Part I
EVENTS OF THE MONTH
September 2010

Fiscal Sector

- Special Commodity Levy (SCL) on importation of potatoes was increased from Rs. 10 per kg to Rs. 30 per kg for another three months.
- SCL of Rs. 5 per kg on importation of sugar was extended for another three months.
- Excise duty on LP gas was reintroduced at a rate of Rs. 13.12 per kg.

Loan from the Government of the Federal Republic of Germany

An agreement was signed between the Government of Sri Lanka and Federal Republic of Germany on 30 August 2010 for a loan amounting to Euro 1.26 million (approximately Rs. 180.72 million) to finance the Reconstruction of Water Supply Galle District Project – Phase II. The loan facility carries an interest rate of 0.75 per cent per annum and a commitment charge of 0.25 per cent per annum on undisbursed loan amount. The loan is repayable in 60 years including a grace period of 10 years.

Grant from the United Nations High Commissioner for Refugees (UNHCR)

An agreement was signed between the Government of Sri Lanka and UNHCR on 02 September 2010, for a grant of LKR 60.03 million to finance the Assistance to Resettlement of IDPs in Sri Lanka Project.

Grants from the Food and Agriculture Organization (FAO) of the United Nations

An agreement was signed between the Government of Sri Lanka and FAO on 14 September 2010, for a grant of US dollars 1.48 million (approximately Rs. 167.05 million) to finance the Improvement of Food Security and Livelihoods in Northern Sri Lanka – Phase I Project.

Grants from the International Development Association (IDA) of the World Bank

An agreement was signed between the Government of Sri Lanka and IDA of the World Bank on 13 August 2010, for a grant of US dollars 10.54 million (approximately Rs. 1.18 billion) to finance the Emergency Northern Recovery Project.

Loans from the Export Import Bank of China

Seven agreements were signed between the Government of Sri Lanka and Exim Bank of China on 9 September 2010 as follows;

1. A loan of US dollars 75.4 million (approximately Rs. 8.5 billion) to finance the Rehabilitation and Improvement of 84 km length of Jaffna–Point Pedro Road (AB020), Putter-Meesalai Road (AB032), Jaffna–Kankasanthurai Road (AB016) & Jaffna–Palali Road (AB018) Project.
2. A loan of US dollars 71.02 million (approximately Rs. 8.01 billion) to finance the Rehabilitation and Improvement of 63 km length of Kandy–Jaffna Road (A009) Project (From Galkulama to 230 Km post).
3. A loan of US dollars 70.58 million (approximately Rs. 7.96 billion) to finance the Rehabilitation and Improvement of 90 km length of Kandy–Jaffna Road (A009) Project. (From 230 Km post to Jaffna)
4. A loan of US dollars 42.78 million (approximately Rs. 4.82 billion) to finance the Rehabilitation of Roads in North Contract 11A Project.
5. A loan of US dollars 42.51 million (approximately Rs. 4.79 billion) to finance the Rehabilitation of Roads in North Contract 11B Project.

Each of the above carries an interest rate of 6 months LIOBR + 2.4 per cent per annum, a management fee of 0.5 per cent of the facility and a commitment fee of 0.7 per cent per annum on the daily unutilized credit balance. The loan is repayable in 15 years including a grace period of 3 years.

6. A loan of Chinese yuan 280 million (approximately Rs. 4.65 billion) to finance the Supply of two Nos. MA 60 Aircrafts Project. The loan facility carries an interest rate of 2 per cent per annum, a management fee of 0.5 per cent of the facility and a commitment fee of 0.5 per cent per annum. The loan is repayable in 20 years including a grace period of 5 years.
7. A loan of US dollars 31.66 million (approximately Rs. 3.57 billion) to finance the Procurement of Materials for the Northern Province Power Sector Development Programme. The loan facility carries an interest rate of 6 months LIOBR + 2.8 per cent per annum, a management fee of 0.5 per cent of the facility and a commitment fee of 0.7 per cent per annum on the daily unutilized credit balance. The loan is repayable in 12 years including a grace period of 2 years.

Part II
PRESS RELEASES
September 2010

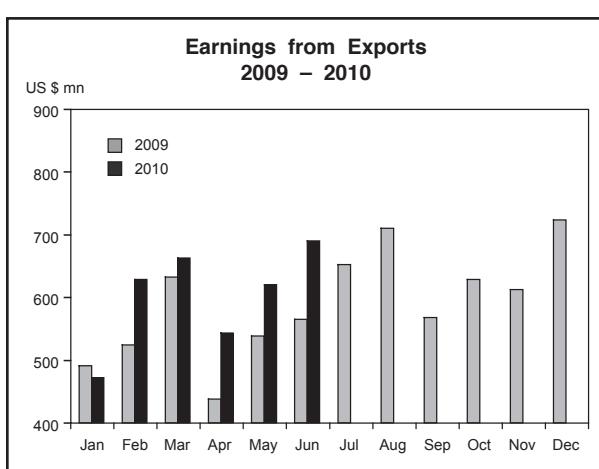

1. External Sector Performance – June 2010

Earnings from exports and expenditure on imports have grown significantly on a year-on-year basis in June 2010. Earnings from exports grew by 23 per cent in June 2010 to US dollars 697 million led by higher earnings from the industrial and agricultural exports. Expenditure on imports increased by 32 per cent to US dollars 1,114 million in June 2010 reflecting increases in all major categories of imports. The cumulative earnings from exports and expenditure on imports have increased by 14 per cent and 42 per cent, respectively, during the first six months of 2010. As a result, the trade deficit expanded to US dollars 2,844 million during this period.

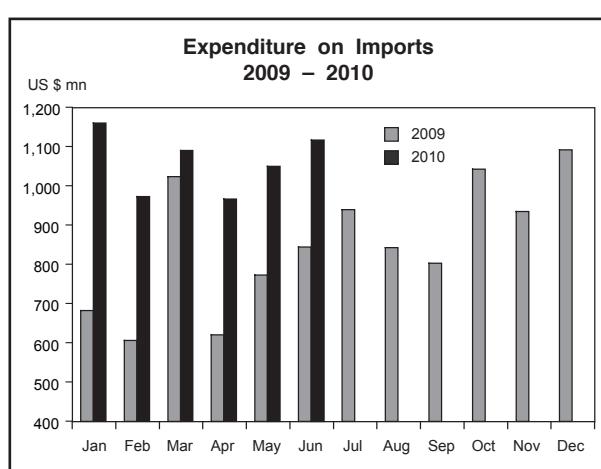

The largest contribution to the growth in exports in June 2010 was from the significant increase in exports of apparel and rubber products. Earnings from textiles and garments exports increased by 24 per cent to US dollars 305 million, led by higher garments exports to the United States and the European Union, which increased by 34 per cent and 8 per cent, respectively. Earnings from exports of rubber products increased by 110 per cent to US dollars 52 million, led by retreaded and pneumatic tyres, as well as other rubber products, such as gloves. Earnings from exports of petroleum products also increased by 62 per cent. Agricultural exports, which accounted for 24 per cent of export earnings in June 2010, also increased year-on-year, reflecting the strong performance by the tea sector.

The average export price of tea in June 2010 was US dollars 4.32 per kg reflecting a year-on-year growth of 11 per cent. The minor agricultural exports earnings increased by 62 per cent mainly due to higher prices fetched by cardamoms and essential oils and significant increase in the export volumes of sesame seeds, cocoa, cloves and pepper. Rubber export volumes declined mainly due to the tighter supply as well as the higher demand from the domestic industries for the manufacture of rubber based products for the export market, reflecting gains from the higher levels of value addition.

Expenditure on imports increased rapidly, mainly due to the higher expenditure on petroleum imports in

Sri Lanka Customs

June 2010. The average import price of crude oil rose by 6 per cent, year-on-year, to US dollars 77.26 per barrel. Import expenditure on fertilizer increased in June 2010, compared with the same period in 2009, mainly due to the substantially higher import volumes. Expenditure on consumer goods also increased, with notable increases in the non-food consumer goods imports led by motor vehicles and electrical equipment, spurred by reductions in tariffs on these products with effect from 01 June 2010. Imports of investment goods also increased by 30 per cent in June 2010 led by transport equipment, such as buses, vans, lorries, and auto trishaws, which increased by 257 per cent. Imports of building materials also increased by 38 per cent during the month.

During the first half of 2010, workers' remittances increased by 13.5 per cent over that of the corresponding period of 2009 to US dollars 1,820 million. The gross official reserves, with and without Asian Clearing Union (ACU) funds, but including domestically arranged swaps, increased to US dollars 6,013 million and US dollars 5,731 million, respectively, by end June 2010. Based on the previous 12 months average expenditure on imports of US dollars 1,001 million per month, the gross official reserves, without ACU funds, but including domestically arranged swaps were the equivalent of 5.7 months of imports.

The performance of external trade during the period is further illustrated in the following table.

External Trade Performance: June 2010 and January – June 2010

Category	June 2009 US \$ mn	June 2010 US \$ mn	Growth June %	Jan–Jun 2009 US \$ mn	Jan–Jun 2010 US \$ mn	Growth Jan–Jun %

2. Inflation increases in August 2010

Inflation, as measured by the Colombo Consumers' Price Index (CCPI) (2002=100), computed by the Department of Census and Statistics, increased to 5.0 per cent in August 2010, on a point-to-point basis, as anticipated, from 4.3 per cent in July, mainly due to the lower base in August 2009.

This increase came after 5 consecutive months in which inflation declined. Meanwhile, the annual average inflation registered a marginal increase to 4.5 per cent in August from 4.2 per cent in the previous month, as a result of the price developments in the preceding twelve month period. However, the core inflation, which measures the price movement of non-food and non-energy items of the CCPI basket, decreased to 5.5 per cent in August from 5.9 per cent in the previous month on a point-to-point basis, while the annual average core inflation stabilized at 6.3 per cent for the third consecutive month.

The contribution to the monthly increase of 0.5 per cent in the Index originated from price increases in the sub categories of Clothing and footwear (1.2 per cent); Food and non-alcoholic beverages (0.8 per cent); Recreation and culture (0.3 per cent); Housing, water, electricity, gas and other fuels (0.2 per cent); Health (0.2 per cent); Furnishing, household equipment and routine household maintenance (0.1 per cent); and Miscellaneous goods and services (0.2 per cent). Seasonal decreases in prices of most varieties of vegetables, rice, potatoes,

red onions and the reduction in gas prices were more than offset by the increase in prices of some varieties of fish and sea food, meat, milk powder, bread, wheat flour, meals bought from outside, fruits and garments. Meanwhile, prices in the sub categories of Transport, Communication and Education remained unchanged during the month.

3. Banks to Enhance Capital

With a view to promoting the existence of strong banks that are resilient to internal and external shocks, the Monetary Board of the Central Bank of Sri Lanka has decided to increase the minimum capital requirement of licensed banks, as follows.

New Banks

Year	Licensed Commercial Banks (Rs. Bn.)	Licensed Specialised Banks (Rs. Bn.)
2010	3.0	2.0
2012	4.0	2.5
2014	5.0	3.0

Increased capital will further provide a cushion for banks to enhance their contribution to the new growth sectors of the economy and to absorb any unexpected losses.

In keeping abreast with this requirement and having considered the need for enhancing the ability of banks

Existing Banks

Effective Date	Licensed Commercial Banks (Rs. Bn.)	Licensed Specialised Banks (Rs. Bn.)
31.12.2011	3.0	2.0
31.12.2013	4.0	2.5
31.12.2015	5.0	3.0

to raise additional capital in a more transparent manner and further improving governance through market discipline, the Monetary Board has also decided to require unlisted locally incorporated private banks to list them in the Colombo Stock Exchange by 31.12.2011.

4. Monetary Policy Review – September 2010

Market interest rates continued to adjust downwards in response to the monetary policy measures taken by the Central Bank in the recent past. The benchmark yield curve for government securities trading in the secondary market has also continued to move downwards and has become flatter in the recent months, reflecting the prevailing low inflation and the favourable outlook for inflation. Other market interest rates have, in turn, decreased. Nevertheless, it has been noted that adjustments to lending rates of financial institutions generally tend to lag behind the adjustments to their cost of funds. Hence, it is expected that market lending rates would decline further in the period ahead, to fully reflect the recent relaxation of the monetary policy stance of the Central Bank.

In response to the improving credit conditions, credit flows to the private sector continue to increase. By July 2010, credit obtained by the private sector from commercial banks recorded a year-on-year increase of 8.9 per cent. Credit disbursed by licensed commercial banks, licensed specialised banks and registered finance companies, together, recorded a year-on-year increase of 9.9 per cent, in July 2010. Credit flows to the private sector are expected to increase further in the period ahead, given that Sri Lanka's economy is poised to grow by an encouraging 7.5 to 8.0 per cent in 2010, following the GDP growth of 7.8 per cent in the first half of 2010.

Taking into consideration the developments discussed above, the Monetary Board, at its meeting held on 21 September 2010, has decided to maintain the policy interest rates of the Central Bank unchanged at their current levels. Accordingly, the Repurchase rate and the Reverse Repurchase rate of the Central Bank would remain at 7.25 per cent and 9.00 per cent, respectively.

The release of the next regular statement on monetary policy will be on 21 October 2010.

5. Banks to Reduce Interest Rates on Lending

Since February 2009, the Central Bank has eased its monetary policy stance by reducing the policy rates, viz., the Repurchase rate and the Reverse Repurchase rate by 325 basis points and 300 basis points, respectively. In response, the market interest rates have also adjusted downwards.

The banks' lending rates have also declined with a time lag, but are yet to show full downward adjustment. At the same time, the current macro economic performance and stability warrant a reduction in the risk premia added to lending rates, thus leading to the spread between lending rates and deposit rates of banks reducing further.

In view of the foregoing, the Central Bank has requested all banks to take appropriate measures to reduce interest rates to at least the following levels by end of October 2010:

- Interest rates on housing loans to 14 per cent per annum.
- Interest rates on credit card advances to 24 per cent per annum.
- Interest rates on other loans and advances to be adjusted downwards by around a further 1-2 per cent per annum.

6. Medium Term Sovereign Rating Strategy Yields Positive Results

Sri Lanka's sovereign credit rating has been upgraded by the international rating agencies, Standard & Poor's (S&P) and Fitch Ratings, who have recently assigned improved credit ratings to the country. A third rating agency, Moody's Investors Service, has also assigned a comparable credit rating to Sri Lanka, as given below.

- On 14 September 2010, Standard & Poor's (S&P) upgraded Sri Lanka's long-term foreign currency sovereign credit rating to B+ and the long term local currency rating to BB- with a stable outlook.
- On 21 September 2010, Fitch Ratings affirmed Sri Lanka's long term foreign and local currency Issuer Default Ratings (IDR) at B+ while upgrading the outlook to "Positive".

On 22 September 2010, Moody's Investors Service assigned a B1 foreign currency issuer rating with a stable outlook.

Accordingly, the current sovereign ratings of the country stand as follows:

Rating Agency	Rating	Outlook
S&P	B+	Stable
Fitch	B+	Positive
Moody's	B1	Stable

Given the many positive developments in the country during the post-conflict period, these rating

upgrades have been expected. The improved macroeconomic fundamentals, prudent monetary policy, fiscal consolidation, planned structural improvements of the economy, and high economic growth prospects will further support the enhancement of Sri Lanka's sovereign credit rating in the near to medium term.

These upgrades could be viewed as an outcome of the strategy towards upgrading Sri Lanka's sovereign rating over the medium term. For this purpose the CBSL recently appointed a high level Sovereign Rating Committee (SRC), comprising senior officials of the Ministry of Finance and Planning (MOFP), CBSL, and some private sector leaders. The SRC has been assigned to make regular reviews on the developments of the economy and have negotiations with the rating agencies through Rating Advisors towards upgrading the country's sovereign rating.

7. IMF Releases the Fifth Tranche of US dollars 212.5 million under the SBA Facility

The fourth review of the Sri Lanka Stand-by Arrangement (SBA) has been successfully completed by the International Monetary Fund (IMF) and the fifth tranche to the value of SDR 137.8 million (approximately US dollars 212.5 million) has been disbursed by the IMF on 24 September 2010.

With this disbursement, a total of US dollars 1,275 million has been received thus far by Sri Lanka on account of the SBA facility that was approved in July 2009. These disbursements as well as other inflows on account of increased international trade flows, increase in workers' remittances, inflows to the government to finance various infrastructure development projects and inflows to the private sector have helped raise the country's foreign reserves to a very comfortable level.

Consequently, the gross official reserves (without ACU receipts) now stand at its highest ever level of US dollars 6.1 billion, which is equivalent to 5.8 months of imports.

The Letter of Intent (LOI) and the Technical Memorandum of Understanding (TMU) of SBA are now available in the web site of the Central Bank of Sri Lanka (www.cbsl.gov.lk).

8. Global Investors' demand exceeds over USD 6 billion in 14 hours for Sri Lankan Sovereign Bond issue of USD 1 billion

Sri Lanka finalized a USD 1 billion 10 year Sovereign Bond issue with a coupon rate of 6.25% on 27 September 2010. This was the third international sovereign bond offering, following issues in 2007 and 2009.

The offering attracted an order book that exceeded USD 6.3 billion within 14 hours of opening on 27 September 2010, thereby being over-subscribed by more than 6 times, clearly underscoring the high global investor confidence based on the recent progress and the future prospects in Sri Lankan economy since the end of the conflict in the country.

Orders were received from 362 investors globally. By geographic distribution, 52.5% of the bonds were allocated to investors in the United States, 25% to investors in Europe and 22.5% to investors in Asia. By investor type, 85% of the bonds were allocated to Fund and Asset Managers and the balance to Pension Funds, Insurance companies and banks.

The Offering is of 144A / Reg.S format and the bonds will mature in October 2020. The bonds are rated B+ by two international rating agencies, Standard & Poor's and Fitch Ratings and will be listed on the Singapore Exchange.

The current coupon rate of 6.25% for the 10 year sovereign bond is significantly lower than the cost of borrowings as compared to previous two international offerings in 2009 and 2007.

Year	Amount US \$ million	Maturity (yrs)	Yield (%)
2007	500	5.0	8.25
2009	500	5.25	7.40
2010	1,000	10.0	6.25

The Government will use the proceeds from the bond issue to finance its current infrastructure and to restructure a part of the existing debt stock of the government to improve overall public debt management.

Bank of America Merrill Lynch, Royal Bank of Scotland and Hong Kong and Shanghai Banking Corporation functioned as Joint Lead Managers and Joint Book Runners of the offering, while Bank of Ceylon participated as Co-Manager.

9. Recapitalising The Finance Company PLC

In February 2009, the Central Bank of Sri Lanka (CBSL) intervened to stabilize The Finance Company PLC (TFC) in the face of difficulties encountered by the TFC as a result of the collapse of the several Ceylinco Group establishments. The interventions included the appointment of a Managing Agent and the issue of several specific directions to TFC. These measures contributed to stabilize TFC and to safeguard the interests of the company and its stakeholders, including the employees, customers, depositors and shareholders, and also to maintain financial system stability in the country. As a result of such interventions, the Company has now recovered from the initial shock, while public confidence has been restored.

In that background, the Monetary Board of the CBSL has decided that the time is now appropriate to recapitalize the company in order to facilitate the smooth operations of the Company in the future. It has also been decided that the Company must be managed by a capable Board of Directors representing the shareholders so that the Managing Agent could exit

from the operations of TFC as soon as normalcy has been restored.

Towards such objective, the Monetary Board has directed TFC to:

- (a) Invite new investors to infuse fresh capital in the form of 40 million ordinary shares at Rs. 40 each,

and in particular, attract strategic investors capable of infusing funds and playing an effective leadership role in managing TFC.

- (b) Provide an opportunity for approximately 10% of the existing deposits in TFC, to be converted into 100 million non-voting shares of Rs.20 each, thereby converting deposits in the sum of Rs. 2 billion into equity. While this would enable the depositors to have an equity stake in TFC, which is already a listed company, it will also enable TFC to reduce its current liabilities and improve its balance sheet.

The Board of Directors of TFC and the Managing Agent have accordingly been directed to implement the above scheme by 15 December 2010. In accordance with such directions, TFC will be expected to make the formal invitation to investors in due course.

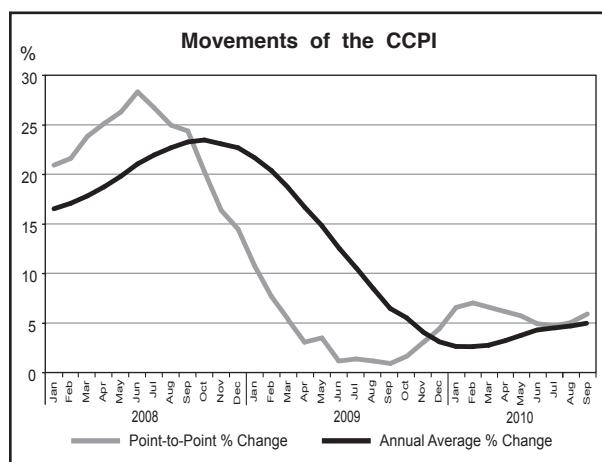

The CBSL will oversee the implementation of the above measures as well as ensure an equitable allocation of shares among investors in the interest of long term stability of the company and the financial system.

10. Inflation increases in September 2010

Inflation, as measured by the Colombo Consumers' Price Index (CCPI) (2002=100), computed by the Department of Census and Statistics, increased to 5.8 per cent in September 2010, on a point-to-point basis as anticipated, from 5.0 per cent in August, reflecting mainly the lower base in the corresponding month of 2009.

Meanwhile, the annual average inflation increased to 5.0 per cent in September from 4.5 per cent in the previous month, as a result of the price developments in the preceding twelve month period. Meanwhile, the core inflation, which measures the price movement of non-food and non-energy items of the CCPI basket, stabilized at 6.3 per cent on an annual average basis, for the fourth successive month, while increasing marginally on a point-to-point basis, to 5.7 per cent in September 2010 from 5.5 per cent in the previous month.

The contribution to the monthly increase of 1.0 per cent in the Index originated from price increases in the sub categories of Food and non-alcoholic beverages (1.7 per cent); Clothing and footwear (1.2 per cent); Health (0.4 per cent); Housing, water, electricity, gas and other fuels (0.3 per cent); Recreation and culture (0.2 per cent); and Furnishing, household equipment and routine household maintenance (0.03 per cent).

Meanwhile, prices in the sub categories of Transport, Communication, Education, and Miscellaneous goods and services remained unchanged during the month.

11. Reduction of the General Provision Requirement on Loans

The Central Bank, with the intention of mitigating any possible threat to the banking industry and thereby the financial system in the face of the potential downturn in the domestic and global economic activities, required licensed banks to maintain a general loan loss provision of 1% against performing loans and loans in the special mention category as a proactive prudential measure.

Such general provision introduced in November 2006, brought about an extra capital cushion during the period of financial and economic stress in the recent past, and had the desired effect on the Sri Lankan economy.

However, the careful assessment of the current financial landscape at present, suggests that the risk of any potential downturn in the domestic and global economic activities has substantially abated. Further, the benefits of the improved macroeconomic fundamentals have provided the space for the domestic economy to grow rapidly in a stable environment. At the same time,

banks too have been improving their asset quality over the past few months, which outcome need now be supported by the encouragement of further good quality credit to spur economic growth. In these circumstances, the Central Bank of Sri Lanka has decided to reduce the general provision on performing loans and advances and credit facilities in the special mention category from the current 1% to 0.5% by 31 December 2011. Accordingly, banks would now be able to reduce the existing general provision requirement of 1% to 0.5%, at a rate of 0.1% per quarter, over each of the five quarters commencing with the quarter ending 31 December 2010.

12. Implementation of the Sri Lanka Deposit Insurance Scheme

The Central Bank is pleased to announce that it has implemented a mandatory deposit insurance scheme under the provisions of the Monetary Law Act with effect from 1st October 2010. It will be implemented as the Sri Lanka Deposit Insurance Scheme (SLDIS). The initial capital of the Scheme of Rs. 1.1 billion (approximately) will be provided by the Central Bank.

The members of the Scheme will comprise all licensed banks and registered finance companies. All deposits excluding deposits of member banks and finance companies, Government of Sri Lanka, shareholders, directors, key management personnel, other related parties, deposits held as collateral against any accommodation granted and deposits falling within the meaning of abandoned property in terms of the Banking Act and dormant accounts in terms of the Finance Companies Act, will be considered as eligible deposits under the scheme.

According to the SLDIS, in the event the licence or registration of a member institution is suspended or cancelled by the Monetary Board, depositors will be compensated up to a maximum of Rs. 200,000 per depositor. While member banks and finance companies will participate in this scheme on a mandatory basis from 1st October 2010, depositors will be entitled to benefits after 1st January 2012.

The premium to be levied on eligible deposits will range between 0.10% and 0.15% per annum and will be required to be paid by member institutions on a monthly/quarterly basis. Such premia will be credited to a Deposit Insurance Fund which will be operated and managed by the Monetary Board of the Central Bank. However, such Deposit Insurance Fund will be distinctly separate from the Central Bank, and its liability will be limited to the extent of the Fund balance.

With the implementation of the Scheme, the Central Bank is of the view that public confidence will be enhanced; interests of small depositors with low financial literacy will be safeguarded; savings among small scale depositors will be encouraged; unauthorized deposit taking activities will be discouraged; and the commitment of the Government in the case of failure of a financial institution will be reduced.

13. Colombo Consumers' Price Index (CCPI)

STATISTICAL APPENDIX

Definitions and Explanatory Notes

The following general notes supplement the footnotes given below the individual tables:-

1. The data cover monthly figures available at the time the Bulletin goes to print, and the latest available information does not relate to the same month, in every table.

To enable comparision, annual figures for recent years are given.

2. In an attempt to bring the material up-to-date provisional figures are included in some tables.
3. Figures in some tables have been rounded off to the nearest final digit. Hence there may be a slight discrepancy between the total as shown and the sum of its components.
4. Differences as compared with previously published figures are due to subsequent revisions.
5. The following symbols have been used throughout:-
n.a. = not available
= nil
... = negligible

(a) Revised

(b) Provisional

(c) (1) Includes manufacturing and export processing industries. Small industry is defined as those units having supply of electricity at 400/230 volts and contract demand is less than 50 KVA, medium industry as supply of electricity at 400/230 volts and contract demand is equal or more than 50 KVA and large industry as supply of electricity at 11KV, 33KV and 132KV.

(2) Figures include electricity consumption of hotels.

(d) Sales other than to Ceylon Electricity Board.

(e) Excluding Petroleum exports.

- (a) The index was based on household income and expenditure survey conducted in 2002.
 The weights are based on the consumption pattern of the urban households within the Colombo district.
 The total basket value (at 2002 prices) was Rs. 17,996.38
- (b) Annual and quarterly figures are averages of monthly figures.

Note: The Index numbers are calculated by the Labour Department on fixed weights based on the numbers employed as at 31 December 1978. The wage rate used in the calculation of Index numbers are minimum wages for different trades fixed by the Wages Boards.

Sources : Labour Department
Central Bank of Sri Lanka

- (a) The Index refers to wage rates of tea growing and manufacturing, rubber growing and manufacturing, coconut, cocoa, cardamoms and pepper growing trades only.
- (b) Includes baking, brick and tile manufacturing, coconut manufacturing, printing textile, tyre and tube manufacturing, coir mattresses & bristle fibre export, hosiery manufacturing, engineering, garment manufacturing, match manufacturing, biscuit manufacturing, tea export and rubber export trades only.
- (c) This includes cinema, motor transport and nursing homes trade only.
- (d) Combined Index for workers in Agriculture, Industry & Commerce and Services.
- (e) Provisional.

(a) Daily wages represent payments in cash where meals are not provided by the employer. Annual and quarterly figures are averages of monthly figures.

Source: Central Bank of Sri Lanka

(b) Wages in the construction sector are paid on both daily payment and contractual basis. The series on contractual basis in previous bulletin publications has been replaced by the series on daily payment basis from the monthly bulletin of December 2005 onwards for comparison with wages in other sectors.

(c) Daily wages up to December 2004 are the average of daily wages for the two activities. From January 2005 onwards the daily wages cover both activities under a single category following the restructuring of data collection schedules.

(d) Provisional.

(a) Consists of government expenditure excluding contributions to sinking funds, direct payment of public debt and subscriptions to international financial organisations. Also excludes book adjustments arising from losses on Advance Account operations incurred and financed in the previous financial year. Hence, the figures may not tally with the figures published in the accounts of the Government of Sri Lanka.

Sources : Ministry of Finance and Planning
Central Bank of Sri Lanka

(b) Special payments and receipts on account of Sri Lanka's contribution to and from the IMF and the IDA and special loans from these payments are excluded from both recurrent expenditure and Central Bank Advances.

(c) Provisional.

(d) Excludes foreign investments in Treasury bills.

(e) Excludes foreign investments in Treasury bonds.

(f) Net foreign investments in Treasury bills and Treasury bonds are included.

(a) Computed from weekly averages.

(b) Footnote (d) of Table 14 in the Annual Report 2009 gives the conversion formula used for the conversion of the volume of the three main types of coconut exports to their nut equivalent (from kgs).

(c) This refers to prices of the best quality copra.

(d) Provisional.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

Source: Central Bank of Sri Lanka

- (a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Offshore Banking Units have been treated as a part of the domestic banking system.
- (b) Provisional
- (c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.
- (d) Includes port related services.
- (e) Passage collections by foreign shipping agents and airlines are included in passenger fares.
- (f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.
- (g) Indicates outright grants received in the form of project aid.
- (h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. The debit entries in respect of such imports are in the merchandise account and are recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.
- (i) The change in capital of the monetary sector is based on local records.
- (j) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF and the receipts under the Stand-by Arrangement facility in 2009. US dollar and Sri Lanka Rupee values reflect changes in the representative rate of the Special Drawing Rights (SDRs). Figures in the debit column are in respect of repurchases or repayments, made in installments to the IMF, in respect of earlier drawings. Subscriptions to the IMF, consequent to successive increases in Sri Lanka's quota, are also shown in the debit column.
- (k) General and special allocations of SDRs by the IMF.

- (a) The above presentation conforms as far as possible to international practice as followed by the International Monetary Fund (IMF), in the Balance of Payments Manual, 5th edition (1993). In addition, beginning 1994, Offshore Banking Units have been treated as a part of the domestic banking system.
- (b) Provisional
- (c) Exports are recorded on f.o.b. valuation; imports on c.i.f. valuation.
- (d) Includes port related services.
- (e) Passage collections by foreign shipping agents and airlines are included in passenger fares.
- (f) Indicates outright grants received in the form of programme, food and commodity aid, cash and technical assistance.
- (g) Indicates outright grants received in the form of project aid.
- (h) Credit entries refer mainly to an increase in liabilities resulting from imports under trade credits. The debit entries in respect of such imports are in the merchandise account and are recorded on an arrivals basis. Debit entries refer to a decline in such liabilities and are recorded at the time of settlement of payment for such imports.
- (i) The change in capital of the monetary sector is based on local records.
- (j) The figures shown in the credit column relate to the increase in liabilities to the IMF arising from drawings from the IMF and the receipts under the Stand-by Arrangement facility in 2009. US dollar and Sri Lanka Rupee values reflect changes in the representative rate of the Special Drawing Rights (SDRs). Figures in the debit column are in respect of repurchases or repayments, made in installments to the IMF, in respect of earlier drawings. Subscriptions to the IMF, consequent to successive increases in Sri Lanka's quota, are also shown in the debit column.
- (k) General and special allocations of SDRs by the IMF.

- (a) Special Drawing Rights (SRDs), the unit of account of the International Monetary Fund.
- (b) The NEER is the weighted average of nominal exchange rates of the 24 trading partner and competitor countries. Weights are based on the trade shares reflecting the relative importance of each currency in the currency basket.
- (c) The REER is computed by adjusting the NEER for inflation differentials with the countries whose currencies are included in the basket.
- (d) REER computation is based on CCPI.
- (e) The REER Indices for 2009 and 2010 are provisional.

(a) Annualised Forward Premium (f^d) is computed using the following formula.

Source: Central Bank of Sri Lanka

$$f^d = \{[F_t^{t+1} - S_t] / S_t\} * 100 * (12/t)$$

Where F_t^{t+1} is the forward rate for period $t+1$ that exists in period t and S_t is the interbank spot rate at period t .

(a) Includes assets/liabilities of National Development Bank which merged with NDB Bank Ltd., with effect from August 2005.

Source: Central Bank of Sri Lanka

(b) External assets (net) of the Central Bank and commercial banks (including outward bills).

(c) Currency and demand deposits held by the public.

(d) Credit extended by the banking system to the government, net of government deposits with banks and government cash balances.

(e) Restructuring bonds worth Rs.19,392.6 million, which were issued by the government to the two state banks, have been converted to Treasury bonds upon their maturity in October 2006. This amount, which previously appeared under Other Assets has been included in Net Credit to Government since October 2006.

(a) The balance sheet data of the Central Bank from January 2002 is based on the International Accounting Standards (IAS). Accordingly, foreign securities of the Central Bank have been valued at current market prices since January 2002. These data prior to January 2002 are according to local books at cost or face value whichever is less.

(Contd.)

(b) Includes securities acquired from government institutions.

(c) According to IAS, the amount of Sri Lanka's quota with the IMF has been taken into the Central Bank's balance sheet.

(d) According to IAS, balance sheet of the CBSL is prepared on accrual basis and receivables show interest receivables on foreign securities.

(e) From February 1975, loans and advances to other include amounts granted under the Medium and Long-term Credit Fund. Credit provided under "Susahana" Refinance Credit Scheme is included from December 2005.

(f) According to IAS, government and government guaranteed securities are at fair value basis since January 2002.

Note : The number of reporting banks were 23 until January 2006, and 22 from October 2008.

(Contd.)

(a) Includes assets/liabilities of National Development Bank which merged with NDB Bank Ltd., with effect from August 2005.

(d) Fixed and other assets consists of banks' property, furniture, fittings and sundries (commission, interest receivable etc.).

(b) Restructuring bonds worth Rs.19,392.6 million, which were issued by the government to the two state banks, have been converted to Treasury bonds upon their maturity in October 2006. This amount, which previously appeared under Other Assets has been included in Treasury bonds since October 2006.

(e) Liquid assets consist of Cash on hand, Balances due from Central Bank, Foreign currency on hand and Balances due from banks abroad, Government of Sri Lanka Treasury bills and bills discounted. With effect from 18 May 1998, Treasury bonds are considered as part of liquid assets of commercial banks. Balances due from domestic banks and cash items in process of collection have been excluded from liquid assets and domestic inter-bank deposits have been excluded from demand deposits, because from the view point of the commercial banking system as a whole such claims and deposits cancel out.

(c) Includes Central Bank securities and DFCC Bonds.

(a) This monetary survey is based on the aggregated data pertaining to both Domestic Banking Units (DBUs) and Offshore Banking Units (OBUs) of banks operating in Sri Lanka. Definitional changes have been adopted in aggregating DBUs and OBUs data to avoid double counting and misclassification of assets and liabilities.

(Contd.)

The major changes are:

- (1) All DBU placements in OBUs are recorded as domestic assets, while all DBU borrowings from OBUs are recorded as domestic liabilities.
- (2) Foreign currency deposits of DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply :
 - (i) One half (50 per cent) of NRFC deposits are treated as domestic deposit liabilities;
 - (ii) All RNNFC balances are treated as foreign liabilities;
 - (iii) All other domestic foreign currency accounts are treated as domestic deposit liabilities.

(b) Includes assets / liabilities of National Development Bank which merged with NDB Bank Ltd., with effect from August 2005.

(c) External assets (net) of the Central Bank and commercial banks (including outward bills).

(d) Currency and demand deposits of the public.

(e) Time and savings deposits of the public held with commercial banks.

(f) Credit extended by the banking system to the government, net of government deposits with banks and government cash deposits.

Source: Central Bank of Sri Lanka

(g) Restructuring bonds worth Rs.19,392.6 million which were issued by the government to the two state banks, have been converted to Treasury bonds upon their maturity in October 2006. This amount, which previously appeared under Other Assets, has been included in Net Credit to Government since October 2006.

Note :

(Contd.)

DBUs - Domestic Banking Units

OBUs - Offshore Banking Units

LSBs - Licensed Specialised Banks include Regional Development Banks, DFCC Bank, National Savings Bank, State Mortgage & Investment Bank, Ceylinco Savings Bank, SANASA Development Bank, HDFC Bank, SME Bank, NDB Housing Bank, Lankaputhra Development Bank and Sri Lanka Savings Bank. The SME Bank merged with Lankaputhra Development Bank in January 2008. Merchant Bank of Sri Lanka acquired a majority stake in Ceylinco Savings Bank Ltd. in July 2009. The name of which was subsequently changed to MBSL Savings Bank Ltd.

RDBs - Regional Development Banks

RFCs - Registered Finance Companies

(a) This financial survey is based on the aggregate data pertaining to Domestic Banking Units (DBUs), Offshore Banking Units (OBUs), Licensed Specialised Banks (LSBs) and Registered Finance Companies (RFCs) operating in Sri Lanka. Definitional changes have been adopted in aggregating DBUs, OBUs, LSBs and RFCs data to avoid double counting and misclassification of assets and liabilities. The major changes are:

(1) All DBUs placements in OBUs are recorded as domestic assets, while all DBUs borrowings from OBUs are recorded as domestic liabilities.

(2) Foreign currency deposits of DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply:

- (i) One half (50 per cent) of NRFC deposits are treated as domestic deposit liabilities;
- (ii) All RNNFC balances are treated as foreign liabilities;
- (iii) All other domestic foreign currency accounts are treated as domestic deposit liabilities.

(b) External assets (net) of the Central Bank, Commercial banks (including outward bills), LSBs and RFCs.

(c) Currency, demand deposits and quasi money in DBUs in this table differ from those in table 52 due to the fact that LSBs and RFCs are not treated as public under this broad monetary survey (M_4) definition.

Source: Central Bank of Sri Lanka

(d) Time and savings deposits of the private sector with commercial banks, LSBs and RFCs.

(e) Credit extended by the monetary authority, DBUs, OBUs, LSBs and RFCs to the Government, net of Government deposits with banks and Government cash deposits.

Source: Central Bank of Sri Lanka

(a) Under Sections 10c, 93, 94, 96 and 97 of the amended Monetary Law Act (Chapter 422), commercial banks and other financial institutions are required to maintain reserves against their deposit liabilities as prescribed by the Monetary Board. Currently, only commercial banks are subject to reserve requirements. With effect from 24 January 1992, an amount of till cash over and above two per centum of the total deposit liabilities, but not exceeding four per centum, could be maintained as a part of required reserves in the form of Sri Lanka currency notes and coins. Details of required reserve ratios, which were applicable in the past and computational methods have been published in the Appendix table on the 'Reserve Position of Commercial Banks' in the Annual Reports prior to 2003.

(b) Reserve data are for the last reserve week of each month. The required reserves recorded in the table refer to the cumulative reserves for the week, while commercial bank deposits with the Central Bank are the cumulative deposits for that particular reserve week. Excess/Deficit on SRR is the difference between the cumulative SRR for the reserve week and cumulative deposits of the commercial banks for the week.

(c) Excludes interbank deposits.

(d) With effect from 03 April 2003, the basis of computing the Statutory Reserve Requirement (SRR) was changed from deposit liabilities and vault cash balances at the close of business on Wednesday of the previous reserve week, to the average of deposit liabilities and vault cash balances during the week ending Tuesday of the previous reserve week.

(a) All interest rates are as at the end of period, unless otherwise stated.

(b) This is the rate at which the Central Bank grants advances to commercial banks for temporary liquidity purposes. With effect from 04 January 1991, the rate was increased to 17 per cent from 15.5 per cent. As at end 1999 this rate was 16 per cent. With effect from 02 October 2000 the rate was increased to 18 per cent and further increased to 25 per cent with effect from 21 November 2000. With effect from 02 July 2001, this rate was brought down to 23 per cent and further reduced to 18 per cent with effect from 27 December 2001. On 15 August 2003, the rate was reduced to 15 per cent.

(c) Average Weighted Deposit Rate (AWDR) is calculated monthly by the Central Bank based on the weighted average of all outstanding interest bearing deposits of commercial banks and the corresponding interest rates.

(d) The Average Weighted Prime lending Rate is estimated weekly by the Central Bank based on commercial banks' lending rates offered to their prime customers during the week. These monthly figures are average values of estimated weekly rates.

(e) The Sri Lanka Inter-Bank Offered Rate (SLIBOR) is computed daily by the Central Bank, based on rates offered by commercial banks in the inter-bank market. The rate shown is the average of such offered rates by selected commercial banks.

(a) Issue of Treasury bonds commenced in March 1997.

Source: Central Bank of Sri Lanka

(b) The yields on Rupee Loans are administratively determined and not market determined unlike the yields on Treasury bills and Treasury bonds.

(c) The secondary market information is based on data provided by Primary Dealers in Government Securities and is available since October 2000.

(d) Yield rates are averages of bid and offer rates.

(e) Interest with tax for 4 year maturity.

(f) Interest with tax for 2 year maturity.

Note : Treasury bonds are not issued on a regular basis. Hence a continuous series of primary market yield rates is not available.

(a) Rate on ten year certificates. The issue of this certificate is discontinued. The rate reflects the rate on earlier issues.

Sources : NSB
State Mortgage and Investment Bank
DFCC Bank
SANASA Development Bank
National Housing Development Authority
NDB

(b) Issuing National Savings Certificates commenced in October 1997.

(c) DFCC Bank commenced deposit mobilisation in April 1996.

(d) Private savings and development banks include Sanasa Development Bank which was established in October 1997. From 2003 it only includes Sanasa Development Bank.

(e) The minimum rate represents the refinance rate charged under the Small and Medium Scale Industries (SMI) Scheme. NDB became a licensed commercial bank with effect from 01 August 2005.

Credit cards – Issuing fee	Rs. 6,000	Rs. 200
Renewal fee	Rs. 9,500	Rs. 180

Notes :

- (1) Commercial banks charge a variety of fees and commissions on their services. The table gives a range of the maximum and minimum fees and commissions which are based on the information provided by commercial banks. These charges, which do not change very frequently are published semi-annually to enable the public to negotiate best terms. These fees and commissions could be different when services and products are provided as a package.
- (2) These are standard charges of commercial banks. However, charges for some specific products could include charges payable to banks abroad. For example, banks in Sri Lanka may include in their charges fees payable to banks abroad such as for adding confirmation to Letters of Credit, and for correction of discrepancies.
- (3) In the case of Documentary Credits, the charges for outward transmission from Sri Lanka would differ, on the mode of transmission used.
- (4) Loan application processing fees vary according to the loan amount.
