

Weekly Economic Indicators

05 May 2017

Statistics Department
Central Bank of Sri Lanka

Real Sector

Inflation, as measured by the change in the National Consumer Price Index (NCPI) (2013=100), which is compiled by the Department of Census and Statistics, increased to 8.6 per cent in March 2017 from 8.2 per cent in February 2017, on year-on-year basis. Both Food and Non-food categories contributed towards the year-on-year inflation in March 2017. The increase in year-on-year inflation in March 2017 is due to the low base that prevailed in the corresponding period of the previous year. The change in the NCPI measured on an annual average basis increased to 5.6 per cent in March 2017 from 5.1 per cent in February 2017. When the monthly change is considered, the NCPI decreased from 119.9 index points in February 2017 to 119.5 index points in March 2017. This monthly decrease was mainly due to the decrease in prices of the items in the Food category. The NCPI Core inflation, which reflects the underlying inflation in the economy decreased marginally to 7.0 per cent in March 2017 from 7.1 per cent in February 2017. Annual average NCPI Core inflation increased to 6.6 per cent in March 2017 from 6.4 per cent in February 2017.

Inflation, as measured by the change in the Colombo Consumer Price Index (CCPI) (2013=100), which is compiled by the Department of Census and Statistics, decreased to 6.9 per cent in April 2017 from 7.3 per cent in March 2017, on year-on-year basis. Annual average inflation increased to 5.3 per cent in April 2017 from 5.0 per cent in March 2017. The monthly decrease in CCPI was 0.5 per cent. CCPI Core inflation, which reflects the underlying inflation in the economy decreased to 6.8 per cent in April 2017 from 7.3 per cent in March 2017. Annual average CCPI Core inflation increased to 5.5 per cent in April 2017 from 5.3 per cent in March 2017.

The GDP grew by 4.4 per cent in real terms in 2016, mainly attributable to 4.2 per cent growth in Services activities and 6.7 per cent growth in Industry activities while Agriculture activities contracted by 4.2 per cent, in value added terms.

During the months of February 2017 production of tea declined due to dry weather conditions and production of rubber also decreased due to the slowdown of tapping activities. Meanwhile, the coconut production also considerably declined during the same period.

The FIPI increased by 3.6 per cent on a year-on-year basis in February 2017. This increase was mainly due to increased production of food products, wearing apparel, chemicals and chemical products, rubber and plastic products and other non-metallic mineral products sub-sectors. This was mainly attributed to increased domestic and international demand.

During the week, crude oil prices fell to five-months low levels, recording an overall reduction in both Brent and WTI prices by over US\$ 3 per barrel. Prices fell due to rising output in the U.S, Canada and Libya, and declining compliance by members of the OPEC with the deal to cut output during the first half of 2017. Signs of slower-than-expected manufacturing sector growth in China and weaker U.S. manufacturing sentiment have also supported the price decline. Further, U.S. crude inventories fell less than expected, while gasoline inventories have risen as demand remained weak. China's energy demand growth in April has also recorded its lowest rate in almost a year. Subsequently, OPEC and other producers appeared to rule out deeper supply cuts to reduce the world's persistent glut of crude oil.

(*) CPC import prices are not directly comparable with spot prices of WTI and Brent as CPC is import prices include freight charges and the price is weighted for average prices of different types of crude oil. Also Part of the imports of CPC are on a term contract basis.

Monetary Sector

Weekly AWPR for the week ending 05 May 2017 increased by 11 bps to 11.89% compared to the previous week

Broad money (M2b) expanded by 18.0%, on a year-on-year basis, in February 2017

Net Credit to the Government from the banking system showed an increase of Rs. 79.1 bn in February 2017

Credit to public corporations recorded an increase of Rs. 16.7 bn in February 2017

Credit extended to the private sector increased by Rs. 70.9 bn in February 2017

The reserve money decreased compared to the previous week mainly due to decrease in currency in circulation and deposits held by commercial banks

The total outstanding market liquidity decreased to a deficit of Rs. 10.88 bn by end of the week, compared to a deficit of Rs. 11.02 bn by the end of last week

By 05 May 2017, the All Share Price Index (ASPI) increased by 0.46% to 6,641 points and the S&P SL20 Index increased by 0.40% to 3,802 points, compared to the previous week

Fiscal Sector

Total government revenue as a per cent of GDP increased for the second consecutive year in 2016. Government revenue increased to 14.2 per cent of GDP in 2016 from 13.3 per cent in 2015 as a result of continued efforts to enhance revenue collection during the year. This increase was led by the expansion in non tax revenue as a per cent of GDP to 1.9 per cent during the year from 0.9 per cent recorded in 2015, mainly due to the increase in profit and dividend transfers from SOBEs. However, tax revenue as a per cent of GDP in 2016 remained unchanged at 12.4 per cent as recorded in 2015. During the year, total revenue in nominal terms increased by 15.9 per cent to Rs. 1,686.1 billion from Rs. 1,454.9 billion in 2015, reflecting increases in both tax revenue and non tax revenue

Total expenditure and net lending as a percentage of GDP declined to 19.7 per cent in 2016 from 20.9 per cent in 2015 due to the decline in both recurrent expenditure, and capital expenditure and net lending. Accordingly, the decline in total expenditure and net lending was a combined outcome of the decline in both recurrent expenditure by 0.7 percentage points to 14.8 per cent and capital expenditure and net lending by 0.5 percentage points to 4.9 per cent of GDP. However, in nominal terms, total expenditure and net lending increased by 1.9 per cent to Rs. 2,333.9 billion in 2016 from Rs. 2,290.4 billion in 2015. Public investment, which amounted to 5.0 per cent of GDP in 2016, was significantly lower than 5.5 per cent of GDP recorded in 2015

In 2016, the overall budget deficit of Rs. 640.3 billion was largely financed through foreign sources. Accordingly, foreign financing contributed to around 61.2 per cent of the total financing requirement in 2016 compared to 28.5 per cent in the previous year, while the balance was financed through domestic sources. Consequently, net domestic financing in 2016 amounted to Rs. 248.4 billion compared to Rs. 592.7 billion in the previous year and net foreign financing amounted to Rs. 391.9 billion compared to Rs. 236.8 billion recorded for 2015

As at the end of 2016, government debt to GDP ratio increased to 79.3 per cent from 77.6 per cent recorded at the end of 2015. The domestic debt to GDP ratio declined marginally to 45.1 per cent by end 2016 from 45.3 per cent recorded as at end 2015, while the foreign debt to GDP ratio increased to 34.2 per cent by end 2016 from 32.4 per cent in 2015. In nominal terms, total outstanding government debt increased only by 10.4 per cent to Rs. 9,387.3 billion in 2016 compared to the high growth of 15.0 per cent in 2015

External Sector

During the year up to 05 May 2017 the Sri Lanka rupee depreciated against the US dollar (1.5 per cent). Given the cross currency exchange rate movements, the Sri Lanka rupee depreciated against the pound sterling (6.3 per cent), euro (5.4 per cent), Japanese yen (4.7 per cent) and Indian rupee (6.9 per cent) during this period

Earnings from exports at US dollars 865 million in January 2017 registered a 3.8 per cent decline, year-on-year, compared to US dollars 899 million in January 2016, reflecting subdued performance mainly in earnings from industrial exports despite an increase recorded in agricultural exports

Expenditure on imports increased substantially by 13.2 per cent, year-on-year, to US dollars 1,798 million in January 2017 continuing the double digit growth in imports for the fourth consecutive month. Expenditure on intermediate goods was the main driver for this growth followed by consumer goods imports

The terms of trade deteriorated by 5.5 per cent in January 2017 compared to the corresponding month of previous year due to decrease in export prices than to imports prices during the month. The export unit value index in January 2017 decreased by 4.7 per cent, year-on-year, due to the decrease in price of industrial exports. The import unit value index increased marginally by 0.8 per cent, year-on-year, in January 2017

India, China, UK, Germany and France were the top five sources of tourist arrivals, accounting for 50.3 per cent of total tourist arrivals upto the month of April 2017

The average price of tea increased to US dollars 3.98 per kg in January 2017 from US dollars 2.85 per kg (in the Colombo auction) in January 2016

Further, the import prices of rice, sugar and crude oil prices increased compared to the corresponding month of 2016
