The grant has been obtained from AusAID through the World Bank and the World Bank act as the administrator of the grant funds.

Part II
PRESS RELEASES
November 2011

1. Inflation further drops in October 2011

Inflation, as measured by the Colombo Consumers' Price Index (CCPI) (2006/07=100), computed by the Department of Census and Statistics, decreased substantially on a year-on-year (YoY) basis to 5.1 per cent in October from 6.4 per cent in September 2011, for the third consecutive month. The annual average inflation also decreased marginally to 7.1 per cent in October from 7.2 per cent in the previous month. Similarly, the core inflation both on the YoY and annual average bases decreased to 5.6 per cent and 7.5 per cent, respectively as compared to September 2011.

Meanwhile, the general price level as indicated by the monthly index recorded a decrease of 0.1 per cent in October 2011 over the previous month, with the Index decreasing in absolute terms to 151.5 from 151.7. The contribution to the monthly decrease in the Index came mainly from price decreases in the sub category of Food and non alcoholic beverages (0.4 per cent). Within the Food sub category, prices of almost all varieties of fish and sea food, some varieties of vegetables, potatoes, big onions, coconut and coconut oil, garlic and sugar declined due to improvements in supply. However, prices in the sub categories of Clothing and footwear (0.9 per cent); Housing, water, electricity, gas and other fuels (0.1 per cent); Furnishing, household equipment and routine household maintenance (0.2 per cent); and Miscellaneous goods and services (0.6 per cent) increased compared to the previous month. Meanwhile, the prices in the sub categories of

Health; Communication; Recreation and culture; and Education remained unchanged during the month.

2. EPF investments are long term and of value

In an era where interest rates are likely to decline in the medium to long term, the EPF has taken the view that returns from investments in government securities and debt instruments only, would not provide sufficiently high returns across such time horizon. Therefore, the need to diversify the EPF investment portfolio has been considered important, while maintaining the overall safety and stability of the Fund.

In that background, over the recent past, the EPF has made several investments in various listed Corporates through the Colombo Stock Exchange, and also in selected unlisted Corporates, on the basis of, inter alia, intrinsic value of the company, its growth prospects, the possible enhancement of share value in the medium to long-term, its governing structures, the viability and prospects of the industry, the quantity of shares available, the future plans, the impact of the growing economy on the company, etc. Such shares in various Corporates have been gradually accumulated over the past several months in a methodical and professional manner. Other than in the case of a comparatively fewer transactions within the smaller trading portfolio, (which has also yielded capital gains of several hundred million rupees), the larger portion of the share acquisitions over the recent past, has been made with the intention of holding over the medium to longer period. That is why even at the height of the bullish trend of the share market when the ASPI reached its peak in the latter part of 2010 and early 2011 resulting

in significant unrealized gains in the EPF portfolio, the EPF Investment Committee took the view that it would be best to hold many of the stocks in its portfolio over the longer period, since it was considered likely that the gains in the longer time frame, would be substantially higher than the unrealized gains that were recorded at the last peak of the market.

In that background, the current concerted effort to highlight the decreases in values of certain selected stocks in the wide portfolio of the EPF during the period of a temporary slump of the market, is obviously a mischievous endeavour carried out by certain persons who are guided by ulterior motives, to discredit the EPF to further their own agendas.

The EPF is confident that its sound investment decisions will be proved pragmatic, sensible and profitable over the longer time frame, and therefore wishes to advise its millions of stakeholders not to be misled by this type of vituperative and negative propaganda.

3. Monetary Policy Review – November 2011

The outlook for Sri Lanka's economy remains positive with the economy continuing along the high growth trajectory. Inflation decreased for the third consecutive month in October 2011 with the year-on-year change in the Colombo Consumers' Price Index (CCPI)(2006/07=100) declining substantially from 6.4 per cent in September to 5.1 per cent in October 2011.

Annual average inflation decreased from 7.2 per cent in September to 7.1 per cent in October 2011. Further, core inflation, on a year-on-year basis, declined from 6.9 per cent in September to 5.6 per cent in October 2011, signifying the absence of demand-driven inflationary pressures. Inflation is expected to continue to decrease during the rest of the year, benefitting from the improvements in domestic supply conditions, arising from the high growth momentum of the economy.

The fuel price adjustment carried out at end October, and likely corresponding adjustments of costs relating to

public and goods transportation, could cause a marginal upward movement in prices. However, going forward, adjusting domestic fuel prices to reflect persistently high international market prices would minimise the adverse impact on future inflation and the economy through reduced price distortions.

Based on provisional data, earnings from exports as well as expenditure on imports grew further on a year-on-year basis in September 2011. The growth of the latter was mainly due to higher imports of intermediate and investment goods, which included

project related imports funded through financial inflows to the government that amounted to US dollars 1,460 million (excluding proceeds from the international sovereign bond issue in July 2011) during the first three quarters of the year. Even though the deficit in the trade account has expanded, higher earnings from tourism, increased worker remittances as well as other inflows to the services account helped contain the impact of the trade deficit on the current account balance. In the meantime, during the past month, two commercial banks have made arrangements to infuse fresh capital to the value of US dollars 250 million from foreign sources, while approval has been granted to 12 private companies to raise debt capital of approximately US dollars 63 million from foreign sources during the past two months in addition to foreign debt capital amounting to approximately US dollars 197 million obtained by 14 corporates up to mid-September 2011.

Notwithstanding the above developments, the growth in broad money (M_{2b}) continued into September 2011, with the year-on-year growth remaining high at around 20.7 per cent since June 2011. The rapid

expansion of credit obtained by the private sector, which has increased by over Rs.37 billion on average per month in 2011, continued to fuel the growth of money supply. Also contributing to the monetary expansion was the increase in net credit to the government by the banking sector.

Considering the above, even though inflation and the inflation outlook remain benign, the Monetary Board is of the view that a change to the existing monetary policy stance is not warranted. Hence, at its meeting held on 15 November 2011, the Monetary Board decided to maintain the policy interest rates of the Central Bank and the Statutory Reserve Ratio (SRR) applicable to all rupee deposit liabilities of commercial banks at their current levels. Accordingly, the Bank's Repurchase rate and the Reverse Repurchase rate will be 7.00 per cent and 8.50 per cent, respectively, while the SRR will be at 8.00 per cent.

The release of the next regular statement on monetary policy will be on 20 December 2011.

4. Revival of Underperforming Enterprises and Underutilized Assets Act

The main purpose of the Revival of Underperforming Enterprises and Underutilized Assets Act is to revive thirty seven (37) identified underperforming enterprises or underutilized assets where the land belongs to the Government or a Government Agency. It is applicable only to those 37 named enterprises, and not to any other enterprises whatsoever.

The Act provides for the appointment of a Competent Authority which will control, administer and manage the enterprise or asset so as to ensure the revival of the named enterprise or asset, through means such as restructuring or entering into a management contract. Accordingly, the Revival of Underperforming Enterprises and Underutilized Assets Act does not, in any way, constitute the nationalization or the expropriation of private assets, but instead, is designed to ensure the productive use of assets that have hitherto been lying abandoned or have been seriously underutilized.

It is important to emphasize that the assets specified in the Act do not refer to private lands, but to lands which have been provided to private operators for specified purposes, while the ownership of the land continued to remain with the Government or a Government Agency. In such context, it would be fair and reasonable to expect the operator or user of the land or asset to utilize the land or asset for the specified purpose for which the

land or asset was initially entrusted to them. And, if not so done for a lengthy period of time, it would also be fair and reasonable for such land or asset to be placed under the control of a Competent Authority who will ensure that the identified land or asset is utilized for the purpose it was originally provided.

It should also be noted that several enterprises specified in the Act are situated in Free-Trade Zones, where agreements have been entered into between such enterprises and the Board of Investment (BOI), and where the agreements have specified conditions such as the minimum investment to be made, the number of jobs to be created, the minimum extent of land to be developed, etc. In exchange for the fulfilment of such conditions, generous tax concessions, and in some cases, even exemptions from the Exchange Control Act, have been granted. But unfortunately, in the case of many of the named enterprises, these agreements with the BOI have been breached and/or operations

have ceased, leading to the operators abandoning their properties and allowing the assets to remain idle without being put to the intended use for several years.

In the case of the two sugar plantations (Pelwatte Sugar Industries PLC and Sevanagala Sugar Industries Ltd.), it is noted that the total extent of land cultivated by the respective operators has been only a fraction of the total extent that was entrusted to them. Further, it was noted that the operators were focusing on subsidiary objectives instead of concentrating on the primary objective of producing sugar which was the purpose for which the land was provided to them.

Ceylinco Leisure Properties Ltd. had also been identified for revival, since it is a project that originally contemplated the construction of a mega 5 star hotel facility *cum* apartment complex, but which had been half built and abandoned for over two years. The project has been the subject of protracted litigation, which had crippled the project from progressing. The partly constructed building and the land is situated in the heart of Colombo, overlooking the Indian Ocean, and has been deteriorating daily, and hence there was an urgent need to recommence the project to avoid further

financial losses and physical damage. In this regard, as provided for in the Act, the Competent Authority will be expected to undertake the task of reviving this project and ensuring that the purpose for which the land was entrusted to Ceylinco Leisure Properties Ltd. by the Urban Development Authority, would be duly and expeditiously accomplished.

From the above, it will be clear that there has been no expropriation or nationalization of private assets as has been suggested by some quarters, and that this new legislation will actually facilitate the recommencement of productive economic activity in hitherto abandoned or severely underutilized lands and assets. In addition, it should be noted that the process as set out in the new law, would not deprive the existing operator or company from reaching an understanding or agreement with the Competent Authority to operate the asset or enterprise in keeping with the original purpose of the Agreement. In such an event, there may not even be a change in the operator, but only a change in the mode of operation, with the existing operator being provided with the opportunity to ensure that the original intention of the agreement is fulfilled.

5. A commemorative coin to mark the 125th Anniversary Celebrations of the Ananda College, Colombo

The Central Bank of Sri Lanka (CBSL) issues commemorative coins and notes with the approval of the Hon. Minister of Finance in terms of Section 52A (1) (a) and (b) of the Monetary Law Act (Amendment) No. 6 of 1998. The CBSL has issued 54 commemorative coins to mark important events and persons since 1957.

Ananda College, established in 1886 completed 125 years on 01.11.2011. To mark the 125th Anniversary celebrations, a commemorative coin with a face value of

Rs. 2000 will be issued and it is a frosted proof crown size silver coin. This is the 55th commemorative coin issued by the Central Bank of Sri Lanka.

The obverse of the coin depicts the images of Venerable Mohottiwatte Gunananda Thero, Venerable Hikkaduwe Sumangala Thero and Colonel Henry

Steele Olcott as the founders of Ananda College. A replica of Ananda Viharaya (Shrine with Buddha Statue) appears as a backdrop with the rays depicting

impact of knowledge and education. The words “Ananda College” in Sinhala appears at the bottom centre with the years 1886 – 2011 above it. “Ananda College” in Tamil and English appear on the left and right sides of the coin.

The reverse of the coin depicts the crest of Ananda College with the denomination “2000” in the centre. The word “Rupees” in Sinhala, English and Tamil appears above the numerals 2000. The words “Sri Lanka” in Sinhala appears at the top centre and in Tamil and English on the periphery of the coin.

This frosted proof silver coin is round in shape and the diameter is 38.61 mm with a weight of 28.28 grams. The coin will be issued in an attractive presentation case accompanied by a certificate of authenticity from the Royal Mint Ltd, UK.

The coin will be officially handed over to Hon. Minister of Finance, H.E. the President Mahinda Rajapaksa by Mr. K G D D Dheerasinghe, the Senior Deputy Governor of the CBSL, in Colombo on 29.11.2011.

This is a limited issue of 1,500 coins and a coin will be sold at a price of Rs. 8,500. Coins will be available

for sale at the cash counters at the Head Office of the CBSL, 30, Janadhipathi Mawatha Colombo 1, Money Museum at No.58, Sri Jayewardenepura Mawatha, Rajagiriya, CBSL Provincial Offices at Anuradhapura, Matara, Matale, Jaffna and Trincomalee from 15th December 2011.

(a) Daily wages represent payments in cash where meals are not provided by the employer. Annual and quarterly figures are averages of monthly figures.

Source: Central Bank of Sri Lanka

(b) Wages in the construction sector are paid on both daily payment and contractual basis. The series on contractual basis in previous bulletin publications has been replaced by the series on daily payment basis from the monthly bulletin of December 2005 onwards for comparison with wages in other sectors.

(c) Daily wages up to December 2004 are the average of daily wages for the two activities. From January 2005 onwards the daily wages cover both activities under a single category following the restructuring of data collection schedules.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

- (a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Offshore Banking Units have been treated as a part of the domestic banking system.
- (b) Provisional
- (c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.
- (d) Includes port related services.
- (e) Passage collections by foreign shipping agents and airlines are included in passenger fares.
- (f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.
- (g) Indicates outright grants received in the form of project aid.
- (h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. The debit entries in respect of such imports are in the merchandise account and are recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.
- (i) The change in capital of the monetary sector is based on local records.
- (j) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF and the receipts under the Stand-by Arrangement facility in 2009. US dollar and Sri Lanka Rupee values reflect changes in the representative rate of the Special Drawing Rights (SDRs). Figures in the debit column are in respect of repurchases or repayments, made in installments to the IMF, in respect of earlier drawings. Subscriptions to the IMF, consequent to successive increases in Sri Lanka's quota, are also shown in the debit column.
- (k) General and special allocations of SDRs by the IMF.

- (a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Offshore Banking Units have been treated as a part of the domestic banking system.
- (b) Provisional
- (c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.
- (d) Includes port related services.
- (e) Passage collections by foreign shipping agents and airlines are included in passenger fares.
- (f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.
- (g) Indicates outright grants received in the form of project aid.
- (h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. The debit entries in respect of such imports are in the merchandise account and are recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.
- (i) The change in capital of the monetary sector is based on local records.
- (j) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF and the receipts under the Stand-by Arrangement facility in 2009. US dollar and Sri Lanka Rupee values reflect changes in the representative rate of the Special Drawing Rights (SDRs). Figures in the debit column are in respect of repurchases or repayments, made in installments to the IMF, in respect of earlier drawings. Subscriptions to the IMF, consequent to successive increases in Sri Lanka's quota, are also shown in the debit column.
- (k) General and special allocations of SDRs by the IMF.

(b) The NEER is the weighted average of nominal exchange rates of the 24 trading partner and competitor countries. Weights are based on the trade shares reflecting the relative importance of each currency in the currency basket.

(c) The REER is computed by adjusting the NEER for inflation differentials with the countries whose currencies are included in the basket.

(a) Annualised Forward Premium (f^d) is computed using the following formula.

$$f^d = \{[F_t^{t+1} - S_t] / S_t\} * 100 * (12/t)$$

Where F_t^{t+1} is the forward rate for period $t+1$ that exists in period t and S_t is the interbank spot rate at period t .

Note : The number of reporting banks were 23 until January 2006, and 22 from October 2008.

- (a) Includes assets / liabilities of National Development Bank which merged with NDB Bank Ltd., with effect from August 2005.
- (b) Restructuring bonds worth Rs.19,392.6 million, which were issued by the government to the two state banks, have been converted to Treasury bonds upon their maturity in October 2006. This amount, which previously appeared under Other Assets has been included in Treasury bonds since October 2006.
- (c) Includes Central Bank securities and DFCC Bonds.

- (d) Fixed and other assets consists of banks' property, furniture, fittings and sundries (commission, interest receivable etc.).
- (e) Liquid assets consist of Cash on hand, Balances due from Central Bank, Foreign currency on hand and Balances due from banks abroad, Government of Sri Lanka Treasury bills and bills discounted. With effect from 18 May 1998, Treasury bonds are considered as part of liquid assets of commercial banks. Balances due from domestic banks and cash items in process of collection have been excluded from liquid assets and domestic inter-bank deposits have been excluded from demand deposits, because from the view point of the commercial banking system as a whole such claims and deposits cancel out.

(a) This monetary survey is based on the aggregated data pertaining to both Domestic Banking Units (DBUs) and Offshore Banking Units (OBUs) of banks operating in Sri Lanka. Definitional changes have been adopted in aggregating DBUs and OBUs data to avoid double counting and misclassification of assets and liabilities.

(Contd.)

The major changes are:

- (1) All DBU placements in OBUs are recorded as domestic assets, while all DBU borrowings from OBUs are recorded as domestic liabilities.
- (2) Foreign currency deposits of DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply :
 - (i) One half (50 per cent) of NRFC deposits are treated as domestic deposit liabilities;
 - (ii) All RNNFC balances are treated as foreign liabilities;
 - (iii) All other domestic foreign currency accounts are treated as domestic deposit liabilities.

(b) Includes assets / liabilities of National Development Bank which merged with NDB Bank Ltd., with effect from August 2005.

(c) External assets (net) of the Central Bank and commercial banks (including outward bills).

(d) Currency and demand deposits of the public.

(e) Time and savings deposits of the public held with commercial banks.

(a) This financial survey is based on the aggregated data pertaining to Domestic Banking Units (DBUs) and Offshore Banking Units (OBUs) of commercial banks, Licensed Specialised Banks (LSBs) and Registered Finance Companies (RFCs) operating in Sri Lanka. Definitional changes have been adopted in aggregating data pertaining to DBUs, OBUs, LSBs and RFCs to avoid double counting and misclassification of assets and liabilities. The major changes are:

- (1) All DBU placements in OBUs are recorded as domestic assets, while all DBU borrowings from OBUs are recorded as domestic liabilities.
- (2) Foreign currency deposits of DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply:
 - (i) One half (50 per cent) of Non-Resident Foreign Currency (NRFC) deposits are treated as domestic deposit liabilities;
 - (ii) All Resident Non-National Foreign Currency (RNNFC) balances are treated as foreign liabilities;
 - (iii) All other domestic foreign currency accounts are treated as domestic liabilities.

(b) Currency, demand deposits and quasi money in DBUs in this table differ from those in table 52 due to the fact that LSBs and RFCs are not treated as 'public' under this broad monetary survey (M₄) definition.

(c) Time and savings deposits of the private sector with commercial banks, LSBs and RFCs.

(d) External assets of commercial banks include outward bills.

(e) Credit extended by the Central Bank, DBUs, OBUs, LSBs and RFCs to the Government, net of Government deposits with banks and Government cash deposits.

(a) Under Sections 10c, 93, 94, 96 and 97 of the amended Monetary Law Act (Chapter 422), commercial banks and other financial institutions are required to maintain reserves against their deposit liabilities as prescribed by the Monetary Board. Currently, only commercial banks are subject to reserve requirements. With effect from 24 January 1992, an amount of till cash over and above two per centum of the total deposit liabilities, but not exceeding four per centum, could be maintained as a part of required reserves in the form of Sri Lanka currency notes and coins. Details of required reserve ratios, which were applicable in the past and computational methods have been published in the Appendix table on the 'Reserve Position of Commercial Banks' in the Annual Reports prior to 2003.

(b) Reserve data are for the last reserve week of each month. The required reserves recorded in the table refer to the cumulative reserves for the week, while commercial bank deposits with the Central Bank are the cumulative deposits for that particular reserve week. Excess/Deficit on SRR is the difference between the cumulative SRR for the reserve week and cumulative deposits of the commercial banks for the week.

(c) Excludes interbank deposits.

(d) With effect from 03 April 2003, the basis of computing the Statutory Reserve Requirement (SRR) was changed from deposit liabilities and vault cash balances at the close of business on Wednesday of the previous reserve week, to the average of deposit liabilities and vault cash balances during the week ending Tuesday of the previous reserve week.

(e) SRR was increased from 7.00 per cent to 8.00 per cent with effect from 29 April 2011.

(a) All interest rates are as at the end of period, unless otherwise stated.

(b) This is the rate at which the Central Bank grants advances to commercial banks for temporary liquidity purposes. With effect from 04 January 1991, the rate was increased to 17 per cent from 15.5 per cent. As at end 1999 this rate was 16 per cent. With effect from 02 October 2000 the rate was increased to 18 per cent and further increased to 25 per cent with effect from 21 November 2000. With effect from 02 July 2001, this rate was brought down to 23 per cent and further reduced to 18 per cent with effect from 27 December 2001. On 15 August 2003, the rate was reduced to 15 per cent.

(c) Average Weighted Deposit Rate (AWDR) is calculated monthly by the Central Bank based on the weighted average of all outstanding interest bearing deposits of commercial banks and the corresponding interest rates.

(d) The Average Weighted Prime lending Rate is estimated weekly by the Central Bank based on commercial banks' lending rates offered to their prime customers during the week. These monthly figures are average values of estimated weekly rates.

(e) The Sri Lanka Inter-Bank Offered Rate (SLIBOR) is computed daily by the Central Bank, based on rates offered by commercial banks in the inter-bank market. The rate shown is the average of such offered rates by selected commercial banks.

Notes :

- (1) Commercial banks charge a variety of fees and commissions on their services. The table gives a range of the maximum and minimum fees and commissions which are based on the information provided by commercial banks. These charges, which do not change very frequently are published semi-annually to enable the public to negotiate best terms. These fees and commissions could be different when services and products are provided as a package.
- (2) These are standard charges of commercial banks. However, charges for some specific products could include charges payable to banks abroad. For example, banks in Sri Lanka may include in their charges fees payable to banks abroad such as for adding confirmation to Letters of Credit, and for correction of discrepancies.
- (3) In the case of Documentary Credits, the charges for outward transmission from Sri Lanka would differ, on the mode of transmission used.
- (4) Loan application processing fees vary according to the loan amount.
