Real Sector

Inflation, as measured by the change in the Colombo Consumers' Price Index (CCPI) (2006/07=100), which is compiled by the Department of Census and Statistics, increased to 1.7 per cent in October 2015, compared to -0.3 per cent recorded in the previous month, on a year-on-year basis. This increase was mainly due to the removal of the high base effect of downward administrative price revisions effected since September 2014. The recent price increase in several key items in the food category also contributed to the increase in year-on-year inflation in October. Annual average inflation remained unchanged at 0.7 per cent as recorded in September 2015. CCPI increased by 0.4 per cent from September to October 2015.

The GDP grew by 6.7 per cent in real terms during the second quarter of 2015, mainly attributable to 7.9 per cent, 2.0 per cent and 5.0 per cent growth in Services activities, Industry activities and Agriculture activities, respectively, in value added terms.

Tea production during the first eight months of 2015 declined by 0.9 per cent from 226.5 million kg to 224.4 million kg. Meanwhile, coconut production during the first eight months of 2015 recorded an increase of 5.7 per cent. Production of rubber during the first eight months of 2015 declined considerably by 14.6 per cent.

The FIPI increased by 6.7 per cent on a year-on-year basis in June 2015. This growth was mainly facilitated by increased production of beverages, tobacco, chemicals & chemical products and other non-metallic mineral products sectors. They have recorded a significant growth of 13.1, 17.6, 11.7 and 21.4 per cent respectively during this period. This was mainly attributed to increased domestic and international demand.

During the week, crude oil spot prices largely followed an increasing trend. Price declines at the beginning of the week were supported by concerns on demand and favourable supply consideration. On demand side, research firm Energy Aspects said in its quarterly outlook that it forecasts a sharp slowdown in global oil demand across Q4 2015 at 0.8 million barrels per day, which marks the slowest pace of growth in five quarters. Subsequently, crude oil prices rose by over \$2 after the U.S. Federal Reserve kept interest rates unchanged and a weekly U.S. government report on oil stockpiles showed inventory build was within expectations. Energy Information Administration reported U.S. crude stocks rose by 3.4 million barrels last week, slightly below the 4.1 million barrel increase reported by an industry group, a day earlier. Further, gasoline and distillate stocks fell more than expected and stockpiles at Cushing, Oklahoma delivery hub fell by 785,000 barrels, resulting prices to increase.

During the year so far (up to 30 October 2015) the rupee depreciated against the US dollar (6.96 per cent). Given the cross currency exchange rate movements, the Sri Lanka rupee appreciated against the euro (3.10 per cent) and depreciated against the pound sterling (5.44 per cent), Japanese yen (5.77 per cent) and the Indian rupee (4.12 per cent) during this period.

On cumulative basis, exports earnings recorded a decline of 3.4 per cent, year-on-year, to US dollars 7,147 million during the first eight months of 2015. The decline was driven by 9.8 per cent reduction recorded in agricultural exports due to a significant drop in tea and sea food exports.

On a cumulative basis, expenditure on imports during the first eight months of 2015, increased by US dollars 4 million to US dollars 12,559 million compared to the corresponding period of the previous year. Substantial increase in demand for imported goods, especially vehicles offset the gain from lower international commodity prices specially fuel.

The reduction in import price index year-on-year, over the decline in export price index resulted in an improvement of 2.4% in the terms of trade in August 2015.

The export unit value index declined by 12.1 per cent in August 2015 mainly due to a 48.8 per cent unit value decline recorded in petroleum products exports.

The import unit value index, declined by 14.1 per cent, year-on-year, in August 2015 mainly due to a substantial price reduction recorded in intermediate goods, particularly, Fuel, Plastic and articles thereof, Fertilizers, Textile and textile articles and wheat and maize.

India, China, UK, Germany and France were the top five sources of tourist arrivals in September 2015, accounting for 50 per cent of total tourist arrivals upto the month of September 2015.

The average price of tea further declined to US dollars 2.87 per kg in August 2015 from US dollars 3.00 per kg (in the Colombo auction) in July 2015 and from US dollars 3.49 per kg in August 2014.

Further, the import prices of sugar, wheat and crude oil declined compared to the corresponding month of 2014.
