Real Sector

Inflation, as measured by the change in the National Consumer Price Index (NCPI) (2013=100), which is compiled by the Department of Census and Statistics, decreased to -0.7 per cent in January 2016 from 4.2 per cent in December 2015, on year-on-year basis mainly due to the higher base of the corresponding period in 2015. Annual average NCPI inflation decreased to 2.9 per cent in January 2016 from 3.8 per cent recorded in December 2015. The monthly change in NCPI in January 2016 was -1.1 per cent.

Inflation, as measured by the change in the Colombo Consumers' Price Index (CCPI) (2006/07=100), which is compiled by the Department of Census and Statistics, increased to 2.7 per cent in February 2016 from 0.9 per cent in January 2016, on year-on-year basis mainly due to the base effect. Annual average inflation increased to 0.9 per cent from 0.7 per cent recorded in January 2016. The monthly change in CCPI in February 2016 was -0.6 per cent.

The GDP grew by 4.8 per cent in real terms during the third quarter of 2015, mainly attributable to 3.4 per cent, 6.2 per cent and 6.9 per cent growth in Services activities, Industry activities and Agriculture activities, respectively, in value added terms.

Tea and rubber production during 2015 declined by 3.5 per cent and 10.2 per cent to 326.1 million kg and 88.6 million kg respectively. However, coconut production recorded an increase of 6.2 per cent to 3,047.0 million nuts during the year.

The FIPI increased marginally by 0.7 per cent on a year-on-year basis in December 2015. This growth was mainly facilitated by increased production of other non-metallic mineral products and Chemicals and chemical products sectors. They have recorded significant growths of 25.8 and 13.0 per cent respectively during this period. This was mainly attributed to increased domestic and international demand.

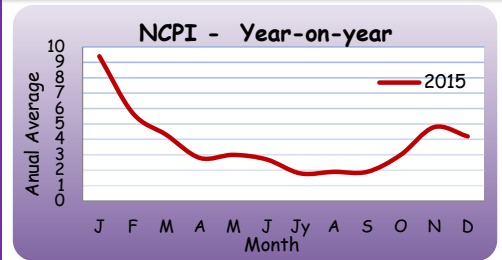

During the week crude oil spot prices showed mixed performance. At the beginning of the week prices rose on China's move to boost its slowing economy and a drop in crude output from the U.S. and OPEC. China cut its reserve requirement ratio for the fifth time in a year. U.S. crude oil output in December fell for a third straight month to the lowest since December 2014, while output from OPEC fell in February from the highest monthly level in recent history. Subsequently, Brent price slightly fell after American Petroleum Institute forecasted U.S. crude inventories rose by 9.9 million barrels while WTI price further rose on Wall Street rally. Wall Street's key index for U.S. stocks, the S&P 500, rose more than 2 per cent. Prices further rose as traders focus on an OPEC plan to freeze production after Venezuela said a total of 15 oil producing countries will attend a meeting planned later this month. However, towards the end of the week prices fell after U.S. Energy Information Administration reported crude inventories rose by 10.4 million barrels to all-time peak of 518 million barrels.

External Sector

During the year up to 04 March 2016 the rupee depreciated against the US dollar (0.04 per cent). Given the cross currency exchange rate movements, the Sri Lanka rupee appreciated against the pound sterling (4.61 per cent), Indian rupee (1.10 per cent) and depreciated against Japanese yen (5.83 per cent), euro (0.19 per cent) during this period.

Earnings from exports during 2015 decreased by 5.6 per cent to US dollars 10,505 million. Lower performance in tea, rubber products, textile and garments and seafood exports contributed mainly for the drop in exports.

Less decline in exports unit value index compared to the reduction in import unit value index resulted to increase the terms of trade in November 2015 by 11.2 per cent compared to the corresponding month of previous year.

The export unit value index declined by 4.7 per cent in November 2015 mainly due to a 54.0 per cent decline recorded in prices of petroleum products exports.

The import unit value index, in November 2015, declined by 14.3 per cent, year-on-year, reflecting declines in unit prices of all major categories.

India, China, UK, Germany and France were the top five sources of tourist arrivals in February 2016, accounting for 51.2 per cent of total tourist arrivals upto the month of February 2016

The average price of tea marginally declined to US dollars 2.89 per kg in December 2015 from US dollars 2.90 per kg (in the Colombo auction) in November 2015.
