Part I
EVENTS OF THE MONTH
September 2009

Loans from Government of the French Republic

Two agreements were signed between the Government of Sri Lanka and the Government of the French Republic on 17 September 2009 as follows.

1. A loan of Euro 9.529 million (approximately Rs.1,611 million) to finance the cost of improving the efficiency of operating theaters and provision of oxygen concentrators to tsunami affected areas and remote hospitals in Sri Lanka.
2. A loan of Euro 6.405 million (approximately Rs.1,083 million) to finance the cost of setting up an intravenous solution manufacturing plant in Sri Lanka.

These loans are repayable in 20 years including a grace period of 5 years and each loan carries an interest rate of 0.60 per cent per annum.

Grants from the Food and Agriculture Organization (FAO) of the United Nations

Two agreements were signed between the Government of Sri Lanka and FAO in September. Details of the agreements are as follows:

1. An agreement was signed on 29 September 2009 for a grant of US dollars 0.375 million (approximately Rs.43 million) to finance the “Aquaculture Development in the Southern Province Project”.
2. An agreement was signed on 30 September 2009 for a grant of Euro 5.127 million (approximately Rs.861 million) to finance the project of “Enhancing Food security and Nutrition among the most vulnerable farm families in eastern Sri Lanka”.

Grants from the International Fund for Agriculture Development (IFAD)

Two agreements were signed between the Government of Sri Lanka and the International Fund for Agriculture Development (IFAD) amounting to US dollar 6.920 million (approximately Rs.794 million) and US dollar 0.975 million (approximately Rs.112 million) on 10 September 2009 as funding for the post-Tsunami Resource management and Coastal Rehabilitation Programme.

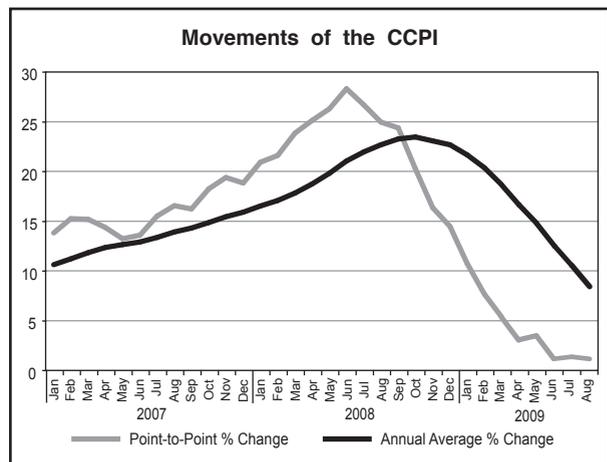

Part II
PRESS RELEASES
September 2009

1. Inflation down to 0.9 per cent in August 2009

The rate of inflation, as measured by the point-to-point change in the Colombo Consumers' Price Index (CCPI) (2002=100), computed by the Department of Census and Statistics, decreased to 0.9 per cent in August, 2009 from 1.1 per cent in July, 2009. The annual average inflation rate also continued on its declining path which had commenced in November, 2008 and recorded a single digit level of 8.5 per cent, compared to 10.4 per cent in July 2009. It is noteworthy that this is the lowest annual average inflation rate recorded since 2006.

The CCPI decreased marginally by 0.3 per cent over the previous month, with the Index moving downward to 208.1 from 208.7 in July, 2009. The contribution to the monthly decrease in the Index arose mainly from the Food and Non alcoholic beverages sub category. All the other sub categories recorded monthly increases, especially Education, Transport, Clothing and footwear, and Housing, water, electricity, gas and other fuels.

The Core inflation, on a point-to-point basis, increased to 6.4 per cent in August, as compared to 6.0 per cent in July, 2009, while the annual average core inflation declined further to 13.2 per cent in August, 2009 from 14.2 per cent in the previous month.

2. Monetary Policy Review – September 2009

The Monetary Board, at its meeting held on 11 September 2009, has decided to reduce its policy interest rates by 50 basis points each, to be effective from the close of business on 11 September 2009. Accordingly, the Repurchase rate and the Reverse Repurchase rate of the Central Bank would be 8.00 per cent and 10.50 per cent, respectively.

Inflation, as measured by the year-on-year change in the Colombo Consumers' Price Index (base=2002), has remained around 1 per cent during the last three months. While inflation is expected to gradually rise to moderate levels in the approaching months, it is projected to remain at single digit levels during the rest of 2009. Current projections indicate that inflation, on a year-on-year basis, would be at low single digit levels even by the end of 2010.

Economic prospects for Sri Lanka had improved considerably during the past few months. With the contraction in the world economy now widely believed to have bottomed out, the scope for domestic economic activity is now even wider. During the first six months of this year, the Central Bank eased its monetary policy stance in several steps to support domestic economic activity, in view of the sharp decrease in inflation, the improved outlook for inflation and the significant

slowdown in domestic economic activity in the face of the global economic downturn. With the gradual relaxation of the monetary policy stance of the Central Bank, though short term interest rates have declined in line with the policy rate reductions, there has not been an appreciable reduction in lending rates in general, and credit flows to the private sector have not picked up as desired. Today's

decision by the Central Bank to further reduce its policy interest rates would signal to the market the need for further reductions in market interest rates and expansion in credit to the private sector.

The release of the next regular statement on monetary policy will be on 12 October 2009.

3. Sri Lanka's Gross Official Reserves Exceed US dollars 4 billion, its Highest Ever

The gross official reserves of the country surpassed the US dollars 4 billion level on 10 September 2009. This level of reserves is equivalent to over 4.4 months of imports and is the highest ever reserves level of Sri Lanka.

With the renewed investor confidence and the continuation of the steady increase in foreign exchange inflows, the country's external reserve position is expected to strengthen further in the coming months.

4. Maturing 2 Year Sri Lanka Development Bonds (SLDBs) re-issued with a 3 Year maturity at a yield of 6 month LIBOR+425 bps

The Central Bank of Sri Lanka, on behalf of the Government, offered to issue Sri Lanka Development Bonds (SLDBs) to eligible investor categories for subscription at a rate of US dollar 6 month LIBOR plus a margin to be determined through competitive bidding.

The offer was opened on 9th September 2009 with the settlement on 22nd September 2009. The offer was oversubscribed with total bids received (US Dollar 63 million) amounting to 1.3 times the offer by both foreign and local commercial banks. Of the bids received, the Government decided to accept US Dollar 41 million at the market determined rate of US Dollar 6 month LIBOR + 425 bps (weighted average margin). Today, the US Dollar 6 month LIBOR rate is 0.6775 per cent. The margins of past three auctions held during this year with a 2 year maturity period were 540 bps, 497 bps, and 450 bps respectively for March, June, and August 2009 SLDB issues.

This SLDB issue is within the annual borrowing limit approved by Parliament for 2009 and the funds mobilized through the new bond issuance are to be used to settle maturing 2 year SLDBs of US Dollar 35 million.

The SLDBs are transferable by endorsement, delivery and registration with the Superintendent of the Public Debt of the Central Bank of Sri Lanka. Eligible investors may purchase SLDBs from Designated Agents appointed by the Central Bank of Sri Lanka in the secondary market.

5. Sri Lanka International Sovereign Bond Issue of US\$ 500 million in 2009

The Central Bank of Sri Lanka, on behalf of the Government of Sri Lanka, is due to issue an International Sovereign Bond amounting to US Dollar 500 million in international markets in October 2009.

After evaluation of proposals received from seven international banks/investment houses, the Government of Sri Lanka has selected three leading international banks/investment houses, namely the Hongkong and Shanghai Banking Corporation Limited (HSBC), JP Morgan and the

Royal Bank of Scotland (RBS) as Joint Lead Managers/Bookrunners / Underwriters for this bond issue.

In addition, Bank of Ceylon has been appointed as a Co-manager to work with the three Joint Lead Managers to execute the bond issuance.

6. External Sector Performance – July 2009

Trade deficit contracted for the seventh consecutive month in July 2009 by 37.3 per cent to US dollars 260 million, year-on-year, led by lower trade volumes. The cumulative trade deficit decreased by 57.2 per cent to US dollars 1,512 million during the first seven months of 2009 from US dollars 3,531 million in the corresponding period of 2008. Private remittances increased by 6.5 per cent to US dollars 1,884 million during this period. As a result, private remittances during the first seven months of 2009 were US dollars 372 million (about 25 per cent) in excess of the trade deficit.

Earnings from exports in July 2009 reached to US dollars 652 million, the highest figure during the first seven months of the year. However, it was a decline of 23.1 per cent, compared to July 2008, as the month of July 2008 recorded the hugest ever export earning for a month. The largest contribution to this decline was from the industrial exports (71.7 per cent), followed by the agricultural exports (28.2 per cent). Exports of all sub categories of agriculture sector declined in July 2009, resulting 26.4 per cent decline in total agricultural exports. Contraction in volumes of tea exports by 21.2 per cent led tea export earning to drop by 21.9 per cent. Export earnings from rubber, coconut and other agricultural exports also declined due to lower prices. Meanwhile, industrial exports declined by 22.4 per cent in July 2009 mainly due to the decline in export earnings of textile and garments, rubber products, machinery and equipments and other industrial exports owing to lower demand. Export earnings of textiles and garments declined by 18.4 per cent, contributing 34.6 per cent for the total decline while rubber products declined by 41.0 per cent. Meanwhile, food, beverages and tobacco category registered 1.6 per cent growth in July 2009 year on year basis, mainly due to substantial growth in exports of fishery products. Cumulative exports during the first

seven months of 2009, declined by 18.9 per cent to US dollars 3,841 million, compared to the corresponding month of 2008. However, there is a sign of recovery in many export sectors such as rubber based product, animal fodder and mineral export since April 2009.

Expenditure on imports declined by 27.8 per cent to US dollars 912 million in July, 2009 due to reduced demand. Consumer goods declined by 24.6 per cent to US dollars 172 million, led by substantially lower expenditures on imports of wheat grain, motor cars and cycles. Expenditure on imports of electrical items also reduced in July 2009. However, expenditure on sugar imports increased significantly both due to the higher import volumes and higher prices. Imports of intermediate goods declined by 29.6 per cent to US dollars 526 million mainly due to the lower expenditure incurred on petroleum and fertilizer imports. The average price of crude oil imports declined by 49.2 per cent to US dollars 68.29 per barrel in July 2009, from US dollars 134.34 per barrel in July 2008. As a result of lower import volumes, expenditure on fertilizer declined significantly. Expenditure on investment goods has also declined by 24.3 per cent to US dollars 205 million in July 2009 reflecting declines in all sub categories. Cumulative expenditure on imports during the first seven months of 2009, declined by

35.3 per cent to US dollars 5,353 million compared to the corresponding period of 2008.

The gross official reserves, with and without Asian Clearing Union (ACU) funds, recorded US dollars 2,278.1 million and US dollars 2,189.3 million, respectively, by end July 2009. Based on the previous 12 month average imports (US dollars 924 million per month), these reserve values were equivalent to 2.5 and 2.4 months of imports, respectively.

The foreign exchange inflows have also responded favourably to the positive outlook brought about by the end to the three decades of conflict and approval of a Stand-by Arrangement (SBA) facility by the International Monetary Fund (IMF). Total net foreign inflows to the government T-bills and T-bonds since mid May 2009 to 11 September 2009 amounted to US dollars 1,214 million.

In the meantime, the Central Bank of Sri Lanka (CBSL) is in the process of building up its official reserves to a more comfortable level by absorbing excess foreign exchange from the market. Since end March 2009, upto 9 September, it has absorbed US dollars 1,955.9 million from the market. In addition, with the approval of the new general and special allocations of Special Drawing Rights (SDR) by IMF on 28 August and 09 September 2009, respectively, Sri Lanka has received SDR 324.6 million (approximately US dollars 508 million) and thereby the foreign reserves held by the CBSL have improved significantly. Accordingly, gross official reserves (without ACU) has been estimated to exceed US dollars 4 billion by 10 September 2009.

The external trade performance during the period is further illustrated in the following table.

External Trade Performance: July 2009 and January – July 2009

Category	July 2008 US \$ mn	July 2009 US \$ mn	Growth July %	Jan-Jul 2008 US \$ mn	Jan-Jul 2009 US \$ mn	Growth Jan-Jul %

7. Interest Rates in the Treasury Bill Market Declines to a Single Digit

The yields at the Treasury bill primary auction held on 23 September 2009 declined to a single digit level of 9.70 per cent for three months Treasury bills for the first time after November 2005.

With this reduction, primary market yield rates of the Treasury bills have declined by 763 – 795 bps during the year 2009. The primary market yield rates of Treasury bonds also followed the same trend and declined by upto 956 bps. The decline in yields is witnessed in all maturity classes of Government securities extending up to the 10 year maturity horizon. This reduction in yield rates

is in line with the gradual easing of the monetary policy stance by the Central Bank of Sri Lanka and increased foreign investor participation in the Government securities market.

In line with these developments, a reduction in the entire interest rate structure in the economy, including the lending rates of the commercial banks is expected.

STATISTICAL APPENDIX

Definitions and Explanatory Notes

The following general notes supplement the footnotes given below the individual tables:—

1. The data cover monthly figures available at the time the Bulletin goes to print, and the latest available information does not relate to the same month, in every table.

To enable comparison, annual figures for recent years are given.

2. In an attempt to bring the material up-to-date provisional figures are included in some tables.
3. Figures in some tables have been rounded off to the nearest final digit. Hence there may be a slight discrepancy between the total as shown and the sum of its components.
4. Differences as compared with previously published figures are due to subsequent revisions.
5. The following symbols have been used throughout:—
 - n.a. = not available
 - = nil
 - ... = negligible

June	160.3	17.4	113.1	82.0	78.1	409.6
July	156.9	18.4	108.7	69.7	69.7	473.9
August	177.6	n.a.	n.a.	n.a.	72.5	522.1

(a) (1) Includes manufacturing and export processing industries. Small industry is defined as those units having supply of electricity at 400/230 volts and contract demand is less than 50 KVA, medium industry as supply of electricity at 400/230 volts and contract demand is equal or more than 50 KVA and large industry as supply of electricity at 11KV, 33KV and 132KV.

(2) Figures include electricity consumption of hotels.

(b) Sales other than to Ceylon Electricity Board.

(c) Excluding Petroleum exports.

(d) Provisional

(e) Revised.

- (a) The index was based on household income and expenditure survey conducted in 2002.
The weights are based on the consumption pattern of the urban households within the Colombo district.
- (b) Annual and quarterly figures are averages of monthly figures.

Note: The Index numbers are calculated by the Labour Department on fixed weights based on the numbers employed as at 31 December 1978. The wage rate used in the calculation of Index numbers are minimum wages for different trades fixed by the Wages Boards.

Sources : Labour Department
Central Bank of Sri Lanka

- (a) The Index refers to wage rates of tea growing and manufacturing, rubber growing and manufacturing, coconut, cocoa, cardamoms and pepper growing trades only.
- (b) Includes baking, brick and tile manufacturing, coconut manufacturing, printing textile, tyre and tube manufacturing, coir mattresses & bristle fibre export, hosiery manufacturing, engineering, garment manufacturing, match manufacturing, biscuit manufacturing, tea export and rubber export trades only.
- (c) This includes cinema, motor transport and nursing homes trade only.
- (d) Combined Index for workers in Agriculture, Industry & Commerce and Services.
- (e) Provisional.

(a) Daily wages represent payments in cash where meals are not provided by the employer. Annual and quarterly figures are averages of monthly figures.

Source: Central Bank of Sri Lanka

(b) Wages in the construction sector are paid on both daily payment and contractual basis. The series on contractual basis in previous bulletin publications has been replaced by the series on daily payment basis from the monthly bulletin of December 2005 onwards for comparison with wages in other sectors.

(c) Daily wages up to December 2004 are the average of daily wages for the two activities. From January 2005 onwards the daily wages cover both activities under a single category following the restructuring of data collection schedules.

(d) Provisional.

(a) Consists of government expenditure excluding contributions to sinking funds, direct payment of public debt and subscriptions to international financial organisations. Also excludes book adjustments arising from losses on Advance Account operations incurred and financed in the previous financial year. Hence, the figures may not tally with the figures published in the accounts of the Government of Sri Lanka.

(b) Special payments and receipts on account of Sri Lanka's contribution to and from the IMF and the IDA and special loans from these payments are excluded from both recurrent expenditure and Central Bank Advances.

(c) Provisional.

(d) Excludes Treasury bills and Treasury bonds to non-residents in 2007.

(e) Includes Treasury bills and Treasury bonds issued to non-residents in 2007.

(a) Computed from weekly averages.

(b) Based on a study conducted by the Coconut Development Authority in 1996/97 rates applicable for conversion of volume of three major coconut exports to nut equivalent (from kgs) have been revised from 1998.

(c) This refers to prices of the best quality copra.

(d) Provisional.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

Source: Central Bank of Sri Lanka

- (a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Off-shore Banking Units (OBUs) have been treated as a part of the domestic banking system.
- (b) Provisional
- (c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.
- (d) Includes port expenditure.
- (e) Passage collections by foreign shipping agents and airlines are included in Passenger Fares.
- (f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.
- (g) Indicates outright grants received in the form of project aid.
- (h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. Debit entries respect of such imports are in the merchandise account and are recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.
- (i) The change in capital of the monetary sector is based on local records.
- (j) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF. Sri Lanka Rupee values reflect changes in the representative rate of the SDR. Figures in the debit column are in respect of repurchases or repayments, made in instalments to the IMF, in respect of earlier drawings. Subscriptions to the IMF, consequent to successive increases in Sri Lanka's quota, are also shown in the debit column.

Source: Central Bank of Sri Lanka

- (a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Off-shore Banking Units (OBUs) have been treated as a part of the domestic banking system.
- (b) Provisional
- (c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.
- (d) Includes port expenditure.
- (e) Passage collections by foreign shipping agents and airlines are included in Passenger Fares.
- (f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.
- (g) Indicates outright grants received in the form of project aid.
- (h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. Debit entries respect of such imports are in the merchandise account and are recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.
- (i) The change in capital of the monetary sector is based on local records.
- (j) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF. Sri Lanka Rupee values reflect changes in the representative rate of the SDR. Figures in the debit column are in respect of repurchases or repayments, made in instalments to the IMF, in respect of earlier drawings. Subscriptions to the IMF, consequent to successive increases in Sri Lanka's quota, are also shown in the debit column.

(a) Special Drawing Rights, the unit of account of the International Monetary Fund.

Source: Central Bank of Sri Lanka

(b) The NEER is the weighted average of nominal exchange rates of the 24 trading partner and competitor countries. Weights are based on the trade shares reflecting the relative importance of each currency in the currency basket.

(c) The REER is computed by adjusting the NEER for inflation differentials with the countries whose currencies are included in the basket.

(a) Annualized Forward Premium (f^d) is computed using the following formula.

Source: Central Bank of Sri Lanka

$$f^d = \{[F_t^{t+1} - S_t] / S_t\} * 100 * (12/t)$$

Where F_t^{t+1} is the forward rate for period $t+1$ that exists in period t and S_t is the interbank spot rate at period t .

(1) Total amount of currency, including subsidiary notes and coins issued by the Central Bank.

(2) Currency held by the Treasury and the Kachcheries.

(5) Total demand deposits held by the Central Bank and the commercial banks.

(6) Government demand deposits with the commercial banks and the Central Bank.

(7) Inter bank deposits both local and foreign, including deposits of international organisations and commercial banks with the Central Bank.

(10) Time and savings deposits of non-governmental sector held with commercial banks.

 (11) M₂ is defined as M₁ plus time and savings deposits of the public held with commercial banks.

Source: Central Bank of Sri Lanka

Note: (a) Monetary data from 1990 have been reclassified as follows, to be consistent with the standard international practice.

Column 5 & 8 – Excludes the value of rupee demand deposits held by customers resident outside Sri Lanka. These deposits are now treated as foreign liabilities (Rs.1,229 million at end July 2009).

Column 10 – Excludes the value of rupee time and savings deposits held by customers resident outside Sri Lanka. These deposits are now treated as foreign liabilities (Rs.721 million at end July 2009).

Source: Central Bank of Sri Lanka

- (a) External assets (net) of the Central Bank and commercial banks (including outward bills).
 (b) Currency and demand deposits held by the public.
 (c) Credit extended by the banking system to the government, net of government deposits with banks and government cash balances.
 (d) Monetary data from 1990 have been reclassified as follows, to be consistent with the standard international practice.
 Column 1 – Excludes rupee demand deposits held by customers resident outside Sri Lanka. These are now treated as foreign liabilities (Rs. 1,229 million at end July 2009).
 Column 3 – Adjusted:
 (i) to include effect of the quota subscriptions made to the IMF and liabilities on account of other transactions with IMF which are not reflected in the balance sheet of the Central Bank. However, with effect from January 2002, the total amount of IMF quota is included in the Central Bank's balance sheet with the adoption of International Accounting Standards (IAS).
 (ii) to include the balance in the Crown Agent's Account of the Government (Rs. 18 million at end July 2009).
 (iii) to include the revaluation effect of the Structural Adjustment Facility and the Standby Arrangement with the IMF - Rupee Account until December 2002. Since January 2003, all IMF related assets and liabilities have been revalued to current market rates in the balance sheet of the Central Bank.
 (iv) to include rupee deposits of customers outside Sri Lanka as foreign liabilities (This reduces the net external assets of the commercial banks by Rs. 1,950 million at end July 2009).
 Column 6 – Net credit to the Government by the Central bank includes cash item in process of collection (Rs. 0 at end July 2009) but excludes the Central Bank's assets on special advances given to the government on account of obligations to the IMF which had been shown in the CBSL balance sheet until September 2002.
 Column 16 – Adjusted for cash items in process of collection (Rs. 0 at end July 2009) and special advances given by the Central Bank to the government on account of IMF obligations. The amount of special advances was removed from the CBSL's balance sheet since October 2002 to be compatible with the accounting treatment of IMF quota under International Accounting Standards.
 (e) Includes assets/liabilities of National Development Bank which merged with NDB Bank Ltd., with effect from August 2005.
 (f) Restructuring bonds worth Rs. 19,392.6 million, which were issued by the government to the two state banks, have been converted to Treasury bonds upon their maturity in October 2006. This amount, which previously appeared under Other Assets has been included in Net Credit to Government since October 2006.

(a) The balance sheet data of the Central Bank from 2002 January is based on the International Accounting Standards (IAS). Accordingly, foreign securities of the Central Bank have been valued at current market prices since January 2002. These data prior to January 2002 are according to local cost or face value whichever is less.

(b) Includes securities acquired from government institutions.

(c) According to IAS, the amount of Sri Lanka's quota with the IMF has been taken into the Central Bank's balance sheet.

(d) According to IAS, balance sheet of the CBSL is prepared on accrual basis and receivables show interest receivables on foreign securities.

(e) From February 1975, loans and advances to others include amounts granted under the Medium and Long Term Credit Fund. Credit provided under "Susahana" Refinance Credit Scheme is included from December 2005.

(f) According to IAS, government and government guaranteed securities are at fair value basis since January 2002.

Note : The number of reporting banks were 23 until January 2006, and 22 from October 2008.

(Contd.)

(a) Also includes Treasury bills purchased in the secondary market.

(b) Includes Central Bank securities and DFCC Bonds.

(c) Fixed and other assets consists of banks' property, furniture, fittings and sundries (commission, interest receivable etc.).

(d) Liquid assets consist of Cash on hand, Balances due from Central Bank, Foreign currency on hand and Balances due from banks abroad, Government of Sri Lanka Treasury bills and bills discounted. With effect from 18 May 1998, Treasury bonds are considered as part of liquid assets of commercial banks. Balances due from domestic banks and cash items in process of collection have been excluded from liquid assets and domestic inter-bank deposits have been excluded from demand deposits, because from the view point of the commercial banking system as a whole such claims and deposits cancel out.

(a) This monetary survey is based on the aggregated data pertaining to both Domestic Banking Units (DBUs) and Offshore Banking Units (OBUs) of banks operating in Sri Lanka. Definitional changes have been adopted in aggregating DBUs and OBUs data to avoid double counting and misclassification of assets and liabilities. The major changes are:

(Contd.)

- (1) All DBU placements in OBUs are recorded as domestic assets, while all DBU borrowings from OBUs are recorded as domestic liabilities.
- (2) Foreign currency deposits of DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply :
 - (i) One half (50 per cent) of NRFC deposits are treated as domestic deposit liabilities;
 - (ii) All RNNFC balances are treated as foreign liabilities;
 - (iii) All other domestic foreign currency accounts are treated as domestic deposit liabilities.
- (b) External assets (net) of the Central Bank and commercial banks (including outward bills).
- (c) Currency and demand deposits of the public.
- (d) Time and savings deposits of the public held with commercial banks.

Source: Central Bank of Sri Lanka

(a) This financial survey is based on the aggregate data pertaining to Domestic Banking Units (DBUs), Foreign Currency Banking Units (FCBUs), Licensed Specialised Banks (LSBs) and Finance Companies (FINCOs) operating in Sri Lanka. Definitional changes have been adopted in aggregating DBU, FCBUs, LSBs and FINCOs data to avoid double counting and misclassification of assets and liabilities. The major changes are:

- (1) All DBU placements in FCBUs are recorded as domestic assets, while all DBU borrowings from FCBUs are recorded as domestic liabilities.
- (2) Foreign currency deposits of DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply:
 - (i) One half (50 per cent) of NRFC deposits are treated as domestic deposit liabilities;
 - (ii) All RNNFC balances are treated as foreign liabilities;
 - (iii) All other domestic foreign currency accounts are treated as domestic deposit liabilities.

(b) External assets (net) of the Central Bank, Commercial banks (including outward bills), LSBs and FINCOs.

(c) Currency, demand deposits and quasi money in DBUs in this table differ from those in table 52 due to the fact that LSBs and FINCOs are not treated as public under this broad monetary survey (M₄) definition.

(d) Time and savings deposits of the private sector with commercial banks, LSBs and FINCOs.

(e) Credit extended by the monetary authority, DBUs, LSBs and FINCOs to the Government, net of Government deposits with banks and Government cash deposits.

* Revised.

Source: Central Bank of Sri Lanka

* The contents and format of this table have been revised.

(a) Under Sections 10c, 93, 94, 96 and 97 of the amended Monetary Law Act (Chapter 422), commercial banks and other financial institutions are required to maintain reserves against their deposit liabilities as prescribed by the Monetary Board. Currently, only commercial banks are subject to reserve requirements. With effect from 24 January 1992, an amount of till cash over and above two per centum of the total deposit liabilities, but not exceeding four per centum, could be maintained as a part of required reserves in the form of Sri Lanka currency notes and coins. Details of required reserve ratios, which were applicable in the past and computational methods have been published in the Appendix table on the 'Reserve Position of Commercial Banks' in the Annual Reports prior to 2003.

(b) Reserve data are for the last reserve week of each month. The required reserves recorded in the table refer to the cumulative reserves for the week, while commercial bank deposits with the Central Bank are the cumulative deposits for that particular reserve week. Excess/Deficit on SRR is the difference between the cumulative SRR for the reserve week and cumulative deposits of the commercial banks for the week.

(c) Excludes interbank deposits.

(d) With effect from 03 April 2003, the basis of computing the Statutory Reserve Requirement (SRR) was changed from deposit liabilities and vault cash balances at the close of business on Wednesday of the previous reserve week, to the average of deposit liabilities and vault cash balances during the week ending Tuesday of the previous reserve week.

(e) SRR, which was 10 per cent with effect from 19 October 2001 was reduced to 9.25 per cent with effect from 17 October 2008.

(f) SRR was reduced from 9.25 per cent to 7.75 per cent with effect from 28 November 2008.

(g) SRR was reduced from 7.75 per cent to 7.00 per cent with effect from 27 February 2009.

Source: Central Bank of Sri Lanka

(a) All interest rates are as at the end of period, unless otherwise stated.

(b) This is the rate at which the Central Bank grants advances to commercial banks for temporary liquidity purposes. With effect from 04 January 1991, the rate was increased to 17 per cent from 15.5 per cent. As at end 1999 this rate was 16 per cent. With effect from 02 October 2000 the rate was increased to 18 per cent and further increased to 25 per cent with effect from 21 November 2000. With effect from 02 July 2001, this rate was brought down to 23 per cent and further reduced to 18 per cent with effect from 27 December 2001. On 15 August 2003, the rate was reduced to 15 per cent.

(c) Average Weighted Deposit Rate (AWDR) is calculated monthly by the Central Bank based on the weighted average of all outstanding interest bearing deposits of commercial banks and the corresponding interest rates.

(d) The Average Weighted Prime lending Rate is estimated weekly by the Central Bank based on commercial banks' lending rates offered to their prime customers during the week. These monthly figures are average values of estimated weekly rates.

(e) The Sri Lanka Inter-Bank Offered Rate (SLIBOR) is computed daily by the Central Bank, based on rates offered by commercial banks in the inter-bank market. The rate shown is the average of such offered rates by selected commercial banks.

(a) Issue of Treasury bonds commenced in March 1997.

(b) The yields on Rupee Loans are administratively determined and not market determined unlike the yields on Treasury bills and Treasury bonds.

(c) The secondary market information is based on data provided by Primary Dealers in Government Securities and is available since October 2000.

(d) Yield rates are averages of bid and offer rates.

(e) Interest with tax for 4 year maturity.

(f) Interest with tax for 2 year maturity.

Note : Treasury bonds are not issued on a regular basis, unlike Treasury bills. Hence a continuous series of primary market yield rates is not available.

(a) Rate on ten year certificates. The issue of this certificate is discontinued. The rate reflects the rate on earlier issues.

(b) Issuing National Savings Certificates commenced in October 1997.

(c) Private savings and development banks include Sanasa Development Bank which was established in October 1997. From 2003 it only includes Sanasa Development Bank.

(d) DFCC Bank commenced deposit mobilisation in April 1996.

(e) The minimum rate represents the refinance rate charged under the Small and Medium Scale Industries (SMI) Scheme. NDB became a licensed commercial bank with effect from 01 August 2005.

* Revised.

ATM and Credit Cards		
ATM cards – Issuing fee	Rs. 750	Rs. 75
Credit cards – Issuing fee	Rs. 6,000	Rs. 180
Renewal fee	Rs. 5,000	Rs. 120

Notes :

- (1) Commercial banks charge a variety of fees and commissions on their services. The table gives a range of the maximum and minimum fees and commissions which are based on the information provided by commercial banks. These charges, which do not change very frequently are published semi-annually to enable the public to negotiate best terms. These fees and commissions could be different when services and products are provided as a package.
- (2) These are standard charges of commercial banks. However, charges for some specific products could include charges payable to banks abroad. For example, banks in Sri Lanka may include in their charges fees payable to banks abroad such as for adding confirmation to Letters of Credit, and for correction of discrepancies.
- (3) In the case of Documentary Credits, the charges for outward transmission from Sri Lanka would differ, on the mode of transmission used.
- (4) Loan application processing fees vary according to the loan amount.
