(a) Includes Freight, Insurance, Other Transportation, Investment Income etc.

(b) Includes Private & Official Transfers.

(c) Monetary Sector refers to the resulting position in the External Assets, arising from the transactions in the items 1.0 to 9.0

Note: The balance of payments figures in Table 6.11 differ from external trade data in Table 6.2 as the external trade data reflects the physical movement of exports and imports for the calendar year while the balance of payments figures relate to the financial receipts and payments for the period. The difference is therefore due to the time lag between financial transactions and the physical movement of goods for a particular year.
