Part I
EVENTS OF THE MONTH
January 2014

Fiscal Sector

- Importation or local purchase of copper cables which are used for high tech equipment for telecom industry were exempted from Value Added Tax (VAT).
- The present VAT exemption applicable on the import of the gully bowzers, semi-trailers for road tractors, any machinery or equipment used for garbage disposal activities carried out by any local authority was expanded to cover for purchasing such items from local manufacturers.
- Importation or supply of ties and bows, designer pens, frozen bait, fish hooks/rods/reels, fishing tackle, marine propulsion engines was exempted from VAT.
- The exemption from VAT on goods subject to Special Commodity Levy (SCL) was limited to any importer whose value of supplies in the local market out of goods imported exceeds Rs. 250 million for any consecutive period of three months in a calendar year.
- VAT exemption granted on import or supply of following goods was removed and made liable 12 per cent VAT:
 - Paddy, rice, wheat, cardamom, cinnamon, cloves, nutmeg, mace, pepper, desiccated coconuts, rubber, latex, fresh coconuts, tea including green leaf, rice flour, wheat flour, bread, eggs, liquid milk or powdered milk
 - Agricultural tractors or road tractors for semi-trailers
 - Machinery and equipment for tea and rubber industries
 - Machinery for modernisation of factories
 - Plant and machinery by an undertaking qualified for a tax holiday
 - Pharmaceutical preparations
- The quarterly turnover of Rs. 500 million applicable for the imposition of VAT on wholesale or retail trade was reduced to Rs. 250 million.
- The exemption applicable to the supply of goods was limited to a maximum of 25 per cent of the total supplies in the case of a wholesale or retail business which supplies goods liable to VAT and goods exempted from VAT.
- Following items were exempted from Nation Building Tax (NBT):
 - Retail trade of goods at duty free shops
 - Sale of locally manufactured coconut oil by the manufacturer, for a period of three years
 - Distribution of LP gas
 - Services provided in any airport for payments in foreign currency
- The application of the exemption from NBT on goods subject to SCL was restricted to NBT payable at the point of Customs only. Accordingly, the local supply of such goods was liable to NBT.
- The exemption of financial services from NBT was terminated in view of the withdrawal of the requirement of depositing funds in the Investment Fund Account.
- The exemption of NBT on the turnover from the sale of tractors was restricted to locally manufactured tractors.
- Pharmaceutical preparations were liable to NBT at the import point.
- The present rate of 20 per cent applicable on Telecommunication Levy was revised to 25 per cent. The concessionary rate of 10 per cent applicable on the services provided through internet/broadband, to facilitate IT and Business Process Outsourcing (BPO) sectors remains unchanged.
- The Cost of Living Allowance (COLA) was increased for Public Servants by Rs.1,200 to Rs. 7,800 per month.
- The COLA was increased for pensioners who retired before 2006 by Rs. 500 to Rs. 3,675 per month and by Rs. 350 to Rs. 3,525 per month for others who retired after 2006.

A Loan from the Export Import Bank of India

An agreement was signed between the Government of Sri Lanka and the Export Import Bank of India, on 11 November 2013, for a loan of USD 124.03 million (approximately Rs. 16.3 billion) to finance the design, construction and delivery of two advanced offshore patrol vessels. This loan carries an interest fee of LIBOR6 + 3.5 per cent per annum, a one-time management fee of 0.5 per cent and a commitment fee of 0.5 per cent per annum. The loan is repayable in 10 years including a grace period of 3 years.

A Loan from the European Investment Bank

An agreement was signed between the Government of Sri Lanka and the European Investment Bank, on 13 November 2013, for a loan of Euro 90 million (approximately Rs. 15.9 billion) to finance upto 50 per cent of the total cost of the investments on Small and Medium Enterprises and Green Energy Sectors

project. The bank will disburse the loan in 9 tranches with the interest rate and repayment terms applicable to each tranche upon request by the borrower. This loan carries a non-utilisation fee of 0.15 per cent per annum. The loan is repayable in 20 years including a grace period of 4 years.

A Loan from the Kuwait Fund for Arab Economic Development

An agreement was signed between the Government of Sri Lanka and the Kuwait Fund for Arab Economic Development, on 30 January 2014, for a loan of KWD 10 million (approximately Rs. 4.6 billion) to finance the reconstruction of 25 bridges project. This loan carries an interest rate of 2 per cent per annum, administrative expense of 0.5 per cent per annum and a commitment fee of 0.15 per cent per annum. The loan is repayable in 25 years including a grace period of 5 years.

Part II
PRESS RELEASES
January 2014

1. Monetary Policy Review – January 2014

The continued easing of monetary policy through 2013 amidst low and stable inflation has brought about the desired macroeconomic outcomes. Available leading indicators show that real GDP growth is set to record around 7.2 per cent growth for 2013.

Monetary aggregates moved towards the projected path. Both current and capital accounts of the Balance of Payments (BOP) improved, resulting in a stronger exchange rate and an international reserve position. Meanwhile, both headline and core inflation moderated further, reaching 4.7 per cent and 2.1 per cent (Y-o-Y), respectively, in December 2013. Average headline and core inflation for 2013 were at 6.9 per cent and 4.4 per cent, respectively, compared to 7.6 per cent and 5.8 per cent, respectively, in 2012.

Broad money (M_{2b}) growth decelerated to 16.7 per cent (Y-o-Y) in November 2013 bringing the average growth of broad money to 16.5 per cent, down from 20.2 per cent during 2012. Responding to the reduction in market interest rates and improved business confidence, credit obtained by the private sector from commercial banks increased by Rs. 22.2 billion during the month of November 2013 following the increase of Rs. 27.2 billion observed in October. Accordingly, in addition to the funds raised by the private sector through domestic and international debt and equity markets and borrowing from other domestic financial institutions, credit extended by commercial banks to the private sector during January-November 2013 amounted to Rs. 160.6 billion. Public corporations continued to repay the banking sector for the third consecutive month, resulting in credit to public corporations declining by Rs. 18.8 billion in November 2013. Net credit to the Government also declined by Rs. 3.5 billion during the month, as expected.

In the external sector, earnings from exports, which increased by 24.7 per cent (Y-o-Y) in November 2013, exceeded US dollars 1 billion for the second consecutive month, resulting in cumulative earnings of US dollars 9.4 billion during January-November 2013. With cumulative expenditure on imports declining by 2.5 per cent to US dollars 17.2 billion, the cumulative

trade deficit contracted by 10.7 per cent to US dollars 7.8 billion during the period. Increased inflows from services exports and workers' remittances strengthened the current account further while substantial foreign capital inflows resulted in the BOP recording a surplus of over US dollars 700 million in 2013 compared to the surplus of US dollars 151 million in 2012. Reflecting the improved external sector performance, Gross Official Reserves increased to US dollars 7.1 billion (provisional) by end 2013. The Sri Lankan rupee strengthened gradually since early September 2013, having effectively faced the global market turmoil caused by the announcement of possible tapering of quantitative easing by the US Federal Reserve.

Going forward, economic growth is expected to accelerate further during the new year, while inflation is projected to remain in mid-single digits. With the expected improvement in Net Foreign Assets of the banking sector, continued fiscal consolidation and increased growth of credit to the private sector of around 16 per cent, broad money is projected to expand by about 14 per cent in 2014. This will be sufficient to facilitate expected economic growth without fuelling demand driven inflationary pressures. The external sector is also envisaged to improve further, with the expected recovery in advanced economies and structural measures adopted domestically to strengthen the sector.

In view of these developments and expectations, the Monetary Board, at its meeting held on 27th December 2013 decided to adopt the following monetary policy measures:

1. The Monetary Board decided to establish a Standing Rate Corridor (SRC) in place of the current Policy Rate Corridor with immediate effect (See Figure 1). Accordingly, the following changes will take place:

- a. The current Standing Repurchase Facility will be renamed as the Standing Deposit Facility (SDF), and the Standing Deposit Facility Rate (SDFR) will be the rate for the placement of overnight excess funds of the banking system
 - b. The current Standing Reverse Repurchase Facility will be renamed as the Standing Lending Facility (SLF), and the Standing Lending Facility Rate (SLFR) will be the rate for the lending of overnight funds to the banking system
 - c. Open Market Operation (OMO) auctions will continue unchanged, with Repurchase and Reverse Repurchase auctions, depending on liquidity conditions in the domestic money market
2. The Monetary Board was of the view that the requirement of providing collateral by the Central Bank to OMO participants under the Standing Deposit Facility was unnecessary, since the Central Bank is the monetary authority of the country. Accordingly, in consideration of the Central Bank's zero credit risk in rupee transactions, the Monetary Board decided that, with effect from 1st February 2014, the Standing Deposit Facility will be uncollateralised. However, all other OMO transactions will remain collateral-based, as at present.
 3. The Monetary Board also observed that the volatility in the interbank call money market has reduced substantially over time, and was of the view that a compression of the Standing Rate Corridor is now warranted. Accordingly, the Monetary Board decided to reduce the Standing Lending Facility Rate of the Central Bank by 50 basis points to 8.00 per cent with immediate effect, thereby compressing the Standing Rate Corridor to 150 basis points from the current 200 basis points. It is expected that this compression will facilitate the reduction of the interest spread of banks over time, without affecting the deposit rates offered by banks to their customers.
 4. The Monetary Board also reviewed the minimum cash margin requirement of 100 per cent against Letters of Credit opened with commercial banks for the import of certain categories of motor vehicles, imposed on 30th August 2013. Considering the improvement in the external sector, the Monetary Board decided to remove this requirement with immediate effect.
- The date for the release of the next regular statement on monetary policy would be announced in due course.

2. Democratic Socialist Republic of Sri Lanka US\$ 1.0 billion International Sovereign Bond Issue

The Central Bank of Sri Lanka (CBSL), on behalf of the Democratic Socialist Republic of Sri Lanka (Sri Lanka), successfully launched and priced a US\$ 1.0 billion 5-year International Sovereign Bond (Issue) at a yield of 6.00 per cent per annum.

The Issue represents the sixth US Dollar benchmark offering in the international bond markets by Sri Lanka since 2007 and the first Sovereign Bond issue in the international capital markets in 2014. Citigroup, The Hongkong and Shanghai Banking Corporation Limited, Standard Chartered Bank and UBS acted as Joint Lead Managers/Bookrunners on the transaction. Post announcement of the transaction, Sri Lanka conducted a series of fixed income investor update through internet based presentations and conference calls covering Asia, Middle-East, Europe and the USA.

Fitch Ratings, Moody's Investors Service and Standard and Poor's have rated the Issue at 'BB-', 'B1' and 'B+' respectively. The Issue was announced during the Asia morning on January 6, 2014 with an initial price guidance of 6.25 per cent per annum. With the firm support from investors, the order books grew steadily, allowing Sri Lanka to price the Issue at a yield of 6.00 per cent in spite of the rising benchmark US Treasury yield. This tighter yield reflects the continued confidence that the international investors

have placed in the sovereign bond issuance of Sri Lanka.

The final order books stood at US\$ 3.2 billion, an oversubscription ratio of 3.2 times, from 200 accounts, achieved within eighteen hour bookbuild period. Distribution was very well diversified, with Asia taking 12 per cent, Europe 26 per cent and the US at 62 per cent. Global Fund Managers were the largest investors in the transaction, representing 89 per cent, with Banks and Private Banks taking 8 per cent and 3 per cent respectively.

Driven by the support from existing and new investors, Sri Lanka succeeded in achieving a five-year cost of funds which is progressively lower compared to the previous Issuances. Sri Lanka's previous five-year Issuances in 2007 and 2009 were priced at yields of 8.25 per cent and 7.40 per cent respectively. This achievement is all the more impressive, given the rising bench mark US Treasury yield and also the high volatility seen in global capital markets in recent months.

A rating is not a recommendation to buy, sell or hold the securities and may be subject to suspension, reduction or withdrawal at any time by the rating agency.

3. External Sector Performance – November 2013

Overview

Favourable developments in the external sector continued in November 2013, with a sharp contraction of the trade deficit, leading to an improvement of the overall balance. Earnings from exports increased substantially, reflecting gradual recovery in export destination countries, while expenditure on imports declined. Accordingly, the current account deficit narrowed, and was strengthened further as a result of the increase in inflows from workers' remittances and tourism. Meanwhile, inflows to the financial account also increased during the period ending November 2013, leading to a surplus in the Balance of Payments (BOP), compared to the deficit recorded in the corresponding period of 2012.

Trade Account of the BOP

Continuing the increasing trend observed from June 2013, earnings from exports surpassed the US dollars 1 billion mark for the second consecutive month in November 2013. Accordingly, earnings from exports increased by 24.7 per cent in November 2013, while expenditure on imports declined by 14.1 per cent compared to the corresponding month in 2012. Consequently, the trade deficit contracted significantly by 43.5 per cent to US dollars 616 million during this period. On a cumulative basis, earnings from exports during the first eleven months of 2013 grew by 5.6 per cent, while expenditure on imports contracted by 2.5 per cent from the corresponding period in 2012. Accordingly, the cumulative trade deficit contracted by 10.7 per cent to US dollars 7,831 million, during the first eleven months of 2013 compared to the corresponding period of 2012.

Earnings from exports in November 2013 reached US dollars 1,032 million. Industrial exports, which

account for more than three fourths of total export earnings, increased by 22.6 per cent on a year-on-year basis to US dollars 776 million in November 2013. The leading driver of growth in the industrial sector was textiles and garments. Earnings from export of textiles and garments grew by 35 per cent year-on-year to US dollars 491 million in November 2013, the highest monthly value of export of textiles and garments ever recorded. Export of garments to both the EU and USA, the major export destinations of garments, grew by 16.7 per cent and 58.7 per cent, respectively in November 2013, reflecting the recovery in those economies as well as seasonal demand. Meanwhile, export of machinery and mechanical appliances grew by 54 per cent, year-on-year. Earnings from rubber product exports increased by 10.6 per cent, year-on-year, to US dollars 83 million in November 2013, mainly due to an increase of exports of rubber tyres. Apart from these, leather, travel goods and footwear, wood and paper products, base metals and plastics and articles also recorded positive growth. Earnings from agricultural exports rose by 28.3 per cent, year-on-year, to US dollars 244 million in November 2013 due to an increase in export of tea followed by spices. Earnings from tea exports increased by 14.4 per cent to US dollars 144 million in November 2013, due to a 16.2 per cent increase in the average price of tea, despite a marginal decline in export volumes. Earnings from the export of spices recorded a remarkable growth of 73 per cent to US dollars 35 million led by pepper and cinnamon exports. Continuing the strong performance recorded since June 2013, the volume of both pepper and cinnamon exports increased substantially by 186.6 per cent and 24.4 per cent, respectively in November 2013 compared to the corresponding month of the previous year. Export of coconut, seafood and

minor agricultural products also recorded healthy growth. However, in November 2013 rubber export earnings contracted by 24.1 per cent compared to November 2012, due to the continuing decline in both export volumes and prices.

Expenditure on imports declined by 14.1 per cent to US dollars 1,648 million in November 2013, due to the significant decline in both intermediate and investment goods imports. Expenditure on intermediate goods imports declined by 17.3 per cent, year-on-year, to US dollars 972 million in November 2013 mainly due to the decline in the importation of fuel. Expenditure on the importation of fuel declined by 24.1 per cent to US dollars 441 million in November 2013, reflecting declines in both crude oil and refined petroleum imports due to the availability of sufficient stocks. Despite the strong growth in export of textiles and garments, there has been a steady decline in the importation of textile and textile related articles, reflecting improved backward linkages and higher value addition in the garment industry. Decline in imports of base metals, chemical products, rubber and articles thereof, diamonds and precious stones also contributed to the decline in intermediate goods imports. However, the importation of fertilizer, wheat and maize and food preparation increased in November 2013. Import expenditure on investment goods declined by 18.3 per cent, year-on-year, to US dollars 414 million, mainly due to the decline in machinery and equipment imports by 42.5 per cent. However, import of transport equipment increased significantly by 98.1 per cent, led by a one off increase in the importation of ships and boats. Meanwhile, expenditure on consumer goods imports recorded a 25.7 per cent growth, year-on-year, to US dollars 261 million in November 2013 with increases recorded in both food and non-food consumer goods categories. Vehicle imports contributed significantly to the increase in consumer goods imports, recording a year-on-year increase of 148 per cent in November 2013. Dairy products, oils and fats and spices also contributed to the increase in consumer goods imports.

Earnings from Tourism in the Services Account of the BOP

According to the revised tourism statistics provided by the Sri Lanka Tourism Development Authority, tourist arrivals amounted to 109,420 in November 2013 around the same level as in November 2012. However, tourist arrivals recorded a higher growth of 25.9 per cent, year-on-year to 153,918 in December 2013. Accordingly, the total tourist arrivals during the year grew by 26.7 per cent to 1,274,593, compared to the total tourist arrivals of 1,005,605 in 2012. Earnings from tourism increased by 4.9 per cent and 26.8 per cent, year-on-year to US dollars 120.4 million and US dollars 169.3 million

in November and December, respectively. Accordingly, earnings from tourism during the year 2013 recorded a year-on-year growth of 35 per cent to US dollars 1,402.1 million, compared to the cumulative earnings of US dollars 1,038.7 million in 2012.

Current Transfers in the BOP

Workers' remittances increased by 22 per cent, year-on-year, to US dollars 599.3 million in November 2013 from US dollars 491.3 million in November 2012. Accordingly, cumulative inflows of workers' remittances during the first eleven months of 2013 amounted to US dollars 6,124.4 million, a rise of 12.7 per cent from the corresponding period of 2012.

Capital and Financial Account of the BOP

Portfolio investments recorded a cumulative net inflow of US dollars 269.9 million for the year 2013. This includes net inflows to the Colombo Stock Exchange (CSE) in the form of secondary market transactions amounting to US dollars 178.7 million, inflows from rights issues amounting to US dollars 83.4 million, foreign investment in Initial Public Offerings (IPOs) amounting to US dollars 1.9 million and net foreign purchases of corporate debt amounting to US dollars 5.9 million. For the year 2013, cumulative net foreign inflows to government securities market amounted to US dollars 492.7 million. Further, Foreign Direct Investments (FDI), of which data is available on quarterly basis, increased by 42 per cent to US dollars 870.1 million in the first nine months of 2013 from US dollars 614.7 million in the corresponding period in 2012. In the meantime, the government has obtained long-term loans amounting to US dollars 1,624.5 million by November 2013, compared to US dollars 1,723.5 million obtained by way of long-term loans during the first eleven months of 2012. Furthermore, inflows to Licensed Commercial Banks (LCBs) and Licensed Specialised Banks (LSBs) amounted to US dollars 1,548.3 million by end November 2013.

Overall BOP Position

The overall BOP recorded a surplus of US dollars 581.7 million during the first eleven months of 2013, compared to a deficit of US dollars 233.6 million recorded during the corresponding period of 2012, despite the challenging global economic conditions. Meanwhile, the surplus of the overall BOP is estimated to have surpassed US dollars 990 million by end of 2013.

International Reserve Position

By end November 2013, Sri Lanka's gross official reserves amounted to US dollars 6.9 billion, while total international reserves, which include foreign assets of commercial banks, amounted to US dollars 8.3 billion.

In terms of months of imports, gross official reserves were equivalent to 4.5 months of imports at end November 2013, while total reserves were equivalent to 5.4 months of imports. It should be noted that an adequate level of reserves were maintained during the first eleven months of 2013, despite the outflows on account of foreign debt service payments of US dollars 1,201 million and IMF-SBA payments of US dollars 421 million. Gross official reserves are estimated to have recorded US dollars 7.2 billion at the end of 2013.

Exchange Rate Behaviour

The Sri Lanka rupee appreciated against several major international currencies during the year. Accordingly, by

end 2013, the rupee appreciated against the Japanese yen by 18.8 per cent, the Indian rupee by 10.2 per cent and the Australian dollar by 13.3 per cent. The rupee also appreciated against the US dollar from early September due to increased inflows to the banking sector, including the receipt of proceeds from the NSB and DFCC bond issuances in September and October respectively, which strengthened market expectations, although it depreciated against the US dollar since mid-June through end August. Overall, during the year, the rupee depreciated modestly by 2.7 per cent against the US dollar and by 6.8 per cent against the Euro and 4.7 per cent against the Pound sterling.

Table 1 : A Summary of External Sector Performance – November 2013^(a)

Category	November 2012 (US \$ mn)	November 2013 (US \$ mn)	Growth November (%)	Jan–Nov 2012 (US \$ mn)	Jan–Nov 2013 (US \$ mn)	Growth Jan–Nov (%)

(c) Inflows to the Government include capital and current transfers to the Government, inflows from the sale of Treasury Bills and Treasury Bonds, international sovereign bonds and long-term loans of the Government.

4. Central Bank of Sri Lanka initiates action on Consolidation of the Financial Sector Budget proposal

As stated by His Excellency the President in his Budget Speech on 21 November 2013, and as set out in the Road Map of the Central Bank of Sri Lanka on 2 January 2014, in order to steer Sri Lanka towards the economic goals set for 2016 and beyond, a stable financial sector with strong and dynamic financial institutions has to be created.

Accordingly, a Master Plan on the Consolidation of the Financial Sector to achieve such an outcome will be articulated by the Governor to the relevant stakeholders on Friday 17 January 2014 at the Central Bank. Thereafter, one-to-one discussions will be held with all banks and non-bank financial institutions so as to guide these institutions in accordance with the newly announced Plan. The Central Bank will also closely monitor and support the consolidation process in order to ensure that it will be smooth and constructive.

In the meantime, the Central Bank requests all institutions involved in the process to ensure that there will not be any retrenchment of staff in banks and non-bank financial institutions as a result of this consolidation process, and to align their immediate future business plans, recruitment and capital expenditure, to be in line with the new developments that are to take place over the next few months.

5. Sri Lanka Data and Statistics

The Central Bank of Sri Lanka notes with disappointment, certain claims regarding Sri Lanka's data and statistics, made by various persons as published in newspaper articles recently. In these articles, the integrity of the data used in compiling national accounts and other indicators has been questioned, allegedly based on certain statements made by the IMF and a few other selected persons.

The Central Bank wishes to state that the comments and allegations cited in these articles are unfounded and baseless, and that the writers have distorted the recommendations of the IMF, and used its statements largely out of context. Some of those claims have also ignored the notable progress achieved by Sri Lanka in improving its data compilation and dissemination standards, and therefore, the Central Bank wishes to set out the following facts for the benefit of those who have an interest in this topic.

1. Sri Lanka currently follows the General Data Dissemination System (GDDS) of the IMF, and has been a participant in the GDDS since July 2000. The Central Bank and the Department of Census and Statistics (DCS) continue to submit country information/data as per the requirements under Article IV to the IMF. The IMF has been consistently using these data for their publications and reports, thereby indicating their confidence and reliance on the data compilation and the submitted information.

2. It is noted that some articles have quoted the IMF staff report published in April 2013, upon completion of the Article IV Consultation Mission. As is well known, Article IV consultation missions, in general, discuss matters relating to data in member countries, and almost always, propose recommendations for further improvements in every country. Therefore, the recommendations proposed for Sri Lanka, are progressive measures which would assist the country to further improve its compilation of national account statistics, and are not in any way a suggestion that the current methodology cannot be relied upon. At the same time, Sri Lanka too, on its own, has undertaken wide ranging initiatives to further improve the compilation of its national statistics. In that background, the Central Bank is of the view that the comments cited by those articles, which have been taken out of context in order to support an incorrect conclusion that the current status of data compilation in the country is unsatisfactory and

unreliable, is a mischievous attempt to distract from the progress made in the country's economy, which is supported by existing data.

3. The Central Bank is also pleased that, in response to a request made by Sri Lanka, a Technical Assistance (TA) mission from the IMF visited Sri Lanka during September/October 2013 to provide guidance on rebasing of GDP estimates and quarterly national accounts. While that IMF mission has recognised that Sri Lanka meets most minimum requirements, it has also recommended datasets for the implementation of 1993/2008 System of National Accounts (SNA), with some exceptions of institutional sector accounts. In this regard, in implementing 1993/2008 SNA, the labour force surveys and value added tax data are now being used as alternative sources for compiling national accounts data through indirect methods. The use of such indirect methods to verify and validate data is practiced by many countries too, and is in keeping with acceptable standards.
4. In the meantime, the Department of Census and Statistics (DCS) has also launched an Economic Census in 2013, and follow-up establishment

surveys are planned in 2014. These surveys too, aim to address any national accounts source data gaps, in the short to medium term. In addition, the DCS has also planned to revise the base year of GDP to 2010 during this year, and in doing so, certain benchmark activities have already been initiated.

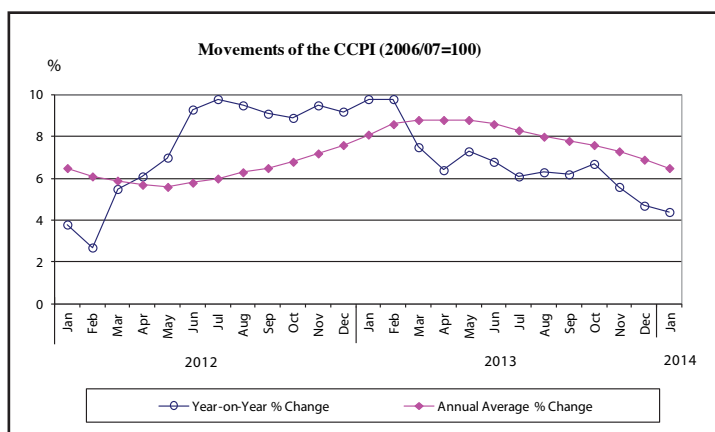

In this background, the Central Bank reiterates that the news articles in question have been written, either in ignorance of the current developments taking place in Sri Lanka to enhance the compilation of national accounts statistics, or with the malicious intention of tarnishing the image of the DCS and the Central Bank. The public is therefore advised to be mindful of the factual position, and the priority placed by the Central Bank and the DCS on the complex function of data compilation and presentation in order to ensure its integrity. The Central Bank also assures all stakeholders that all necessary efforts are being taken to ensure high quality data dissemination, and accordingly advises the public not to be misled by such reports and claims that seem to be made to achieve politically motivated agendas.

6. Inflation declines further in January 2014

Inflation, as measured by the year-on-year (YoY) change in the Colombo Consumers' Price Index (CCPI) (2006/07=100), which is computed by the Department of Census and Statistics, declined further to 4.4 per cent in January 2014, for the third consecutive month, from 4.7 per cent in December 2013.

Annual average inflation, which followed a declining trend since June 2013, moderated further to 6.5 per cent in January 2014, from 6.9 per cent in December 2013.

The marginal increase in the CCPI by 0.6 per cent in January 2014 over the previous month was mainly due to the price increase in the Non-food category

by 1.7 per cent which, however, was partly off-set by the decline in price of Food category by 0.9 per cent. Within the Food category, prices of up-country vegetables, big onions, red onions, potatoes, limes and fruits decreased. In the Non-Food category, price increases were reported in the sub-categories of Health (by 8.0 per cent); Communication (by 3.9 per cent); Transport (by 3.3 per cent); Furnishing, Household Equipment and Routine Household Maintenance (by 0.7 per cent); Miscellaneous Goods and Services (by 0.2 per cent); Housing, Water, Electricity, Gas

and Other Fuels (by 0.1 per cent); and Clothing and Footwear (by 0.1 per cent). Meanwhile, the prices in the sub categories of Recreation and Culture; and Education remained unchanged during the month.

Annual average core inflation continuously decelerated to 4.1 per cent in January 2014, for the eighth month in succession, from 4.4 per cent in December 2013, reflecting the demand driven inflation in check. YoY core inflation increased to 3.5 per cent in January 2014 from 2.1 per cent in December 2013.

7. Satisfactory progress being made on Consolidation effort

As already set out in the Road Map 2014 and beyond, the Central Bank conducted a seminar on 17 January 2014 to explain the need and the rationale for the Consolidation in the banking and non-banking financial institutions (NBFIs) beginning 2014.

At such seminar, the key components of the Consolidation Plan were announced to the Chairmen and Chief Executive Officers of banks and non-bank financial institutions (NBFIs), key management of the audit firms which are eligible to audit banks and NBFIs, and representatives of the Institute of Chartered Accountants of Sri Lanka and the Institute of Personnel Management. Subsequently, the Central Bank senior management held one-on-one meetings with almost all boards of directors and senior management of the local banks and NBFIs, at which the expectations of the Consolidation process were further clarified and specific issues pertaining to particular institutions were discussed in detail. The Central Bank also informed the banks and NBFIs to approach the Consolidation process in a professional manner by seeking specialised IT, Legal, Tax and HR services in order to ensure the objectivity and integrity of the process. In addition, the Central Bank requested all banks, NBFIs and others who are involved in the process to continue a close dialogue with the Central Bank and obtain guidance if the need arises. In this regard, the members of the

special unit headed by the Assistant Governor were introduced to the banks and NBFIs at these meetings. In keeping with the request of the Central Bank, banks and NBFIs agreed to submit their preliminary proposals re. the Consolidation effort by 31 March 2014.

A meeting was also held with key office bearers of the Ceylon Bank Employees' Union, at which all clarifications sought were provided by the Governor of the Central Bank and other senior officials of the Central Bank. The Central Bank also held discussions with leading Consulting firms with regard to their provision of consultancy services in respect of valuations, accounting and other services. These meetings helped to provide a clear understanding of the process which will help all stakeholders to move forward with clarity and certainty.

In the meantime, the Central Bank also wishes to inform the general public that the Consolidation process will not, in any way, affect their current transactions and deposits with the banks and finance companies, with whom they are presently transacting.

(a) Revised

(b) Provisional

(c) Based on the monthly factory industry production survey and classified in accordance with the International Standard Industrial Classification (ISIC) Revision 4. (2010 = 100)

(d) (1) Includes manufacturing and export processing industries. Small industry is defined as those units having supply of electricity at 400/230 volts and contract demand is less than 42 kVA, medium industry as supply of electricity at 400/230 volts and contract demand is equal or more than 42 kVA and large industry as supply of electricity at 11 kV and above.

(2) Figures include electricity consumption of hotels.

(e) Sales other than to Ceylon Electricity Board.

(f) Excluding Petroleum exports.

- (a) The index was based on Household Income and Expenditure Survey conducted in 2006/07.
The weights are based on the consumption pattern of the urban households within the Colombo district.
The total basket value (at 2006/07 prices) was Rs. 27,972.11
- (b) Annual and quarterly figures are averages of monthly figures.

Note: The Index numbers are calculated by the Labour Department on fixed weights based on the numbers employed as at 31 December 1978. The wage rate used in the calculation of Index numbers are minimum wages for different trades fixed by the Wages Boards.

Sources : Labour Department
Central Bank of Sri Lanka

- (a) The Index refers to wage rates of tea growing and manufacturing, rubber growing and manufacturing, coconut, cocoa, cardamoms and pepper growing trades only.
- (b) Includes baking, brick and tile manufacturing, coconut manufacturing, printing textile, tyre and tube manufacturing, coir mattresses & bristle fibre export, hosiery manufacturing, engineering, garment manufacturing, match manufacturing, biscuit manufacturing, tea export and rubber export trades only.
- (c) This includes cinema, motor transport and nursing homes trade only.
- (d) Combined Index for workers in Agriculture, Industry & Commerce and Services.
- (e) Provisional.

(a) Daily wages represent payments in cash where meals are not provided by the employer. Annual and quarterly figures are averages of monthly figures.

Source: Central Bank of Sri Lanka

(b) Wages in the construction sector are paid on both daily payment and contractual basis. The series on contractual basis in previous bulletin publications has been replaced by the series on daily payment basis from the monthly bulletin of December 2005 onwards for comparison with wages in other sectors.

(c) Daily wages up to December 2004 are the average of daily wages for the two activities. From January 2005 onwards the daily wages cover both activities under a single category following the restructuring of data collection schedules.

(d) Provisional.

(a) Consists of government expenditure excluding contributions to sinking funds, direct payment of public debt and subscriptions to international financial organisations. Also excludes book adjustments arising from losses on Advance Account operations incurred and financed in the previous financial year. Hence, the figures may not tally with the figures published in the accounts of the Government of Sri Lanka.

Sources : Ministry of Finance and Planning
Central Bank of Sri Lanka

(b) Excludes foreign investments in Treasury bills.

(c) Excludes foreign investments in Treasury bonds.

(d) Net foreign investments in Treasury bills and Treasury bonds are included.

(e) Provisional

(a) Computed from weekly averages.

(b) Footnote (d) of Table 14 in the Annual Report 2013 gives the conversion formula used for the conversion of the volume of the three main types of coconut exports to their nut equivalent (from kgs).

(c) This refers to prices of the best quality copra.

(b) The NEER is the weighted average of nominal exchange rates of the 24 trading partner and competitor countries. Weights are based on the trade shares reflecting the relative importance of each currency in the currency basket.

(c) The REER is computed by adjusting the NEER for inflation differentials with the countries whose currencies are included in the basket.

(a) Annualised Forward Premium (f^d) is computed using the following formula.

$$f^d = \{ [F_t^T - S_t] / S_t \} * 100 * (12/T)$$

Where F_t^T is the forward rate for period t that exists in period T ($T = 1, 3$) and S_t is the interbank spot rate at period t .

(b) Provisional.

(a) Currency held by the Treasury and the District Secretariats.

(b) Total amounts of currency, including subsidiary notes and coins issued by the Central Bank.

(c) Demand deposits of the government held with commercial banks and the Central Bank.

(d) Inter bank deposits both local and foreign including deposits of international organizations and commercial banks with the Central Bank.

(e) Total demand deposits held by the Central Bank and commercial banks.

(f) M₂ equals currency held by the public plus rupee denominated demand, savings and time deposits held by the public.

(a) The number of reporting banks were 23 until January 2006, 22 from October 2008, 23 from August 2011 and 24 from December 2011.

(b) Fixed and other assets consists of banks' property, furniture, fittings and sundries (commission, interest receivables etc.)

(c) Liquid assets consist of Cash on hand, Balances due from Central Bank, Foreign currency on hand and Balances due from banks abroad, Government of Sri Lanka Treasury bills and bills discounted. Balances due from domestic banks and cash items in process of collection have been excluded from liquid assets and domestic inter-bank deposits have been excluded from demand deposits, because from the view point of the commercial banking system as a whole such claims and deposits cancel out.

(a) M_{2b} is based on the aggregated data pertaining to both Domestic Banking Units (DBUs) and Offshore Banking Units (OBUs) of Licensed Commercial Banks operating in Sri Lanka. Definitional changes have been adopted in aggregating DBUs and OBUs to avoid double counting and misclassification of assets and liabilities.

(Contd.)

The major changes are:

- (1) All DBU placements in OBUs are recorded as domestic assets, while all DBU borrowings from OBUs are recorded as domestic liabilities.
- (2) Foreign currency deposits with DBUs are classified on the basis of ownership rather than on the basis of currency. Hence, the following apply:
 - (i) One half (50 per cent) of Non-Resident Foreign Currency (NRFC) deposits are treated as domestic deposit liabilities;
 - (ii) All Resident Non-National Foreign Currency (RNFC) balances are treated as foreign liabilities;
 - (iii) All other domestic foreign currency accounts are treated as domestic deposit liabilities.

(b) External assets (net) of the Central Bank and commercial banks (including outward bills)

(c) Currency and demand deposits of the public

(d) Time and savings deposits of the public held with commercial banks

(Contd.)

(a) M₄ is based on the aggregated data pertaining to Licenced Specialised Banks (LSBs) and Licenced Finance Companies (LFCs), in addition to the institutions covered in M_{2b}.

(b) Currency, demand deposits and quasi money of DBUs in this table differ from those in Table 56 due to the fact that LSBs and LFCs are not treated as 'Public' under the Financial Survey (M₄) definition.

(c) Time and savings deposits of the private sector with commercial banks, LSBs and LFCs.

(d) LSBs include Regional Development Banks/Pradeshya Sanwardhana Bank (which was established on 14 July 2010 by amalgamating Regional Development Banks, DFCC Bank, National Savings Bank, State Mortgage and Investment Bank, MBSL Savings Bank Ltd., SANASA Development Bank Ltd., HDFC Bank of Sri Lanka, Sri Lanka Savings Bank Ltd. and Lankaputhra Development Bank Ltd.

(e) Credit extended by the Central Bank, LCBs, LSBs and LFCs to the Government, net of Government deposits and Government cash balances.

Source: Central Bank of Sri Lanka

(f) The sharp increase in credit to private sector by LFCs in some months could be attributed to already established Specialised Leasing Companies (SLCs) obtaining LFC licenses.

- (a) Under Sections 10c, 93, 94, 96 and 97 of the amended Monetary Law Act (Chapter 422), commercial banks and other financial institutions are required to maintain reserves against their deposit liabilities as prescribed by the Monetary Board. Currently, only commercial banks are subject to reserve requirements. With effect from 24 January 1992, an amount of till cash over and above two per centum of the total deposit liabilities, but not exceeding four per centum, could be maintained as a part of required reserves in the form of Sri Lanka currency notes and coins. Details of required reserve ratios, which were applicable in the past and computational methods have been published in the Appendix table on the 'Reserve Position of Commercial Banks' in the Annual Reports prior to 2003.
- (b) Reserve data are for the last reserve week of each month. The required reserves recorded in the table refer to the cumulative reserves for the week, while commercial bank's deposits with the Central Bank are the cumulative deposits for that particular reserve week. Excess/Deficit on SRR is the difference between the cumulative SRR for the reserve week and cumulative deposits of the commercial banks' for the week.
- (c) Excludes interbank deposits.
- (d) With effect from 03 April 2003, the basis of computing the Statutory Reserve Requirement (SRR) was changed from deposit liabilities and till cash balances at the close of business on Wednesday of the previous reserve week, to the average of deposit liabilities and till cash balances during the week ending Tuesday of the previous reserve week.
- (e) SRR was increased from 7.00 per cent to 8.00 per cent with effect from 29 April 2011.

Source: Central Bank of Sri Lanka

(a) All interest rates are as at the end of period, unless otherwise stated.

(b) The rate at which the Central Bank grants advances to banking institutions as the lender of last resort.

(c) Average Weighted Deposit Rate (AWDR) is calculated by Central Bank monthly, based on the weighted average of all outstanding interest bearing deposits of commercial banks and the corresponding interest rates.

(d) The Average Weighted Prime Lending Rate (AWPR) is calculated by the Central Bank weekly, based on commercial bank's lending to their prime customers during the week. The monthly figures are average values of estimated weekly rates.

(e) The Sri Lanka Inter-Bank Offered Rate (SLIBOR) is computed daily by the Central Bank, based on rates offered by commercial banks in the inter-bank market. The rate shown is the average of such offered rates by selected commercial banks.

(a) Secondary market information is based on data provided by Primary Dealers in Government Securities.

Sources: Central Bank of Sri Lanka

(b) The yield rates on Rupee Securities are administratively determined. The given rates include taxes.

Primary Dealers in Government Securities

(c) Trading volumes reported are cumulative for the period.

(d) Yield rates are averages of bid and offer rates

(e) Unlike Treasury bills, Treasury bonds are not issued on a regular basis. Hence a continuous series of primary market yield rates does not exist.

ATM cards		
– Issuing fee	Rs. 750	Rs. 100
Credit cards		
– Issuing fee	Rs. 5,000	Rs. 200
– Renewal fee	Rs. 10,000	Rs. 180

Notes :

- (1) Commercial banks charge a variety of fees and commissions on their services. The table gives a range of the maximum and minimum fees and commissions which are based on the information provided by commercial banks. These charges, which do not change very frequently are published semi-annually to enable the public to negotiate best terms. These fees and commissions could be different when services and products are provided as a package.
- (2) These are standard charges of commercial banks. However, charges for some specific products could include charges payable to banks abroad. For example, banks in Sri Lanka may include in their charges fees payable to banks abroad such as for adding confirmation to Letters of Credit, and for correction of discrepancies.
- (3) In the case of Documentary Credits, the charges for transmission outward from Sri Lanka would differ depending on the mode of transmission used.
- (4) Loan application processing fees vary according to the loan amount.

(a) End period.

(b) The Milanka Price Index (MPI) was introduced in January 1999 to replace the Sensitive Price Index. The MPI was replaced by S&P Sri Lanka 20 Index (S&P SL20) with effect from 1st January 2013.

(c) The S&P SL20 was introduced in June 2012.
