

Weekly Economic Indicators

21 November 2014

Statistics Department

Real Sector & Inflation

Inflation, as measured by the change in the Colombo Consumers' Price Index (CCPI)(2006/07=100), which is computed by the Department of Census and Statistics, decreased from 3.5 per cent in September 2014 to 1.6 per cent in October 2014, which is the lowest rate recorded since November 2009, on a YoY basis. Annual average inflation also declined to 3.8 per cent in October 2014 from 4.2 per cent recorded in the previous month. Within the Non-food category, prices of items in the sub groups of Housing, Water, Electricity, Gas and other Fuels; and Transport decreased due to the downward revision of electricity tariff and prices of fuel and LP gas. Core inflation, which measures the underlying inflation in the economy, decreased in October 2014 compared to the previous month on a YoY basis while annual average inflation increased marginally during the month.

The economy continued its growth momentum by recording a 7.8 per cent growth in real terms during the second quarter of 2014, supported by the 12.2 per cent growth of the Industry sector, 6.5 per cent growth in Agriculture sector and 5.8 per cent growth of Services sector.

Despite the production of coconut during the first eight months of 2014 grown by 11.4 per cent, the Rubber production recorded a decline of 7 per cent during the same period. Meanwhile, it is noted that the Tea production during the first nine months of the year recorded an increase of 2.6 per cent.

The FIPI increased by 6.7 per cent on year-on-year basis in August 2014. This growth was mainly supported by increased output of beverages, tobacco as well as rubber and plastic products sectors. They have recorded a significant growth of 14.0, 37.0 and 15.8 per cent due to increased domestic and international demand during this period.

During the week crude oil spot prices showed mixed performance. Prices fell on worries over Japan's recession and OPEC output. Japan's economy shrank unexpectedly by an annualised 1.6 per cent in the third quarter. The top OPEC producer Saudi Arabia increased crude exports in September despite signs of an oversupplied market. Further, the Energy Information Administration reported U.S. crude stocks rose by 2.6 million barrels last week, against the Reuters forecast of 800,000 barrels decline. Federal Reserve revealed worries that U.S. inflation could remain below target for quite some time. However, the price declines were limited as U.S. heating oil demand could rise due to an unseasonably cold weather across the country. By the end of the week, prices rose on strong U.S. economic data and mounting speculation that OPEC oil ministers could agree production cuts at the November, 27 meeting. U.S. business activity index and home resales rose, while jobless claims fell less than expected. OPEC members Venezuela, Libya and Ecuador are calling the group to cut production to shore up oil prices which have fallen to four year lows.

(*) CPC import prices are not directly comparable with spot prices of WTI and Brent as CPC is import prices include freight charges and the price is weighted for average prices of different types of crude oil. Also Part of the imports of CPC are on a term contract basis.

Monetary Sector

Weekly AWPR for the week ending 21 November 2014 declined marginally by 1 bps to 6.53 per cent compared to the previous week.

Broad money (M2b) expanded by 12.8 per cent in September 2014. NFA of the banking system declined by Rs. 63.1 billion in September 2014 compared to August 2014. NCG from the banking system showed a significant increment of Rs. 26.4 billion in September 2014 compared to August 2014, where credit to public corporations increased by Rs. 26.0 billion. Credit extended to the private sector increased by Rs. 52.3 in September 2014, compared to August 2014 .

The reserve money increased compared to the previous week mainly due to increase in deposits by the commercial banks with the Central Bank.

The total outstanding market liquidity increased to Rs. 359.53 bn by end of the week, compared to Rs. 350.91 bn by the end of last week. Majority of the liquidity has been absorbed through the Term Repo auctions and Short-term Repo auctions.

By 21 November 2014, the All Share Price Index (ASPI) declined by 1.33 per cent to 7,402 points while the S&P SL 20 Index declined by 0.69 per cent to 4,127 points compared to the previous week.

Fiscal Sector

During the first half of 2014, total revenue as a percentage of estimated GDP declined marginally to 5.4 per cent from 5.6 per cent in the corresponding period of 2013. However, in nominal terms, total revenue increased to Rs. 536.4 billion during the first half of the year from Rs. 487.9 billion recorded during the same period in 2013 reflecting an increase in both tax revenue and non-tax revenue. Tax revenue increased to Rs. 484.4 billion during the first half of 2014 compared to Rs. 441.5 billion recorded during the corresponding period in 2013 mainly due to the increase in revenue from corporate and non-corporate income tax, VAT revenue generated from both imports and domestic economic activities, excise tax on motor vehicles and PAL. Meanwhile, non-tax revenue increased during the period mainly due to a significant increase in profit and dividend transfers from State Owned Business Enterprises.

Total expenditure and net lending as a percentage of estimated GDP during the first half of 2014 declined to 9.2 per cent compared to 10 per cent recorded in the corresponding period in 2013 due to the decline in both recurrent expenditure and capital expenditure and net lending.

Total outstanding debt increased by Rs. 548 billion to Rs. 7,341.3 billion as at end June 2014 from Rs. 6,793.2 billion at end 2013.

Foreign debt increased by Rs. 312.3 billion to Rs. 3,272.7 billion and domestic debt increased by Rs. 235.7 billion to Rs. 4,068.6 billion as at end June 2014 from end December 2013.

The government made several changes to the Special Commodity Levy (SCL) during the second quarter of the year with a view to maintaining stable prices in the domestic market. SCL of 10 per cent per kg was imposed in April 2014 for a period of two months on the importation of sorghum and maize in place of 15 per cent of Customs duty, 12 per cent of VAT, 2 per cent of NBT, 5 per cent of PAL and 35 per cent of Cess and was extended till July. Further, SCL of Rs.5 per kg was imposed in April 2014 for a period of three months on the importation of rice in place of customs duty of Rs. 20 per kg, 12 per cent of VAT, 2 per cent of NBT and 5 per cent of PAL. SCL on the importation of potatoes was reduced from Rs. 25 per kg to Rs. 15 per kg for a period of seven months while SCL on the importation of Sugar was reduced from Rs. 30 per kg to Rs. 25 per kg. SCL on the importation of the whole massor dhal was reduced to Rs. 5 per kg from Rs. 10 per kg for a period of seven months and SCL on the importation of the split massor dhal was extended for a period of seven months. In June 2014, the duty waiver applicable on imported milk powder was reduced by Rs. 25 per kg, hence the applicable duty rate was increased to Rs. 82 per kg.

External Sector

During the year so far (up to 21 November 2014) the rupee depreciated against the US dollar (0.19 per cent). Given the cross currency exchange rate movements, the Sri Lanka rupee appreciated against the euro (9.70 per cent), pound sterling (4.81 per cent) and the Japanese yen (11.83 per cent) and depreciated against the Indian rupee (0.17 per cent) during this period.

Earnings from exports increased by 0.5 per cent, year-on-year, in September 2014 to US dollars 903 million while the cumulative earnings increased by 13.0 per cent to US dollars 8,288 million during the first nine months of 2014. The largest contribution to the export growth in September 2014 was from textiles and garments followed by coconut and printing industry products.

Expenditure on imports increased by 12.2 per cent, year-on-year, to US dollars 1,667 million in September 2014, while on a cumulative basis, imports grew by 5.4 per cent to US dollars 14,222 million during the first nine months of 2014. The increase in import expenditure in September 2014 was mainly due to the significant increase in imports of transport equipment particularly a dredger vessel followed by imports of vehicles such as motor cycles and motor cars for personal use.

The increase in export prices at a higher rate than import prices resulted in an improvement in the terms of trade in August 2014. The import price index declined marginally by 0.4 per cent, year-on-year, to 113.2 index points mainly due to the decrease in the average price level of consumer goods.

Meanwhile, the average price levels of agricultural and mineral export items, increased in August 2014, leading to an overall increase in the export price index by 1.4 per cent to 105.8 index points.

India, UK, China, Germany and France were the top five sources of tourist arrivals upto October 2014, accounting for 46.4 per cent of total tourist arrivals during the year upto October 2014.

The average price of tea in the Colombo auction decrease in September 2014 compared to the corresponding month of 2013, but the prices averaged at Colombo Auction is higher than the prices at other two auctions namely Kolkata and Mombasa, due to higher demand for Ceylon tea.
