13 February 2015

Statistics Department

# Real Sector & Inflation

Inflation, as measured by the change in the Colombo Consumers' Price Index (CCPI) (2006/07=100), which is computed by the Department of Census and Statistics, increased to 3.2 per cent in January 2015 from 2.1 per cent in December 2014 on a year-on-year basis, as a result of the increase in food prices. Annual average inflation declined marginally from 3.3 per cent recorded in December 2014 to 3.2 per cent in January 2015. Core inflation, which reflects the underlying inflation in the economy, declined slightly from 3.2 per cent in December 2014 to 3.1 per cent in January 2015 on a year-on-year basis. Annual average core inflation during January 2015 was 3.4 per cent, compared to 3.5 per cent recorded in December 2014.

The economy continued its growth momentum by recording a 7.7 per cent growth in real terms during the third quarter of 2014, supported by the 12.6 per cent growth of the Industry sector and 7.0 per cent growth of the Services sector, albeit the Agriculture Sector contracted by 2.0 percent.

During the year 2014, while the tea production recorded an increase of 0.9 per cent, the rubber production showed a decline of 20.4 per cent. Meanwhile, the coconut production recorded an increase of 12.1 per cent during January to November 2014.

The FIPI has recorded 4.6 per cent year-on-year growth in October 2014. This growth was mainly facilitated by increased production of beverages, wearing apparel as well as rubber and plastic products sectors.

During the week crude oil spot prices showed mixed performance. At the beginning of the week prices rose due to falling oil drilling rig counts and violence in oil producer Libya. Oil services firm Baker Hughes reported that worldwide count for oil drilling rigs fell by 261 in January, and the average number of U.S. oil rigs fell by 191, while another 83 U.S. oil rigs went offline last week. However, prices then started to decline after Citibank cut its crude price forecasts, saying WTI prices could go as low as \$20 per barrel range. Further, International Energy Agency said the U.S. will record the world's top of oil supply growth until 2020, defying expectations of a more dramatic slowdown in shale output growth. Further, Energy Information Administration reported that U.S. crude inventories rose by 4.9 million barrels to the highest level in at least 80 years for the fifth consecutive week. However, towards the end of the week prices again rose on news of deeper industry spending cuts and a sinking U.S. dollar.

(\*) CPC import prices are not directly comparable with spot prices of WTI and Brent as CPC is import prices include freight charges and the price is weighted for average prices of different types of crude oil. Also Part of the imports of CPC are on a term contract basis.

## Monetary Sector

Weekly AWPR for the week ending 13 February 2015 declined by 10 bps to 6.30 per cent compared to the previous week.

Broad money (M2b) expanded by 12.8 per cent in November 2014. NFA of the banking system declined by Rs. 64.7 billion in November 2014 compared to October 2014. NCG from the banking system showed a significant increment of Rs. 23.7 billion in November 2014 compared to October 2014, where credit to public corporations also showed a rapid increase of Rs. 27.4 billion during the month. Credit extended to the private sector increased by Rs. 57.8 in November 2014, compared to October 2014 .

The reserve money increased compared to the previous week mainly due to increase in currency in circulation and deposits held by the commercial banks with the Central Bank.

The total outstanding market liquidity decreased to Rs. 288.44 bn by end of the week, compared to Rs. 289.90 bn by the end of last week. Majority of the liquidity has been absorbed through the Short-term Repo auctions and Long-term auctions.

By 13 February 2015, the All Share Price Index (ASPI) increased by 2.41 per cent to 7,336 points while the S&P SL 20 Index increased by 3.90 per cent to 4,113 points compared to the previous week.

## Fiscal Sector

During the first nine months of 2014, total revenue as a percentage of estimated GDP marginally declined to 8.4 per cent from 9.1 per cent in the corresponding period of 2013. However, in nominal terms, total revenue increased by 5.6 per cent to Rs. 828.2 billion during the first nine months of the year from Rs. 784.2 billion recorded during the same period in 2013 reflecting increases in both tax revenue (by Rs. 41.5 billion) and non tax revenue (by Rs. 2.5 billion). However, average monthly revenue during this period was around Rs. 92 billion.

Total expenditure and net lending as a percentage of estimated GDP declined to 13.4 per cent during the first nine months of 2014 compared to 14.7 per cent recorded in the corresponding period in 2013 mainly due to decline in both recurrent expenditure and capital expenditure and net lending. In nominal terms, total expenditure and net lending increased by 3.7 per cent to Rs.1,326.7 billion during the first nine months of 2014 from Rs. 1,279.1 billion in the corresponding period of 2013.

Total outstanding debt increased by Rs. 575.7 billion to Rs. 7,368.9 billion as at end September 2014 from Rs. 6,793.2 billion at end 2013. Foreign debt increased by Rs. 222.5 billion to Rs. 3,182.9 billion mainly due the issuance of International Sovereign Bond amounting to US dollars 1,000 million and US dollars 500 million in January and April 2014. Meanwhile, domestic debt increased by Rs. 353.2 billion to Rs. 4,186 billion.

The government made several changes to the Special Commodity Levy (SCL) during the month of September with a view to maintaining stable prices in the domestic market. Accordingly, SCL on the importation of rice was decreased from Rs. 5 per kg to Rs. 1 per kg for a period of three months while SCL on the importation of sugar was increased from Rs. 28 per kg to Rs. 33 per kg for a period of three months with effect from 05 September 2014. In addition, importation of fresh or chilled potatoes was suspended with effect from 06 September 2014.

## External Sector

During the year so far (up to 13 February 2015) the rupee depreciated against the US dollar (1.32 per cent). Given the cross currency exchange rate movements, the Sri Lanka rupee appreciated against the euro (5.33 per cent) and depreciated against the pound sterling (0.15 per cent), the Japanese yen (1.65 per cent) and the Indian rupee (3.22 per cent) during this period.

Earnings from exports declined by 10.7 per cent, year-on-year, in November 2014 to US dollars 921 million, mainly due to the substantial growth in export earnings recorded in November 2013. The largest contribution to the decline in exports in November 2014 was from the industrial exports followed by agricultural exports. However, on a cumulative basis export earnings increased by 7.5 per cent to US dollars 10,108 million during the first eleven months of 2014. Major export destinations during January to November 2014 continued to be USA, UK, Italy, India and Germany accounting for around 50 per cent of total exports.

Expenditure on imports increased moderately by 4.8 per cent to US dollars 1,645 million in November 2014, while on a cumulative basis, imports grew by 7.1 per cent to US dollars 17,618 million during the first eleven months of 2014. The increase in import expenditure in November 2014 was mainly led by imports of consumer goods with significant increase in imports of personal vehicles such as motor cycles and motor cars as well as rice imports. During the first eleven months of 2014, the main import origins were India, China, UAE, Singapore and Japan accounting for about 59 per cent of total imports.

The significant increase in export prices over the decline in import prices resulted to improve the terms of trade in October 2014. Export price index increased by 18.7 per cent year-on-year to 104.9 index points, reflecting a significant price increase in industrial export category despite the decline in export prices of all other sub categories.

Accordingly, the terms of trade index improved significantly by 19.0 per cent to 98.0 index points in October 2014 from to 82.3 index points in October 2013.

India, UK, China, Germany and Maldives were the top five sources of tourist arrivals upto December 2014, accounting for 46.1 per cent of total tourist arrivals during the year upto December 2014.

The average price of tea declined to US dollars 3.08 per kg (in the Colombo auction) in November 2014 from US dollars 3.44 per kg in October 2014 and US dollars 3.72 in November 2013.
