks. These charges, which do not change very frequently are published semi-annually to enable the public to negotiate best terms. These fees and commissions could be different when services and products are provided as a package.
- (2) These are standard charges of commercial banks. However, charges for some specific products could include charges payable to banks abroad. For example, banks in Sri Lanka may include in their charges fees payable to banks abroad such as for adding confirmation to Letters of Credit, and for correction of discrepancies.
- (3) In the case of Documentary Credits, the charges for outward transmission from Sri Lanka would differ, on the mode of transmission used.
- (4) Loan application processing fees vary according to the loan amount.
