Inflation, as measured by the change in the Colombo Consumers' Price Index (CCPI) (2006/07=100), which is computed by the Department of Census and Statistics, increased marginally to 0.2 per cent, on a year-on-year basis in May 2015, from 0.1 per cent recorded in April 2015. Annual average inflation declined from 2.1 per cent in April 2015 to 1.9 per cent in May 2015.

Core inflation, which reflects the underlying inflation in the economy, increased marginally to 2.6 per cent in May 2015, from 2.4 per cent in April 2015 on a year-on-year basis. Annual average core inflation remained unchanged at 2.9 per cent in May, compared to April 2015.

The economy grew by 6.4 per cent in real terms during the fourth quarter of 2014, supported by the 8.5 per cent growth of the Industry sector and 6.7 per cent growth of the Services sector, while the Agriculture Sector contracted by 3.3 per cent.

During the first two months of 2015 while tea production increased by 1.7 per cent, rubber and coconut production declined by -7.3 and -3.4 respectively.

The FIPI increased by 10.6 per cent on a year-on-year basis in January 2015. This growth was mainly facilitated by increased production of beverages, tobacco and wearing apparel products sectors. They have recorded a significant growth of 23.1, 49.6 and 17.4 per cent respectively during this period. This was mainly attributed to increased domestic and international demand.

During the week crude oil spot prices showed mixed performance. At the beginning of the week crude oil prices fell as high production offset strong refinery runs. Saudi Arabia, the world's biggest crude oil exporter, hinted that it was ready to increase production above record levels to meet strong demand. Subsequently, WTI price rose as the tropical storm Bill hit the coast of oil producing state Texas. Further, American Petroleum Institute (API) reported U.S. gasoline and crude oil inventories both fell by 2.9 million barrels last week. However, prices then declined marginally after U.S. government data showed that gasoline stocks rose more than expectations. Further, oilfields in the Gulf of Mexico and near the coast were unaffected by the storm and refineries also operated normally. Towards the end of the week, prices rose on weaker dollar and reports showed a draw of 870,000 barrels of crude stocks at Cushing, Oklahoma. The dollar fell to a one-month low against a basket of currencies after the Federal Reserve disappointed investors anxious for a clearer signal on a U.S. rate hike.
