Sources: Ministry of Finance, Economic Stabilisation and National Policies Central Bank of Sri Lanka

⁽b) As per the guidelines of compiling government debt statistics in the Manual of Government Finance Statistics published by the IMF in 2014, non resident holdings of outstanding SLDBs and outstanding ISBs have been classified under foreign debt and resident holdings of outstanding of SLDBs and outstanding ISBs of the Sri Lankan Government have been classified under domestic debt.

⁽a) The debt data after April 2022 are highly provisional as the outstanding central government debt excludes several overdue debt service payments after April 12, 2022, the date of which the Interim Policy regarding the servicing of Sri Lanka's external public debt was announced by the Ministry of Finance, Economic Stabilization and National Policies. These debt service payments include overdue interest payments of affected debt which deemed to be capitalised as per the Interim Policy.

⁽¹⁾ $M_2 = M_1 + \text{Time & Savings Deposits}$

⁽²⁾ Net Foreign Assets (NFA) of the Central Bank are based on market value from beginning of January 2002. This is reflected in NFA and net other items.

⁽³⁾ Based on the consolidated monetary survey, which covers aggregated data pertaining to both Domestic Banking Units (DBUs) and Offshore Banking Units (OBUs) of commercial banks operating in Sri Lanka. It also includes foreign currency deposits held by residents. M_{2b} is the sum of M₁ and adjusted quasi money. M₁ is the same in both cases; i.e., DBU monetary survey and consolidated monetary survey.

⁽a) Due to a misclassification in the data reported by LCBs, data on NCG by LCBs was revised from March 2021 - January 2022.

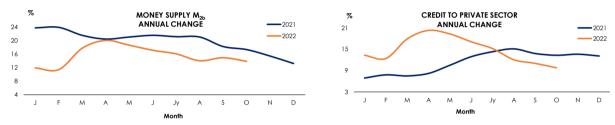

⁽b) Provisional

Source: Central Bank of Sri Lanka

- (a) Reserve data have been revised to include balances in DST's special yen accounts in consultation with IMF, and placement for war risk insurance. From October 2002 external assets are calculated at market values.
- (b) Including ACU receipts.
- (c) This includes proceeds from the PBOC swap equivalent to around US dollars 1.4 billion, which is subject to conditionalities on usability.
- (d) Average for the last five working days of the month of November based on actual transactions.
- (e) The NEER is the weighted average of nominal exchange rates of the 24 trading partner and competitor countries. Weights are based on the trade shares reflecting the relative importance of each currency in the currency basket.
- (f) The REER is computed by adjusting the NEER for inflation differentials (based on CCPI) with the countries whose currencies are included in the basket. The REER Indices for 2020 are provisional.
