Part I

EVENTS OF THE MONTH

June 2009

Fiscal Sector

 Duty waivers of Rs.6 per litre on petrol and Rs.7 per litre on diesel were given.

Loans and a grant from the Asian Development Bank

Three agreements were signed between the Government of Sri Lanka and the Asian Development Bank on 17 June 2009 for two loans and a grant to finance the "Clean Energy and Access Improvement Project". The Grant is for US dollars 2.2 million (approximately Rs.253 million). Details of the loan agreements are as follows.

 Loan for US dollars 135 million (approximately Rs.15,511 million)

This loan is repayable in 25 years including a grace period of 5 years and it carries an interest rate of LIBOR + 0.60 per cent per annum and a commitment charge of 0.15 per cent per annum on unwithdrawn balance.

2. Loan for SDR 16.843 million (approximately Rs.2,975 million)

This loan is repayable in 32 years including a grace period of 8 years and carries an interest rate of 1 per cent per annum during the grace period and 1.5 per cent per annum thereafter on the amount of loan withdrawn.

A loan and grants from the Asian Development Bank

Three agreements were signed between the Government of Sri Lanka and the Asian Development Bank on

29 June 2009 for a loan and two grants to finance the "Dry Zone Urban Water and Sanitation Project". The loan of SDR 40.05 million (approximately Rs.7,135 million) is repayable in 32 years including a grace period of 8 years. The loan facility carries an interest rate of 1 per cent per annum during the grace period and 1.5 per cent per annum thereafter on the amount of loan withdrawn. The first grant is amounting to US dollars 23.22 million (approximately Rs.2,668 million) and the second grant is amounting to US dollars 2 million (approximately Rs.230 million).

Grant from the International Bank for Reconstruction and Development (IBRD) of World Bank

An agreement was signed between the Government of Sri Lanka and IBRD on 16 June 2009 for a grant of US dollars 0.473 million (approximately Rs.54 million) to finance the "Information and Communications Technology Regulatory Capacity Building Project".

Grant from the Food and Agriculture Organization (FAO) of United Nations

An agreement was signed between the Government of Sri Lanka and FAO on 02 June 2009 for a regional grant of US dollars 30.9 million to finance the "Sustainable Management of the Bay of Bengal Large Marine Ecosystem". Out of this regional grant, Government of Sri Lanka expects to receive US dollars 4.0 million (approximately Rs.460 million).

Part II PRESS RELEASES

June 2009

1. Inflation moved up marginally in May 2009

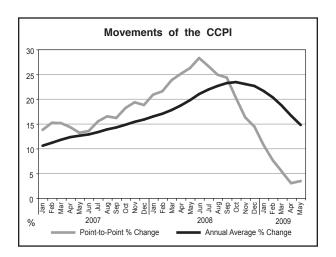

The rate of inflation as measured by the point-to-point change in the Colombo Consumers' Price Index (CCPI) (2002=100), computed by the Department of Census and Statistics increased to 3.3 per cent in May, 2009 compared to 2.9 per cent in April, 2009. Meanwhile, the annual average inflation rate continued to decelerate and recorded 14.7 per cent in May, 2009 compared to 16.7 per cent in the previous month.

The CCPI increased by 2.0 per cent in May, 2009 over the previous month. The upward revision of price of gas in response to the price movement in the global market and increase in prices of sugar and dhal with the removal of price ceiling imposed by the government, at the beginning of the month were the main contributory factors to the increase in the CCPI. Further, certain prices in the food category, mainly the most varieties of fish, chicken, eggs, vegetables, coconut and coconut oil also reported increases during the month.

The Core inflation, on a point-to-point basis remained unchanged at 13.5 per cent in May, 2009. However, as a result of the increase in the monthly core index by 0.3 per cent, the annual average core inflation rate increased from 15.5 per cent in April, 2009 to 15.8 per cent in May, 2009.

As the external price pressures are expected to be minimal, the outlook for domestic inflation is expected to be favourable throughout 2009. Inflation is expected to

remain at single digit level reflecting the complimentary impact of tight monetary policy adopted by the Central Bank during the past years.

2. Banks to Expand Services in the Nothern Province

Following the liberation of the entirety of the Northern Province, banks have shown a considerable interest in resuming normal banking operations in the Province. This situation has resulted in many licensed commercial banks and licensed specialized banks seeking approval to open new branches and other banking outlets in the Northern Province.

The Central Bank has, over the past 3 weeks, granted approval for 67 new banking service outlets in the Northern Province, which is the largest number of approvals

given during a comparable period. This trend of banking expansion in the Northern Province is expected to grow with the resettlement of the displaced persons.

The Central Bank is also formulating new microfinance programmes to cater to the credit needs in the Province and to unleash the potential for development, and thereby facilitate faster development in the Northern Province.

The resulting expansion in business will strengthen the financial position of the banks as well.

3. 38th Meeting of the Board of Directors of Asian Clearing Union to be held in Colombo on 16th June 2009

The Central Bank of Sri Lanka will be hosting the 38th Meeting of the Board of Directors of the Asian Clearing Union (ACU) on June 16, 2009 in Colombo. The meeting will be inaugurated by the Prime Minister of Sri Lanka, Hon. Ratnasiri Wickremanayake.

The main purpose of the meeting will be to review the operations of the ACU and to adopt resolutions that are deemed necessary for the continued successful operation of the ACU. The principal advantage of the ACU is that it allows members two months credit in settling their payments relating to the trade transactions among member countries which are routed through the respective Central Banks/Monetary Authorities. The ACU headquarters is based in Tehran, Iran.

The key objectives of the ACU are to: (a) provide the facility to settle payments for current international transactions on a multilateral basis among member countries; (b) promote monetary cooperation among participants; and (c) develop close relations among the banking systems in the member countries and thereby to promote trade and economic activities among member countries. The ACU which was established in 1974, presently has a membership of eight Central Banks/ Monetary Authorities consisting of Bangladesh, Bhutan, India, Iran, Myanmar, Nepal, Pakistan and Sri Lanka.

The Board of Directors of the ACU comprises the Governors of Central Banks/Heads of Monetary Authorities of the eight member countries. Accordingly, the following Governors from the respective countries are expected to attend the Colombo meeting: Dr Atiur Rahman, Bangladesh Bank, Mr. Daw Tenzin, Royal Monetary Authority of Bhutan, Dr. D Subbarao, Reserve Bank of India, Dr. M Bahmani, Central Bank of Islamic Republic of Iran, Mr. Than Nyein, Central Bank of Myanmar and Mr. Deependra B Kshetry, Nepal Rastra Bank. In addition, Mr. M Kamran Shehzad, Deputy Governor of State Bank of Pakistan will represent the Governor at the meeting. Mr. Ajith Nivard Cabraal, Governor of the Central Bank of Sri Lanka will chair the meeting.

Apart from the respective Governors of the member countries, Mr. Muhebullah Safi, the First Deputy Governor of the Da Afghanistan Bank will attend the meeting as an observer, and Mr. Fazeel Najeeb, Governor of the Maldives Monetary Authority will attend the meeting and submit the application of the Republic of the Maldives to obtain the membership of the ACU.

4. Monetary Policy Review - June 2009

The Monetary Board, at its meeting held on 15 June 2009, decided to further relax its monetary policy stance by reducing the policy interest rates of the Central Bank of Sri Lanka by 50 basis points each. Accordingly, the Central Bank's Repurchase rate is 8.50 per cent and the Reverse Repurchase rate is 11.00 per cent, with immediate effect.

The prevailing benign inflation environment has enabled the Central Bank to pursue a policy path that is more supportive of economic activity, during 2009, up to now. The positive developments that took place in the recent period has uplifted the growth prospects

for Sri Lanka as immediately reflected in the healthy developments in market sentiments. The renewed business confidence and investor perceptions along with reconstruction and development work already embarked on in the newly liberated areas, is expected to generate new economic activity. Today's monetary policy decision will support such economic activity.

Inflation, as measured by the year-on-year change in the Colombo Consumers' Price Index (base=2002), continued to decline till April but increased marginally to 3.3 per cent as expected in May on account of the upward revisions to some administered prices. Although year-on-year inflation is projected to pick-up gradually during the second half of the year from the current very low levels of inflation, current projections indicate that inflation would continue to remain at single digit levels during the remainder of this year as well as next year.

Since the onset of turbulent conditions in the global economy, which resulted in liquidity constraints in credit markets the world over, the challenge for policy makers has been to enhance credit flows to the private sector. As the private sector plays a key role in determining the economic prospects of our country, it is imperative that sufficient credit is available to the private sector. However, credit supply to the private sector, in absolute terms, has contracted during the first four months of the

year while, on a year-on-year basis, it has decelerated significantly by April 2009. While the Central Bank has taken several monetary policy measures thus far during the year, financial markets are yet to fully adjust to these policy measures. Today's reduction of the Central Bank's policy rates would help ease conditions in domestic credit markets further and thereby bring down market interest rates, facilitating an increased flow of credit.

Stability in the domestic foreign exchange market, supported by inflows of foreign exchange, is also supportive of lower market interest rates. While the country's international reserves have improved as a result of recent purchases of foreign exchange by the Central Bank, strengthening international reserves, in turn, would help stabilise domestic financial markets. It is envisaged that these positive developments together with the policy measures taken by the Central Bank, would enable financial intermediaries to bring down their cost of funds further, thereby ensuring a rise in credit to the economy.

The release of the next regular statement on monetary policy will be on 13 July 2009.

5. 38th Meeting of the Board of Directors of Asian Clearing Union to 16 June 2009, Colombo – Sri Lanka

The 38th meeting of the Board of Directors of the Asian Clearing Union (ACU) was successfully concluded on 16 June 2009 at the Central Bank of Sri Lanka. The ACU is the simplest form of payment arrangements whereby the participants settle payments for intra-regional transactions on a multilateral basis.

The members are Bangladesh Bank, Royal Monetary Authority of Bhutan, Reserve Bank of India, Central Bank of the Islamic Republic of Iran, Central Bank of Myanmar, Nepal Rastra Bank, State Bank of Pakistan and the Central Bank of Sri Lanka. The total volume of transactions channeled through the ACU mechanism during the year 2008 was about USD 42 billion representing an increase of 32 per cent over the previous year.

The meeting was inaugurated by Hon. Ratnasiri Wickremanayake, the Prime Minister of Sri Lanka and was chaired by the Governor of the Central Bank of Sri Lanka and Chairman of the Board of Directors of the ACU. At this meeting, the Secretary General of the ACU presented the Report on the operations of the ACU during the year 2008, followed by presentations of country reports made by the participants. Resolutions brought forward by the participating members for the progress of the Union were deliberated upon.

Emphasis was also placed on the role of the ACU in promoting intra-regional trade with a view to enhancing greater regional integration. The meeting deliberated on the way forward including expanding the membership of the Union and also diversification of its activities. It was agreed to appoint a Technical Group to study these issues and present its recommendations to the Board of Directors at its next meeting.

At the meeting, it was decided to admit the Maldives Monetary Authority into the Union following an application submitted by them to obtain membership of the ACU.

The 39th Meeting of the Board of Directors of the ACU is scheduled to be held in Bhutan in 2010. Following the principles of rotation, during 2010, the Chairmanship of the ACU will be held by the Governor, Royal Monetary Authority of Bhutan and the Vice Chairmanship by the Governor, Reserve Bank of India.

6. The Employees' Provident Fund: Administration, Investment and Release of funds to members

The Employees' Provident Fund (EPF) wishes to inform its members that in terms of the Employees' Provident Fund Act, No. 15 of 1958 (the Act) the Monetary Board of the Central Bank acts as the custodian of the funds lying to the credit of the EPF members.

The monies received from the employers as per law are maintained in individual member accounts. On behalf of its members, EPF maintains only two types of accounts, one which receives contributions regularly and the other which does not receive contributions regularly. The monies in these accounts, lying to the credit of the members, are held by the EPF as a current and future liability to be paid to the member or to the member's nominee at a future time. These monies are invested by EPF mainly in government securities and other instruments of investment and yearly interest is accrued to the accounts.

According to law, the following are identified as the only instances, under which, funds could be released to the members,

- · When a member reaches the age of retirement,
- When a female member ceases to be employed after her marriage,

- When a member ceases to be employed due to ill health causing permanent and total incapacity to work,
- · When a member migrates to a foreign country,
- When a member takes up pensionable employment in the government,
- A member ceases to be employed either due to establishment, take-over, carrying on of business by an order of incorporation or upon incorporation of a public corporation or the member ceases to be employed in a public corporation due to retrenchment or dissolution of such public corporation.

Also, in terms of the Employees' Provident Fund (Amendment) Act, No. 42 of 1988; the Commissioner of Labour can direct the Monetary Board to recover any outstanding amount of a housing loan obtained by the member under the EPF scheme.

7. Sri Lanka Development Bonds (SLDBs) over subscribed by over 135 per cent

The Central Bank of Sri Lanka, on behalf of the Government, offered to issue Sri Lanka Development Bonds (SLDBs) to eligible investor categories for subscription at a rate of US dollar 6 month LIBOR plus a margin to be determined through competitive bidding. The offer was opened on 15th June 2009 with the settlement on 29th June 2009. The Bonds on offer amounted to US dollars 50 million for a 2 year maturity period.

The offer was substantially oversubscribed by both foreign and local commercial banks, with the total bids received amounting to US dollars 118 million (236% of the sum offered). Of such bids, the Government has decided to accept US dollars 115.8 million of 2 year SLDBs at the market determined rate of US dollar 6 month LIBOR + 4.97 per cent (weighted average margin). Today, the US dollar 6 month LIBOR rate is 1.16 per cent.

This SLDB issue is within the annual borrowing limit approved by Parliament for 2009 and a sum of US dollars 50 mn mobilized through this bond issuance is to be used to settle the SLDBs that are maturing on that date. The excess fund mobilization of about US dollars 66 mn through this SLDB issue would limit government requirement of new

external foreign currency commercial borrowings during 2009. Further, it would replenish the foreign currency reserves of the Central Bank, part of which was used to settle foreign currency commercial loan obligation of US dollars 125 million on 15th June 2009.

The oversubscription and decline of the margin of this SLDB issue, compared to the last SLDB issuance in March this year and the increase in Foreign investments in rupee denominated Treasury bonds and Treasury bills by Rs.22 billion (US dollars 190 million) during the past 10 weeks clearly reflects the growing investor confidence in the Government of Sri Lanka after the dawn of the new era in the country, as a result of the ending of the 30 years terrorist conflict.

8. External Sector Performance - April 2009

Year-on-year, Sri Lanka's trade deficit contracted for the fourth consecutive month in April 2009 by 75.9 per cent to US dollars 167 million. Although both earnings from exports and expenditure on imports, declined during the month, the reduction in imports outweighed the reduction in exports, largely due to the lack of demand for imported goods and the lower import prices compared to those that prevailed at around this time of the year, last year, in the midst of an international commodity price boom.

The cumulative trade deficit decreased by 61.5 per cent to US dollars 806 million during the first four months of 2009 from US dollars 2,091 million in the corresponding period of 2008. Private remittances, reached US dollars 1,034 million during the first four months of 2009, compared to US dollars 1,047 million in the corresponding period of 2008. As a result, remittances during the first four months were US dollars 228 million (about 28 per cent) in excess of the trade deficit.

Export earnings dropped by 28.2 per cent in April 2009, to US dollars 438 million, reflecting reductions in all major sectors. Within the agricultural exports, however, tea continued to perform well, in terms of prices. At US dollars 3.99 per kg, the export price of tea was almost on par with the US dollars 4.00 it fetched around this part of the year last year at the height of the commodity price boom. The reduction in earnings from tea exports in April, however, was largely due to the lower export quantities, which could be attributed to lower global demand, and the effect of drought conditions. Earnings from exports of coconut kernels increased by 34.8 per cent to US dollars 3 million despite the 43.4 per cent decline in the prices. Earnings from rubber exports decreased by 36.1 per cent in April, despite the 16.7 per cent increase in export volumes, largely due to the significant decline in export prices over the same period last year, when natural rubber was attracting a premium price. Among the industrial exports, the earnings from the textiles and garments sub sector declined by 10.1 per cent to US dollars 227 million in April 2009. Despite the confidence expressed by the industry of having confirmed orders, some orders were cancelled or postponed amidst uncertainties about the strength and duration of the global economic downturn. Demand from the European Union declined by 17.6 per cent to US dollars 103 million while demand from the US picked up by 4.4 per cent to US dollars 103 million during April 2009. The cumulative earnings from exports declined by 16.2 per cent to US dollars 2,085 million.

Expenditure on imports declined by 53.5 per cent to US dollars 604 million in April 2009 in view of the reduced demand, reflecting the slowing down in economic activity amid global recession, despite the significantly lower prices of major commodity imports. Consumer goods declined by 48.2 per cent, due to lower expenditures incurred on imports of sugar, wheat grain, milk products, and other food

items. Following the upward trend in sugar prices in the international market, the import price of sugar increased by 16.3 per cent in April 2009. Among the non-food consumer items, imports of motor vehicles and electrical appliances declined by 80.1 per cent and 63.7 per cent respectively. Expenditure on intermediate goods also declined by 58.2 per cent to US dollars 349 million, led by lower petroleum and fertilizer imports. Import price of crude oil averaged at US dollars 54 per barrel in April 2009. Imports of textiles and diamonds also declined, by 26.3 per cent and 35.7 per cent respectively, reflecting the lackluster global demand conditions. Expenditure on investment goods declined by 44.1 per cent to US dollars 127 million in April 2009. The cumulative expenditure on imports declined by 36.9 per cent to US dollars 2,891 million.

The gross official reserves, with and without Asian Clearing Union (ACU) funds, recorded US dollars 1,471 million and US dollars 1,296 million respectively, by end April 2009. These include deposits of US dollars 165 million placed with two domestic banks. Based on the previous 12 month average imports (US dollars 1,060 million per month), these reserve values are equivalent to 1.4 and 1.2 months of imports, respectively. However, in view of the current and expected low imports, resulting from the sharp reduction in the oil and petroleum product import bills, the actual equivalent number of months of imports would be much higher. The foreign exchange inflows have also responded favourably to the positive outlook brought about by the end to the three decades of conflict.

In the meantime, the Central Bank is in the process of building up its official reserves to a more comfortable level by absorbing foreign exchange from the market. Since May 2009, it has absorbed US dollars 367 million from the market (up to 19th June 2009). In addition the Sri Lanka Development Bonds (SLDBs) offered on 15th June 2009 was substantially oversubscribed by 236 per cent mobilizing an additional US dollars 66 million for gross official reserves. The positive trend has helped the Central Bank to remove the restrictions that were imposed on forward sales and purchases of foreign exchange on 31 October 2008 and the margin deposit requirements imposed on importation of motor vehicles and selected consumer goods. In addition, the net open positions for foreign exchange transactions by commercial banks were enhanced recently. These measures are expected to stabilize the foreign exchange market further and encourage more inflows in the future.

The external trade performance during this period is further illustrated in the following table.

External Trade Performance: April 2009 and January - April 2009

| Category | April 2008 US \$ mn | April 2009 US \$ mn | Growth April % | Jan–Apr 2008 US \$ mn | Jan–Apr 2009 US \$ mn | Growth Jan–Apr % |

9. Sri Lanka Financial Intelligence Unit obtains the membership of the Egmont Group

The Financial Intelligence Unit (FIU) of the Central Bank of Sri Lanka obtained membership of the Egmont Group, at its recent Annual Meeting held in Doha, Qatar. The Egmont Group is an association of FIUs established in 1995. Its membership now stands at 116.

Obtaining membership of the Egmont Group enables Sri Lanka's FIU to develop vital relationships to facilitate exchange of financial intelligence with other FIUs and foster global partnerships in combating money laundering and terrorist financing. Since money laundering and terrorist

financing are often globally organized, global co-operation of FIUs is a key strategy to deal with such activities.

At the Egmont Group meeting in Doha, Sri Lanka also signed a Memorandum of Understanding with the FIU of Indonesia for the exchange of financial information.

10. Recapitalisation of the Seylan Bank PLC

The Monetary Board has noted with satisfaction that Seylan Bank PLC has continued its operations over the past six months in a manner so as to build public confidence, trust and acceptance. In particular, the current Board of Directors, with the assistance of the Bank of Ceylon, has been able to steer the bank to engage in normal banking operations in a successful manner and thereby stabilize the bank.

The Monetary Board is also of the view that an infusion of new capital into the bank should now be arranged for its future operations. In that context, the bank has been directed by the Monetary Board to issue an appropriate number of voting shares so as to generate a capital infusion of around Rs. 3 billion by end August 2009. Towards such end, Seylan Bank PLC will be required to invite investments from a few state institutions so that such institutions could collectively invest approximately 33 percent of the ordinary shares of the bank. The existing shareholders and other new local and foreign investors too, could participate in the new share issue, which is expected to take place in August 2009.

The new infusion of capital is expected to significantly strengthen the operations of the bank as well as ensure its stability and soundness in the long term. In the meantime, the Central Bank has requested Bank of Ceylon to continue with its managerial assistance to Seylan Bank PLC, and the current Directors to continue to serve on the Board. Three new Directors are also expected to be invited to join the Board, after the share issue.

With reference to the process of selection of a strategic investor for Seylan Bank PLC, the Central Bank is thankful to the prospective strategic investor who has made an offer and shown interest in participating as a strategic investor in Seylan Bank PLC. However, the Monetary Board has concluded that the offer received by the prospective strategic investor has not fulfilled the parameters set by the Central Bank in relation to the ownership limits. Therefore, it has decided not to accept such offer and to proceed with the above stated course of action.

STATISTICAL APPENDIX

Definitions and Explanatory Notes

The following general notes supplement the footnotes given below the individual tables:—

1. The data cover monthly figures available at the time the Bulletin goes to print, and the latest available information does not relate to the same month, in every table.

To enable comparision, annual figures for recent years are given.

- In an attempt to bring the material up-to-date provisional figures are included in some tables.
- Figures in some tables have been rounded off to the nearest final digit. Hence there may be a slight discrepancy between the total as shown and the sum of its components.
- 4. Differences as compared with previously published figures are due to subsequent revisions.
- 5. The following symbols have been used throughout:-

n.a. = not available

= nil

... = negligible

PRODUCTION, RAINFALL, INPUTS AND INVESTMENT

⁽a) (1) Includes manufacturing and export processing industries. Small industry is defined as those units having supply of electricity at 400/230 volts and contract demand is less than 50 KVA, medium industry as supply of electricity at 400/230 volts and contract demand is equal or more than 50 KVA and large industry as supply of electricity at 11KV, 33KV and 132KV.

(2) Figures include electricity consumption of hotels.

Note: The Index numbers are calculated by the Labour Department on fixed weights based on the numbers employed as at 31 December 1978. The wage rate used in the calculation of Index numbers are minimum wages for different trades fixed by the Wages Boards.

Sources: Labour Department Central Bank of Sri Lanka

⁽a) The Index referes to wage rates of tea growing and manufacturing, rubber growing and manufacturing, coconut, cocoa, cardamoms and pepper growing trades only.

⁽b) Includes baking, brick and tile manufacturing, coconut manufacturing, printing textile, tyre and tube manufacturing, coir mattresses & bristle fibre export, hosiery manufacturing, engineering, garment manufacturing, match manufacturing, biscuit manufacturing, tea export and rubber export trades only

⁽c) This includes cinema, motor transport and nursing homes trade only.

⁽d) Combined Index for workers in Agriculture, Industry & Commerce and Services.

⁽e) Provisional.

⁽a) Daily wages represent payments in cash where meals are not provided by the employer. Annual and quarterly figures are averages of monthly figures.

⁽b) Wages in the construction sector are paid on both daily payment and contractual basis. The series on contractual basis in previous bulletin publications has been replaced by the series on daily payment basis from the monthly bulletin of December 2005 onwards for comparison with wages in other sectors.

⁽c) Daily wages up to December 2004 are the average of daily wages for the two activities. From January 2005 onwards the daily wages cover both activities under a single category following the restructuring of data collection schedules.

⁽d) Provisional.

⁽a) Consists of government expenditure excluding contributions to sinking funds, direct payment of pulic debt and subscriptions to international financial organisations. Also excludes book adjustments arising from losses on Advance Account operations incurred and financed in the previous financial year. Hence, the figures may not tally with the figures published in the accounts of the Government of Sri Lanka.

Sources: Ministry of Finance and Planning Central Bank of Sri Lanka

⁽b) Special payments and receipts on account of Sri Lanka's contribution to and from the IMF and the IDA and special loans from these payments are excluded from both recurrent expenditure and Central Bank Advances.

⁽c) Provisional.

⁽d) Excludes Treasury bonds to non-residents in 2007.

⁽e) Includes Treasury bonds issued to non-residents in 2007.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(b) Provisional.

⁽a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(b) Provisional.

- (a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Off-shore Banking Units (OBUs) have been treated as a part of the domestic banking system.
- (b) Provisional
- (c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.
- (d) Includes port expenditure.
- (e) Passage collections by foreign shipping agents and airlines are included in Passenger Fares.
- (f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.
- (g) Indicates outright grants received in the form of project aid.
- (h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. Debit entries respect of such imports are in the merchandise account and are recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.
- i) The change in capital of the monetary sector is based on local records.
- (j) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF. Sri Lanka Rupee values reflect changes in the representative rate of the SDR. Figures in the debit column are in respect of repurchases or repayments, made in instalments to the IMF, in respect of earlier drawings. Subscriptions to the IMF, consequent to successive increases in Sri Lanka's quota, are also shown in the debit column.

Balance of Payments(a) - US dollars million

- (a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Off-shore Banking Units (OBUs) have been treated as a part of the domestic banking system.
- (b) Provisional
- (c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.
- (d) Includes port expenditure.
- (e) Passage collections by foreign shipping agents and airlines are included in Passenger Fares.
- (f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.
- (g) Indicates outright grants received in the form of project aid.
- (h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. Debit entries respect of such imports are in the merchandise account and are recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.
- (i) The change in capital of the monetary sector is based on local records.
- j) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF. Sri Lanka Rupee values reflect changes in the representative rate of the SDR. Figures in the debit column are in respect of repurchases or repayments, made in instalments to the IMF, in respect of earlier drawings. Subscriptions to the IMF, consequent to successive increases in Sri Lanka's quota, are also shown in the debit column.

⁽a) Special Drawing Rights, the unit of account of the International Monetary Fund.

⁽b) The NEER is a weighted average of nominal exchange rates of 24 trading partner and competitor countries. Weights are based on the trade shares reflecting the relative importance of each currency in the currency basket.

⁽c) The REER is computed by adjusting the NEER for inflation differentials with the countries whose currencies are included in the basket.

⁽a) Annualized Forward Premium (f^{a}) is computed using the following formula.

Where F_t^{t+1} is the forward rate for period t+1 that exists in period t and S_t is the interbank spot rate at period t.

 $f^{d} = \{ [F_{t}^{t+1} - S_{t}] / S_{t} \} * 100 * (12/t)$

⁽b) Provisional

(1) Total amount of currency, including subsidiary notes and coins issued by the Central Bank.

(2) Currency held by the Treasury and the Kachcheries.

(5) Total demand deposits held by the Central Bank and the commercial banks.

(6) Government demand deposits with the commercial banks and the Central Bank.

(7) Inter bank deposits both local and foreign, including deposits of international organisations and commercial banks with the Central Bank.

(10) Time and savings deposits of non-governmental sector held with commercial banks.

(11) M_2 is defined as M_1 plus time and savings deposits of the public held with commercial banks.

Note: (a) Monetary data from 1990 have been reclassified as follows, to be consistent with the standard international practice.

Column 5 & 8 - Excludes the value of rupee demand deposits held by customers resident outside Sri Lanka. These deposits are now treated as foreign liabilities (Rs.1,112 million at end April 2009).

Column 10 - Excludes the value of rupee time and savings deposits held by customers resident outside Sri Lanka. These deposits are now treated as foreign liabilities (Rs.622 million at end April 2009).

External assets (net) of the Central Bank and commercial banks (including outward bills).

(b) Currency and demand deposits held by the public.

(c) Credit extended by the banking system to the government, net of government deposits with banks and government cash balances.

(d) Monetary data from 1990 have been reclassified as follows, to be consistent with the standard international practice.

Column 1 – Excludes rupee demand deposits held by customers resident outside Sri Lanka. These are now treated as foreign liabilities (Rs.1,112 million at end April 2009).

Column 3 - Adjusted:

- (i) to include effect of the quota subscriptions made to the IMF and liabilities on account of other transactions with IMF which are not reflected in the balance sheet of the Central Bank. However, with effect from January 2002, the total amount of IMF quota is included in the Central Bank's balance sheet with the adoption of International Accounting Standards (IAS).
- (ii) to include the balance in the Crown Agent's Account of the Government (Rs.13 million at end April 2009).
- (iii) to include the revaluation effect of the Structural Adjustment Facility and the Standby Arrangement with the
- (e) Includes assets/liabilities of National Development Bank which merged with NDB Bank Ltd., with effect from August 2005.
- (f) Restructuring bonds worth Rs.19,392.6 million, which were issued by the government to the two state banks, have been converted to Treasury bonds upon their maturity in October 2006. This amount, which previously appeared under Other Assets has been included in Net Credit to Government since October 2006.

- IMF Rupee Account until December 2002. Since January 2003, all IMF related assets and liabilities have been revalued to current market rates in the balance sheet of the Central Bank.
- (iv) to include rupee deposits of customers outside Sri Lanka as foreign liabilities (This reduces the net external assets of the commercial banks by Rs.1,734 million at end April 2009).
- Column 6 Net credit to the Government by the Central bank includes cash item in process of collection (Rs.0 at end April 2009) but excludes the Central Bank's assets on special advances given to the government on account of obligations to the IMF which had been shown in the CBSL balance sheet until September 2002.
- Column 16 Adjusted for cash items in process of collection (Rs.0 at end April 2009) and special advances given by the Central Bank to the government on account of IMF obligations. The amount of special advances was removed from the CBSL's balance sheet since October 2002 to be compatible with the accounting treatment of IMF quota under International Accounting Standards.

(a) The balance sheet data of the Central Bank from 2002 January is based on the International Accounting Standards (IAS). Accordingly, foreign securities of the Central Bank have been valued at current market prices since January 2002. These data prior to January 2002 are according to local cost or face value whichever is less.

(b) Includes securities acquired from government institutions.

(c) According to IAS, the amount of Sri Lanka's quota with the IMF has been taken into the Central Bank's balance sheet.

(d) According to IAS, balance sheet of the CBSL is prepared on accrual basis and receivables show interest receivables on foreign securities.

(e) From February 1975, loans and advances to others include amounts granted under the Medium and Long Term Credit Fund. Credit provided under "Susahana" Refinance Credit Scheme is included from December 2005.

(f) According to IAS, government and government guaranteed securities are at fair value basis since January 2002.

Note: The number of reporting banks were 23 until January 2006, and 22 from October 2008.

(a) Also includes Treasury bills purchased in the secondary market.

(b) Includes Central Bank securities and DFCC Bonds.

(c) Fixed and other assets consists of banks' property, furniture, fittings and sundries (commission, interest receivable etc.).

(d) Liquid assets consist of Cash on hand, Balances due from Central Bank, Foreign currency on hand and Balances due from banks abroad, Government of Sri Lanka Treasury bills and bills discounted. With effect from 18 May 1998, Treasury bonds are considered as part of liquid assets of commercial banks. Balances due from domestic banks and cash items in process of collection have been excluded from liquid assets and domestic inter-bank deposits have been excluded from demand deposits, because from the view point of the commercial banking system as a whole such claims and deposits cancel out.

(a) This monetary survey is based on the aggregated data pertaining to both Domestic Banking Units (DBUs) and Offshore Banking Units (DBUs) of banks operating in Sri Lanka. Definitional changes have been adopted in aggregating DBUs and OBUs data to avoid double counting and misclassification of assets and liabilities. The major changes are:

(1) All DBU placements in OBUs are recorded as domestic assets, while all DBU borrowings from OBUs are recorded as domestic liabilities.

(2) Foreign currency deposits of DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply:

(i) One half (50 per cent) of NRFC deposits are treated as domestic deposit liabilities;

(ii) All RNNFC balances are treated as foreign liabilities;

(iii) All other domestic foreign currency accounts are treated as domestic deposit liabilities.

(b) External assets (net) of the Central Bank and commercial banks (including outward bills).

(c) Currency and demand deposits of the public.

(d) Time and savings deposits of the public held with commercial banks.

(Contd.)

(a) This financial survey is based on the aggregate data pertaining to Domestic Banking Units (DBUs), Foreign Currency Banking Units (FCBUs), Licensed Specialised Banks (LSBs) and Finance Companies (FINCOs) operating in Sri Lanka. Definitional changes have been adopted in aggregating DBU, FCBUs, LSBs and FINCOs data to avoid double counting and misclassification of assets and liabilities. The major changes are:

- (1) All DBU placements in FCBUs are recorded as domestic assets, while all DBÚ borrowings from FCBUs are recorded as domestic liabilities.
- (2) Foreign currency deposits of DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply:

 (i) One half (50 per cent) of NRFC deposits are treated as domestic deposit liabilities;
 - (ii) All RNNFC balances are treated as foreign liabilities;
 - (iii) All other domestic foreign currency accounts are treated as domestic deposit liabilities.
- (b) External assets (net) of the Central Bank, Commercial banks (including outward bills), LSBs and FINCOs.
- (c) Currency, demand deposits and quasi money in DBUs in this table differ from those in table 52 due to the fact that LSBs and FINCOs are not treated as public under this broad monetary survey (M_4) definition.

- (d) Time and savings deposits of the private sector with commercial banks, LSBs and FINCOs.
- (e) Credit extended by the monetary authority, DBUs, LSBs and FINCOs to the Government, net of Government deposits with banks and Government cash deposits.
- * Revised.

* The contents and format of this table have been revised.

- (a) Under Sections 10c, 93, 94, 96 and 97 of the amended Monetary Law Act (Chapter 422), commercial banks and other financial institutions are required to maintain reserves against their deposit liabilities as prescribed by the Monetary Board. Currently, only commercial banks are subject to reserve requirements. With effect from 24 January 1992, an amount of till cash over and above two per centum of the total deposit liabilities, but not exceeding four per centum, could be maintained as a part of required reserves in the form of Sri Lanka currency notes and coins. Details of required reserve ratios, which were applicable in the past and computational methods have been published in the Appendix table on the 'Reserve Position of Commercial Banks' in the Annual Reports prior to 2003.
- (b) Reserve data are for the last reserve week of each month. The required reserves recorded in the table refer to the cumulative reserves for the week, while commercial bank deposits with the Central Bank are the cumulative deposits for that particular reserve week. Excess/Deficit on SRR is the difference between the cumulative SRR for the reserve week and cumulative deposits of the commercial banks for the week.
- (c) Excludes interbank deposits.
- (d) With effect from 03 April 2003, the basis of computing the Statutory Reserve Requirement (SRR) was changed from deposit liabilities and vault cash balances at the close of business on Wednesday of the previous reserve week, to the average of deposit liabilities and vault cash balances during the week ending Tuesday of the previous reserve week.
- (e) SRR, which was 10 per cent with effect from 19 October 2001 was reduced to 9.25 per cent with effect from 17 October 2008.
- (f) SRR was reduced from 9.25 per cent to 7.75 per cent with effect from 28 November 2008.
- (g) SRR was reduced from 7.75 per cent to 7.00 per cent with effect from 27 February 2009.

- (a) Pursuant to Section 51 of the Monetary Law Act, the Central Bank's holdings of notes and coins are not considered as part of its currency issue.
- (b) Currency notes in the denomination of Rs.20/- were issued from 4th August 1980, Rs.1,000/- from 23rd December 1981, Rs.500/- from 9th February 1982, Rs.200 from 4th February 1998 and Rs.2,000/- from 17th October 2006. Coins of Rs.10/- denomination were issued from 11th March 1987.
- (c) Currency notes of Rs.5, Rs.2 and Re.1 are also included. The value of these notes remained unchanged at Rs.37.2 million, Rs.26.7 million, and Rs.5.0 million, respectively, as at end May 2009.
- (d) Includes coins of the denomination of Rs.100, Rs.500 Rs.1,000, Rs.5,000 and other coins. As at end May 2009, the value of Rs.100 coins, Rs.500 coins, Rs.1,000 coins and Rs.5,000 coins stands at Rs.2.0 million, Rs.20.8 million, Rs.41.7 million and Rs.22.9 million respectively. The total value of other coins, as at end May 2009, stands at Rs.250.97 million.

⁽a) All interest rates are as at the end of period, unless otherwise stated.

⁽b) This rate at which the Central Bank grants advances to commercial banks for the temporary liquidity purposes. With effect from 4th January 1991, the rate was increased 17 per cent from 15.5 per cent. As at end 1999 this rate was 16 per cent. With effect from 02 October 2000 the rate was increased to 18 per cent and further increased to 25 per cent with effect from 21 November 2000. With effect from 02 July 2001, this rate was brought down to 23 per cent and further reduced to 18 per cent with effect from 27 December 2001. On 15 August 2003, the rate was reduced to 15 per cent.

⁽c) Average Weighted Deposit Rate (AWDR) is calculated monthly by Central Bank based on the weighted average of all outstanding interest bearing deposits of commercial banks and the corresponding interest rates.

⁽d) The Average Weighted Prime lending Rate is estimated weekly by the Central Bank based on commercial bank's lending rates offered to their prime customers during the week. These monthly figures are average values of estimated weekly rates.

⁽e) The Sri Lanka Inter Bank Offer Rate (SLIBOR) is computed daily by Central Bank, based on rates offered by commercial banks to their customers. The rate shown is the average of such offered rates by selected commercial banks.

(a) Issue of Treasury bonds commenced in March 1997.

(b) The yields on Rupee Loans are administratively determined and not market determined unlike the yields on Treasury bill and Treasury bonds.

(c) The secondary market information is based on data provided by Primary Dealers in Government Securities and is available since October 2000.

(d) Yield rates are averages of bid and offer rates.

(e) Interest with tax for 4 year maturity.

Note: Treasury bonds are not issued on a regular basis unlike treasury bills. Hence a continous series of primary market yields is not available.

(a) Rate on ten year certificates. The issue of this certificate is discontinued. The rate reflects the rate on earlier issues.

(b) Issuing National Savings Certificates commenced in October 1997.

(c) Private savings and development banks include Sanasa Development Bank which was established in October 1997. From 2003 it only includes Sanasa Development Bank.

(d) DFCC Bank commenced deposit mobilisation in April 1996.

(e) The minimum rate represents the refinance rate charged under the Small and Medium Scale Industries (SMI) Scheme. NDB became a licensed commercial bank with effect from 01 August 2005.

Notes:

- (1) Commercial banks charge a variety of fees and commissions on their services. The table gives a range of the maximum and minimum fees and commissions which are based on the information provided by commercial banks. These charges, which do not change very frequently are published semi-annually to enable the public to negotiate best terms. These fees and commissions could be different when services and products are provided as a package.
- (2) These are standard charges of commercial banks. However, charges for some specific products could include charges payable to banks abroad. For example, banks in Sri Lanka may include in their charges fees payable to banks abroad such as for adding confirmation to Letters of Credit, and for correction of discrepancies.
- (3) In the case of Documentary Credits, the charges for outward transmission from Sri Lanka would differ, on the mode of transmission used.
- (4) Loan application processing fees vary according to the loan amount.
