Part I
PRESS RELEASES
September 2011

1. Monetary Policy Review – September 2011

Domestic economic activity continues to expand at a commendable pace, supported by improved external and domestic demand. Sri Lanka's gross domestic product is estimated to have grown by around 8 per cent in the first half of 2011, with both industry and services sectors recording impressive growth.

The contribution of the agriculture sector meanwhile has also been positive in the second quarter, following its contraction in the first quarter. The favourable outlook for domestic economic activity augurs well for domestic prices, going forward.

Although commodity prices have continued to remain elevated in international markets, improved domestic supply conditions and the stability of the Sri Lanka rupee have helped contain domestic inflation. Both headline inflation and core inflation measured in terms of the CCPI (base=2006/2007) moderated in August 2011. Headline inflation declined to 7.0 per cent, year-on-year, from 7.5 per cent a month earlier, while core inflation declined to 7.8 per cent in August 2011 from 8.9 per cent in July. Meanwhile, on a 12-month moving average basis headline inflation increased slightly to 7.1 per cent while core inflation increased to 7.5 per cent in August 2011, from 7.0 per cent and 7.4 per cent, respectively, in July.

Both exports and imports continued to grow at a rapid pace. Even though the deficit in the trade account has expanded, inflows into the services account as well as continued higher worker remittances have helped contain the deficit in the current account and maintain stability on the external front. Meanwhile, foreign exchange inflows to the capital and financial account are also continuing in view of projects being implemented

in diverse sectors of the economy. Further, the Central Bank has also absorbed the proceeds of the sovereign bond issued recently, leading to the gross official reserves recording historically high levels.

With respect to monetary developments, broad money (M_{2b}) recorded a high year-on-year growth of 20.7 per cent in July 2011, led by the robust expansion of credit obtained by the private sector, which in turn reflects largely the notable expansion of domestic economic activity. It is expected that the moderation of world economic activity along with the slowing down of both advanced economies as well as emerging economies would have some dampening effect on credit and therefore monetary expansion in the period ahead. Nevertheless, if warranted, appropriate monetary policy action would be taken to contain monetary expansion, going forward.

Having taken into consideration the recent macroeconomic developments including those discussed above, the Monetary Board at its meeting held on 15th September 2011, decided to maintain the Bank's policy interest rates at their current levels. Accordingly, the Bank's Repurchase rate remains at 7.00 per cent while its Reverse Repurchase rate remains at 8.50 per cent.

The release of the next regular statement on monetary policy will be on 10th October 2011.

2. Amendments to Prevention of Money Laundering Act, No. 5 of 2006 and Convention on the Suppression of Terrorist Financing Act, No. 25 of 2005

The Parliament unanimously approved amendment bills on Prevention of Money Laundering Act (PMLA), No. 5 of 2006 and Convention on the Suppression of Terrorist Financing Act (CSTFA), No. 25 of 2005 presented by the Ministry of Finance and Planning on 21st September 2011.

The main objective of these amendments were to improve the anti-money laundering and Countering Financing of Terrorism (AML/CFT) laws in line with the international standards. The legislations relating to AML/CFT in Sri Lanka have been formulated based on 40 Recommendations on AML and 9 Special Recommendations on CFT by the Financial Action Task Force (FATF), an inter-governmental body incorporated by the G7 to work as global policy setter on AML/CFT.

The newly amended laws will strengthen AML/CFT regime, and will facilitate the implementation initiatives undertaken by the Financial Intelligence Unit of the Central Bank of Sri Lanka, law enforcement agencies and prosecutors.

Salient Features

The following are the salient features of the amendments:

Convention on the Suppression of Terrorist Financing Act (CSTFA), No. 25 of 2005:

- Applicability of terrorist financing law to include citizen of Sri Lanka and non-citizens while present in Sri Lanka.
- The “funds” is defined to include “assets of every kind be it tangible or intangible, movable or immovable” which are kept in Sri Lanka or outside Sri Lanka.

- Terrorist financing offences which before the amendment was confined to terrorist group is widened to include financing by a terrorist (single terrorist) and/or for any terrorist act.
- Authority for Police to freeze/suspend terrorist funds and properties relating to the terrorist financing or activities before indictment.

Prevention of Money Laundering Act (PMLA), No. 5 of 2006:

- Applicability of the law has been expanded to cover any person who has committed a Money Laundering offence while in Sri Lanka.
- Recovery of corresponding value of the properties related to a Money Laundering offence in the absence of properties derived/realized through Money Laundering.
- At present offences punishable exceeding 7 years imprisonment under any other law has been considered as an offence for money laundering. The threshold of 7 years has now been reduced to 5 years covering more offences punishable under money laundering offence.
- Foreign predicate offences are included as unlawful activities.

3. Finance Business Bill

The proposed Finance Business Bill was passed by the Parliament on 21.09.2011. This new Act will repeal and replace the Finance Companies Act, No. 78 of 1988, the current law relating to finance business.

The need to amend the Finance Companies Act which was enacted over 20 years ago has been felt by the financial sector as well as the regulator to suit the current situation. It has been necessary to enhance the examination and supervisory powers in respect of the licensed finance companies and to enhance the legal provisions to effectively curb unauthorised deposit taking persons and institutions. Moreover, the awareness of the public in respect of a new Act is greater than that of an amendment Act. Therefore, it was decided to bring in a new law in the name of Finance Business Act.

Several features have been introduced in the new Act for the effective regulation and supervision of finance business. As accepting deposits is an integral part of finance business, the lacuna of a definition for the term “deposit” gives rise to difficulties in proving the offence of carrying on finance business without authority. Therefore, in the new Act the term “deposit” is defined and taking deposits without authority is made an offence.

In order to take effective and timely action in respect of both licensed finance companies and unauthorised deposit taking institutions, powers of examination and investigation of those institutions are enhanced.

Several provisions are introduced in the new Act to curb unauthorized deposit taking businesses. To name a few, advertising soliciting deposits without authority and publication of advertisements soliciting deposits without authority are made offences and provisions are made to obtain a court order to compel a person to provide information and books relating to illegal deposit taking institutions.

In order to make it easier for the public to identify whether a company is a licensed finance company by its name, provisions are introduced in the new Act requiring every licensed finance company to use one of the words ‘finance’, ‘financing’ and ‘financial’ in its name while prohibiting others to use those words in their name without the prior written approval of the Monetary

Board. Further, provisions are made prohibiting the use of name, abbreviated name or acronym of a licensed finance company by any other company in order to prevent fraudulent companies from misrepresenting and misleading the public by using names similar to names or acronyms of licensed finance companies.

In order to strengthen the supervisory role with regard to licensed finance companies, new powers are given to the Monetary Board among which are restraining of any director, manager or controller of a finance company from carrying out any function in or in relation to the finance company, re-organizing a finance company, by arranging for the increase of its capital or reconstituting its board of directors or both such measures. Further, the disqualifications of directors and key management personnel of licensed finance companies are also specified to ensure the fitness and propriety of directors and managers and good governance.

In order to enable the public to take informed investment decisions and to improve their awareness on unauthorized deposit taking businesses, the Monetary Board is empowered to publish the names of finance companies specifying a supervisory rating for those companies, to publish the name of a finance company regarding which the Board has serious supervisory concerns stating so and to publish the name and address of a person or institution determined by the Board as carrying on finance business or accepting deposits without authority.

Penalties are enhanced under the new Act and aiding and abetting to commit an offence is also made an offence. Further, carrying on finance business without authority and accepting deposits without authority are made indictable offences by the Attorney General in the High Court. These provisions would enable more effective litigation action and be a deterrent to those who contravene the law.

4. External Sector Performance – July 2011

Both earnings from exports and expenditure on imports grew further on a year-on-year basis in July 2011. Earnings from exports reached a level of US dollars 958 million in July 2011. Reflecting high base of exports in July 2010, earnings from exports grew by 9.4 per cent in July 2011, while expenditure on imports increased by 58.2 per cent to US dollars 1,777 million.

During the first seven months of 2011, the cumulative earnings from exports and expenditure on imports have increased by 30.3 per cent to US dollars 6,014 million and 48.3 per cent to US dollars 11,091 million, respectively. As a result, the trade deficit expanded to US dollars 5,077 million.

The largest contribution to the growth in exports in July was from the industrial sector, led by a significant increase in exports of machinery and equipment, diamond and jewellery and textiles and garments. Earnings from exports of machinery and equipment increased by 88.6 per cent to US dollars 85 million in July 2011. This comprised mainly cruise ship, transformers, static converters, inductors, circuits and insulated cables. Exports of diamond and jewellery increased by 87.5 per cent to US dollars 45 million, year-on-year while earnings from textiles and garments increased by 5.0 per cent to US dollars 385 million in July 2011 recording the highest monthly value. Agricultural exports, which accounted for 21.5 per cent of export earnings in July 2011, decreased by 3.6 per cent to US dollars 205 million, mainly due to lower value and volume of tea exports. Earnings from rubber exports increased substantially while higher prices fetched by minor agricultural exports supported higher exports in the category.

All major categories of imports increased in July 2011, reflecting higher domestic demand. The largest contribution to the overall increase was from intermediate

goods (56.1 per cent), followed by investment goods (25.5 per cent). Expenditure on imports of intermediate goods increased by 58.0 per cent to US dollars 999 million led by significant increases in petroleum and fertilizer imports in July 2011. The average import price of crude oil stood at US dollars 112.85 per barrel in July 2011 compared to US dollars 73.53 per barrel in July 2010. Expenditure on imports of fertilizer increased to US dollars 54 million in July 2011 due to higher import volumes and higher price. Imports of investment goods increased by 62.1 per cent to US dollars 384 million in July 2011, led by higher expenditure on imports of machinery and equipment (US dollars 178 million) and building materials (US dollars 105 million). Imports of consumer goods increased by 39.1 per cent in July 2011 led by non-food consumer goods, particularly, motor vehicles (US dollars 87 million), while food and beverages imports increased by 22.9 per cent with a higher contribution from wheat in July 2011.

During July 2011, workers' remittances increased by 21.1 per cent to US dollars 415 million over the same month of 2010. Cumulative inflows on account of workers' remittances amounted to US dollars 2,922 million during the first seven months of 2011. Earnings from tourism grew at a healthy rate of 50 per cent to US dollars 451 million during the first seven months of the year while total foreign inflows to the government (including Sovereign Bond proceeds of US dollars 1 billion) during

Sources : Central Bank of Sri Lanka
Sri Lanka Customs

Sources : Central Bank of Sri Lanka
Sri Lanka Customs

the same period amounted to approximately US dollars 2,754 million. Meanwhile, foreign direct investments (FDI) in the first half of 2011 amounted to US dollars 413 million.

As per the provisional estimates, gross official reserves, without Asian Clearing Union (ACU) balances, increased significantly to US dollars 8.1 billion by end

July 2011. Based on the previous 12-month, average expenditure on imports of US dollars 1,421 million per month, the gross official reserves without ACU balances were equivalent to 5.7 months of imports.

The performance of external sector during the period is further illustrated in the following table.

5. Balance of Payments Records a Healthy Surplus by July 2011

Balance of Payments (BOP), which includes all foreign currency inflows and outflows, recorded a surplus of US dollars 1,006 million by end July 2011. Gross official reserves, excluding Asian Clearing Union (ACU) balances, increased to US dollars 8,099 million by end July 2011 from US dollars 6,610 million by end 2010.

The improved macroeconomic environment and several initiatives to attract foreign inflows contributed towards strengthening the country's external reserve position to this level. Total external reserves (excluding ACU balances) increased to US dollars 9,487 million by end July 2011. In terms of months of imports, gross official reserves and total external reserves by end July 2011 were equivalent to 5.7 months and 6.7 months, respectively.

During the first seven months of 2011, the cumulative earnings from exports and expenditure on imports increased by 30.3 per cent to US dollars 6,014 million and 48.3 per cent to US dollars 11,091 million, respectively. The increase in imports expenditure was spurred by the increase in imports of intermediate goods and investment goods, such as machinery and equipment and building materials, which set a satisfactory foundation for future growth. At the same time, the average import price of crude oil increased by 36.6 per cent to US dollars 107.95 per barrel in the first seven months of 2011, from US dollars 79.03 per barrel for the same period of 2010. This rise in crude oil prices resulted in an increase in the petroleum bill by 39.4 per cent to US dollars 2,493 million in the first seven months of 2011.

Supported by the healthy growth in the tourism sector, the surplus in the services account increased to US dollars 461 million in the first seven months of 2011, while cumulative inflows on account of workers' remittances amounted to US dollars 2,922 million during the same period. Accordingly, despite the widened trade deficit, inflows to the services account and the workers' remittances contributed to set off around two thirds of the trade deficit. At the same time, the total foreign inflows to the government (including the 10-year Sovereign Bond proceeds of US dollars 1 billion) during the first seven months amounting to US dollars 2,754 million and

foreign direct investments (FDI) in the first half of 2011 amounting to US dollars 413 million, enabled the overall BOP to record a comfortable surplus of US dollars 1,006 million by end July 2011.

In the meantime, the exchange control relaxations effected by the Central Bank in November 2010 facilitated foreign exchange transactions and business activities during the past few months. The relaxation measures which enabled corporates to borrow from foreign sources resulted in 14 private companies obtaining foreign loans amounting to US dollars 197.1 million by mid-September 2011, while the permission granted for foreign companies to open places of business resulted in 20 new foreign companies commencing business in Sri Lanka this year.

STATISTICAL APPENDIX

Definitions and Explanatory Notes

The following general notes supplement the footnotes given below the individual tables:—

1. The data cover monthly figures available at the time the Bulletin goes to print, and the latest available information does not relate to the same month, in every table.

To enable comparison, annual figures for recent years are given.

2. In an attempt to bring the material up-to-date provisional figures are included in some tables.
3. Figures in some tables have been rounded off to the nearest final digit. Hence there may be a slight discrepancy between the total as shown and the sum of its components.
4. Differences as compared with previously published figures are due to subsequent revisions.
5. The following symbols have been used throughout:—

n.a. = not available
– = nil
... = negligible

(a) Revised

(b) Provisional

(c) (1) Includes manufacturing and export processing industries. Small industry is defined as those units having supply of electricity at 400/230 volts and contract demand is less than 50 KVA, medium industry as supply of electricity at 400/230 volts and contract demand is equal or more than 50 KVA and large industry as supply of electricity at 11KV, 33KV and 132KV.

(2) Figures include electricity consumption of hotels.

(d) Sales other than to Ceylon Electricity Board.

(e) Excluding Petroleum exports.

- (a) The index was based on Household Income and Expenditure Survey conducted in 2006/07.
The weights are based on the consumption pattern of the urban households within the Colombo district.
The total basket value (at 2006/07 prices) was Rs. 27,972.11
- (b) Annual and quarterly figures are averages of monthly figures.

Note: The Index numbers are calculated by the Labour Department on fixed weights based on the numbers employed as at 31 December 1978. The wage rate used in the calculation of Index numbers are minimum wages for different trades fixed by the Wages Boards.

Sources : Labour Department
Central Bank of Sri Lanka

- (a) The Index refers to wage rates of tea growing and manufacturing, rubber growing and manufacturing, coconut, cocoa, cardamoms and pepper growing trades only.
- (b) Includes baking, brick and tile manufacturing, coconut manufacturing, printing textile, tyre and tube manufacturing, coir mattresses & bristle fibre export, hosiery manufacturing, engineering, garment manufacturing, match manufacturing, biscuit manufacturing, tea export and rubber export trades only.
- (c) This includes cinema, motor transport and nursing homes trade only.
- (d) Combined Index for workers in Agriculture, Industry & Commerce and Services.
- (e) Provisional.

(a) Daily wages represent payments in cash where meals are not provided by the employer. Annual and quarterly figures are averages of monthly figures.

Source: Central Bank of Sri Lanka

(b) Wages in the construction sector are paid on both daily payment and contractual basis. The series on contractual basis in previous bulletin publications has been replaced by the series on daily payment basis from the monthly bulletin of December 2005 onwards for comparison with wages in other sectors.

(c) Daily wages up to December 2004 are the average of daily wages for the two activities. From January 2005 onwards the daily wages cover both activities under a single category following the restructuring of data collection schedules.

(d) Provisional.

(a) Consists of government expenditure excluding contributions to sinking funds, direct payment of public debt and subscriptions to international financial organisations. Also excludes book adjustments arising from losses on Advance Account operations incurred and financed in the previous financial year. Hence, the figures may not tally with the figures published in the accounts of the Government of Sri Lanka.

Sources : Ministry of Finance and Planning
Central Bank of Sri Lanka

(b) Excludes foreign investments in Treasury bills.

(c) Excludes foreign investments in Treasury bonds.

(d) Net foreign investments in Treasury bills and Treasury bonds are included.

(a) Computed from weekly averages.

(b) Footnote (d) of Table 14 in the Annual Report 2009 gives the conversion formula used for the conversion of the volume of the three main types of coconut exports to their nut equivalent (from kgs).

(c) This refers to prices of the best quality copra.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(a) A series with a wide coverage and 1997 as the base year. In order to accommodate the variability arising from a monthly frequency, in computing the monthly trade indices, first the volume index is computed as a Laspeyres index and then the unit value index is derived as the ratio between the value index and the volume index. This methodology avoids the subjective imputation of prices that would be required in deriving a price index first when certain items are not exported or imported in a particular month.

(a) Special Drawing Rights (SDRs), the unit of account of the International Monetary Fund.

Source: Central Bank of Sri Lanka

(b) The NEER is the weighted average of nominal exchange rates of the 24 trading partner and competitor countries. Weights are based on the trade shares reflecting the relative importance of each currency in the currency basket.

(c) The REER is computed by adjusting the NEER for inflation differentials with the countries whose currencies are included in the basket.

(a) Annualised Forward Premium (f^d) is computed using the following formula.

Source: Central Bank of Sri Lanka

$$f^d = \{ [F_t^{t+1} - S_t] / S_t \} * 100 * (12/t)$$

Where F_t^{t+1} is the forward rate for period $t+1$ that exists in period t and S_t is the interbank spot rate at period t .

(a) Includes assets/liabilities of National Development Bank which merged with NDB Bank Ltd., with effect from August 2005.

Source: Central Bank of Sri Lanka

(b) External assets (net) of the Central Bank and commercial banks (including outward bills).

(c) Currency and demand deposits held by the public.

(d) Credit extended by the banking system to the government, net of government deposits with banks and government cash balances.

(e) Restructuring bonds worth Rs.19,392.6 million, which were issued by the government to the two state banks, have been converted to Treasury bonds upon their maturity in October 2006. This amount, which previously appeared under Other Assets has been included in Net Credit to Government since October 2006.

(a) Data pertaining to the balance sheet of the Central Bank from January 2002 are based on International Accounting Standards (IAS). Accordingly foreign securities of the Central Bank have been valued at current market prices since January 2002. These data prior to January 2002 are according to local books at cost or face value whichever is less.

(b) Includes securities acquired from government institutions.

(c) Credit provided under "Susahana" refinance credit scheme is included from 2005 December.

(d) Government and government guaranteed securities are at fair value basis.

Note : The number of reporting banks were 23 until January 2006, and 22 from October 2008.

- (a) Includes assets / liabilities of National Development Bank which merged with NDB Bank Ltd., with effect from August 2005.
- (b) Restructuring bonds worth Rs. 19,392.6 million, which were issued by the government to the two state banks, have been converted to Treasury bonds upon their maturity in October 2006. This amount, which previously appeared under Other Assets has been included in Treasury bonds since October 2006.
- (c) Includes Central Bank securities and DFCC Bonds.

- (d) Fixed and other assets consists of banks' property, furniture, fittings and sundries (commission, interest receivable etc.).
- (e) Liquid assets consist of Cash on hand, Balances due from Central Bank, Foreign currency on hand and Balances due from banks abroad, Government of Sri Lanka Treasury bills and bills discounted. With effect from 18 May 1998, Treasury bonds are considered as part of liquid assets of commercial banks. Balances due from domestic banks and cash items in process of collection have been excluded from liquid assets and domestic inter-bank deposits have been excluded from demand deposits, because from the view point of the commercial banking system as a whole such claims and deposits cancel out.

(a) This monetary survey is based on the aggregated data pertaining to both Domestic Banking Units (DBUs) and Offshore Banking Units (OBUs) of banks operating in Sri Lanka. Definitional changes have been adopted in aggregating DBUs and OBUs data to avoid double counting and misclassification of assets and liabilities.

(Contd.)

The major changes are:

- (1) All DBU placements in OBUs are recorded as domestic assets, while all DBU borrowings from OBUs are recorded as domestic liabilities.
- (2) Foreign currency deposits of DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply :
 - (i) One half (50 per cent) of NRFC deposits are treated as domestic deposit liabilities;
 - (ii) All RNNFC balances are treated as foreign liabilities;
 - (iii) All other domestic foreign currency accounts are treated as domestic deposit liabilities.

(b) Includes assets / liabilities of National Development Bank which merged with NDB Bank Ltd., with effect from August 2005.

(c) External assets (net) of the Central Bank and commercial banks (including outward bills).

(d) Currency and demand deposits of the public.

(e) Time and savings deposits of the public held with commercial banks.

- (a) This financial survey is based on the aggregated data pertaining to Domestic Banking Units (DBUs) and Offshore Banking Units (OBUs) of commercial banks, Licensed Specialised Banks (LSBs) and Registered Finance Companies (RFCs) operating in Sri Lanka. Definitional changes have been adopted in aggregating data pertaining to DBUs, OBUs, LSBs and RFCs to avoid double counting and misclassification of assets and liabilities. The major changes are:
 (1) All DBU placements in OBUs are recorded as domestic assets, while all DBU borrowings from OBUs are recorded as domestic liabilities.
 (2) Foreign currency deposits of DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply:
 (i) One half (50 per cent) of Non-Resident Foreign Currency (NRFC) deposits are treated as domestic deposit liabilities;
 (ii) All Resident Non-National Foreign Currency (RNNFC) balances are treated as foreign liabilities;
 (iii) All other domestic foreign currency accounts are treated as domestic liabilities.
- (b) Currency, demand deposits and quasi money in DBUs in this table differ from those in table 52 due to the fact that LSBs and RFCs are not treated as 'public' under this broad monetary survey (M₄) definition.
- (c) Time and savings deposits of the private sector with commercial banks, LSBs and RFCs.

- (d) External assets of commercial banks include outward bills.
- (e) Credit extended by the Central Bank, DBUs, OBUs, LSBs and RFCs to the Government, net of Government deposits with banks and Government cash deposits.

(a) Under Sections 10c, 93, 94, 96 and 97 of the amended Monetary Law Act (Chapter 422), commercial banks and other financial institutions are required to maintain reserves against their deposit liabilities as prescribed by the Monetary Board. Currently, only commercial banks are subject to reserve requirements. With effect from 24 January 1992, an amount of till cash over and above two per centum of the total deposit liabilities, but not exceeding four per centum, could be maintained as a part of required reserves in the form of Sri Lanka currency notes and coins. Details of required reserve ratios, which were applicable in the past and computational methods have been published in the Appendix table on the 'Reserve Position of Commercial Banks' in the Annual Reports prior to 2003.

(b) Reserve data are for the last reserve week of each month. The required reserves recorded in the table refer to the cumulative reserves for the week, while commercial bank deposits with the Central Bank are the cumulative deposits for that particular reserve week. Excess/Deficit on SRR is the difference between the cumulative SRR for the reserve week and cumulative deposits of the commercial banks for the week.

(c) Excludes interbank deposits.

(d) With effect from 03 April 2003, the basis of computing the Statutory Reserve Requirement (SRR) was changed from deposit liabilities and vault cash balances at the close of business on Wednesday of the previous reserve week, to the average of deposit liabilities and vault cash balances during the week ending Tuesday of the previous reserve week.

(e) SRR was increased from 7.00 per cent to 8.00 per cent with effect from 29 April 2011.

(a) All interest rates are as at the end of period, unless otherwise stated.

(b) This is the rate at which the Central Bank grants advances to commercial banks for temporary liquidity purposes. With effect from 04 January 1991, the rate was increased to 17 per cent from 15.5 per cent. As at end 1999 this rate was 16 per cent. With effect from 02 October 2000 the rate was increased to 18 per cent and further increased to 25 per cent with effect from 21 November 2000. With effect from 02 July 2001, this rate was brought down to 23 per cent and further reduced to 18 per cent with effect from 27 December 2001. On 15 August 2003, the rate was reduced to 15 per cent.

(c) Average Weighted Deposit Rate (AWDR) is calculated monthly by the Central Bank based on the weighted average of all outstanding interest bearing deposits of commercial banks and the corresponding interest rates.

(d) The Average Weighted Prime lending Rate is estimated weekly by the Central Bank based on commercial banks' lending rates offered to their prime customers during the week. These monthly figures are average values of estimated weekly rates.

(e) The Sri Lanka Inter-Bank Offered Rate (SLIBOR) is computed daily by the Central Bank, based on rates offered by commercial banks in the inter-bank market. The rate shown is the average of such offered rates by selected commercial banks.

(a) Issue of Treasury bonds commenced in March 1997.

(b) The yield rates on Rupee Securities are administratively determined and given rates includes tax.

(c) Secondary market information is based on data provided by Primary Dealers in Government Securities and is available since October 2000.

(d) Yield rates are averages of bid and offer rates.

Sources: Central Bank of Sri Lanka
Primary Dealers in Government Securities

Note : Treasury bonds are not issued on a regular basis. Hence a continuous series of primary market yield rates is not available.

Notes :

- (1) Commercial banks charge a variety of fees and commissions on their services. The table gives a range of the maximum and minimum fees and commissions which are based on the information provided by commercial banks. These charges, which do not change very frequently are published semi-annually to enable the public to negotiate best terms. These fees and commissions could be different when services and products are provided as a package.
- (2) These are standard charges of commercial banks. However, charges for some specific products could include charges payable to banks abroad. For example, banks in Sri Lanka may include in their charges fees payable to banks abroad such as for adding confirmation to Letters of Credit, and for correction of discrepancies.
- (3) In the case of Documentary Credits, the charges for outward transmission from Sri Lanka would differ, on the mode of transmission used.
- (4) Loan application processing fees vary according to the loan amount.

(a) Includes loans and advances of Offshore Banking Units.

Source : Central Bank of Sri Lanka

(b) Classification of loans and advances was changed in June 2010.

(c) Please refer Table 69 B for past data, computed as per the previous classification. As these data were revised along with the reclassification as per the new format, data in Tables 69 A and 69 B are not comparable.

(d) Loans and advances include overdrafts, bills discounted and purchased, and exclude cash items in the process of collection.

(e) Provisional

(f) Excludes personal housing loans, which have been included under 'Construction' classified under 'Industry'.

(a) Loans and advances include overdrafts and bills discounted and exclude cash items in the process of collection.

Source : Central Bank of Sri Lanka

Maturity Classification : Short-term – Less than one year
Medium-term – 1 to 5 years
Long-term – More than 5 years

(b) Loans and advances of Offshore Banking Units are also included since 2008.

(c) Includes loans and advances granted for Engineering and Building Trade, Mining and Fishing.

(d) Data prepared as per the above classification were revised following the reclassification. Therefore, data in Tables 69 A and 69 B are not comparable.
