

Weekly Economic Indicators

28th January 2022

Statistics Department
Central Bank of Sri Lanka

Highlights of the Week

Real Sector

During the period under review (22.01.2022 to 28.01.2022), crude oil prices showed mixed performance. Prices fell at the beginning of the period on concerns over the possibility of quicker than expected interest rate hikes by the US Federal Reserve. However, prices increased later, fuelled by concerns about geopolitical tensions between Russia and Ukraine. Towards the end of the period, crude oil prices recorded their highest levels in seven years over concerns about tight worldwide supply. Overall, Brent and WTI prices increased by US dollars 0.84 per barrel and US dollars 0.95 per barrel respectively, during the period.

Monetary Sector

Weekly AWPR for the week ending 28th January 2022 decreased by 13 bps to 8.52 per cent compared to the previous week.

The reserve money decreased compared to the previous week mainly due to the decrease in currency in circulation and deposits held by the commercial banks with the Central Bank.

The total outstanding market liquidity was a deficit of Rs. 558.963 bn by end of this week, compared to a deficit of Rs. 543.367 bn by the end of last week.

By 28th January 2022, the All Share Price Index (ASPI) decreased by 3.80 per cent to 12,863.14 points and the S&P SL 20 Index decreased by 4.87 per cent to 4,380.55 points, compared to the index values of last week.

External Sector

During the year up to 28th January 2022, the Sri Lankan rupee depreciated against the US dollar by 0.4 per cent. Given the cross currency exchange rate movements, the Sri Lankan rupee depreciated against the Japanese yen by 0.1 per cent, while appreciating against the Euro by 1.1 per cent, the Indian rupee by 0.7 per cent and the pound sterling by 0.4 per cent during this period.

Earnings from exports increased by 24.9 per cent (Y-o-Y) to US dollars 11,345.4 mn during the eleven months ending November 2021 as a result of increased earnings from exports of textiles and garments (23.4%), rubber products (35.0%) and machinery and mechanical appliances (53.6%). Import expenditure increased significantly by 26.6 per cent (Y-o-Y) to US dollars 18,396.4 mn during the eleven months ending November 2021 largely due to higher imports of fuel (43.0%), textile and textile articles (31.8%) and machinery and equipment (27.3%). Accordingly, the deficit in the trade account widened to US dollars 7,051.1 mn during the eleven months ending November 2021 from US dollars 5,445.8 mn in the corresponding period of 2020.

The export unit value index increased by 13.7 per cent (Y-o-Y) in November 2021 due to higher prices registered in agricultural and industrial exports. The import unit value index increased by 23.6 per cent (Y-o-Y) in November 2021 as a result of higher prices recorded in all the main categories, namely consumer, intermediate and investment goods. Accordingly, the terms of trade decreased by 8.1 per cent (Y-o-Y) to 94.1 index points in November 2021.

The average price of tea (in the Colombo auction) decreased to US dollars 3.10 per kg in November 2021 from US dollars 3.48 per kg in November 2020.

Ceylon Petroleum Corporation

(*) CPC import prices are not directly comparable with futures prices of WTI and Brent as CPC's import prices include freight charges and the price is weighted for average prices of different types of crude oil. Also, part of the imports of CPC are on a term contract basis. Crude Oil was not imported in March, June, September and November 2021.
