Real Sector

Inflation, as measured by the change in the Colombo Consumers' Price Index (CCPI) (2006/07=100), which is computed by the Department of Census and Statistics, remained unchanged at 0.1 per cent as recorded in the previous month, on an year-on-year basis, in April 2015. Annual average inflation declined from 2.5 per cent in March 2015 to 2.1 per cent in April 2015.

Core inflation, which reflects the underlying inflation in the economy, increased to 2.4 per cent in April 2015, from 1.4 per cent in March 2015 on an year-on-year basis. Annual average core inflation declined to 2.9 per cent in April 2015, from 3.0 per cent in March 2015.

The economy grew by 6.4 per cent in real terms during the fourth quarter of 2014, supported by the 8.5 per cent growth of the Industry sector and 6.7 per cent growth of the Services sector, while the Agriculture Sector contracted by 3.3 percent.

During the first two months of 2015 while tea production increased by 1.7 per cent, rubber and coconut production declined by -7.3 and -3.4 respectively.

The FIPI increased by 6.9 per cent on a year-on-year basis in November 2014. This growth was mainly facilitated by increased production of wearing apparel as well as rubber and plastic products sectors. They have recorded a significant growth of 17.2 and 9.5 per cent respectively during this period. This was mainly attributed to increased domestic and international demand.

During the week crude oil spot prices showed mixed performance. At the beginning of the week, crude oil prices fell ahead of weekly U.S. crude inventories data that is expected to hit another high and as Saudi Arabia pledged to supply more oil to China if needed. A top Saudi official reiterated the country's position of keeping production high to meet demand as it maintains its market share. A preliminary Reuters survey showed U.S. commercial crude stockpiles were expected to have risen for the 16th straight week. Subsequently, WTI crude oil price rose on security scares in the Middle East and a weak dollar. Crude oil prices further increased hitting the highest this year after Energy Information Administration reported crude stocks at Cushing, Oklahoma delivery hub fell by 514,000 barrels, the first decline since November 2014 while U.S. crude inventories rose only by 1.9 million barrels, much smaller than the 4.2 million barrel build cited by American Petroleum Institute.

External Sector

During the year so far (up to 30 April 2015) the rupee depreciated against the US dollar (1.39 per cent). Given the cross currency exchange rate movements, the Sri Lanka rupee appreciated against the euro (7.91 per cent) and depreciated against the pound sterling (0.49 per cent), the Japanese yen (1.84 per cent) and the Indian rupee (1.23 per cent) during this period.

Earnings from exports amounted to US dollars 910 million in January 2015 registering a marginal increase of 0.6 per cent, year-on-year, led by industrial exports.

Earnings from industrial exports, which represent about 77 per cent of total exports, increased marginally by 0.9 per cent mainly due to an increase in export of petroleum products followed by machinery and mechanical appliances and leather, travel goods and footwear. Meanwhile, earnings from agricultural exports declined marginally by 0.6 per cent due to lower international commodity prices.

Expenditure on imports increased marginally by 1.6 per cent, year-on-year, to US dollars 1,682 million in January 2015, reflecting increases in consumer and investment good imports.

The major contribution to the increase in imports came from consumer goods mainly due to higher imports of rice and personal motor vehicles. The increase in investment goods was mainly led by imports of transport equipment with significant increase in imports of buses while intermediate goods declined by 18.7 per cent mainly due to the decline in expenditure on fuel imports.

As the decline in import prices was larger than the decline in export prices, the terms of trade improved in December 2014. Export price index declined by 4.3 per cent year-on-year to 113.3 index points, reflecting price declines in agricultural and industrial exports. Meanwhile, the import price index declined by 8.9 per cent, year-on-year, to 101.7 index points due to the decline in price level of major categories of imports.

On a cumulative basis, the terms of trade improved by 4.3 per cent to 97.6 index points in 2014 from 93.6 index points in 2013.

India, China, UK, Germany and France were the top five sources of tourist arrivals in March 2015, accounting for 48.73 per cent of total tourist arrivals upto the month of March 2015.

The average price of tea decreased to US dollars 3.22 per kg (in the Colombo auction) in January 2015 from US dollars 3.90 per kg in January 2014.

The average crude oil price declined to US dollars 55.47 per barrel in 2015 compared to US dollars 113.84 per barrel in January 2014.
