EVENTS OF THE MONTH
November 2009

Fiscal Sector

- Customs duty on rice was reduced from Rs. 20 per kg to Rs. 5 per kg and Port and Airport Development Levy (PAL), Nation Building Tax (NBT) and Social Responsibility Levy (SRL) on rice were removed.
- Total tax on milk powder, including customs duty and other applicable levies were reduced to Rs. 100 per kg from Rs. 145 per kg.

- Special Commodity Levy (SCL) on some commodities including potatoes, red onions, 'B' onions, garlic, chickpeas, white/red sugar and chilies were reduced.

Other

- The price of a 12.5 kg LP gas cylinder of Laugfs was increased by Rs. 5.00 to Rs. 1,481.00.

Part II
PRESS RELEASES
November 2009

**1. Central Bank expects further reduction in lending rates by
Finance and Leasing Companies**

The Central Bank has been easing its monetary policy since the beginning of 2009 in view of the rapid deceleration in inflation, in order to provide a stimulus to economic activities. In response, money market interest rates have fallen gradually and Treasury bills yield rates have declined by over 900 basis points so far this year.

Similar declines have been observed in other short-term interest rates as well. In line with such decline, banks' deposit and lending rates too have reduced significantly. Deposit rates of registered finance companies and borrowing rates of specialized leasing companies too have reduced, and are expected to reduce even further, resulting in a substantial reduction in their costs of funds.

In that context, the Central Bank is of the view that there is now sufficient space for the registered finance companies and specialised leasing companies

to reduce their lending rates, and accordingly the Central Bank expects those financial institutions to make a commensurate downward adjustment in lending rates, over the coming weeks. Such a reduction would benefit entrepreneurs in industry, services and agriculture sectors, in particular small and medium scale businesses. At the same time, the leasing, hire purchase and other lending volumes of registered finance companies and specialized leasing companies would increase as a result, thereby contributing to improve economic activities in the country.

**2. Sri Lanka's Gross Official Reserves to Exceed
US dollars 5 billion with the Approval of the
Second Tranche under the IMF – SBA Facility**

The Executive Board of the International Monetary Fund (IMF) on 06 November 2009 approved the second tranche of SDR 206.7 million (approximately USD 329 million) under its 20-months Stand-by Arrangement (SBA) facility of SDR 1.65 billion (approximately USD 2.6 billion) to Sri Lanka. The Letter of Intent (LOI) and the Technical Memorandum of Understanding (TMU) in this regard is made available in the Central Bank of Sri Lanka web site (www.cbsl.gov.lk).

The gross official international reserves (without ACU balances) of the country, which has already exceeded US dollars 4.8 billion, will surpass US dollars 5 billion mark with the receipt of the US dollars 329 million. With the renewed investor confidence on the

Sri Lanka's economy and the continuation of the steady increase in foreign exchange inflows, the country's external reserves position is expected to strengthen further in the coming months.

3. “The Awakening North” – Special Loan Scheme for Resumption of Economic Activities in the Northern Province

As at 5th November, 2009, a total number of 1875 loans to the value of Rs.264 million has been disbursed under the Vadakkin Wasantham loan scheme by the People’s Bank, Bank of Ceylon and Hatton National Bank. In addition 5,927 beneficiaries have also been registered under People’s Bank, Bank of Ceylon, Hatton National Bank and Sanasa Development Bank to obtain credit facilities under the loan scheme.

Out of the total granted, 47 per cent of loans (890) have been disbursed for agricultural purposes while 28 per cent (524) were for Trade and Service sector activities. In agriculture, farmers have shown a keen interest to obtain loans for fruit cultivation, *i.e.* grapes and banana and livestock development activities. The balance 25 per cent (461) has been obtained by borrowers in the fisheries, small and micro-industries sectors in the Jaffna Peninsula.

The following credit programmes are also being implemented successfully through Participating Financial Institutions (PFIs) by the Central Bank of Sri Lanka (CBSL) in the Northern Province:

- New Comprehensive Rural Credit Scheme (NCRCS)
- Agro Livestock Development Loan Scheme (ALDL)
- Poverty Alleviation Microfinance Project – Phase II (PAMP II)

With the commencement of agricultural activities for the 2009/2010 Maha cultivation season this month, it is expected that a large volume of agricultural credit will be disbursed by PFIs in the Northern Province.

The Vadakkin Wasantham special loan package that was launched by His Excellency the President Mahinda Rajapaksa on 13th July, 2009 is being implemented with loans upto Rs. 200,000 being granted at an interest rate of 12 per cent per annum, with repayment over a period of 5 years. A total sum of Rs. 3,000 million is earmarked to be disbursed initially under the loan scheme through PFIs. PFIs, who are permitted to provide credit facilities to eligible borrowers to commence any new income generating activities or expand their existing projects.

The eight financial institutions that have been identified as the PFIs under “The Awakening North” loan scheme implemented under the Vadakkin Wasantham programme, are:

- Bank of Ceylon
- People’s Bank
- Hatton National Bank
- Commercial Bank of Ceylon Ltd.
- Sanasa Development Bank
- Sampath Bank
- DFCC
- NDB

4. Interest Rates in Government Securities Market Decline Further

The yield rates on Treasury bills declined further at the primary auction held on November 11, 2009. The yield rate on Treasury bills with a maturity of 91 days declined by 41 basis points to 7.73 per cent, the lowest since April 2005.

This trend was reflected in the yield rates of Treasury bills with the maturities of 182 days and 364 days, too. With this reduction, primary market yield rates of the Treasury bills have declined by 947 – 950 basis points during the past 12 months period. The secondary market Treasury bill yield rates also continued on its decelerating path during this period.

The reduction in yield rates observed during the recent past is in line with the gradual easing of the monetary policy stance by the Central Bank of Sri Lanka, increased foreign investor participation in the Government securities market, prevailing liquidity position in the market and positive view of the market on the deceleration of inflation rate.

5. Monetary Policy Review – November 2009

The Monetary Board, at its meeting held on 17 November 2009, has decided to reduce the Repurchase rate by 50 basis points and the Reverse Repurchase rate by 75 basis points with immediate effect. Accordingly, the Repurchase rate and the Reverse Repurchase rate of the Central Bank would be 7.50 per cent and 9.75 per cent, respectively.

Inflation, as measured by the year-on-year change in the Colombo Consumers' Price Index (base=2002), has remained around 1 per cent thus far during the second half of the year. According to current projections, although inflation is expected to rise moderately in 2010 due to the gradual decline of the base effect of low inflation in 2009, it is expected to remain relatively subdued.

Benign inflation has enabled the Central Bank to gradually relax its monetary policy stance on several occasions in order to support economic activity. Accordingly in 2009, the Central Bank lowered its policy interest rates in several steps, abolished the penal rate as well as lifted the restrictions on access to repurchase and reverse repurchase standing facilities. Market interest rates have declined in response to these measures, albeit with a time lag. Benchmark yield

rates on Treasury bills of all maturities have declined by 960–969 basis points, with 91-day, 182-day and 364-day maturities declining to 7.73 per cent, 8.80 per cent and 9.56 per cent, respectively at the auction held on 11 November 2009. Commercial bank lending rates have also started to decline sharply with the reduction of interest rates by the state banks.

At the same time, the significant absorption of foreign exchange by the Central Bank has led to a high level of excess rupee liquidity in the domestic market. With the retirement of a significant proportion of the Central Bank's holdings of government securities in August 2009, the Central Bank has resorted to issuing Central Bank securities since October 2009 and foreign exchange SWAPs since November 2009 to absorb the excess rupee liquidity in the domestic market. Through these measures, the Central Bank will continue to

manage the excess liquidity situation in the domestic market and take appropriate measures to reduce the level of excess liquidity to a more desirable level.

The release of the next regular statement on monetary policy will be on 11 December 2009.

6. External Sector Performance – September 2009

The trade deficit contracted for the ninth consecutive month in September 2009 by 62.2 per cent to US dollars 220 million. The cumulative trade deficit decreased by 60.0 per cent to US dollars 1,848 million during the first eight months of 2009 from US dollars 4,615 million in the corresponding period of 2008. Workers' remittances increased by 10.3 per cent to US dollars 2,481 million during this period. As a result, Workers' remittances during the first nine months of 2009 were US dollars 634 million (about 34 per cent) in excess of the trade deficit.

Earnings from exports, which took on an increasing trend since April 2009 reversed in September following the usual seasonal pattern. Accordingly, export earnings in September 2009 amounted to US dollars 568 million reporting a decline of 12.8 per cent, year-on-year.

The largest contribution to this decline came from the industrial exports, which declined by 12.4 per cent mainly due to lower exports of garments and textiles, food, beverages and tobacco, machinery and equipments. Export earnings from garments and textiles exports declined by 4.9 per cent to US dollars 241 million in September 2009. While garment exports to the US declined by 19.5 per cent, in September, exports to the EU increased by 8.6 per cent. The food, beverages and tobacco subsector, which declined by 27.6 per cent in September 2009, was led by lower exports of fish. Within the agricultural exports, however, tea continued to perform well, in terms of prices, despite the year-on-

year reduction in earnings by one per cent. The average export price of tea continued to increase and reached a record high of US dollars 4.47 per kg in September 2009, reflecting a year-on-year growth rate of 4.4 per cent. The reduction in earnings from tea exports in September was largely due to lower export quantities, which could be attributed to the labor unrest and heavy precipitation in the major tea growing areas. Earnings from exports of coconut oil, fresh coconuts and coconut fiber based products also increased in September 2009, due to enhanced export volumes. Rubber export earnings declined by 43.1 per cent in September mainly due to the lower export prices compared to September 2008. Export prices of rubber, which has taken an increasing trend since April 2009, reached US dollars 1.89 per kg in September 2009, albeit recording an year-on-year decline of 34.5 per cent. Although earnings from minor agricultural crop exports declined by 27.8 per cent in September 2009, there were increases in export earnings from coffee, cocoa products, pepper, cloves, nutmeg, etc. due to volume increases. Earnings from mineral exports recorded a decline of 32.4 per cent, largely due to lower gem exports. Cumulative earnings from exports during the first nine months of 2009, declined by 16.8 per cent to US dollars 5,119 million compared to the corresponding period of 2008.

Expenditure on imports declined by 36.1 per cent to US dollars 789 million in September 2009, reflecting lower demand across all three major categories of imports.

Imports of intermediate goods, which accounts for 57 per cent of imports, declined by 41.3 per cent to US dollars 451 million, mainly due to the lower expenditure on imports of petroleum and fertilizer due to their lower

Sources : Central Bank of Sri Lanka
Sri Lanka Customs Department

Sources : Central Bank of Sri Lanka
Sri Lanka Customs Department

prices. Year-on year, the average import price of crude oil declined by 23.8 per cent to US dollars 76 per barrel and the average fertilizer import price declined by 63.9 per cent to US dollars 338 per metric ton, in September 2009. The imports of consumer goods declined by 10.5 per cent to US dollars 160 million, on account of lower commodity prices and lower import volumes. Imports of non-food consumer items have declined by 29.2 per cent to US dollars 62 million in September 2009 led by lower imports of motor vehicles and electrical equipment. Expenditure on investment goods has also declined by 37.3 per cent to US dollars 167 million in September 2009 reflecting declines in the machinery and building materials sub categories.

Expenditure on transport equipment, however, has increased due to higher imports of vehicles for the transportation of goods. Cumulative expenditure on imports during the first nine months of 2009, declined by 35.3 per cent to US dollars 6,967 million compared to the corresponding period of 2008.

The gross official reserves, with and without Asian Clearing Union (ACU) funds, recorded US dollars 5,045 million and US dollars 4,822 million, respectively, by end October 2009. This includes short-term net inflows to the Government Treasury bills of US dollars 247 million and Treasury bonds of US dollars 1,069 million. Based on the previous 12 month average imports (US dollars 824 million per month), the gross official reserves, with and without Asian Clearing Union (ACU) funds, were sufficient to finance 6.2 and 5.9 months of imports, respectively.

By 20 November 2009, the gross official reserves, excluding ACU receipts, are provisionally estimated to have further improved to US dollars 5.2 billion. The significant growth in reserves was mainly due to the continuous absorption of foreign exchange by the Central Bank, whereby from end March 2009 to 23 November, the CBSL has absorbed US dollars 2,837 million from the foreign exchange market, on a net basis, followed by the receipt of US dollars 331 million as the second tranche of IMF SBA facility.

The performance of external trade and remittances during the period is further illustrated in the following table.

External Trade Performance: September 2009 and January – September 2009

Category	September 2008 US \$ mn	September 2009 US \$ mn	Growth September %	Jan-Sep 2008 US \$ mn	Jan-Sep 2009 US \$ mn	Growth Jan-Sep %

7. Central Bank acquires Gold from the IMF

As a part of the diversification of the external assets portfolio of the Central Bank of Sri Lanka (CBSL) into various safe financial instruments, the CBSL has been acquiring Gold from the international market over the past several months. In fact, many central banks maintain a certain portion of its external reserves in Gold, since Gold is one of the commodities which provides an anchor for long term stability of reserve assets.

In keeping with this objective, the Central Bank recently acquired 10 metric tons of Gold at a cost equivalent to US dollars 375 million from the International Monetary Fund. Through such acquisition, the long-term stability of Sri Lanka's external reserves will be strengthened, since the Gold holdings will provide a

stable and long-term cushion against the impact of any potential volatility in major international currencies and financial instruments, in international financial markets.

The gross official reserves of Sri Lanka now exceed US dollars 5.2 billion, which is sufficient to finance 6.4 months of imports.

STATISTICAL APPENDIX

Definitions and Explanatory Notes

The following general notes supplement the footnotes given below the individual tables:—

1. The data cover monthly figures available at the time the Bulletin goes to print, and the latest available information does not relate to the same month, in every table.

To enable comparison, annual figures for recent years are given.

2. In an attempt to bring the material up-to-date provisional figures are included in some tables.
3. Figures in some tables have been rounded off to the nearest final digit. Hence there may be a slight discrepancy between the total as shown and the sum of its components.
4. Differences as compared with previously published figures are due to subsequent revisions.
5. The following symbols have been used throughout:—
 - n.a. = not available
 - = nil
 - ... = negligible

October	177.0	n.a.	n.a.	n.a.	64.9	440.4

(a) (1) Includes manufacturing and export processing industries. Small industry is defined as those units having supply of electricity at 400/230 volts and contract demand is less than 50 KVA, medium industry as supply of electricity at 400/230 volts and contract demand is equal or more than 50 KVA and large industry as supply of electricity at 11KV, 33KV and 132KV.

(2) Figures include electricity consumption of hotels.

(b) Sales other than to Ceylon Electricity Board.

(c) Excluding Petroleum exports.

(d) Provisional

(e) Revised.

(a) Revised

(b) Provisional

(c) The weights used for the compilation of Private Sector Industrial Production Volume Index (2002=100) for 2008 have been adjusted in January 2009 based on the Department of Census and Statistics (DCS) information. Since January 2009 Central Bank of Sri Lanka is also using the same weights which are used by the DCS.

Note: The Index numbers are calculated by the Labour Department on fixed weights based on the numbers employed as at 31 December 1978. The wage rate used in the calculation of Index numbers are minimum wages for different trades fixed by the Wages Boards.

Sources : Labour Department
Central Bank of Sri Lanka

- (a) The Index refers to wage rates of tea growing and manufacturing, rubber growing and manufacturing, coconut, cocoa, cardamoms and pepper growing trades only.
- (b) Includes baking, brick and tile manufacturing, coconut manufacturing, printing textile, tyre and tube manufacturing, coir mattresses & bristle fibre export, hosiery manufacturing, engineering, garment manufacturing, match manufacturing, biscuit manufacturing, tea export and rubber export trades only.
- (c) This includes cinema, motor transport and nursing homes trade only.
- (d) Combined Index for workers in Agriculture, Industry & Commerce and Services.
- (e) Provisional.

(a) Daily wages represent payments in cash where meals are not provided by the employer. Annual and quarterly figures are averages of monthly figures.

Source: Central Bank of Sri Lanka

(b) Wages in the construction sector are paid on both daily payment and contractual basis. The series on contractual basis in previous bulletin publications has been replaced by the series on daily payment basis from the monthly bulletin of December 2005 onwards for comparison with wages in other sectors.

(c) Daily wages up to December 2004 are the average of daily wages for the two activities. From January 2005 onwards the daily wages cover both activities under a single category following the restructuring of data collection schedules.

(d) Provisional.

(a) Consists of government expenditure excluding contributions to sinking funds, direct payment of public debt and subscriptions to international financial organisations. Also excludes book adjustments arising from losses on Advance Account operations incurred and financed in the previous financial year. Hence, the figures may not tally with the figures published in the accounts of the Government of Sri Lanka.

(b) Special payments and receipts on account of Sri Lanka's contribution to and from the IMF and the IDA and special loans from these payments are excluded from both recurrent expenditure and Central Bank Advances.

(c) Provisional.

(d) Excludes Treasury bills and Treasury bonds to non-residents in 2007.

(e) Includes Treasury bills and Treasury bonds issued to non-residents in 2007.

(a) Computed from weekly averages.

(b) Based on a study conducted by the Coconut Development Authority in 1996/97 rates applicable for conversion of volume of three major coconut exports to nut equivalent (from kgs) have been revised from 1998.

(c) This refers to prices of the best quality copra.

(d) Provisional.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

Source: Central Bank of Sri Lanka

- (a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Off-shore Banking Units (OBUs) have been treated as a part of the domestic banking system.
- (b) Provisional
- (c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.
- (d) Includes port expenditure.
- (e) Passage collections by foreign shipping agents and airlines are included in Passenger Fares.
- (f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.

- (g) Indicates outright grants received in the form of project aid.
- (h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. Debit entries respect of such imports are in the merchandise account and are recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.
- (i) The change in capital of the monetary sector is based on local records.
- (j) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF. Sri Lanka Rupee values reflect changes in the representative rate of the SDR. Figures in the debit column are in respect of repurchases or repayments, made in instalments to the IMF, in respect of earlier drawings. Subscriptions to the IMF, consequent to successive increases in Sri Lanka's quota, are also shown in the debit column.

Source: Central Bank of Sri Lanka

- (a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Off-shore Banking Units (OBUs) have been treated as a part of the domestic banking system.
- (b) Provisional
- (c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.
- (d) Includes port expenditure.
- (e) Passage collections by foreign shipping agents and airlines are included in Passenger Fares.
- (f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.
- (g) Indicates outright grants received in the form of project aid.
- (h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. Debit entries respect of such imports are in the merchandise account and are recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.
- (i) The change in capital of the monetary sector is based on local records.
- (j) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF. Sri Lanka Rupee values reflect changes in the representative rate of the SDR. Figures in the debit column are in respect of repurchases or repayments, made in instalments to the IMF, in respect of earlier drawings. Subscriptions to the IMF, consequent to successive increases in Sri Lanka's quota, are also shown in the debit column.

(b) The NEER is the weighted average of nominal exchange rates of the 24 trading partner and competitor countries. Weights are based on the trade shares reflecting the relative importance of each currency in the currency basket.

(c) The REER is computed by adjusting the NEER for inflation differentials with the countries whose currencies are included in the basket.

(a) Annualized Forward Premium (f^d) is computed using the following formula.

Source: Central Bank of Sri Lanka

$$f^d = \{[F_t^{t+1} - S_t] / S_t\} * 100 * (12/t)$$

Where F_t^{t+1} is the forward rate for period $t+1$ that exists in period t and S_t is the interbank spot rate at period t .

(b) Provisional

(1) Total amount of currency, including subsidiary notes and coins issued by the Central Bank.

Source: Central Bank of Sri Lanka

(2) Currency held by the Treasury and the Kachcheries.

(5) Total demand deposits held by the Central Bank and the commercial banks.

(6) Government demand deposits with the commercial banks and the Central Bank.

(7) Inter bank deposits both local and foreign, including deposits of international organisations and commercial banks with the Central Bank.

(10) Time and savings deposits of non-governmental sector held with commercial banks.

 (11) M₂ is defined as M₁ plus time and savings deposits of the public held with commercial banks.

Note: (a) Monetary data from 1990 have been reclassified as follows, to be consistent with the standard international practice.

Column 5 & 8 – Excludes the value of rupee demand deposits held by customers resident outside Sri Lanka. These deposits are now treated as foreign liabilities (Rs.917 million at end September 2009).

Column 10 – Excludes the value of rupee time and savings deposits held by customers resident outside Sri Lanka. These deposits are now treated as foreign liabilities (Rs.1,445 million at end September 2009).

Source: Central Bank of Sri Lanka

(a) Includes assets/liabilities of National Development Bank which merged with NDB Bank Ltd., with effect from August 2005.

(b) External assets (net) of the Central Bank and commercial banks (including outward bills).

(c) Currency and demand deposits held by the public.

(d) Credit extended by the banking system to the government, net of government deposits with banks and government cash balances.

(e) Restructuring bonds worth Rs.19,392.6 million, which were issued by the government to the two state banks, have been converted to Treasury bonds upon their maturity in October 2006. This amount, which previously appeared under Other Assets has been included in Net Credit to Government since October 2006.

(f) Revised from May 2008.

(g) Monetary data from 1990 have been reclassified as follows, to be consistent with the standard international practice.

Column 1 – Excludes rupee demand deposits held by customers resident outside Sri Lanka. These are now treated as foreign liabilities (Rs.917 million at end September 2009).

Column 3 – Adjusted:

(i) to include effect of the quota subscriptions made to the IMF and liabilities on account of other transactions with IMF which are not reflected in the balance sheet of the Central Bank. However, with effect from January 2002, the total amount of IMF quota is included in the Central Bank's balance sheet with the adoption of International Accounting Standards (IAS).

(ii) to include the balance in the Crown Agent's Account of the Government (Rs.13 million at end September 2009).

(iii) to include the revaluation effect of the Structural Adjustment Facility and the Standby Arrangement with the IMF - Rupee Account until December 2002. Since January 2003, all IMF related assets and liabilities have been revalued to current market rates in the balance sheet of the Central Bank.

(iv) to include rupee deposits of customers outside Sri Lanka as foreign liabilities (This reduces the net external assets of the commercial banks by Rs.2,363 million at end September 2009).

Column 6 – Net credit to the Government by the Central bank includes cash item in process of collection (Rs.0 at end September 2009) but excludes the Central Bank's assets on special advances given to the government on account of obligations to the IMF which had been shown in the CBSL balance sheet until September 2002.

Column 16 – Adjusted for cash items in process of collection (Rs.0 at end September 2009) and special advances given by the Central Bank to the government on account of IMF obligations. The amount of special advances was removed from the CBSL's balance sheet since October 2002 to be compatible with the accounting treatment of IMF quota under International Accounting Standards.

(a) The balance sheet data of the Central Bank from 2002 January is based on the International Accounting Standards (IAS). Accordingly, foreign securities of the Central Bank have been valued at current market prices since January 2002. These data prior to January 2002 are according to local cost or face value whichever is less.

(b) Includes securities acquired from government institutions.

(c) According to IAS, the amount of Sri Lanka's quota with the IMF has been taken into the Central Bank's balance sheet.

(d) According to IAS, balance sheet of the CBSL is prepared on accrual basis and receivables show interest receivables on foreign securities.

(e) From February 1975, loans and advances to others include amounts granted under the Medium and Long Term Credit Fund. Credit provided under "Susahana" Refinance Credit Scheme is included from December 2005.

(f) According to IAS, government and government guaranteed securities are at fair value basis since January 2002.

Note : The number of reporting banks were 23 until January 2006, and 22 from October 2008.

(a) Also includes Treasury bills purchased in the secondary market.

(b) Includes Central Bank securities and DFCC Bonds.

(c) Fixed and other assets consists of banks' property, furniture, fittings and sundries (commission, interest receivable etc.).

(d) Liquid assets consist of Cash on hand, Balances due from Central Bank, Foreign currency on hand and Balances due from banks abroad, Government of Sri Lanka Treasury bills and bills discounted. With effect from 18 May 1998, Treasury bonds are considered as part of liquid assets of commercial banks. Balances due from domestic banks and cash items in process of collection have been excluded from liquid assets and domestic inter-bank deposits have been excluded from demand deposits, because from the view point of the commercial banking system as a whole such claims and deposits cancel out.

Source: Central Bank of Sri Lanka

(a) This financial survey is based on the aggregate data pertaining to Domestic Banking Units (DBUs), Foreign Currency Banking Units (FCBUs), Licensed Specialised Banks (LSBs) and Finance Companies (FINCOs) operating in Sri Lanka. Definitional changes have been adopted in aggregating DBU, FCBUs, LSBs and FINCOs data to avoid double counting and misclassification of assets and liabilities. The major changes are:

- (1) All DBU placements in FCBUs are recorded as domestic assets, while all DBU borrowings from FCBUs are recorded as domestic liabilities.
- (2) Foreign currency deposits of DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply:
 - (i) One half (50 per cent) of NRFC deposits are treated as domestic deposit liabilities;
 - (ii) All RNNFC balances are treated as foreign liabilities;
 - (iii) All other domestic foreign currency accounts are treated as domestic deposit liabilities.

(b) External assets (net) of the Central Bank, Commercial banks (including outward bills), LSBs and FINCOs.

(c) Currency, demand deposits and quasi money in DBUs in this table differ from those in table 52 due to the fact that LSBs and FINCOs are not treated as public under this broad monetary survey (M₄) definition.

(d) Time and savings deposits of the private sector with commercial banks, LSBs and FINCOs.

(e) Credit extended by the monetary authority, DBUs, FCBUs, LSBs and FINCOs to the Government, net of Government deposits with banks and Government cash deposits.

* The contents and format of this table have been revised.

(a) Under Sections 10c, 93, 94, 96 and 97 of the amended Monetary Law Act (Chapter 422), commercial banks and other financial institutions are required to maintain reserves against their deposit liabilities as prescribed by the Monetary Board. Currently, only commercial banks are subject to reserve requirements. With effect from 24 January 1992, an amount of till cash over and above two per centum of the total deposit liabilities, but not exceeding four per centum, could be maintained as a part of required reserves in the form of Sri Lanka currency notes and coins. Details of required reserve ratios, which were applicable in the past and computational methods have been published in the Appendix table on the 'Reserve Position of Commercial Banks' in the Annual Reports prior to 2003.

(b) Reserve data are for the last reserve week of each month. The required reserves recorded in the table refer to the cumulative reserves for the week, while commercial bank deposits with the Central Bank are the cumulative deposits for that particular reserve week. Excess/Deficit on SRR is the difference between the cumulative SRR for the reserve week and cumulative deposits of the commercial banks for the week.

(c) Excludes interbank deposits.

(d) With effect from 03 April 2003, the basis of computing the Statutory Reserve Requirement (SRR) was changed from deposit liabilities and vault cash balances at the close of business on Wednesday of the previous reserve week, to the average of deposit liabilities and vault cash balances during the week ending Tuesday of the previous reserve week.

(e) SRR, which was 10 per cent with effect from 19 October 2001 was reduced to 9.25 per cent with effect from 17 October 2008.

(f) SRR was reduced from 9.25 per cent to 7.75 per cent with effect from 28 November 2008.

(g) SRR was reduced from 7.75 per cent to 7.00 per cent with effect from 27 February 2009.

(a) All interest rates are as at the end of period, unless otherwise stated.

(b) This is the rate at which the Central Bank grants advances to commercial banks for temporary liquidity purposes. With effect from 04 January 1991, the rate was increased to 17 per cent from 15.5 per cent. As at end 1999 this rate was 16 per cent. With effect from 02 October 2000 the rate was increased to 18 per cent and further increased to 25 per cent with effect from 21 November 2000. With effect from 02 July 2001, this rate was brought down to 23 per cent and further reduced to 18 per cent with effect from 27 December 2001. On 15 August 2003, the rate was reduced to 15 per cent.

(c) Average Weighted Deposit Rate (AWDR) is calculated monthly by the Central Bank based on the weighted average of all outstanding interest bearing deposits of commercial banks and the corresponding interest rates.

(d) The Average Weighted Prime lending Rate is estimated weekly by the Central Bank based on commercial banks' lending rates offered to their prime customers during the week. These monthly figures are average values of estimated weekly rates.

(e) The Sri Lanka Inter-Bank Offered Rate (SLIBOR) is computed daily by the Central Bank, based on rates offered by commercial banks in the inter-bank market. The rate shown is the average of such offered rates by selected commercial banks.

(a) Issue of Treasury bonds commenced in March 1997.

(b) The yields on Rupee Loans are administratively determined and not market determined unlike the yields on Treasury bills and Treasury bonds.

(c) The secondary market information is based on data provided by Primary Dealers in Government Securities and is available since October 2000.

(d) Yield rates are averages of bid and offer rates.

(e) Interest with tax for 4 year maturity.

(f) Interest with tax for 2 year maturity.

Note : Treasury bonds are not issued on a regular basis, unlike Treasury bills. Hence a continuous series of primary market yield rates is not available.

(a) Rate on ten year certificates. The issue of this certificate is discontinued. The rate reflects the rate on earlier issues.

(b) Issuing National Savings Certificates commenced in October 1997.

(c) Private savings and development banks include Sanasa Development Bank which was established in October 1997. From 2003 it only includes Sanasa Development Bank.

(d) DFCC Bank commenced deposit mobilisation in April 1996.

(e) The minimum rate represents the refinance rate charged under the Small and Medium Scale Industries (SMI) Scheme. NDB became a licensed commercial bank with effect from 01 August 2005.

ATM and Credit Cards		
ATM cards – Issuing fee	Rs. 750	Rs. 75
Credit cards – Issuing fee	Rs. 6,000	Rs. 180
Renewal fee	Rs. 5,000	Rs. 120

Notes :

- (1) Commercial banks charge a variety of fees and commissions on their services. The table gives a range of the maximum and minimum fees and commissions which are based on the information provided by commercial banks. These charges, which do not change very frequently are published semi-annually to enable the public to negotiate best terms. These fees and commissions could be different when services and products are provided as a package.
- (2) These are standard charges of commercial banks. However, charges for some specific products could include charges payable to banks abroad. For example, banks in Sri Lanka may include in their charges fees payable to banks abroad such as for adding confirmation to Letters of Credit, and for correction of discrepancies.
- (3) In the case of Documentary Credits, the charges for outward transmission from Sri Lanka would differ, on the mode of transmission used.
- (4) Loan application processing fees vary according to the loan amount.
