

# Real Sector

Inflation, as measured by the change in the Colombo Consumers' Price Index (CCPI) (2006/07=100), which is computed by the Department of Census and Statistics, decreased to 0.6 per cent, the lowest level recorded since February 2004 on a year-on-year basis. Annual average inflation also declined from 3.2 per cent recorded in January to 2.9 per cent in February 2015.

Core inflation, which reflects the underlying inflation in the economy, declined significantly from 2.1 per cent in January 2015 to 0.8 per cent in February 2015 on a year on year basis. Annual average core inflation during February 2015 was 3.2 per cent, compared to 3.4 per cent recorded in January 2015.

The economy grew by 6.4 per cent in real terms during the fourth quarter of 2014, supported by the 8.5 per cent growth of the Industry sector and 6.7 per cent growth of the Services sector, while the Agriculture Sector contracted by 3.3 percent.

During the year 2014, the tea and rubber production recorded a decrease of 0.6 per cent and 24.4 per cent respectively. Meanwhile, the coconut production showed an increase of 14.2 per cent in 2014.

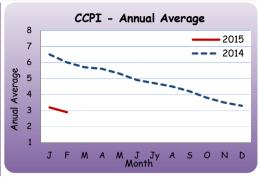

The FIPI increased by 6.9 per cent on a year-on-year basis in November 2014. This growth was mainly facilitated by increased production of wearing apparel as well as rubber and plastic products sectors. They have recorded a significant growth of 17.2 and 9.5 per cent respectively during this period. This was mainly attributed to increased domestic and international demand.

During the week crude oil spot prices showed mixed performance. At the beginning of the week, Brent crude oil price fell as Saudi Arabia has stood firm on its decision to maintain production levels, saying it would consider cutting output only if producers outside OPEC also do so. Prices further fell as the dollar regained against the euro and on persisting global oversupply. The Energy Information Administration reported U.S. crude stocks rose to extend their record build into the 11th consecutive week. However, prices then rose on strong U.S. and euro zone economic data including U.S. new home sales and improved Manufacturing Purchasing Managers' Index which rose to record highs. The business morale in Germany and France, the top two euro zone economies, improved. Prices increased further after Saudi Arabia and its Gulf allies launched a military operation involving air strikes in Yemen against Iranbacked Houthi rebels. Though this has not affected oil facilities of major Gulf producers yet, but fears that the conflict could spread and disrupt Middle East shipments supported the price increase.

<sup>(\*)</sup> CPC import prices are not directly comparable with spot prices of WTI and Brent as CPC is import prices include freight charges and the price is weighted for average prices of different types of crude oil. Also Part of the imports of CPC are on a term contract basis.

# Monetary Sector

Weekly AWPR for the week ending 27 March 2015 increased marginally by 6 bps to 7.01 per cent compared to the previous week.

Broad money (M2b) expanded by 13.4 per cent in December 2014. NFA of the banking system declined by Rs. 12.1 billion in December 2014 compared to November 2014.

NCG from the banking system showed an increase of Rs. 10.8 billion in December 2014 compared to November 2014, where credit to public corporations also showed a increase of Rs. 14.6 billion during the month. Credit extended to the private sector increased by Rs. 76.5 in December 2014, compared to November 2014.

The reserve money increased compared to the previous week mainly due to increase in currency in circulation.

The total outstanding market liquidity decreased to Rs. 222.13 bn by end of the week, compared to Rs. 240.09 bn by the end of last week.

By 27 March 2015, the All Share Price Index (ASPI) declined by 2.57 per cent to 6,874 points while the S&P SL 20 Index declined by 2.88 per cent to 3,901 points compared to the previous week.

# Fiscal Sector

During the first nine months of 2014, total revenue as a percentage of estimated GDP declined marginally to 8.4 per cent from 9.1 per cent in the corresponding period of 2013. However total revenue in nominal terms increased by 5.6 per cent to Rs. 828.2 billion during the first nine months of the year from Rs. 784.2 billion recorded during the same period in 2013 reflecting increases in both tax revenue (by Rs. 41.5 billion) and non tax revenue (by Rs. 2.5 billion). However, average monthly revenue during this period was around Rs. 92 billion.

Total expenditure and net lending as a percentage of estimated GDP declined to 13.4 per cent during the first nine months of 2014 compared to 14.7 per cent recorded in the corresponding period in 2013 mainly due to decline in both recurrent expenditure and capital expenditure and net lending. In nominal terms, total expenditure and net lending increased by 3.7 per cent to Rs.1,326.7 billion during the first nine months of 2014 from Rs. 1,279.1 billion in the corresponding period of 2013.

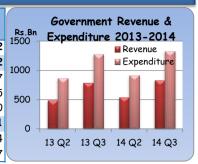

Total outstanding debt increased by Rs. 575.7 billion to Rs. 7,368.9 billion as at end September 2014 from Rs. 6,793.2 billion at end 2013. Foreign debt increased by Rs. 222.5 billion to Rs. 3,182.9 billion mainly due the issuance of International Sovereign Bond amounting to US dollars 1,000 million and US dollars 500 million in January and April 2014 respectively. Meanwhile, domestic debt increased by Rs. 353.2 billion to Rs. 4,186

The government made several changes to the Special Commodity Levy (SCL) during the month of September with a view to maintaining stable prices in the domestic market. Accordingly, SCL on the importation of rice was decreased from Rs. 5 per kg to Rs. 1 per kg for a period of three months while SCL on the importation of sugar was increased from Rs. 28 per kg to Rs. 33 per kg for a period of three months with effect from 05 September 2014. In addition, importation of fresh or chilled potatoes was suspended with effect from 06 September 2014.

# External Sector

During the year so far (up to 27 March 2015) the rupee depreciated against the US dollar (1.39 per cent). Given the cross currency exchange rate movements, the Sri Lanka rupee appreciated against the euro (10.27 per cent) and the pound sterling (3.36 per cent) and depreciated against the Japanese yen (1.42 per cent) and the Indian rupee (2.23 per cent) during this period.

Earnings from exports amounted to US dollars 910 million in January 2015 registering a marginal increase of 0.6 per cent, year-on-year, led by industrial exports.

Earnings from industrial exports, which represent about 77 per cent of total exports, increased marginally by 0.9 per cent mainly due to an increase in export of petroleum products followed by machinery and mechanical appliances and leather, travel goods and footwear. Meanwhile, earnings from agricultural exports declined marginally by 0.6 per cent due to lower international commodity prices.

Expenditure on imports increased marginally by 1.6 per cent, year-on-year, to US dollars 1,682 million in January 2015, reflecting increases in consumer and investment good imports.

The major contribution to the increase in imports came from consumer goods mainly due to higher imports of rice and personal motor vehicles. The increase in investment goods was mainly led by imports of transport equipment with significant increase in imports of buses while intermediate goods declined by 18.7 per cent mainly due to the decline in expenditure on fuel imports.

As the decline in import prices was larger than the decline in export prices, the terms of trade improved in December 2014. Export price index declined by 4.3 per cent year-on-year to 113.3 index points, reflecting price declines in agricultural and industrial exports. Meanwhile, the import price index declined by 8.9 per cent, year-on-year, to 101.7 index points due to the decline in price level of major categories of imports.

On a cumulative basis, the terms of trade improved by 4.3 per cent to 97.6 index points in 2014 from 93.6 index points in 2013.

India, China, UK, Germany and France were the top five sources of tourist arrivals in February 2015, accounting for 94.23 per cent of total tourist arrivals during the month.

The average price of tea decreased to US dollars 3.22 per kg (in the Colombo auction) in January 2015 from US dollars 3.90 per kg in January 2014.

The average crude oil price declined to US dollars 55.47 per barrel in 2015 compared to US dollars 113.84 per barrel in January 2014.
