Part I
EVENTS OF THE MONTH
July 2011

Fiscal Sector

- The COLA of public sector employees in the staff grade category was increased by Rs. 600 to Rs. 5,850 per month.
- Monthly pension of pensioners who retired prior to 01 January 2004 was increased by Rs.750 while it was increased by Rs.250 per month for pensioners who retired during the period 01 January 2004 to 31 December 2005.

Loans from the Asian Development Bank (ADB)

Two agreements were signed between the Government of Sri Lanka and ADB on 22 July 2011 to finance Secondary Towns and Rural Community Based Water Supply and Sanitation Project. The details of the loans are as follows;

1. A loan amounting to SDR 8.39 million **(approximately Rs. 1.47 billion)**

The loan facility carries an interest rate of 1.0 per cent per annum during the grace period and 1.5 per cent per annum after the grace period. The loan is repayable in 32 years including a grace period of 8 years.

2. A loan amounting to US dollars 4.30 million **(approximately Rs. 470.79 million)**

The loan facility carries an interest rate of LIBOR plus a margin of 0.6 per cent per annum less a credit of 0.3 per cent and a commitment fee of 0.15 per cent on unwithdrawn credit balance. The loan is repayable in 25 years including a grace period of 5 years.

Loan from the Exim Bank of Malaysia

An agreement was signed between the Government of Sri Lanka and Exim Bank of Malaysia, on 26 July 2011, for a loan amounting to US dollars 4.0 million (approximately Rs. 437.97 million) to finance the Supply of 50 units of Terminal Tractors to Sri Lanka Ports Authority Project. The loan facility carries an interest rate of LIBOR plus a margin of 2.8 per cent per annum during the first two years and thereafter an interest of LIBOR plus a margin of 2.0 per cent per annum. The loan is repayable in 5 years and 3 months including a grace period of 3 months.

Grant from the Food and Agriculture Organization (FAO) of the United Nations

An agreement was signed between the Government of Sri Lanka and FAO on 22 July 2011, for a grant of US dollars 488,000 (approximately Rs. 53.43 million), to finance the Land degradation assessment and monitoring for sustainable land management and climate change adaptation in South Asia Project.

Grant from the High Commission of the Islamic Republic of Pakistan

An agreement was signed between the Government of Sri Lanka and High Commission of the Islamic Republic of Pakistan on 06 June 2011, for a grant of US dollars 125,000 (approximately Rs. 13.71 million), to finance the construction of three storied school building for Gampaha Babussalam Muslim Maha Vidyalaya.

Part II

PRESS RELEASES

July 2011

1. Inflation in June 2011

In June 2011, the Department of Census and Statistics released a new series of the Colombo Consumers' Price Index based on a revised weight structure. The index is now computed on weights based on the expenditure patterns of households in the urban areas of the Colombo district as revealed in the Household Income and Expenditure Survey (HIES) 2006/2007.

The earlier series was based on expenditure patterns of households in the urban areas of the district of Colombo revealed in the HIES 2002. Therefore, the new index series will be computed on a more up-to-date weight structure which will reflect more recent changes in the pattern of expenditure and consumption. On this basis it will therefore be a better gauge of consumer inflation trends. It is the practice among statistical agencies to revise weights of consumer price indices periodically based on more up-to-date information, to capture the most recent consumption trends. Most countries adopt a five year rebasing of the Consumer Price Index.

According to the new series, the Colombo Consumers' Price Index (CCPI) (2006/07=100), decreased moderately by 0.2 per cent to 151.2 in June from 151.5 in May 2011. The year-on-year inflation moved downwards significantly to 7.1 per cent in June from 8.2 per cent in May 2011. However, inflation on an annual average basis increased marginally to 6.7 per cent in June from 6.6 per cent in the previous month. Meanwhile, Core inflation both on a year-on-year and annual average bases continued to increase to 8.7 per cent and 7.1 per cent, respectively in June 2011 as compared to 8.4 per cent and 6.9 per cent in the previous month.

The contribution to the monthly decrease of 0.2 per cent in the Index came mainly from price decreases in the sub group of Food and non alcoholic beverages (-1.0 per cent). Within the Food sub category, prices of almost all varieties of vegetables, fruits, coconut, coconut oil, rice, dhal, chicken and eggs declined due to improvements in supply, while prices of fish and seafood increased. However, prices in the sub categories of Clothing and footwear (1.3 per cent); Housing, water, electricity, gas and other fuels (0.3 per cent); Furnishing, household equipment and routine household maintenance (1.0 per cent); Health (0.4 per cent); Transport (0.8 per cent) and Miscellaneous goods and services (0.1 per cent) increased. Meanwhile, the prices in the sub categories of Communication, Education and Recreation and culture remained unchanged during the month.

2. Monetary Policy Review – July 2011

Sri Lanka's economy expanded by 7.9 per cent in the first quarter of 2011, sustaining its high growth momentum in the previous year into 2011 as well. The expanded productive capacity of the economy will help enhance supplies of food as well as other commodities, thereby helping to bring down consumer prices, which results in headline inflation reducing from the April 2011 peak level. Inflation, as measured by the year-on-year change in the Colombo Consumers' Price Index (base=2006/07) was 7.1 per cent in June 2011, compared to 8.1 per cent in May 2011. Annual average inflation was 6.7 per cent by June 2011.

The pass-through of higher international commodity prices into domestic prices partly accounted for the recent increases in core inflation, as measured by the core inflation index that excludes fresh food, energy, transport, rice and coconut from the CCPI (base=2006/07). Nevertheless, headline inflation is expected to decline further in the months approaching as price developments as a result of continued domestic supply side improvements are expected to offset price adjustments due to movements in international commodity prices.

The deficit in the trade balance has expanded partly reflecting the higher international commodity prices that have pushed up expenditure on imports to a higher level. However, Sri Lanka's exports have continued to perform well in 2011, and earnings from tourism as well as foreign exchange inflows on account of workers' remittances are expected to increase further this year. These increased foreign exchange earnings would help cushion the deficit in the current account. In the meantime, performance criteria for June 2011 as per the IMF-SBA have been successfully met.

Average broad money growth during the first five months of 2011, at 17.9 per cent, has been higher than expected mainly due to the rapid growth of credit obtained by the private sector. However, it is expected that there would be a deceleration in the expansion of credit obtained by the private sector during the remainder of the year, due to some saturation, helping subdue monetary expansion in the ensuing period. The Central Bank will continue to closely monitor monetary developments with a view to taking appropriate and timely policy action if required.

Having taken into consideration the continued decline in headline inflation as well as other macroeconomic developments, the Monetary Board at its meeting held on 6th July 2011, decided to maintain the Bank's policy interest rates at their current levels. Accordingly, the Bank's Repurchase rate remains at 7.00 per cent while its Reverse Repurchase rate remains at 8.50 per cent.

The release of the next regular statement on monetary policy will be on 19th August 2011.

3. External Sector Performance – April 2011

External trade continued to perform well in April 2011. Earnings from exports grew by 37.2 per cent to US dollars 746 million, while expenditure on imports increased by 53.7 per cent to US dollars 1,540 million. The trade deficit expanded to US dollars 794 million in April 2011. The cumulative earnings from exports and expenditure on imports during the first four months have increased by 50.3 per cent to US dollars 3,467 million and 43.2 per cent to US dollar 5,998 million, respectively.

The largest contribution to the growth in export earnings came from the industrial exports, mainly due to higher exports of textile and garments. Earnings from exports of petroleum products and rubber products also performed well in April 2011. Earnings from exports of petroleum products increased to US dollars 50 million in April 2011, reflecting higher volumes and prices of bunker and aviation fuel. Export earnings from rubber products continued to reflect higher levels of domestic value addition, particularly in the form of solid tyres and rubber gloves. However, earnings from machinery and equipment as well as ceramic products recorded year-on-year declines in April 2011. Earnings from agricultural exports, which accounted for 21.9 per cent of export earnings in April 2011, increased reflecting healthy growth in all major sub sectors. The average export prices of tea and rubber continued to remain high at US dollars 4.76 per kg and US dollars 5.14 per kg, respectively. Earnings from other agricultural exports grew by 77.3 per cent to US dollars 30 million, mainly due to the higher prices of unmanufactured tobacco, sesame seeds and vegetables and significant increases in the export volumes.

All major categories of imports increased substantially in April 2011, reflecting higher prices in the international market and higher domestic demand.

Expenditure on imports of intermediate goods increased in April 2011 led by higher expenditure on textiles and clothing imports. However, expenditure on petroleum imports showed a marginal decline mainly due to the lower import volumes of petroleum products. Crude oil imports, on the other hand, increased marginally despite the increase in the average import price of crude oil by 40.5 per cent to US dollars 119.45 per barrel. Expenditure on imports of investment goods also increased, led by higher expenditure on imports of transport equipment. Expenditure on imports of consumer goods increased by 67.4 per cent in April 2011, led by non-food consumer goods, particularly, motor vehicles. Import expenditure on food and beverages increased by 27.7 per cent mainly due to higher import volumes and higher prices of certain items.

During April 2011, workers' remittances increased by 22.1 per cent to US dollars 415 million over the same month of 2010. The gross official reserves continued to remain above the targeted level and stood at US dollars 7.0 billion by end May 2011, without Asian Clearing Union (ACU) balances. Based on the previous 12-month average expenditure on imports of US dollars 1,339 million per month, the gross official reserves without ACU balances were equivalent to 5.2 months of imports.

4. Provincial Gross Domestic Product – 2010

Provincial Gross Domestic Product (PGDP) for 2010 has been compiled by the Statistics Department of Central Bank of Sri Lanka (CBSL), based on the disaggregation of the Gross Domestic Product (GDP) estimated by the Department of Census and Statistics (DCS). In 2010 the GDP at current prices grew by 15.9 per cent, and reached Rs. 5,602 billion with a per capita income of Rs. 271,259 equivalent to US \$ 2,399. It's disaggregation across provinces is given in Table 1.

Table 1

1/ Revised

2/ Provisional

3/ Ratio between per capita income of the province to that of all Island

The Western province, made the highest contribution to GDP in 2010. However its share in GDP reduced to 45.1 per cent from 45.8 per cent in 2009. As in 2009, Southern province provided the second highest contribution which was 10.7 per cent, an increase compared to 10.5 per cent in 2009. The Central province provided the third highest contribution maintaining its relative position compared to 2009 and managing to increase its GDP contribution to 10.0 per cent in 2010. However, the contribution of the North Western province declined to 9.4 per cent in 2010 from 9.6 per cent in 2009. The contributions to GDP from Northern, Eastern, North Central and Sabaragamuwa provinces increased in 2010 while that of the Uva province was unchanged.

In line with improvements in country's economic environment, all the provinces have reported a double digit growth rate in 2010. Reflecting the rapid expansion in income generating activities in the Northern province, GDP growth rate was highest in the province at 22.9 per cent. It's contribution to GDP also increased from 3.2 per cent in 2009 to 3.4 per cent in 2010. The North Central province has reported a 20.3 per cent GDP growth rate which is the second highest among all the provinces. Sabaragamuwa and Eastern provinces also reported high GDP growth rates of 19.1 and 18.7 respectively.

As in the past, the Western province contributed significantly to GDP in the country, as most of the economic activities that relate to sea port, air ports, banking and financial institutions and business centers are still centralized in the province. Even though the Western province accounts for the highest share of GDP by far, the slight reduction in its relative share in 2010 indicates a further reduction in the disparity among provinces.

The per capita income in the Western province which stood at US\$ 3,808 (Rs. 430,488) was 1.6 times the national per capita income in 2010. Per capita income in all other provinces continued to fall below the national per capita income. Also in all provinces, this ratio was unchanged except in the Sabaragamuwa province where the relevant ratio increased.

The sectoral contribution to GDP of the provinces is shown in Table 2. There are considerable variations in the structure of GDP across the provinces. Agriculture accounted for just 3 per cent of GDP in Western province in 2010, whereas it accounted for over 16 per cent of GDP in the other provinces. In the Uva province agriculture accounted for more than 30 per cent of

Table 2
GDP Composition of the Provinces

Province		Western	Central	Southern	Northern	Eastern	North Western	North Central	Uva	Sabaragamuwa	All Island
Sector & Year	2009	2.8	19.2	17.3	18.3	22.9	18.8	30.7	30.7	19.9	12.7
	2010	3.0	18.2	16.7	16.0	22.3	18.3	29.8	32.6	21.8	12.8
Industry	2009	33.0	27.2	32.1	9.3	33.5	29.5	19.9	20.4	25.7	29.7
	2010	31.9	28.8	34.8	14.2	29.3	30.9	20.2	19.1	24.4	29.4
Services	2009	64.2	53.7	50.6	72.3	43.6	51.7	49.4	48.9	54.4	57.6
	2010	65.1	53.0	48.5	69.8	48.4	50.8	50.0	48.3	53.8	57.8

GDP. In all provinces industry accounted for between 14.2 per cent and 34.8 per cent of GDP in 2010. Services sector was the most dominant single sector accounting for between 48.3 per cent and 69.8 per cent of the GDP in the different provinces.

The contribution of the agriculture sector to GDP of the Western, Uva and Sabaragamuwa provinces increased in 2010 compared to 2009, while that of the other provinces decreased. The contribution from the industry sector declined in the Western, Eastern, Uva

and Sabaragamuwa provinces in 2010 but expanded in the other provinces. The greatest contribution to GDP from this sector was observed in the Southern province. Despite the contribution from the industry sector to GDP being lowest in Northern province, the province experienced the greatest expansion in its contribution during the period 2009- 2010. Meanwhile the contribution from the service sector increased in the Western, Eastern and North Central provinces but declined in all other provinces during 2010.

5. Fitch and Moody's upgrade Sri Lanka's Sovereign Rating

Fitch Ratings has upgraded Sri Lanka's Long-Term Foreign and Local Currency Issuer Default Ratings (IDRs) to 'BB-' from 'B+'. The outlooks on these ratings are 'Stable'. Further, Fitch has upgraded the Country Ceiling to 'BB-' from 'B+' and affirmed the Short-Term Foreign-Currency IDR at 'B'.

Meanwhile, Moody's Investors Service has upgraded outlook of Sri Lanka's B1 foreign currency sovereign rating from 'Stable' to 'Positive'. Moody's rating upgrade decision has been driven by the following key factors:

1. An increasingly evident peace dividend reflected in greater macroeconomic and financial stability.
2. A policy orientation of fiscal reform and economic growth, supported by a successful IMF program.
3. An improving external payments position.
4. A reduction in political event risk following the end of the civil war in 2009.

Fitch's decision to upgrade the ratings has been based on the stabilization and recovery of the economy and increased efforts by the Government to bring down the budget deficit. Moody's has commented that augmented investor confidence and increase in investments along with the falling inflation, the economy is expected to expand sustainably by 8-9% in the medium term.

The Central Bank welcomes the upgrade and is confident that the measures taken towards the macroeconomic stability and improvement of the economy over the past several years would yield further favourable results in coming years.

6. CBSL sponsored Credit Programmes disbursed Rs. 4.6 billion in the Northern Province

Since mid 2009, Central Bank of Sri Lanka (CBSL) has been actively engaged in promotion of livelihood and income generating activities (IGAs) among the conflict affected households and resettled Internally Displaced Persons (IDPs) in the Northern Province.

For this purpose, in keeping with the Government's vision, the CBSL, by allocating Rs.3,000 million, introduced a separate credit line named **"Awakening North"** which was exclusively designed for meeting the requirement of conflict affected businesses/IGAs in the Province. Further, a special Credit Guarantee Scheme was introduced to promote development credit through

Participating Financial Institutions (PFIs). In addition to the above, activities under Poverty Alleviation Microfinance Project – PAMP II 'Prabodini' were also extended into the Jaffna Peninsula in 2009.

In order to make the people aware on facilities available under formal financial sector and to promote

financial inclusiveness among low income groups, CBSL has been engaged in a financial literacy programme since mid 2009. During last two year period, CBSL conducted 571 such awareness programmes addressing 35,250 people in the Northern Province.

Under the above credit lines, PFIs were provided with a package of services/inputs including refinance at a low rate and credit guarantee to extend financial facilities to the deserving segment of the population. Basically such credit lines were designed to provide assistance for resumption of former businesses, Income Generating Activities (IGAs) and livelihood of the affected persons/households facilitating them to reactivate their economic life. Accordingly, credit facilities were made available for eligible persons under different activities in the Agriculture, Livestock, Fisheries, Small and Medium Sector Enterprises (SMEs) and micro businesses sectors.

In order to coordinate the development activities in the Northern Province, CBSL also took steps to open a Provincial Office (PO) in Jaffna in July 2010.

Agriculture

Since agriculture is the principal livelihood/income generating activity of majority of the people in the Northern Province, PFIs were requested to extend agricultural credit to remote village areas and CBSL has taken action to relax some conditions and introduced a system of Credit Guarantee to mitigate the risk of PFIs and to encourage them to penetrate the rural agricultural market in the Province. As a result, the extent of land cultivated with bank finance and the number and volume of loans granted for short term cultivation, increased sharply. The progress of disbursement of **short term cultivation loans** is indicated below.

Table 1

Progress of credit disbursement for short-term cultivation purposes by PFIs in the Northern Province 2009 – 2011

Cultivation season	No. of farmers who obtained loans	Volume of loans in Rs. mn.	Area cultivated (acres)
2009 Yala	2,077	127	2,678
2009/10 Maha	6,986	419	16,070
2010 Yala	3,734	275	7,284
2010/11 Maha	15,496	1,250	49,017

In addition to granting short term cultivation loans, PFIs also provided **facilities for long term investment in agriculture**, i.e., perennial crop cultivation such as grape and banana, construction of minor irrigation systems, purchasing of agricultural machinery and

equipment and many other requirements that lead to increase in yield levels on a sustainable basis. In that context PFIs granted 7,437 term loans to the value of Rs.1,327 million for long term agricultural projects in the Northern Province, under 3 credit programmes, i.e., 'Awakening North', Provincial Development and 'Viskam' loan schemes as at end June 2011.

Livestock sector

When the Agro Livestock Development Loan (ALDL) scheme was introduced in 2009, CBSL conducted a series of awareness programmes among the farmers to educate them on best animal husbandry practices. Since the Jaffna farmer is familiar with the crop livestock integrated farming system, many husbandry practices were accepted by them and loan facilities were granted for construction of cattle sheds, cultivation of animal fodder and purchase of equipment etc. According to PFIs, a total number of 2,120 loans to the value of Rs.521 million have been granted for livestock sector activities from June 2009 to May 2011.

Fisheries sector

During the year 2010, PFIs were able to grant 417 loans to the value of Rs.311 million for the fisheries sector activities including purchasing boats and equipment, fishing gear, marketing dry fish and to commence self employment projects among the fishing community. Loan facilities for such activities were made available under special credit lines implemented by CBSL and PFIs own credit programmes as well.

SME sector

Considering the affected number of Small and Medium Scale Enterprises (SMEs) in the Northern Province in 2010, CBSL introduced a special loan scheme named 'Saubagya' to support affected SMEs. In addition to the above, loans were made available under the existing loan schemes namely Awakening North and Provincial Development for SMEs.

As at 30.05.2011, PFIs granted 5,351 loans to the value of Rs.948 million under the three SME loan schemes operated in the Province.

Microfinance for poverty alleviation

Since mid 2009, CBSL took measures to extend facilities in the Northern Province under 'Prabodini'. The project adopted the "credit plus" approach to address the poverty issues using Self Help Group (SHG) system as a methodology for delivery of services to the low income people. Accordingly, the project was able to reach 422 villages in the Northern Province and form 4,269 SHGs with a total number of 23,233 low income families in the

Province. All of them were exposed to a comprehensive awareness programme conducted by Project staff and later were linked with the formal financial system. Over 9,000 Group members were provided with Rs.710 million for short term cultivation purposes during 2010/2011 Maha season, in addition to 5,016 micro loans to the value of Rs.258 million granted for micro enterprises under 'Prabodini'.

Central Bank will open a Project Regional Office (PRO) at Jaffna under Poverty Alleviation Microfinance Project – 'Prabodini' on 20th July 2011.

Table 2

Summary of disbursement of credit for different purposes in the Northern Province 2009-2011

Purpose	No. of loans granted	Value of loans granted in Rs. mn.
Agriculture - Short term	15,496	1,250
Agriculture - Long term	7,437	1,327
Livestock	2,120	521
SME	5,351	948
Fisheries	417	311
Micro credit	5,016	258
Total	35,837	4,615

7. Democratic Socialist Republic of Sri Lanka US \$ 1.0 billion Bond Issue

The Democratic Socialist Republic of Sri Lanka (Sri Lanka) successfully launched and priced a US \$ 1.0 billion 10-year global bond offering. The transaction priced at a fixed-rate yield of 6.25%, equivalent to a spread of +332.2 bps over the 10-year US Treasury.

This transaction represents the fourth US Dollar benchmark offering in the global bond markets by Sri Lanka since 2007. Bank of America Merrill Lynch, Barclays Capital, HSBC and the Royal Bank of Scotland acted as joint bookrunners and joint lead managers on the transaction. Bank of Ceylon acted as the co-manager on the transaction.

Prior to launch of the transaction, Sri Lanka conducted a series of fixed income investor update meetings with investors in Singapore, Hong Kong, various cities in the USA and London. During the roadshow, Sri Lanka achieved a credit ratings upgrade by Fitch to BB-, and both the Moody's and S&P ratings were improved to positive outlook.

With a positive backdrop from the rating agencies, strong support from investors and a positive window of execution in the market, Sri Lanka announced its USD transaction during the Asia morning on July 20, 2011. Initial price guidance was set at 6.5% (area) for a 10-year benchmark size issue. The transaction enjoyed strong momentum, with orderbooks growing rapidly, allowing Sri Lanka to tighten the final price guidance to 6.25 – 6.375% for a deal size of US \$ 1.0 billion.

On the back of overwhelming support, Sri Lanka succeeded in pricing the issue to yield 6.25%, the tight end of the final guidance.

The final orderbooks stood at US \$ 7.5 billion, an oversubscription ratio of 7.5 times, with orders from 315 accounts. Distribution was very well diversified, with Asia taking 27%, Europe 30% and the US at 43%. Fund Managers were the largest investors in the transaction, representing 86%, with Banks/Private Banks taking 8%, Corporates 3% and Insurance companies 3%.

With this transaction Sri Lanka succeeded in achieving a cost of funds more than 40 bps lower, as a margin over the US Treasury, compared to Sri Lanka's last 10-year bond offering in September 2010, which was issued at a spread of +373.1 bps. This achievement is all the more impressive, given the volatility seen in markets globally in recent months.

Mr. Ajith Nivard Cabraal, Governor of the Central Bank of Sri Lanka, said, "We are very pleased with the strong response to this transaction, in volatile market conditions, which reflects high levels of investor confidence in Sri Lanka's economy and the robust growth prospects for the country."

8. External Sector Performance – May 2011

Earnings from exports grew by 34.3 per cent in May 2011 to US dollars 832 million, while expenditure on imports increased by 67.9 per cent to US dollars 1,764 million. Accordingly, the trade deficit expanded to US dollars 932 million. The cumulative earnings from exports and expenditure on imports during the first five months have increased by 46.9 per cent to US dollars 4,299 million and 48.1 per cent to US dollars 7,762 million, respectively.

Earnings from all categories of exports increased in May 2011. Growth in export earnings was led by the industrial sector, particularly the textiles and garments sector, depicting higher earnings from apparel and woven fabric exports. Earnings from rubber products exports increased in May 2011 comprising mainly of solid tyres and rubber gloves. Earnings from agricultural exports also performed well in May 2011 reflecting higher prices in the international market. The average export prices of tea and rubber remained high at US dollars 4.66 per kg and US dollars 5.15 per kg, respectively. Earnings from minor agricultural product exports increased by 42.1 per cent to US dollars 33 million, mainly due to the higher prices.

Expenditure on imports increased in May 2011, fuelled by higher international prices and high domestic demand. The higher import expenditure was led by intermediate imports, particularly petroleum. The average import price of crude oil increased by 31.4 per cent to US dollars 111.50 per barrel in May 2011. Expenditure on imports of investment goods also increased, led by higher expenditure on imports of transport equipment, comprising of an aircraft (US dollars 76 million). Expenditure on imports of

consumer goods increased in May 2011, led by non-food consumer goods, particularly, motor vehicles (US dollars 93 million). Import expenditure on food and beverages also increased in May 2011 mainly due to the higher expenditure incurred on wheat and sugar.

During May 2011, workers' remittances increased by 36.8 per cent to US dollars 414 million over the same month of 2010, recording a cumulative inflow of US dollars 2,103 million for the first five months of 2011. Earnings from tourism grew at a healthy rate of 54.5 per cent to US dollars 318 million during the first five months of the year while inflows to the government during the same period amounted to US dollars 497 million. The gross official reserves continued to remain above the targeted level and stood at US dollars 7.5 billion by end June 2011, without Asian Clearing Union (ACU) balances. Based on the previous 12-month average expenditure on imports of US dollars 1,372 million per month, the gross official reserves without ACU balances were equivalent to 5.4 months of imports.

The performance of external trade during the period is further illustrated in the following table.

STATISTICAL APPENDIX

Definitions and Explanatory Notes

The following general notes supplement the footnotes given below the individual tables:—

1. The data cover monthly figures available at the time the Bulletin goes to print, and the latest available information does not relate to the same month, in every table.

To enable comparison, annual figures for recent years are given.

2. In an attempt to bring the material up-to-date provisional figures are included in some tables.
3. Figures in some tables have been rounded off to the nearest final digit. Hence there may be a slight discrepancy between the total as shown and the sum of its components.
4. Differences as compared with previously published figures are due to subsequent revisions.

5. The following symbols have been used throughout:—

n.a.	=	not available
—	=	nil
...	=	negligible

(a) Revised

(b) Provisional

(c) (1) Includes manufacturing and export processing industries. Small industry is defined as those units having supply of electricity at 400/230 volts and contract demand is less than 50 KVA, medium industry as supply of electricity at 400/230 volts and contract demand is equal or more than 50 KVA and large industry as supply of electricity at 11KV, 33KV and 132KV.

(2) Figures include electricity consumption of hotels.

(d) Sales other than to Ceylon Electricity Board.

(e) Excluding Petroleum exports.

(a) The Private Sector Monthly Industrial Production Volume Index is calculated on the basis of information received from 150 major industrial firms, both in the BOI and Non-BOI Sectors.

Source : Central Bank of Sri Lanka

(b) The weights used for the compilation of Private Sector Industrial Volume Index have been adjusted based on the Industrial Survey carried out by the Department of Census and Statistics (DCS) in 2002.

- (a) The index was based on household income and expenditure survey conducted in 2006/07.
The weights are based on the consumption pattern of the urban households within the Colombo district.
The total basket value (at 2006/07 prices) was Rs. 27,972.11.

- (b) Annual and quarterly figures are averages of monthly figures.

Note: The Index numbers are calculated by the Labour Department on fixed weights based on the numbers employed as at 31 December 1978. The wage rate used in the calculation of Index numbers are minimum wages for different trades fixed by the Wages Boards.

Sources : Labour Department
Central Bank of Sri Lanka

- (a) The Index refers to wage rates of tea growing and manufacturing, rubber growing and manufacturing, coconut, cocoa, cardamoms and pepper growing trades only.
- (b) Includes baking, brick and tile manufacturing, coconut manufacturing, printing textile, tyre and tube manufacturing, coir mattresses & bristle fibre export, hosiery manufacturing, engineering, garment manufacturing, match manufacturing, biscuit manufacturing, tea export and rubber export trades only.
- (c) This includes cinema, motor transport and nursing homes trade only.
- (d) Combined Index for workers in Agriculture, Industry & Commerce and Services.
- (e) Provisional.

(a) Daily wages represent payments in cash where meals are not provided by the employer. Annual and quarterly figures are averages of monthly figures.

Source: Central Bank of Sri Lanka

(b) Wages in the construction sector are paid on both daily payment and contractual basis. The series on contractual basis in previous bulletin publications has been replaced by the series on daily payment basis from the monthly bulletin of December 2005 onwards for comparison with wages in other sectors.

(c) Daily wages up to December 2004 are the average of daily wages for the two activities. From January 2005 onwards the daily wages cover both activities under a single category following the restructuring of data collection schedules.

(d) Provisional.

(a) Consists of government expenditure excluding contributions to sinking funds, direct payment of public debt and subscriptions to international financial organisations. Also excludes book adjustments arising from losses on Advance Account operations incurred and financed in the previous financial year. Hence, the figures may not tally with the figures published in the accounts of the Government of Sri Lanka.

Sources : Ministry of Finance and Planning
Central Bank of Sri Lanka

(b) Excludes foreign investments in Treasury bills.

(c) Excludes foreign investments in Treasury bonds.

(d) Net foreign investments in Treasury bills and Treasury bonds are included.

(e) Provisional

(a) Computed from weekly averages.

(b) Footnote (d) of Table 14 in the Annual Report 2009 gives the conversion formula used for the conversion of the volume of the three main types of coconut exports to their nut equivalent (from kgs).

(c) This refers to prices of the best quality copra.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

Source: Central Bank of Sri Lanka

(a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Offshore Banking Units have been treated as a part of the domestic banking system.

(b) Provisional

(c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.

(d) Includes port related services.

(e) Passage collections by foreign shipping agents and airlines are included in passenger fares.

(f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.

(g) Indicates outright grants received in the form of project aid.

(h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. The debit entries in respect of such imports are in the merchandise account and are recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.

(i) The change in capital of the monetary sector is based on local records.

(j) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF and the receipts under the Stand-by Arrangement facility in 2009. US dollar and Sri Lanka Rupee values reflect changes in the representative rate of the Special Drawing Rights (SDRs). Figures in the debit column are in respect of repurchases or repayments, made in installments to the IMF, in respect of earlier drawings. Subscriptions to the IMF, consequent to successive increases in Sri Lanka's quota, are also shown in the debit column.

(k) General and special allocations of SDRs by the IMF.

Balance of Payments^(a) – US dollars million

Source: Central Bank of Sri Lanka

(a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Offshore Banking Units have been treated as a part of the domestic banking system.

(b) Provisional

(c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.

(d) Includes port related services.

(e) Passage collections by foreign shipping agents and airlines are included in passenger fares.

(f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.

(g) Indicates outright grants received in the form of project aid.

(h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. The debit entries in respect of such imports are in the merchandise account and are recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.

(i) The change in capital of the monetary sector is based on local records.

(j) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF and the receipts under the Stand-by Arrangement facility in 2009. US dollar and Sri Lanka Rupee values reflect changes in the representative rate of the Special Drawing Rights (SDRs). Figures in the debit column are in respect of repurchases or repayments, made in installments to the IMF, in respect of earlier drawings. Subscriptions to the IMF, consequent to successive increases in Sri Lanka's quota, are also shown in the debit column.

(k) General and special allocations of SDRs by the IMF.

(a) Special Drawing Rights (SDRs), the unit of account of the International Monetary Fund.

Source: Central Bank of Sri Lanka

(b) The NEER is the weighted average of nominal exchange rates of the 24 trading partner and competitor countries. Weights are based on the trade shares reflecting the relative importance of each currency in the currency basket.

(c) The REER is computed by adjusting the NEER for inflation differentials with the countries whose currencies are included in the basket.

(a) Annualised Forward Premium (f^d) is computed using the following formula.

Source: Central Bank of Sri Lanka

$$f^d = \{[F_t^{t+1} - S_t] / S_t\} * 100 * (12/t)$$

Where F_t^{t+1} is the forward rate for period $t+1$ that exists in period t and S_t is the interbank spot rate at period t .

(a) Data pertaining to the balance sheet of the Central Bank from January 2002 are based on International Accounting Standards (IAS). Accordingly foreign securities of the Central Bank have been valued at current market prices since January 2002. These data prior to January 2002 are according to local books at cost or face value whichever is less.

(Contd.)

(b) Includes securities acquired from government institutions.

(c) Credit provided under "Susahana" refinance credit scheme is included from 2005 December.

(d) Government and government guaranteed securities are at fair value basis.

Note : The number of reporting banks were 23 until January 2006, and 22 from October 2008.

- (a) Includes assets / liabilities of National Development Bank which merged with NDB Bank Ltd., with effect from August 2005.
- (b) Restructuring bonds worth Rs.19,392.6 million, which were issued by the government to the two state banks, have been converted to Treasury bonds upon their maturity in October 2006. This amount, which previously appeared under Other Assets has been included in Treasury bonds since October 2006.
- (c) Includes Central Bank securities and DFCC Bonds.

- (d) Fixed and other assets consists of banks' property, furniture, fittings and sundries (commission, interest receivable etc.).
- (e) Liquid assets consist of Cash on hand, Balances due from Central Bank, Foreign currency on hand and Balances due from banks abroad, Government of Sri Lanka Treasury bills and bills discounted. With effect from 18 May 1998, Treasury bonds are considered as part of liquid assets of commercial banks. Balances due from domestic banks and cash items in process of collection have been excluded from liquid assets and domestic inter-bank deposits have been excluded from demand deposits, because from the view point of the commercial banking system as a whole such claims and deposits cancel out.

(a) This monetary survey is based on the aggregated data pertaining to both Domestic Banking Units (DBUs) and Offshore Banking Units (OBUs) of banks operating in Sri Lanka. Definitional changes have been adopted in aggregating DBUs and OBUs data to avoid double counting and misclassification of assets and liabilities.

(Contd.)

The major changes are:

- (1) All DBU placements in OBUs are recorded as domestic assets, while all DBU borrowings from OBUs are recorded as domestic liabilities.
- (2) Foreign currency deposits of DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply :
 - (i) One half (50 per cent) of NRFC deposits are treated as domestic deposit liabilities;
 - (ii) All RNNFC balances are treated as foreign liabilities;
 - (iii) All other domestic foreign currency accounts are treated as domestic deposit liabilities.

(b) Includes assets / liabilities of National Development Bank which merged with NDB Bank Ltd., with effect from August 2005.

(c) External assets (net) of the Central Bank and commercial banks (including outward bills).

(d) Currency and demand deposits of the public.

(e) Time and savings deposits of the public held with commercial banks.

(a) This financial survey is based on the aggregated data pertaining to Domestic Banking Units (DBUs) and Offshore Banking Units (OBUs) of commercial banks, Licensed Specialised Banks (LSBs) and Registered Finance Companies (RFCs) operating in Sri Lanka. Definitional changes have been adopted in aggregating data pertaining to DBUs, OBUs, LSBs and RFCs to avoid double counting and misclassification of assets and liabilities. The major changes are:

- (1) All DBU placements in OBUs are recorded as domestic assets, while all DBU borrowings from OBUs are recorded as domestic liabilities.
- (2) Foreign currency deposits of DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply:
 - (i) One half (50 per cent) of Non-Resident Foreign Currency (NRFC) deposits are treated as domestic deposit liabilities;
 - (ii) All Resident Non-National Foreign Currency (RNNFC) balances are treated as foreign liabilities;
 - (iii) All other domestic foreign currency accounts are treated as domestic liabilities.

(b) Currency, demand deposits and quasi money in DBUs in this table differ from those in table 52 due to the fact that LSBs and RFCs are not treated as 'public' under this broad monetary survey (M₄) definition.

(c) Time and savings deposits of the private sector with commercial banks, LSBs and RFCs.

(d) External assets of commercial banks include outward bills.

(e) Credit extended by the Central Bank, DBUs, OBUs, LSBs and RFCs to the Government, net of Government deposits with banks and Government cash deposits.

(a) Under Sections 10c, 93, 94, 96 and 97 of the amended Monetary Law Act (Chapter 422), commercial banks and other financial institutions are required to maintain reserves against their deposit liabilities as prescribed by the Monetary Board. Currently, only commercial banks are subject to reserve requirements. With effect from 24 January 1992, an amount of till cash over and above two per centum of the total deposit liabilities, but not exceeding four per centum, could be maintained as a part of required reserves in the form of Sri Lanka currency notes and coins. Details of required reserve ratios, which were applicable in the past and computational methods have been published in the Appendix table on the 'Reserve Position of Commercial Banks' in the Annual Reports prior to 2003.

(b) Reserve data are for the last reserve week of each month. The required reserves recorded in the table refer to the cumulative reserves for the week, while commercial bank deposits with the Central Bank are the cumulative deposits for that particular reserve week. Excess/Deficit on SRR is the difference between the cumulative SRR for the reserve week and cumulative deposits of the commercial banks for the week.

(c) Excludes interbank deposits.

(d) With effect from 03 April 2003, the basis of computing the Statutory Reserve Requirement (SRR) was changed from deposit liabilities and vault cash balances at the close of business on Wednesday of the previous reserve week, to the average of deposit liabilities and vault cash balances during the week ending Tuesday of the previous reserve week.

(e) SRR was increased from 7.00 per cent to 8.00 per cent with effect from 29 April 2011.

Source: Central Bank of Sri Lanka

(a) All interest rates are as at the end of period, unless otherwise stated.

(b) This is the rate at which the Central Bank grants advances to commercial banks for temporary liquidity purposes. With effect from 04 January 1991, the rate was increased to 17 per cent from 15.5 per cent. As at end 1999 this rate was 16 per cent. With effect from 02 October 2000 the rate was increased to 18 per cent and further increased to 25 per cent with effect from 21 November 2000. With effect from 02 July 2001, this rate was brought down to 23 per cent and further reduced to 18 per cent with effect from 27 December 2001. On 15 August 2003, the rate was reduced to 15 per cent.

(c) Average Weighted Deposit Rate (AWDR) is calculated monthly by the Central Bank based on the weighted average of all outstanding interest bearing deposits of commercial banks and the corresponding interest rates.

(d) The Average Weighted Prime lending Rate is estimated weekly by the Central Bank based on commercial banks' lending rates offered to their prime customers during the week. These monthly figures are average values of estimated weekly rates.

(e) The Sri Lanka Inter-Bank Offered Rate (SLIBOR) is computed daily by the Central Bank, based on rates offered by commercial banks in the inter-bank market. The rate shown is the average of such offered rates by selected commercial banks.

(a) Issue of Treasury bonds commenced in March 1997.

(b) The yield rates on Rupee Securities are administratively determined and given rates includes tax.

(c) Secondary market information is based on data provided by Primary Dealers in Government Securities and is available since October 2000.

(d) Yield rates are averages of bid and offer rates.

Sources: Central Bank of Sri Lanka
Primary Dealers in Government Securities

Note : Treasury bonds are not issued on a regular basis. Hence a continuous series of primary market yield rates is not available.

Credit cards – Issuing fee	Rs. 6,000	Rs. 200
Renewal fee	Rs. 9,500	Rs. 180

Notes :

- (1) Commercial banks charge a variety of fees and commissions on their services. The table gives a range of the maximum and minimum fees and commissions which are based on the information provided by commercial banks. These charges, which do not change very frequently are published semi-annually to enable the public to negotiate best terms. These fees and commissions could be different when services and products are provided as a package.
- (2) These are standard charges of commercial banks. However, charges for some specific products could include charges payable to banks abroad. For example, banks in Sri Lanka may include in their charges fees payable to banks abroad such as for adding confirmation to Letters of Credit, and for correction of discrepancies.
- (3) In the case of Documentary Credits, the charges for outward transmission from Sri Lanka would differ, on the mode of transmission used.
- (4) Loan application processing fees vary according to the loan amount.

(a) Includes loans and advances of Offshore Banking Units.

Source : Central Bank of Sri Lanka

(b) Classification of loans and advances was changed in June 2010.

(c) Please refer Table 69 B for past data, computed as per the previous classification. As these data were revised along with the reclassification as per the new format, data in Tables 69 A and 69 B are not comparable.

(d) Loans and advances include overdrafts, bills discounted and purchased, and exclude cash items in the process of collection.

(e) Provisional

(f) Excludes personal housing loans, which have been included under 'Construction' classified under 'Industry'.

(a) Loans and advances include overdrafts and bills discounted and exclude cash items in the process of collection.

Source : Central Bank of Sri Lanka

Maturity Classification :
 Short-term – Less than one year
 Medium-term – 1 to 5 years
 Long-term – More than 5 years

(b) Loans and advances of Offshore Banking Units are also included since 2008.

(c) Includes loans and advances granted for Engineering and Building Trade, Mining and Fishing.

(d) Data prepared as per the above classification were revised following the reclassification. Therefore, data in Tables 69 A and 69 B are not comparable.
