EVENTS OF THE MONTH
July 2013

Fiscal Sector

- The import duty on vehicle tyres (excluding busses), vehicle parts, liquor, tobacco products and dairy products (including butter) was increased.
- The excise duty on tobacco, cigarettes, liquor, ethyl alcohol and motor vehicles was revised upward.

A Loan from The OPEC Fund for International Development

An agreement was signed between the Government of Sri Lanka and the OPEC Fund for International Development, on 10 June 2013, for a loan amounting to USD 50.0 million (approximately Rs. 6.3 billion) to finance the Colombo National Highways Project. The loan carries an interest fee of 4.60 per cent per annum. The loan is repayable in 20 years including a grace period of 5 years.

A Loan from the Rabo Bank International of Netherlands

An agreement was signed between the Government of Sri Lanka and Rabo Bank International of Netherlands, on 14 June 2013, for a loan amounting to EUR 18.5 million (approximately Rs. 3.2 billion) to finance the Construction and Upgrading of Peripheral Blood Banks coming under the National Blood Transfusion Services of Ministry of Health in Sri Lanka Project. The loan carries an interest fee of 4.65 per cent per annum.

The loan is repayable in 13.5 years including a grace period of 3.5 years.

A Loan from the Hongkong and Shanghai Banking Corporation Limited (HSBC) – UK

An agreement was signed between the Government of Sri Lanka and the Hongkong and Shanghai Banking Corporation Limited (HSBC) – UK, on 21 June 2013, for a loan amounting to USD 60.1 million (approximately Rs. 7.7 billion) to finance the Regional Bridges Project – Phase II. The loan carries an interest fee of LIBOR (6M) + 2 per cent per annum. The loan is repayable in 14 years including a grace period of 4 years.

A Loan from the Hongkong and Shanghai Banking Corporation Limited (HSBC) – Colombo

An agreement was signed between the Government of Sri Lanka and the Hongkong and Shanghai Banking Corporation Limited (HSBC) – Colombo, on 21 June 2013, for a loan amounting to USD 10.6 million (approximately Rs. 1.4 billion) to finance the Regional Bridges Project – Phase II. The loan carries an interest fee of LIBOR (6M) + 4 per cent per annum, a commitment fee of 0.25 per cent per annum and a structuring fee to the arranger in the amount and at the times agreed in a Fee Letter. The loan is repayable in 5.5 years including a grace period of 1 year.

Part II
PRESS RELEASES
July 2013

1. External Sector Performance – May 2013

Overview

Sri Lanka's external sector continued to remain stable with increased inflows to the Current Account as well as the Financial Account of the Balance of Payments (BOP). Earnings from tourism and current transfers by way of workers' remittances increased notably, strengthening the Current Account. The Colombo Stock Exchange (CSE) recorded increased foreign investments reflecting improved investor confidence. Commercial banks and the corporate sector have been able to raise more foreign funds this year, given the stable macroeconomic environment and further relaxation of exchange control regulations. During the first five months of the year, foreign investments in Government securities also recorded an impressive growth in spite of the uncertainties in international financial markets.

Trade Account of the BOP

The deficit in the trade balance declined by 1.8 per cent, year-on-year, in May 2013, reversing the increase that was seen in April 2013. On a cumulative basis, the deficit in the trade balance continued to decline for the sixth consecutive month.

Expenditure on imports declined moderately by 1.7 per cent, year-on-year, in May 2013. Although expenditure on imports of fuel, textiles and textile articles, transport equipment, base metals, fertilizer, vehicles and dairy products declined notably, their impact was largely offset by increased expenditure on imports of machinery and equipment, wheat, gold, and building materials. Fuel imports, which account for nearly a quarter of total import expenditure, declined by 14.1 per cent in May 2013, while textiles and textile articles, which account for over 10 per cent of total imports, declined by 18.4 per cent. Gold imports meanwhile increased by 44.4 per cent in May 2013, with the decline in gold prices in the world market remaining supportive of gold imports. Expenditure on imports of machinery and equipment and building materials

also increased, by 32.4 per cent and 21.1 per cent, respectively, indicating an expansion of investment in capital build-up. Expenditure on consumer goods imports meanwhile declined marginally by 0.7 per cent as import expenditure on non-food consumer goods declined.

Earnings from exports declined marginally by 1.5 per cent in May 2013, as increased earnings from industrial exports moderated the impact of the decline in earnings from agricultural exports. Export earnings from garments, which have a share of nearly 40 per cent in total exports, increased by 2.1 per cent in May 2013, thus buoying export earnings. Exports of transport equipment increased notably in May 2013 as in the previous month, while exports of petroleum products also increased in May 2013. However, partly reflecting the easing of gold prices in the world market, export earnings from gems, including diamonds, and jewellery declined by 40.5 per cent in May 2013. Food, beverages and tobacco; and rubber products were amongst the other industrial products which contributed notably to the drop in export earnings. Earnings from Agricultural exports declined by 6.8 per cent, as earnings from many categories of agricultural exports declined. Despite tea continuing to fetch favourable prices in international markets, export earnings from tea declined in May 2013, due to the lower volumes of tea exported. Export earnings from rubber and coconut also declined in May 2013. However, earnings from exports of seafood and unmanufactured tobacco recorded significant increases in May 2013.

In cumulative terms, during the first five months of 2013, expenditure on imports declined by 9.4 per cent, year-on-year, to US dollars 7,581 million while earnings from exports declined by 6.6 per cent, year-on-year, to US dollars 3,854 million. As expenditure on imports declined by around US dollars 784 million while earnings from exports declined by around US dollars 270 million, the deficit in the trade balance for the first five months of 2013 contracted by 12.1 per cent on a year-on-year basis to US dollars 3,727 million.

Earnings from Tourism in the Services Account of the BOP

Sri Lanka was able to attract 438,653 tourists during the year as of end May 2013, recording a year-on-year growth of 13.2 per cent in total tourist arrivals. Earnings from tourism expanded at a commendable rate of 34.5 per cent in May 2013 to US dollars 77 million, from the US dollar 57 million recorded in May 2012. This increase was the result of a significant increase in the number of tourist arrivals in May 2013. Tourist arrivals increased by 21.8 per cent, year-on-year, to 70,026 in May 2013. On a cumulative basis, earnings from tourism during the first five months of 2013 recorded a growth of 21.9 per cent, to US dollars 484.3 million, compared to the cumulative earnings of US dollars 397.1 million received from tourism during the first five months of 2012.

Current Transfers in the BOP

Workers' remittances increased by 6.6 per cent, year-on-year, to US dollars 541 million in May 2013 from US dollars 507 million in May 2012. Accordingly, cumulative inflows of workers' remittances during the first five months of 2013 amounted to US dollars 2,650 million, an increase of 6.4 per cent compared to the corresponding period of 2012.

Financial Account of the BOP

In May 2013, the Colombo Stock Exchange (CSE) received a net inflow of US dollars 38.6 million, compared to the net inflow of US dollars 10.4 million in May 2012. Accordingly, total net inflows during the first five months amounted to US dollars 108 million. Meanwhile, inflows to commercial banks during the first five months of the year stood at US dollars 664.3 million. Foreign investments in Government securities showed an impressive growth, with net inflows to Treasury bills and Treasury bonds in May 2013 amounting to US dollars 80.1 million, compared to a net inflow of US dollars 16.4 million in May 2012. Accordingly, net inflows to the Government securities market in the first five months of 2013 increased by 39.5 per cent to US dollars 692 million, compared to the net inflow of

US dollars 496 million recorded in the corresponding period of 2012. In the meantime, the government has obtained long-term loans amounting to US dollars 597 million by end May 2013, compared to the US dollars 701 million obtained by way of long-term loans in the first five months in 2012.

International Reserve Position

By end May 2013, Sri Lanka's gross official reserves amounted to US dollars 6.6 billion. Accordingly, Sri Lanka's gross official reserves have been at a satisfactory level in spite of outflows in the first five months of 2013, including the IMF-Stand By Arrangement (SBA) principal payment of US dollars 225.5 million, foreign debt service payments of around USD 575 million and the accumulated valuation losses of US dollars 312 million, due to the cross currency exchange rate movements and the sharp decline in gold prices. The total international reserves, which include foreign assets of commercial banks, amounted to US dollars 8.2 billion. Reflecting the healthy position of international reserves, the import cover of the gross official reserves and total reserves were at 4.3 months and 5.4 months, respectively.

Exchange Rate Behaviour

The Sri Lankan rupee has appreciated against several major international currencies during the year so far, due to cross currency exchange rate movements. By 17 July 2013, the rupee has gained value *vis-à-vis* the pound sterling by 3.2 per cent, the Japanese yen by 11.8 per cent, the Indian rupee by 5.7 per cent and the Australian dollar by 9.4 per cent. Meanwhile, the rupee, which remained firmly stable against the US dollar throughout the year thus far, experienced a transitory depreciation recently. Since the second week of June, the rupee weakened against the US dollar owing to greater demand from importers. During the period from end 2012 through 17 July 2013, the rupee fell by 3.2 per cent against the US dollar and by 1.9 per cent against the euro. Nevertheless, during the last few days, the rupee showed signs of stabilising as it held its ground against the US dollar.

Table 1 : A Summary of External Sector Trade Performance – May 2013(a)

Category	May 2012 (US \$ mn)	May 2013 (US \$ mn)	Growth May (%)	Jan–May 2012 (US \$ mn)	Jan–May 2013 (US \$ mn)	Growth Jan–May (%)

Long-term Loans	152.5	49.5	-67.5	700.6	596.6	-14.8

(a) Provisional

(b) Inflows to commercial banks in 2012 amounted to USD 973 million.

(c) Inflows to the Government include capital and current transfers to the government, inflows from sale of Treasury Bills and Treasury Bonds and long-term loans of the Government.

2. Monetary Policy Review – July 2013

Headline inflation (year-on-year) for June 2013 eased to 6.8 per cent from 7.3 per cent in May 2013. Core inflation (year-on-year) continued to decrease in June 2013 to record the lowest figure since its inception.

Core inflation for June was 4.3 per cent, down from 5.7 per cent in May 2013. Looking ahead, inflation, subject to minimal seasonal variations, is expected to remain at single digit levels for the remainder of the year supported by improved inflation expectations, supply side improvements and the absence of demand driven inflationary pressures.

In the meantime, the recent reduction of the Statutory Reserve Ratio (SRR) by 200 basis points contributed to the monetary policy relaxation process that commenced in December 2012, and provided the financial markets with a further stimulus to support the growth momentum of the economy. As a result, a downward movement was also observed in Treasury yield rates, as well as in the short term lending and deposit rates of major commercial banks. Interest rates for longer term lending facilities for the private sector are also expected to decrease in the ensuing months.

Increased inflows to the current account as well as foreign investments in Government securities, inflows to commercial banks and to the equity market supported the improvements of the external stability. In addition, the trade deficit narrowed further while domestic trade also showed signs of improvement, leading to more robust economic prospects for the country. However, as per the revised global economic outlook of the IMF, weaker than expected economic performance in advanced economies may yet prove to be a dampener in revitalising external demand and would need to be watched carefully in the months ahead.

Credit to the private sector grew during May 2013 as a response to the monetary policy stimulus since December 2012. Private sector credit in May 2013 picked up to record an absolute increase of Rs. 18.3 billion from Rs. 7.6 billion in the previous month. At the same time, year-on-year growth in broad money (M_{2b}) increased to 16.3 per cent in May 2013 from 15.2 per cent in April. As expected, credit to public sector for May 2013 declined by around Rs. 6.2 billion. This decline was supported by the deceleration in credit growth to the government and the decrease in credit utilised by the major public corporations on account of part settlement of dues, the increased revenue flow from adjustments to administered prices and favourable weather prompting low fuel usage for thermal power generation. Further improvements in the public sector performance are expected to release funds from the banking sector to provide additional stimulus to increase private sector activity.

Considering the above, the Monetary Board at its meeting held on 23rd July 2013, was of the view that the current monetary policy stance is appropriate, and accordingly, the Monetary Board decided to maintain the Repurchase rate and the Reverse Repurchase rate of the Central Bank of Sri Lanka without change at 7.00 per cent and 9.00 per cent, respectively.

The date for the release of the next regular statement on monetary policy would be announced in due course.

3. Central Bank Places Cap on Penal Interest Rates charged on Loans and Advances by Banks, Finance Companies and Leasing Companies

The Central Bank has observed with concern that penal interest rates charged by banks, finance companies and leasing companies at present are excessively high, and that such rates are an undue burden to overdue borrowers whilst also hindering entrepreneurship development in the country.

The inability of borrowers to service their loans in the light of such high interest rates also has an adverse impact on the financial position of banks, finance companies and leasing companies, as well as financial system stability.

In this regard, a Central Bank survey has revealed that the current penal interest rates charged by banks are in the range of 2 per cent to 20 per cent per annum on the amount in arrears and sometimes on the total amount outstanding, over and above the original interest rates charged on the loan. In the case of finance companies and leasing companies, the comparative rates are even higher. Further, in respect of leasing facilities, penal rates charged by banks, finance companies and leasing companies are in the range of 36 per cent to 48 per cent per annum on overdue rentals over and above the original rates.

It is therefore clear that such excessive interest rates are not consistent with the present low interest rate regime prevailing in the country, and the low interest

rates prevailing in other peer emerging economies where the lending rates range from 4 per cent to 12 per cent per annum only, and the penal interest rates charged are also comparatively much lower.

Considering the foregoing, the Central Bank has requested banks to reduce the penal rates of interest charged on all loans and advances, including credit facilities already granted, to a level not exceeding 2 per cent per annum, whilst the finance companies and leasing companies have been requested to reduce the penal rate of interest to 3 per cent per annum, with effect from 1 August 2013.

In addition to strengthening financial system stability, the above measures are expected to expand the economic activities of the country in line with the macroeconomic projections for the medium to long term, through the enhancement of lending operations of banks, finance companies and leasing companies in a prudent and productive manner.

4. Inflation declines further in July 2013

Inflation, as measured by the Colombo Consumers' Price Index (CCPI) (2006/07=100) computed by the Department of Census and Statistics decreased to 6.1 per cent on a year-on-year (YoY) basis in July 2013 from 6.8 per cent in the previous month. This decline was observed for the second consecutive month. The inflation rate on an annual average basis also decreased to 8.3 per cent in July 2013 from 8.6 per cent recorded in the previous month.

Core inflation on both YoY and annual average basis continued to decline to 3.1 per cent and 6.2 per cent, respectively, in July 2013 from 4.3 per cent and 6.4 per cent, respectively, in June 2013.

The CCPI increased by 0.2 per cent in July 2013 over the previous month, with the Index increasing in absolute terms to 176.8 from 176.5 in June 2013. The contribution to the monthly increase in the Index came mainly from price increases (by 0.2 per cent) in the Food and Non Alcoholic Beverages sub-category. Within the Food category the price of some varieties of vegetables, fruits and fresh fish, potatoes, big onions, red onions and limes increased during the month. However, a decrease in the price of many varieties of vegetables and fresh fish, green chillies and eggs was reported. Within the Non-Food category, increases in prices were reported in the sub-categories of Transport (by 0.5 per cent); Clothing and Footwear (by 0.2 per cent); and Miscellaneous Goods and Services (by 0.1 per cent). Meanwhile, the prices in the sub-categories

of Housing, Water, Electricity, Gas and Other Fuels; Furnishing, Household Equipment and Routine Household Maintenance; Health; Communication; Recreation and Culture; and Education remained unchanged during the month.

STATISTICAL APPENDIX

Definitions and Explanatory Notes

The following general notes supplement the footnotes given below the individual tables:-

1. The data cover monthly figures available at the time the Bulletin goes to print, and the latest available information does not relate to the same month, in every table.

To enable comparision, annual figures for recent years are given.

2. In an attempt to bring the material up-to-date provisional figures are included in some tables.
3. Figures in some tables have been rounded off to the nearest final digit. Hence there may be a slight discrepancy between the total as shown and the sum of its components.
4. Differences as compared with previously published figures are due to subsequent revisions.
5. The following symbols have been used throughout:-

(a) Revised

(b) Provisional

(c) Based on the Industrial Production Survey and classified in accordance with the International Standard Industrial Classification (ISIC) Revision 4. (2010 = 100)

(d) (1) Includes manufacturing and export processing industries. Small industry is defined as those units having supply of electricity at 400/230 volts and contract demand is less than 50 KVA, medium industry as supply of electricity at 400/230 volts and contract demand is equal or more than 50 KVA and large industry as supply of electricity at 11 KV, 33 KV and 132 KV.

(2) Figures include electricity consumption of hotels.

(e) Sales other than to Ceylon Electricity Board.

(f) Excluding Petroleum exports.

- (a) The index was based on Household Income and Expenditure Survey conducted in 2006/07.
The weights are based on the consumption pattern of the urban households within the Colombo district.
The total basket value (at 2006/07 prices) was Rs. 27,972.11

- (b) Annual and quarterly figures are averages of monthly figures.

Note: The Index numbers are calculated by the Labour Department on fixed weights based on the numbers employed as at 31 December 1978. The wage rate used in the calculation of Index numbers are minimum wages for different trades fixed by the Wages Boards.

Sources : Labour Department
Central Bank of Sri Lanka

- (a) The Index refers to wage rates of tea growing and manufacturing, rubber growing and manufacturing, coconut, cocoa, cardamoms and pepper growing trades only.
- (b) Includes baking, brick and tile manufacturing, coconut manufacturing, printing textile, tyre and tube manufacturing, coir mattresses & bristle fibre export, hosiery manufacturing, engineering, garment manufacturing, match manufacturing, biscuit manufacturing, tea export and rubber export trades only.
- (c) This includes cinema, motor transport and nursing homes trade only.
- (d) Combined Index for workers in Agriculture, Industry & Commerce and Services.
- (e) Provisional.

(a) Daily wages represent payments in cash where meals are not provided by the employer. Annual and quarterly figures are averages of monthly figures.

Source: Central Bank of Sri Lanka

(b) Wages in the construction sector are paid on both daily payment and contractual basis. The series on contractual basis in previous bulletin publications has been replaced by the series on daily payment basis from the monthly bulletin of December 2005 onwards for comparison with wages in other sectors.

(c) Daily wages up to December 2004 are the average of daily wages for the two activities. From January 2005 onwards the daily wages cover both activities under a single category following the restructuring of data collection schedules.

(d) Provisional.

(a) Consists of government expenditure excluding contributions to sinking funds, direct payment of public debt and subscriptions to international financial organisations. Also excludes book adjustments arising from losses on Advance Account operations incurred and financed in the previous financial year. Hence, the figures may not tally with the figures published in the accounts of the Government of Sri Lanka.

Sources : Ministry of Finance and Planning
Central Bank of Sri Lanka

(b) Excludes foreign investments in Treasury bills.

(c) Excludes foreign investments in Treasury bonds.

(d) Net foreign investments in Treasury bills and Treasury bonds are included.

(a) Computed from weekly averages.

(b) Footnote (d) of Table 14 in the Annual Report 2011 gives the conversion formula used for the conversion of the volume of the three main types of coconut exports to their nut equivalent (from kgs).

(c) This refers to prices of the best quality copra.

(a) Trade Indices were revised with a wide coverage and 2010 as the base year and calculated in terms of rupees. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, the first volume index is computed as Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(a) Trade Indices were revised with a wide coverage and 2010 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, the first volume index is computed as Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

- (a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Offshore Banking Units have been treated as a part of the domestic banking system.
- (b) Provisional
- (c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.
- (d) Includes port and airport related services.
- (e) Passage collections by foreign shipping agents and airlines are included in 'passenger fares'.
- (f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.
- (g) Indicates outright grants received in the form of project aid.

- (h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. The debit entries in respect of such imports are in the merchandise account and are recorded on an accrual basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.
- (i) Includes US\$ 973 million of long-term borrowings by commercial banks in 2012.
- (j) The change in capital of the monetary sector is based on local records.
- (k) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings by the Central Bank from the IMF and the receipts under the Stand-by Arrangement facility in 2009. US dollar and Sri Lanka rupee values reflect changes in the representative rate of the Special Drawing Rights (SDRs). Figures in the debit column are in respect of repurchases or repayments, made in installments to the IMF, in respect of earlier drawings.

Central Bank of Sri Lanka

- (a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Offshore Banking Units have been treated as a part of the domestic banking system.
- (b) Provisional
- (c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.
- (d) Includes port and airport related services.
- (e) Passage collections by foreign shipping agents and airlines are included in 'passenger fares'.
- (f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.
- (g) Indicates outright grants received in the form of project aid.
- (h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. The debit entries in respect of such imports are in the merchandise account and are recorded on an accrual basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.
- (i) Includes US\$ 973 million of long-term borrowings by commercial banks in 2012.
- (j) The change in capital of the monetary sector is based on local records.
- (k) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF and the receipts under the Stand-by Arrangement facility in 2009. US dollar and Sri Lanka rupee values reflect changes in the representative rate of the Special Drawing Rights (SDRs). Figures in the debit column are in respect of repurchases or repayments, made in installments to the IMF, in respect of earlier drawings.

(a) Special Drawing Rights (SDRs), the unit of account of the International Monetary Fund.

Source: Central Bank of Sri Lanka

(b) The NEER is the weighted average of nominal exchange rates of the 24 trading partner and competitor countries. Weights are based on the trade shares reflecting the relative importance of each currency in the currency basket.

(c) The REER is computed by adjusting the NEER for inflation differentials with the countries whose currencies are included in the basket.

(a) Annualised Forward Premium (f^d) is computed using the following formula.

Source: Central Bank of Sri Lanka

$$f^d = \{[F_t^T - S_t] / S_t\} * 100 * (12/T)$$

Where F_t^T is the forward rate for period t that exists in period T ($T = 1, 3$) and S_t is the interbank spot rate at period t .

(b) Provisional.

(a) Currency held by the Treasury and the District Secretariats.

Source: Central Bank of Sri Lanka

(b) Total amounts of currency, including subsidiary notes and coins issued by the Central Bank.

(c) Demand deposits of the government held with commercial banks and the Central Bank.

(d) Inter bank deposits both local and foreign including deposits of international organizations and commercial banks with the Central Bank.

(e) Total demand deposits held by the Central Bank and commercial banks.

(f) M₂ equals currency held by the public plus rupee denominated demand, savings and time deposits held by the public.

(a) The number of reporting banks were 23 until January 2006, 22 from October 2008, 23 from August 2011 and 24 from December 2011.

(Contd.)

(b) Fixed and other assets consists of banks' property,furniture,fittings and sundries (commission,interest receivables etc.)

(c) Liquid assets consist of Cash on hand, Balances due from Central Bank, Foreign currency on hand and Balances due from banks abroad, Government of Sri Lanka Treasury bills and bills discounted. Balances due from domestic banks and cash items in process of collection have been excluded from liquid assets and domestic inter-bank deposits have been excluded from demand deposits, because from the view point of the commercial banking system as a whole such claims and deposits cancel out.

(a) M_{2b} is based on the aggregated data pertaining to both Domestic Banking Units (DBUs) and Offshore Banking Units (OBUs) of Licensed Commercial Banks operating in Sri Lanka. Definitional changes have been adopted in aggregating DBUs and OBUs to avoid double counting and misclassification of assets and liabilities.

(Contd.)

The major changes are:

- (1) All DBU placements in OBUs are recorded as domestic assets, while all DBU borrowings from OBUs are recorded as domestic liabilities.
- (2) Foreign currency deposits with DBUs are classified on the basis of ownership rather than on the basis of currency. Hence the following apply:
 - (i) One half (50 per cent) of Non-Resident Foreign Currency (NRFC) deposits are treated as domestic deposit liabilities;
 - (ii) All Resident Non-National Foreign Currency (RNFC) balances are treated as foreign liabilities;
 - (iii) All other domestic foreign currency accounts are treated as domestic deposit liabilities.

(b) External assets (net) of the Central Bank and commercial banks (including outward bills)

(c) Currency and demand deposits of the public

(d) Time and savings deposits of the public held with commercial banks

(Contd.)

(a) M_4 is based on the aggregated data pertaining to Licensed Specialised Banks (LSBs) and Licensed Finance Companies (LFCs), in addition to the institutions covered in M_{2b} .

(b) Currency, demand deposits and quasi money of DBUs in this table differ from those in Table 56 due to the fact that LSBs and LFCs are not treated as 'Public' under the Financial Survey (M_4) definition.

(c) Time and savings deposits of the private sector with commercial banks, LSBs and LFCs.

(d) LSBs include Regional Development Banks/Pradeshiya Sanwardhana Bank (which was established on 14 July 2010 by amalgamating Regional Development Banks, DFCC Bank, National Savings Bank, State Mortgage and Investment Bank, MBSL Savings Bank Ltd., SANASA Development Bank Ltd., HDFC Bank of Sri Lanka, Sri Lanka Savings Bank Ltd. and Lankaputhra Development Bank Ltd.).

(e) Credit extended by the Central Bank, LCBs, LSBs and LFCs to the Government, net of Government deposits and Government cash balances.

Source: Central Bank of Sri Lanka

(f) The sharp increase in credit to private sector by LFCs in some months could be attributed to already established Specialised Leasing Companies (SLCs) obtaining LFC licenses.

Source: Central Bank of Sri Lanka

- (a) Under Sections 10c, 93, 94, 96 and 97 of the amended Monetary Law Act (Chapter 422), commercial banks and other financial institutions are required to maintain reserves against their deposit liabilities as prescribed by the Monetary Board. Currently, only commercial banks are subject to reserve requirements. With effect from 24 January 1992, an amount of till cash over and above two per centum of the total deposit liabilities, but not exceeding four per centum, could be maintained as a part of required reserves in the form of Sri Lanka currency notes and coins. Details of required reserve ratios, which were applicable in the past and computational methods have been published in the Appendix table on the 'Reserve Position of Commercial Banks' in the Annual Reports prior to 2003.
- (b) Reserve data are for the last reserve week of each month. The required reserves recorded in the table refer to the cumulative reserves for the week, while commercial bank's deposits with the Central Bank are the cumulative deposits for that particular reserve week. Excess/Deficit on SRR is the difference between the cumulative SRR for the reserve week and cumulative deposits of the commercial banks' for the week.
- (c) Excludes interbank deposits.
- (d) With effect from 03 April 2003, the basis of computing the Statutory Reserve Requirement (SRR) was changed from deposit liabilities and till cash balances at the close of business on Wednesday of the previous reserve week, to the average of deposit liabilities and till cash balances during the week ending Tuesday of the previous reserve week.
- (e) SRR was increased from 7.00 per cent to 8.00 per cent with effect from 29 April 2011.

(a) Pursuant to Section 51 of the Monetary Law Act, the Central Bank's holdings of notes and coins are not considered as part of its currency issue.

(b) Currency notes in the denomination of Rs. 20 were issued from 4 August 1980, Rs. 1,000 from 23 December 1981, Rs. 500 from 9 February 1982, Rs. 200 from 4 February 1998, Rs. 2,000 from 17 October 2006 and Rs. 5,000 from 4 February 2011.

(c) Currency notes of Rs. 5, Rs. 2 and Re. 1 are also included. The value of these notes remained unchanged at Rs. 37.2 million, Rs. 26.7 million and Rs. 5.0 million, respectively as at end June 2013.

(d) This includes commemorative coins issued upto 30 June 2013. As at end June 2013, the values of Rs. 100 coins, Rs. 500 coins, Rs. 1,000 coins and Rs. 5,000 coins stand at Rs. 4.4 million, Rs. 21.8 million, Rs. 253.0 million and Rs. 39.5 million respectively. The total value of other commemorative coins, as at end June 2013, stands at Rs. 253.8 million.

Source: Central Bank of Sri Lanka

(a) All interest rates are as at the end of period, unless otherwise stated.

(b) The rate at which the Central Bank grants advances to banking institutions as the lender of last resort.

(c) Average Weighted Deposit Rate (AWDR) is calculated by Central Bank monthly, based on the weighted average of all outstanding interest bearing deposits of commercial banks and the corresponding interest rates.

(d) The Average Weighted Prime Lending Rate (AWPR) is calculated by the Central Bank weekly, based on commercial bank's lending to their prime customers during the week. The monthly figures are average values of estimated weekly rates.

(e) The Sri Lanka Inter-Bank Offered Rate (SLIBOR) is computed daily by the Central Bank, based on rates offered by commercial banks in the inter-bank market. The rate shown is the average of such offered rates by selected commercial banks.

(a) Secondary market information is based on data provided by Primary Dealers in Government Securities.

Sources: Central Bank of Sri Lanka

Primary Dealers in Government Securities

Primary Dealers in Government Securities

(b) The yield rates on Rupee Securities are administratively determined. The given rates include taxes.

(c) Trading volumes reported are cumulative for the period.

(d) Yield rates are averages of bid and offer rates.

(e) Unlike Treasury bills, Treasury bonds are not issued on a regular basis. Hence a continuous series of primary market yield rates does not exist.

---------	---------

Credit cards

- Issuing fee
- Renewal fee

Rs. 5,000	Rs. 200
Rs. 10,000	Rs. 180

Notes :

- (1) Commercial banks charge a variety of fees and commissions on their services. The table gives a range of the maximum and minimum fees and commissions which are based on the information provided by commercial banks. These charges, which do not change very frequently are published semi-annually to enable the public to negotiate best terms. These fees and commissions could be different when services and products are provided as a package.
- (2) These are standard charges of commercial banks. However, charges for some specific products could include charges payable to banks abroad. For example, banks in Sri Lanka may include in their charges fees payable to banks abroad such as for adding confirmation to Letters of Credit, and for correction of discrepancies.
- (3) In the case of Documentary Credits, the charges for transmission outward from Sri Lanka would differ depending on the mode of transmission used.
- (4) Loan application processing fees vary according to the loan amount.

(b) The Milanka Price Index (MPI) was introduced in January 1999 to replace the Sensitive Price Index.

The MPI was replaced by S&P Sri Lanka 20 Index (S&P SL20) with effect from 1st January 2013.

(c) The S&P SL20 was introduced in June 2012.
