

Real Sector & Inflation

Inflation, as measured by the change in the Colombo Consumers' Price Index (CCPI)(2006/07=100), which is computed by the Department of Census and Statistics, decreased from 3.5 per cent in September 2014 to 1.6 per cent in October 2014, which is the lowest rate recorded since November 2009, on a YoY basis. Annual average inflation also declined to 3.8 per cent in October 2014 from 4.2 per cent recorded in the previous month. Within the Non-food category, prices of items in the sub groups of Housing, Water, Electricity, Gas and other Fuels; and Transport decreased due to the downward revision of electricity tariff and prices of fuel and LP gas. Core inflation, which measures the underlying inflation in the economy, decreased in October 2014 compared to the previous month on a YoY basis while annual average inflation increased marginally during the month.

The economy continued its growth momentum by recording a 7.8 per cent growth in real terms during the second quarter of 2014, supported by the 12.2 per cent growth of the Industry sector, 6.5 per cent growth in Agriculture sector and 5.8 per cent growth of Services sector.

While the coconut production recorded an increase of 11 per cent during the first seven months of 2014, the Rubber production showed a decline of 1.7 per cent during the same period. Meanwhile, it is noted that the Tea production recorded an increase of 1.3 per cent during the first eight months of 2014.

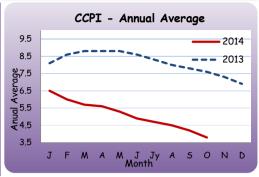

The FIPI increased by 6.2 per cent on year-on-year basis in June 2014. This was facilitated by increased production of wearing apparel as well as rubber and plastic products sectors which recorded a significant growth of 22.6 per cent and 15.5 per cent respectively due to increased domestic as well as international demand.

During the week crude oil spot prices showed mixed performance. Price increases were supported by favourable data in manufacturing sectors of China and Germany, and on news that Saudi Arabia reduced its crude oil supply to the market in September. Crude oil price increases were further supported as dealers awaited the outcome of a U.S. Federal Reserve meeting. The U.S. Central Bank is expected to announce an end to its vast asset-buying programme. However, price increases were curtailed by abundant oil supplies and slack demand. Iraq increased its oil supply in October while Libya's output remained high, despite instability in both countries. Further, U.S. Energy Information Administration reported crude inventories rose by 2.1 million barrels last week. At the end of the week, the crude oil prices fell as the dollar strengthened with positive economic data on gross domestic product and jobless claims, and growing crude supplies also continued to contribute to bearish market sentiment.

Fiscal Sector

During the first half of 2014, total revenue as a percentage of estimated GDP declined marginally to 5.4 per cent from 5.6 per cent in the corresponding period of 2013. However, in nominal terms, total revenue increased to Rs. 536.4 billion during the first half of the year from Rs. 487.9 billion recorded during the same period in 2013 reflecting an increase in both tax revenue and non-tax revenue. Tax revenue increased to Rs. 484.4 billion during the first half of 2014 compared to Rs. 441.5 billion recorded during the corresponding period in 2013 mainly due to the increase in revenue from corporate and non corporate income tax, VAT revenue generated from both imports and domestic economic activities, excise tax on motor vehicles and PAL. Meanwhile, non tax revenue increased during the period mainly due a significant increase in profit and dividend transfers from State Owned Business Enterprises.

Total expenditure and net lending as a percentage of estimated GDP during the first half of 2014 declined to 9.2 per cent compared to 10 per cent recorded in the corresponding period in 2013 due to the decline in both recurrent expenditure and capital expenditure and net lending.

Total outstanding debt increased by Rs. 548 billion to Rs. 7,341.3 billion as at end June 2014 from Rs. 6,793.2 billion at end 2013.

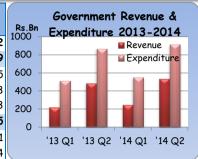

Foreign debt increased by Rs. 312.3 billion to Rs. 3,272.7 billion and domestic debt increased by Rs. 235.7 billion to Rs. 4,068.6 billion as at end June 2014 from end December 2013.

The government made several changes to the Special Commodity Levy (SCL) during the second quarter of the year with a view to maintaining stable prices in the domestic market. SCL of 10 per cent per kg was imposed in April 2014 for a period of two months on the importation of sorghum and maize in place of 15 per cent of Customs duty, 12 per cent of VAT, 2 per cent of NBT, 5 per cent of PAL and 35 per cent of Cess and was extended till July. Further, SCL of Rs.5 per kg was imposed in April 2014 for a period of three months on the importation of rice in place of customs duty of Rs. 20 per kg, 12 per cent of VAT, 2 per cent of NBT and 5 per cent of PAL. SCL on the importation of potatoes was reduced from Rs. 25 per kg to Rs. 15 per kg for a period of seven months while SCL on the importation of Sugar was reduced from Rs. 30 per kg to Rs. 25 per kg. SCL on the importation of the whole massor dhal was reduced to Rs. 5 per kg from Rs. 10 per kg for a period of seven months and SCL on the importation of the split massor dhal was extended for a period of seven months. In June 2014, the duty waiver applicable on imported milk powder was reduced by Rs. 25 per kg, hence the applicable duty rate was increased to Rs. 82 per kg.
