Inflation, as measured by the change in the National Consumer Price Index (NCPI) (2013=100), which is compiled by the Department of Census and Statistics, increased to 6.5 per cent in January 2017 from 4.2 per cent in December 2016, on year-on-year basis. Both Food and Non-food categories contributed towards the year-on-year inflation in January 2017. The change in the NCPI measured on an annual average basis increased to 4.6 per cent in January 2017 from 4.0 per cent in December 2016. When the monthly change is considered, the NCPI increased from 118.0 index points to 119.3 index points from December 2016 to January 2017. This monthly increase was mainly due to the increase in prices of the items in the Food category. NCPI Core inflation, which reflects the underlying inflation in the economy increased to 7.1 per cent in January 2017 from 6.7 per cent in December 2016. Annual average NCPI Core inflation increased to 6.2 per cent in January 2017 from 5.9 per cent in December 2016.

Department of Census and Statistics (DCS) has published a new rebased Colombo Consumers' Price Index (CCPI). Accordingly, inflation, as measured by the change in the Colombo Consumers' Price Index (CCPI) (2013=100) increased to 5.5 per cent in January 2017 from 4.5 per cent in December 2016, on year-on-year basis. Annual average inflation increased to 4.3 per cent in January 2017 from 4.0 per cent in December 2016. The monthly increase in CCPI was 1.2 per cent. CCPI Core inflation, which reflects the underlying inflation in the economy, increased to 7.0 per cent in January 2017 from 5.8 per cent in December 2016, on year-on-year basis. Annual average core inflation increased to 4.7 per cent in January 2017 from 4.4 per cent in December 2016. CCPI Core increased by 1.3 per cent from December 2016 to January 2017.

The GDP grew by 4.0 per cent in real terms in the first nine months of 2016, mainly attributable to 4.8 per cent growth in Services activities and 5.7 per cent growth in Industry activities while Agriculture activities contracted by 2.5 per cent, in value added terms.

During the year 2016 production of tea declined due to unfavourable weather conditions and low demand from prime export destinations while production of rubber declined due to the slowdown of tapping activities. However, the coconut production has recorded an increase during the similar period.

The FIPI increased by 2.9 per cent on a year-on-year basis in December 2016. This increase was mainly due to increased Production of wearing apparel, Rubber and plastic products and Other non-metallic mineral products sub-sectors. This was mainly attributed to increased domestic and international demand.

During the week, crude oil spot prices showed mixed performance. At the beginning of the week, prices rose on weaker dollar and investor optimism over the effectiveness of producer cuts. Estimates indicated that the compliance with the cuts is around 90 per cent, while OPEC Secretary General told that oil inventories would decline further this year. However, he said it was too early to say if the supply cut, which lasts for six months from January 1, would need to be extended or deepened at the next OPEC meeting in May. Later, prices fell on analysts' expectation of an increase of 3.5 million barrels in U.S. crude inventories.

## External Sector

During the year up to 23 February 2017 the Sri Lanka rupee depreciated against the US dollar (0.9 per cent). Given the cross currency exchange rate movements, the Sri Lanka rupee depreciated against the pound sterling (2.2 per cent) euro (1.1 per cent) Japanese yen (3.6 per cent) and Indian rupee (2.4 per cent) during this period.

Earnings from exports at US dollars 855 million in October 2016 reflected a marginal growth of 0.9 per cent from US dollars 847 million in October 2015. On a cumulative basis, export earnings during the first ten months of 2016 at US dollars 8,618 million, contracted by 2.6 per cent, year-on-year, reflecting lower proceeds from transport equipment and petroleum products.

Expenditure on imports increased by 16.4 per cent, year-on-year, to US dollars 1,906 million in October 2016. The increase in expenditure on imports was mainly due to the importation of a dredger vessel by CHEC Port City Colombo (Pvt) Ltd, which was categorised under investment goods. Expenditure on imports at US dollars 15,852 million during the first ten months of 2016 increased marginally by 0.2 per cent from the corresponding period of the previous year.

The terms of trade improved by 5.4 per cent in November 2016 compared to the corresponding month of the previous year due to the increase in export prices and the decline in imports prices during the month. The export unit value index in November 2016 increased by 4.6 per cent, year-on-year. The import unit value index decreased marginally by 0.7 per cent, year-on-year, in November 2016.
