

Weekly Economic Indicators

20th April 2018

Highlights of the Week

Real Sector

During the first two months of 2018, the domestic tea production increased due to the favourable weather conditions and high prices at the Colombo Tea Auction and production of rubber declined due to the decreasing auction prices. Meanwhile, the coconut production declined considerably during the period, due to lagged effects of the drought that prevailed since 2016.

During the period, crude oil prices followed an increasing trend. At the beginning of the week prices fell due to high U.S. oil supplies. However, subsequently prices rose, reaching close to their highest levels since end November 2014, supported by declining U.S. crude inventories and as top oil exporter Saudi Arabia is expected to keep withholding supply. Overall, both Brent and WTI prices rose by US\$ 1.3 per barrel and US\$ 1.0 per barrel, respectively, within the period.

Monetary Sector

Weekly AWPR for the week ending 20 April 2018 decreased by 12 bps to 11.44% compared to the previous week.

The reserve money decreased compared to the previous week mainly due to decrease in currency in circulation.

The total outstanding market liquidity increased to a deficit of Rs. 9.67 bn by end of the week, compared to a deficit of Rs. 43.65 bn by the end of last week.

By 20 April 2018, the All Share Price Index (ASPI) increased by 0.88% to 6,541 points and the S&P SL 20 Index increased by 0.06% to 3,679 points, compared to the previous week.

External Sector

During the year up to 20 April 2018 the Sri Lanka rupee depreciated against the US dollar (2.2 per cent). Given the cross currency exchange rate movements, the Sri Lanka rupee depreciated against the pound sterling (6.6 per cent), euro (5.4 per cent) and Japanese yen (6.6 per cent) while appreciated against the Indian rupee (0.6 per cent) during this period.

(a) Please note that crude oil prices are based on futures prices instead of spot prices, that have been published up to end 2017.

(*) CPC import prices are not directly comparable with futures prices of WTI and Brent as CPC's import prices include freight charges and the price is weighted for average prices of different types of crude oil. Also part of the imports of CPC are on a term contract basis.
