(c) The 2025 figures are based on GDP estimates released by the Department of Census and Statistics on 17 March 2026

Source: Ministry of Finance, Planning and Economic Development

# Central Government Debt

Note : 1. With the establishment of the Public Debt Management Office (PDMO) under the Ministry of Finance, Planning and Economic Development (MOF), the responsibility for recording and publishing Sri Lanka's public debt now falls under the PDMO, as mandated by the provisions of the Public Debt Management Act, No. 33 of 2024. Accordingly, the Quarterly Statistical Debt Bulletin, published by the PDMO, will serve as the official source for debt statistics. The Central Bank compiles and present this table based on data received from the MOF to ensure data continuity, following the Government Finance Statistics Manual 2014 (GFS 2014).

2. From 2010 onwards, data are based on rebased GDP estimates (base year 2015) of the Department of Census and Statistics released on 15 March 2023. Data from 2020-2025 are based on the latest GDP estimates made available in March 2026 by the Department of Census and Statistics.

- (a) The outstanding central government debt excludes several debt service payments that became overdue after 12 April 2022, the date of which the Interim Policy regarding the servicing of Sri Lanka's external public debt was announced by the Ministry of Finance, Planning and Economic Development. These debt service payments comprise overdue interest payments of affected debt, which is deemed to be capitalised as per the Interim Policy. Further, the December 2022 balance excluded certain coupon payments pending settlement in relation to Sri Lanka Development Bonds from April 2022 till end of 2022
- (b) Provisional
- (c) Revised
- (d) GDP estimates (base year 2015) released by the Department of Census and Statistics on 17 March 2026 have been used

Central Bank of Sri Lanka

# Market Interest Rates

Source: Central Bank of Sri Lanka

# SME Lending Rates

Note: AWSR reflects interest rates on all outstanding rupee loans extended by licensed banks to the MSME sector, while AWNSR captures rates on new rupee loans granted during a given month extended by licensed banks to the MSME sector. Both exclude government's refinance schemes and non-performing loans of the banks. AWSR and AWNSR are computed based on the SME survey conducted by the Economic Research Department of the Central Bank of Sri Lanka. This survey uses the criterion of annual turnover of not exceeding Rs. 1 billion to define MSMEs, in line with the standard definition.

# Net Credit to the Government\*

\*With the approval of the Cabinet of Ministers at its meeting held on 30 January 2023, the outstanding foreign currency guaranteed debt of the Ceylon Petroleum Corporation (CPC) was absorbed into central government debt with effect from December 2022. Accordingly, this adjustment was implemented in two phases, first in April 2023 and subsequently in December 2023, hence, was reflected in the balance sheets of the particular state-owned commercial banks, which caused a reduction in credit to public corporations /SOBEs and a corresponding expansion in net credit to the government (NCG).

- Note: \* Valuation changes arising from changes in the exchange rate have led to significant changes in monetary and credit aggregates during the period starting from March 2022.
- \* The notable increase in net claims on government during November 2024 was primarily due to the change in method used to estimate the fair value of the Treasury bond holding of the CBSL.
  - \* NCG reflects the fair value of government securities held by the banking sector, adjusted on a mark-to-market basis to account for changes in market interest rates and pricing, thereby providing a more accurate representation of the sector's net exposure to the Government.

Source: Central Bank of Sri Lanka

## Credit to State Owned Business Enterprises\*

\*With the approval of the Cabinet of Ministers at its meeting held on 30 January 2023, the outstanding foreign currency guaranteed debt of the Ceylon Petroleum Corporation (CPC) was absorbed into central government debt with effect from December 2022. Accordingly, this adjustment was implemented in two phases, first in April 2023 and subsequently in December 2023, hence, was reflected in the balance sheets of the particular state-owned commercial banks, which caused a reduction in credit to public corporations/SOBEs and a corresponding expansion in net credit to the government(NCG).

Note: Valuation changes arising from changes in the exchange rate have led to significant changes in monetary and credit aggregates during the period starting from March 2022.
